WHERE CAN YOU SEE A REPLAY OF EVERY CYCLONE FOOTBALL GAME AND THEN HAVE COACH CRINER ALL TO YOURSELF TO TALK THEM OVER?

WHERE ELSE BUT

Five TV's replay of
today's ISU football
game is your chance to
review Big 8 Football at its

best—Cyclone style.

If you're like
most Iowa State
football fans,
you know Cyclone

Football deserves a second
look. And that's just
what Five TV has in
store for you. Tonight
at 11:00 relive all the
action in a 90 minute
replay of Today's ISU Football.
Five TV's Mark Mathew
and George Turner will call
all the play-by-play action

for Today's ISU Football
tonight at 11:00. Now,
the coach. What went right,
what went wrong? Only the
coach knows for sure. The
Jim Criner Show is the best
place to find out. Spend a
half hour every Sunday night
at 10:30 with Coach
Criner to discuss
the game just played
and look ahead to
the game coming up.
The Jim Criner Show—
Sunday night at 10:30

Iowa State University

Dr. W. Robert Parks begins his 20th year as president of Iowa State University, and in that time he has directed this outstanding state institution to national prominence in academics. He has also been a major factor in the growth of the administration, and in excellence of Cyclone athletics.

The author of a book on soil conservation and numerous monographs and periodical entries, Dr. Parks received his bachelor of arts degree from Berea (Ky.) College in 1937 and his master of arts degree from the University of Kentucky the following year. His Ph.D. in political science was earned in 1948 from the University of Wisconsin.

The past president of a host of national educational and university-related associations, Dr. Parks joined the Iowa State faculty in 1948 as a professor of government and remained in that post until 1956, when he went to Wisconsin as a professor of agricultural economics.

He returned to Ames in 1958 as the dean of instruction at Iowa State, and, following a promotion to vice-president for academic affairs in 1961, he became the university's 11th president on July 1, 1965.

Parks saw the university record an all-time record attendance of 26,202 last year.

One of the largest institutions governed by the State Board of Regents, Iowa State is a major midwest center of learning for students from all 50 states and over 85 other nations. The university offers extensive curricula in agriculture, business, design, education, engineering, home economics, sciences and humanities, and veterinary medicine.

The picturesque campus is comfortably situated in a central campus "park"—a splendid combination of conventional and contemporary architectures, and wooded and open landscaping—and an ultra-modern south campus, dominated by the Iowa State Center, the Cyclone Stadium-Jack Trice Field, and the College of Veterinary Medicine.

The Iowa State Center, which boasts one of the nation's finest facilities of its kind, consists of the C.Y. Stephens Auditorium, the J. W. Fisher Theatre, the Scheman Continuing Education Center, and the James H. Hilton Coliseum.

Dr. W. Robert Parks

Meet the Cyclones . . .

37 Richard Hanson

5-9, 170, Senior
LaPuente, California (Bassett)

Richard Hanson, one of the Cyclones' smallest players, has one of the team's biggest hearts.

"I wish we had more players with Richard's heart and desire," Head Coach Jim Criner says. "They don't get much tougher than Richard."

The senior psychology major and expert domino player has been quite the success story this season. After coming to ISU last year after a superb junior college career at California's Mount San Antonio College, Hanson immediately became one of the nation's top kick returners. He finished second in the Big Eight with an 18.4 average.

In a move to take advantage of his extreme quickness, he was converted to wide-out at the beginning of this season. Injuries to others pushed Hanson into the starting fullback position as he claimed to be "the smallest fullback in America, and that includes high schools." Now, Hanson is the Cyclones' starting tailback and has been simply outstanding.

He has racked up consecutive games of 74, 80, and 67 yards rushing. And against West Texas State, he not only rushed for 74 yards, but he also caught nine passes totalling another 80. He leads the Cyclones in rushing with 249 yards, ranks third in pass receiving with another 158, and has scored three touchdowns.

Cyclone Stadium - Jack Trice Field

Without a doubt, the most beautiful and convenient football facility in the Big Eight Conference is the 50,000-seat Cyclone Stadium—Jack Trice Field. Located on a 30-acre tract, the stadium is part of the ISU Center on the southeast corner of the Ames campus.

