

Dr. F. H. Pammel,
Ames, Iowa.

2712

Dear Dr. Pammel; - I see that I addressed you at St. Louis on the inside of the letter that I last sent you - the one which you returned. My roommate went home a short time ago and I attempted to send her a letter but must have addressed it to Martinsburg, Ia. instead of Mo. for she did not get it.

I believe the plants were sent to you today. I hope they are satisfactory. Mr. Irish & I considered what was available here & what we have at home and made out a list. He had them gathered as it has been very rainy lately and even if I had gathered them I should not think of accepting pay for it. Shall be glad to get anything I can at any time. Hope the delay did not inconvenience you.

If I should be at Ames next year would I or could I have any class work? I wish that I might

have some experience in that line.
I thought Mr. Jeffs was to have ~~do~~
did have some this last year. Do
you suppose that I could man-
age the English language with
such dexterity as would be ne-
cessary to address "the preps" with
dignity?

I don't know
that you need answer this but
you might think about it
if you choose.

Sincerely.

Ada Hay den.
