Dr. Louis Levin, Head  
Office of Program Development and  
Analysis  
National Science Foundation  
Washington 25, D.C.

Dear Dr. Levin:

I should like to express our appreciation for the outstanding assistance you and other members of your study group provided the White House Task Force on Education.

With very little advance notice and an extremely short period within which to function, your group developed recommendations which will be extremely helpful to Commissioner Keppel in revising his proposal review process.

As you know, the report of your subgroup was passed on to Commissioner Keppel immediately and much of your thinking has been reflected in the recommendations passed on to Mr. Keppel and Secretary Celebrezze by the Task Force. These recommendations were also forwarded to the President for his information.

Commissioner Keppel will want to talk to you and the group in some depth concerning your observations, and he will call you to set a time.

Please convey our deep appreciation to the other members of your study group.

Sincerely yours,

Dwight A. Ink, Chairman  
White House Task Force  
on Education
