

UNITED STATES GOVERNMENT
MEMORANDUM

TO : C. L. Dunham, Director DATE: June 17, 1963
Division of Biology and Medicine

FROM : Nathan H. Woodruff, Director
Division of Operational Safety

SUBJECT: COMMENTS ON "IODINE-131 IN FRESH MILK AND HUMAN THYROIDS
FOLLOWING A SINGLE DEPOSITION OF NUCLEAR TEST FALLOUT,"
BY DR. HAROLD KNAPP

OS:DIR:NHW

On Friday, June 14, I transmitted to you a series of technical comments on Dr. Knapp's paper. These comments were extracted from a memorandum dated June 14, from G. M. Dunning to myself. I now am enclosing the complete memorandum.

I endorse the complete comments of this memorandum.
