Richard Wallin, WI CO

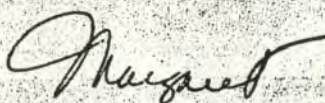

RECEIVED

MAY 29 1984

UPPER MISS. WILDLIFE & FISH RESEARCH
LACROSSE, WI

Eagles were marked with a strip of hunter orange tape on left wing.
A small strip of blue is attached to this tape but will be very
difficult to see.

If you see any color coded birds, please notify us as to date, time,
where, etc.

Margaret

Aug. 1, 1984

To: Jim Dinsmore
from: Fred Leshar

This is for your information. Dean Roosa may already
have it, plus Larry Moore and Jerry Hoilein. I do not
know the location of "Dead Haines." Margaret is
somewhat protective of nest sites!
