

INSTITUTE FOR DEFENSE ANALYSES
Weapons Systems Evaluation Division
The Pentagon, Washington, D. C.

June 27, 1963

Charles L. Dunham, M.D.
Director, Division of Biology and Medicine
U.S. Atomic Energy Commission
Washington 25, D. C.

Dear Dr. Dunham:

Attached to this letter is my reply to the comments of Dr. Gordon Dunning, Deputy Director, Division of Operational Safety, and Dr. Nathan Woodruff, Director, Division of Operational Safety, on the paper I prepared for the Commission entitled Iodine-131 in Fresh Milk and Human Thyroids Following A Single Deposition of Nuclear Test Fallout. This paper was dated June 1, 1963, and transmitted to Dr. Spofford English, Assistant General Manager for Research and Development, by a covering letter dated June 6, 1963.

Sincerely yours,

Harold Knapp