In December, 1983, the Iowa State University football facility was officially named. The name of the stadium itself is Cyclone Stadium, with the field now named and dedicated to Jack Trice, Iowa State's first black athlete, who died from injuries he received in his first football game in October, 1923.

The stadium offers an unobstructed view of the playing field as well as remarkably easy access from all parts of the state. The ISU Center includes the stadium, James H. Hilton Coliseum, C.Y. Stephens Auditorium, J.W. Fisher Theatre, the Carl Scheman Continuing Education Building, with lighted parking for 4,000 vehicles.

The stadium was completed in less than two years from the ground breaking, on October 26, 1973, to the first game, a victory over Air Force, on September 20, 1975.

In late 1973 and '74, heavy earth-

moving equipment shaped the embankments. A huge, movable form shaped the lower decks with thousands of cubic yards of cement.

Originally, the stadium had a capacity of 42,500, all on the sidelines. In 1976, end-zone bleachers were constructed to bring the capacity to more than 48,000. Standing room tickets, sold for each game bring the capacity to more than 50,000.

The record crowd was 54,066 for the 1983 Iowa State-Iowa game.

The press box is located between the upper and lower decks. There is seating for 123 sports reporters and eight broadcast teams as well as a cafeteria serving area and photographic dark rooms. The press box is structured so that the media representatives can enter using ramps from either end of the stadium, eliminating the need for an elevator. There is an enclosed camera deck atop the west stands.

Opposite the press box on the east side is a modern club section, seating 480 in theatre seats. Included in the club section is a lounge as well as rest room facilities.

The stadium contains 16,000 tons of reinforced concrete, 1,000 tons of struc-

tural steel and has a four-inch-thick asphalt base under the Astro-Turf-covered playing field. The Astro-Turf stretches from the edge of the stands on each side and 20 yards beyond each end zone. This allows maximum space for practices.

There are fully electronic scoreboards at each end of the stadium and the north end area features the ISU Victory Bell and the Statue of Cy the the Cardinal.

The Ralph A. Olsen Building is adjacent to the north end of the stadium. The Olsen Building, named for the prominent Ellsworth farmer and alumnus, houses the football facilities and offices as well as the athletic administration facilities.

The total cost of the stadium was \$7.6 million. It was paid for through contributions of alumni, friends, and business to the Iowa State Foundation, as well as athletic receipts. More than 15,000 contributors have participated in ISU Foundation projects.

Included in the Olsen Building are locker rooms, team meeting rooms, football coaching offices and staff rooms, the sports medicine clinic, Cyclone Club offices, the athletic ticket office, athletic offices and maintenance facilities.

Stadium Information

First Aid Station

Emergency medical treatment is available for spectators in special first aid quarters located on both the east and west stands. Contact the nearest usher to request medical assistance.

Ambulance Service

An ambulance is parked at the first aid quarters on the west side.

Pass Out Checks

Persons leaving the stadium will be stamped for re-admission to the stadium. In addition, they must have a ticket stub for re-admission. No pass outs will be allowed between 1:00 and 1:30 p.m.

Service for Physicians

Doctors anticipating calls during the game are urged to register at the first aid quarters under the west stands, leaving their exact seat location. The management will see that all calls are delivered without delay.

Lost and Found

A lost and found service is maintained in the Athletic Ticket Office in the Olsen Building at the north end of the stadium. Articles found should be turned over to an usher or left at the Athletic Ticket Office.

Public Telephone

Pay telephones are located behind the east and west stands.

Refreshments

Refreshments are served in the stands and at convenient locations around the stadium.

Iowa State Souvenirs

An attractive array of Iowa State souvenirs is available at conveniently located novelty sales booths throughout the stadium and from vendors in the parking areas. Souvenir sales are owned and operated by the ISU Athletic Department.

Radios, Stadium Chairs, Umbrellas

As a courtesy to neighboring ticket-holders, spectators are asked not to bring radios, stadium chairs and umbrellas into the stands.

