2121 K Street, N.W.
Washington, D. C. 20586

Dear Dwight:

I have recently received a letter from our mutual friend, ~~Burke~~ Riley, wherein he advised that you and he had enjoyed a recent visit in Anchorage. During that visit you had indicated a desire to obtain a copy of the tape recording of that long evening meeting we had in Valdez at the school shortly after the earthquake. He thought that I might be able to obtain same, so he "laid it on me".

Dwight, I have searched this town from one end to the other without success so far. However, I have my "G-2" looking on an ongoing basis, so if it is available we'll find it and get a copy to you.

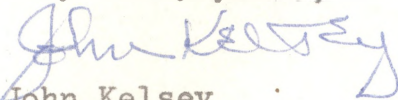

It is gratifying to me to see such a nice community rise out of the 1964 Valdez ruins and I often think of you when I reflect on this. We are grateful to you for the big part you played in it all and, I believe the result is something for which you can well take pride.

I trust you and your family are well and enjoying the good life.

With kind regards, I am

cc: Burke Riley

Very truly yours,

John Kelsey
