

27/12

April 21, 1910.

Miss Ada Hayden,
St. Louis, Missouri.

Dear Miss Hayden:-

Your favor of April 19th at hand and note what you say with reference to the specimens. I shall be glad to receive them. They doubtless will come to-day or tomorrow, and I thank you very much for your trouble in getting them.

If you come back next year, I shall be glad to let you have charge of Botany 9 in the fall term and we can probably arrange some other work in the spring term.

Yours truly,
