[illegible]

Dear Tom,

I so very seldom get to report any warblers that I got a little carried away this time--sorry!

I enjoyed the Fall IOU--it was a very good meeting and I got two state birds. Ross and Barb and I went to see the Sabine's Gull--wasn't that a lovely bird! We need some of them in Nebraska. Only if it was, we'd probably never hear of it! There was a Black-shouldered Kite near Grand Island for nearly two months--and no one here knew it. So I guess despite all my complaints, you and all the people in IOU are really doing a super job. Aren't you surprised--a compliment for a change!

Good Birding,

Tanya

P.S. The 263 Turkey Vultures were counted in the air at one time. As they were landing and taking off- flying behind a ridge, there easily could have been 350.
The Eastern Kingbird on Oct. 2 was a immature.