Rest Rooms

Rest rooms are conveniently located throughout the stadium behind each concession stand.

Public Address System

No appeals will be made over the

public address system except under exceptional circumstances. The public is asked not to request this service.

Wheelchairs

Special areas in sections 18 and 19 are available for spectators in wheelchairs. In addition, wheelchair seating is available on the field level behind the goalposts.

Carry-in Packages & Articles

Parcels carried in cannot exceed 14" x 14" by 8" deep. Please do not bring into the stadium bottles, cans, apples, oranges, toilet tissue, etc. Items thrown on the field can result in a penalty for the home team.

Parking Lot Facilities

The ISU Athletic Department is proud to be one of the very few athletic facilities to provide portable toilets for their patrons in the parking lots. These are located at strategic locations throughout the stadium parking area.

Stadium Sign Policy

Iowa State promotes and encourages the display of signs. All signs must be in good taste and supportive of Iowa State University. Signs are to be displayed on the south end of the Olsen Building and on the walls of the stands, both upper and lower decks. In no case may the sign obstruct vision or endanger fans. Signs must be stationary.

All signs must be approved by Iowa State's athletic department. For sign approval, see Jim Overturf, Room 137 Olsen Building, before noon on Friday prior to home games. The athletic de-

partment reserves the right to move or remove any signs not meeting these specifications.

Emergency Road Service

Iowa State University and Iowa AAA Motor Club will provide an Emergency Road Service for persons attending home football games. This service will be in effect during and within two hours after the game throughout the season. The phone number for the service is 292-2303. Proof of game attendance (i.e.; ticket stub) may be requested.

Distractions

We want to make football Saturdays a totally enjoyable experience and want to encourage you to be respectful of those around you in the stadium. This attitude of cooperation can help to insure a pleasant, enthusiastic game atmosphere. In the event you feel there is an unreasonable distraction in your seating area, we ask you to take the following steps to help us control undesirable behavior:

--Note the seating section, row and seat number(s) and inform the usher in your section of the disturbance. The usher will observe the conduct and request it to stop, if inappropriate.

--If the conduct continues, the usher will get assistance from a uniformed policeman to request improvement in behavior or remove the fan(s) from the stadium.

--An additional occurrence is cause for removal from the stadium and could be grounds for relocation in next season's ticket assignment.

Coach Jim Criner

Since being named Iowa State's 26th head football coach on January 29, 1983, under the slogan "ISU's Finer with Criner", the former Boise State mentor has the Cyclone football program on the rise. Iowa State tied with Oklahoma State for fourth place in the Big Eight Conference last season, marking the first time that ISU has finished in the league's upper division since 1978 when the Cyclones played in the Hall of Fame Bowl.

Criner also earned the distinction as the only first year coach in five decades to finish in the Big Eight's upper division. No ISU coach since George Veenker, in 1931, had won more than four games in his first season. There were 10 coaches and 52 seasons between Veenker and Criner.

Criner, 44, replaced Donnie Duncan who resigned on January 13, 1983 to enter private business. Duncan compiled a 19-23-2 mark in four seasons at Iowa State.

When Iowa State Director of Athletics Max Urick began the search for the new coach, he had special qualities in mind. "[When] we began a search to find the right man to head the football program at Iowa State, among our criteria was a head coach who had proven himself a successful coach," said Urick. "At the same time, we looked for a person with a blend of human qualities and professional credentials. It became apparent that Jim Criner matched our criteria."

Iowa State fans were treated to one of the most exciting gridiron campaigns in school history last fall. The Cyclones shattered 18 team offensive records and faced five teams who were invited to bowl games. Iowa State fans responded by setting stadium attendance records and filling the stadium to 98.6 percent capacity.

Criner has a solid and extensive coaching background, including, most recently, a seven-year stint as head coach of perennial NCAA Division I-AA power Boise State. While guiding the Broncos to a 59-21-1 record, Criner directed the club to four Big Sky Conference titles, two berths in the final round of the NCAA playoffs, and the NCAA Division I-AA championship in 1980.

