BY R. Anderson DATE 4/14/79

A. AEC 141/27 - Radiological Safety Criteria and Procedures for Protecting the Public During Weapons Testing at the Nevada Site

a. Approved the use of the radiological safety criteria and procedures in Appendix "B" of AEC 141/27 for the protection of the public during Operation TEAPCT;

b. Noted that the Commission will reconsider these criteria and procedures before the next Nevada test operation;

c. Noted that there will be no formal press release of the criteria and procedures, but that use of them will bring them to the attention of the public and they will be made available to news correspondents upon request;

d. Noted that operational means for giving effect to the criteria and procedures in Appendix "B" will be developed by the Test Manager and the Division of Military Application with the technical guidance of the Division of Biology and Medicine; and

e. Noted that the Joint Committee on Atomic Energy, the GAC, and the MLC will be advised of this action by letter such as Appendix "C", revised in accordance with the discussion at the meeting.

DELETED

1. Arrangements for Distribution and Release of Report on
Effects of Atomic Weapons (See Section 2 above)

The General Manager said that earlier in the day the Joint Committee Staff had not been available to receive the Report and the covering letter. These documents would therefore be dispatched on Saturday, February 12.

Mr. Foster then reviewed arrangements for the distribution and public release of the report.

W. B. McCool
Secretary

Approved by the Commission: March 14, 1955
