

from the office of

Senator Edward M. Kennedy
of Massachusetts

DOCUMENTS TO BE RELEASED AT SENATE HEALTH SUBCOMMITTEE HEARING
HELD IN SALT LAKE CITY, UTAH
ON THE HEALTH EFFECTS
OF THE U.S. ATMOSPHERIC NUCLEAR TESTING PROGRAM

HOLD FOR RELEASE:
10:30 a.m. EST
April 19, 1979

I am today releasing a series of documents obtained by my staff from the Department of Energy last week. Many of these materials have just been declassified at my request. They represent the tip of the iceberg of documents currently maintained by the Department of Energy and Department of Defense on this matter. The full story will not be known until these agencies follow the lead of the Department of Health, Education, and Welfare and declassify and release these documents for public review and scrutiny.