Prior to his post at Boise State, Criner served on the staffs at Utah, California, Brigham Young, and UCLA. He coached

under such widely-recognized coaches as LaVell Edwards, Pepper Rogers, and Dick Vermeil.

Criner began his coaching career in 1963 as an assistant at Charter Oaks (Calif.) High School under current St. Louis Cardinals' head Coach Jim Hanifan. He remained in the prep ranks the next four seasons, leading Claremont (Calif.) High School to the state playoffs twice.

Although his achievements at Boise State elevated Criner to the limelight, not one team in his previous 20 years of coaching had a losing record. After his initial Boise State team went 5-5-1, his successive Bronco squads earned marks of 9-2, 7-4, 10-1, 10-3, and 8-3. While at Boise State, Criner tutored future National Football League standouts Rich Woods (free safety, Pittsburgh Steelers), and David Hughes (fullback, Seattle Seahawks). Among his future Canadian Football League prospects were Cedric Minter (running back, Toronto Argonauts), the league's leading rusher in 1981, and Doug Scott (defensive tackle, Montreal Alouettes), winner of the 1982 Schenley Award. Six players off ISU's 1983 team were selected in professional drafts.

The Lurton, Ark. native played basket-

Jim Criner **Head Football Coach**

ball and baseball in addition to being an all-league tailback and linebacker at Coachella Valley High School in Thermal, Calif. He attended Cal Poly-San Luis Obispo before playing junior college ball under Seattle Seahawks' coach Dick Manspurger, and then graduated from Cal Poly-Pomona.

Criner comes from a coaching family. He has three brothers who are also pursuing coaching careers. Walt, former offensive coordinator at Cal Poly-Pomona, is the head football coach at Snow College in Ephraim, Utah. Herb is the head football coach at Coeur D'Alene High School in Idaho. Bob is the head basketball coach at Coachella Valley High School in Thermal, Calif.

In the off-season Criner enjoys fishing and pheasant hunting. He is married to the former Ann Marie Shmorhun of Coachella, Calif., and is the father of a son (Mark, 17) and daughter (Kelli, 12).

Jim with his wife Ann, daughter Kelli (12) and son Mark (17).

Cyclones Battle Sooners Under the Lights

October 20, 1984

Homecoming

Cyclone Stadium-Jack Trice Field

Two national team titles and at least a share of the last eight Big Eight Conference titles. That's the tradition Iowa State is facing in tonight's homecoming contest with the second-ranked Oklahoma. Last Saturday's 15-15 tie with then top-ranked Texas is the only blemish on Oklahoma's record this season. And with several all-conference and All-American candidates, the Sooners appear to have a shot at winning the Big Eight and even national titles.

Controlling Oklahoma's high-powered offense and cutting through its stingy defense is the challenge confronting Head Coach Jim Criner and his Cyclones in tonight's history-making contest. Tonight's kickoff signifies the first home night game ever played by an Iowa State squad. ESPN's national cable telecast of ISU's homecoming tilt also gives the game another history-making dimension. It marks the first time any Cyclone team has performed before a national television audience during the regular season.

Criner hopes to get his offense back on track after last week's 23-21 loss at Colorado, and give the folks watching at home some fireworks. Much of the Cyclones' offensive firepower must be generated from the arm of Alex Espinoza and his speedy stable of receivers. Neither Espinoza nor his receivers enjoyed particularly productive games last Saturday at Colorado, but both still rank among the Big Eight leaders in their respective categories. Tight end Dave Smoldt led all ISU receivers with five receptions for 66 yards, while Big Eight leader Tracy Henderson caught three passes for 51 yards and a touchdown.

Senior Richard Hanson played another productive game at tailback. The 5-9, 170-pounder carried 18 times for 67 yards and a touchdown. Hanson has rushed for 65 or

Jim Luebbers has recorded 24 tackles and a pair of quarterback sacks this season at defensive end.

Starting left guard Eric Huhndorf was selected Iowa State's lineman of the game against both Drake and Texas A&M.

more yards in his last three games, and leads all Cyclone running backs with 249 yards and two touchdowns on 65 attempts.

