Miss Adah Hayden,
St. Louis, Mo.

Dear Miss Hayden:-

I am in receipt of your favor of the 8th inst. with reference to the cylinders for taking soil temperatures. We have only two, ~~large~~ left in Miss King's room. It is likely that your mother has not returned the others or has taken them to Prof. Stevenson. We can send you a two foot, a four foot, and the one foot cylinder as soon as we get them together. And on hearing from you I will express them to you and let you use them as a loan. I am glad to be able to help you in this way. I have written your mother in regard to the one foot cylinder.

Yours truly,

4233 Sherman ~~and~~ *and* ~~are~~ *are*
