Dear Mr. Kleen:

Enclosed is the report^{to} "American Birds" for the nesting season. The area covered is the same as the previous report "Spring Migration."

The weather during the summer was cooler than normal, while rainfall was above normal.

I am afraid the report is extremely meager. Most of the birders in the area seem to find other things during the summer to occupy their time.

Following is a list of the unusual birds sighted in the area:

White Faced Ibis	1-June 4-North of Lake Manawa	MOB
Semi-plamated Plover	2-Aug. 6-Desoto Bend Refuge	L&BP
Spotted Sandpiper	2-June 19-Beefland	TK&BP
Pectoral Sandpiper	1-July 19-Beefland	L&BP
Least Sandpiper	4-June 19-Beefland	TK&JG