On the other side of the ball, the Cyclone defense turned in an outstanding performance with the exception of two long touchdown passes. ISU defenders shut down the Colorado ground attack, dropping CU running backs for a minus 16 net yards in rushing. The effort established a new school record for fewest yards given up in a game by an Iowa State defense.

And defense will be the name of the game during tonight's battle. The Cyclone defense is faced with the monumental task of closing the door on OU's multi-faceted wishbone offense. Quarterback Danny Bradley is a two-year starter with outstanding speed who can also scramble and hit the open receiver. Halfbacks Steve Sewell and Spencer Tillman, who has been sidelined most of the season with a hamstring injury, provide the Sooners with two of the league's best. Tillman was selected the 1983 Big Eight offensive newcomer of the year by the Associated Press and was also a second all-league selection. He became the first freshman in OU history, and only the second runner ever in the Big Eight Conference, to rush for more than 1,000 yards in a single season.

The Sooner defense held Texas to just 170 yards in total offense in last Saturday's showdown. Prior to that game, they led the Big Eight in rushing defense and ranked second nationally. They dropped to fifth in the Big Eight in passing defense, however, allowing over 165 yards per game prior to the Texas contest.

"We're going to have to throw the ball extremely well," predicted Criner. "They have a better defensive team than they did a year ago. And we'll have to run the ball well enough to keep them off balance."

Criner also warned that his squad can't afford to make the same mistakes that have cost them dearly in the first two Big Eight Conference games.

The Coaches

Jim Criner

Head Coach,
Iowa State
(Cal Poly-
Pomona, 1961)

Second season as Iowa State's head coach...overall ISU record is 6-11-0... eight-year record as head coach is 65-32-1...1980 team at Boise State won the NCAA I-AA national championship...teams at Boise State won four Big Sky Conference titles...also has previous collegiate coaching experience at UCLA, Brigham Young, California, and Utah...

Barry Switzer

Head Coach,
Oklahoma
(Arkansas, 1960)

12th season as Sooner head coach...110-21-4 record at Oklahoma (also his career coaching record) making him college footballs winningest coach...had directed OU to two national titles (1974, 1975), has won six of eight bowl games, and has won or shared the Big Eight title eight times.

"What we've got to do in this game is to learn from our past mistakes and realize the caliber of team we're playing. Oklahoma has an outstanding football team. They are bigger, faster, and probably strong-

er than we are. We have to play as if every play is our last. It's a chance for us to play on national television (ESPN) giving us a chance to earn some respectability."

Tight end Dave Smoldt caught five passes for 66 yards at Colorado.

Tailback Richard Hanson rushed for 67 yards on 18 attempts against Colorado. He leads all ISU running backs with 249 yards on 65 carries this season.

Cy's Favorite Alum

Dorothy Erskine

Thirty years ago, Cy's Favorite Alum award was established to annually honor one person for outstanding service to the University and, in particular, the athletic program.

During today's homecoming game, the Department of Intercollegiate Athletics takes great pride in presenting its 1984 recipient, Dorothy Erskine, of Ames.

Dorothy served as a model for current academic counselors. For 30 years she served as a classification officer for the College of Science and Humanities and, during those years, she was a friend, listener and

counselor to hundreds of Cyclone athletes. The athletic department was truly blessed with her care, sensitivity and concern for all the student-athletes.

Dorothy had a genuine "coach's concern" for the personal problems of which many of the athletes sought her guidance. She helped thousands of Iowa State students arrange their class schedules during her career. Realizing the athletes' unique needs, she was particularly helpful in arranging schedules to meet the rigorous demands of practice and games.

A 1935 home economics graduate, Dorothy has always been more than just a Cyclone fan—she has been a "super fan"—always there and always rooting for her Cyclones.

Congratulations Dorothy Erskine - Cy's Favorite Alum for 1984. Iowa State salutes you.

Experience: Eastern Oregon State, offensive backs (1971-73); Washington State, running backs (1974); Fresno State, running backs (1975-77); Pacific, quarterbacks (1978); Colorado State, offensive backs and receivers (1979-82).

