Dr. L. H. Pammel,
Ames, Iowa.

Dear Dr. Pammel:- I have been wondering what was done concerning my petition. No word has been received so far and I have had no check, so infer that it has not been granted.

I should like to continue work with you next year and would like to ask if you would include in your furniture budget an office desk. It is very nearly impossible to keep any degree of order with so little space.

The Oaks are blossoming now also red bud, dogwood, red haw, black haw, fringe tree and yellow jessamine.

Do you care to have any specimens of oak bark? I wanted to ask you some things about oaks but must not take more time now if

this goes in the mail.

Am going to take a trip with my camera about 25 miles into the primeval forest of Trinity river bottom the first of the week.

Very truly,

Ed Hayden.

303 Louisiana St.

Houston. Texas.

I received the Kodak and have been taking some pictures but the weather has been very poor for such work. Thank you for sending it to me.