Neal Turner

Position: Running Backs
Alma Mater: Quachita Baptist (1980)
Joined Staff: August, 1983
Experience: Oklahoma State, defensive backs (1980-82); Nevada-Reno, receivers (1982).

Joe Sanders

Position: Defensive Tackles
Alma Mater: Troy State
Joined Staff: March, 1984
Experience: Troy State, assistant coach, (1975); Austin Peay State, graduate assistant (1976); defensive ends (1977-78); Middle Tennessee State, defensive ends and defensive line (1979-82); Vanderbilt, assistant coach (1983).

Frank D'Alonzo

Position: Defensive Ends
Alma Mater: Villanova, 1979
Joined Staff: September, 1984
Experience: Mount Olive High School, N.J., assistant (1979-80); Roxbury High School (N.J.) 1981-82; Iowa State, graduate assistant (1983).

Phil Bennett

Position: Linebackers
Alma Mater: Texas A & M (1977)
Joined Staff: July, 1984
Experience: Texas A & M, linebackers and defensive ends (1978-81); Texas Christian, assistant coach (1982); Irving MacArthur High School (Tex.), defensive coordinator (1983).

Tom Wilson

Position: Strength Coach
Alma Mater: Nebraska (1982)
Joined Staff: May, 1983
Experience: Nebraska, assistant strength coach (1983).

Reminiscing With Harry G. Burrell

Harry G. Burrell served as Sports Information Director at Iowa State University for 37 years.

"It seemed almost too good to be true... when Iowa State ran up a 21-0 lead over fumbling Oklahoma in the first quarter—and it almost was."

Probably no lead paragraph ever summarized a football game better than the one which led off Maury White's Register story, in 1961, of the Cyclone victory, 21-15.

Iowa State took full advantage of Sooner errors and the decision to take the wind to win its second straight over Oklahoma. The wind was gusting from 25 to 35 miles per hour. Oklahoma was a one touchdown favorite. Coach Clay Stapleton said the favoring wind combined with a fierce and opportunistic defense all worked in favor of the Cyclones.

ISU's Larry Schreiber booted the opening kick off into the end zone. Oklahoma put the ball in play at the 20 and the Cyclone defense jarred Mike McClelland loose from the ball in the first play. John Cooper, now the athletic director and head football coach at Tulsa, fell on the ball at the 30. Iowa State's Dave Hoppmann moved the ball to the 12 in four plays, before losing a fumble to Leon Cross.

After three plays, hampered by a penalty, the Sooners were forced to punt with the ball traveling just two yards into the howling wind. From the Sooner 17-yard line, Hoppmann lost two, then wobbled a pass that wingback Joe Burden caught at the one. Hoppmann sent Dave Hoover the final yard for a 7-0 score at 9:18 left on the first quarter clock.

Later in the first quarter, Hoppmann and Hoover alternated in a drive that brought the ball to the Sooner eight-yard line in seven plays. Stapleton then sent Ozzie Clay in for Hoppmann. Behind Hoover's block, Clay swept right end for the score. That made it 14-0 with 2:52 left.

On the ensuing series of downs, Oklahoma fullback Phil Lohman fumbled and Dick Scesniak (currently head coach at Kent State) recovered at the Sooner 33.

Back came Clay. Behind the kind of three-man blocking that characterized the single wing, Clay ran to the 12. Carl Proto cleared the way next as Clay whipped around left end to make it 21-0 and the clock showed 26 seconds left.

Clay hurt his knee in the second period, an injury that was to mark the near end of a brilliant future for the Hickory, N.C. back.

To start the second period, Coach Bud Wilkinson replaced quarterback Bill Van Burkleo with Bob Page, indicating "let's forget the pass, run the ball." Page immediately drove the Sooners 76 yards in 17 plays, getting the final three yards himself.

Both teams had second half problems. Iowa State's Gary Ellis drove a punt 49 yards into the wind. When the kick

bounced against Mike McClelland, Proto was there to fall on it. The wind held up a field goal attempt, however, to give Oklahoma the ball at the 20.

The Sooners took 14 plays before sending Jim Carpenter four yards for a score. From a fake kick effort, Carpenter then passed to Page to make the score 21-15.

A couple of exchanges later Hoppmann (who ran 31 times for 113 yards) led a drive that stalled at the Sooner 40. Oklahoma drew a 15-yard "piling on" penalty and had to start first-and-25 from its own 26-yard line.

It was now Cyclone defensive end Randy Kidd's turn to save the day. First, Van Burkleo threw an errant pitchout. Kidd recovered it, but Ellis was eventually forced to punt into the end zone after ISU was unable to move the ball.

The Sooners now had five minutes in which to wipe out that first quarter splurge. Mixing passing and running brilliantly, the Sooners moved 49 yards to the Cyclone 31. Kidd slowed this one, too, spotting Van Burkleo trying to bootleg the ball. He roared in and tossed the Sooner quarterback for a nine-yard loss.

One minute to play.

Van Burkleo hit Ronny Payne for an apparent first down only to have Payne foolishly lateral the ball toward Dan Jordan, with Kidd recovering the fumble.

Fans who recall Stapleton as conservative would still get a chuckle from his post-game remark:

"We probably could have gotten them off our back by throwing more. But, darn, I hate to see that ball flying around when your ahead!"

Dave Hoppmann

STATE
CYCLONES

Introducing

VICTORY CLUB

DIRECTOR'S CLUB

CAPTAIN'S CLUB

The success of Iowa State's 21-sport combined men and women's athletic program is due largely to the willingness of alumni and friends to provide a strong base of financial aid. The Cyclone Club is proud to introduce three new recognition levels for those friends who wish to provide "extra special" support for Iowa State athletics. These levels are the Captain's Club (\$2,500 annually), the Victory Club (\$5,000 annually) and the Director's Club (\$10,000 annually). These prestigious new clubs join the long-established Cardinal Club (\$500 annually) and Gold Club (\$1,000 annually)

MAL SCHMIDT

as the top-level support groups for Cyclone athletics. The Iowa State University Department of Intercollegiate Athletics and the Cyclone Club are indeed proud to honor the members of the clubs listed here—they are leading the way for "Excellence in the Eighties" for the Cardinal and Gold.

Cyclone Profiles . . .

65 Kevin Eggleston

6-8, 294, So.
Memphis, Mo. (Scotland County)

Eggleston at ISU: Outstanding offensive lineman prospect...holds the starting right tackle spot...has started every game this season for the Cyclones...selected as Cyclones' top offensive lineman for the Kansas game...touted by coach Jim Williams as a "hard worker with the size and potential to become an outstanding lineman in the Big Eight Conference"...earned valuable starting experience in three games (Vanderbilt, Colorado State, and New Mexico State) last season as injuries sidelined some veterans...primary role was as the backup to starting right tackle Dan Martin, an NFL draft choice of the New York Jets...has trimmed from 326 to 294 pounds and is much stronger...redshirted in 1982 after playing JV ball in 1981.

High School Experience: Football, basketball, track, and tennis letterman

at Scotland County High...football coach was Sam Berkowitz...*Blue Chip Magazine's* silver list...also a kicker and punter...all-conference in football and basketball and state qualifier in track for his work in the shot put and discus.

Personal: Born December 19, 1962 in Bloomfield, Iowa...physical education major.

Quick Facts: Bench press (315), hip sled (720), 40-yard dash (5.36), vertical jump (23").

41 Anthony Mayze

6-3, 196, Jr.
Wichita Falls, Tex. (Wichita Falls)
Hutchinson C.C. (Hutchison, KS)

Mayze at ISU: Starting free safety...has started every game this season...leads the Cyclones defensive backs with 24 solo stops and 34 total tackles...also among Big Eight Conference leaders in fumble recoveries and passes broken up...coach John Fox touts Mayze as "an exceptional athlete who has helped strengthen our defensive secondary."

Junior College Experience: All-American defensive back at Hutchison Community College...also selected to the first-team all-Jayhawk Conference team...junior college coach was Britt Williams.

High School Experience: First-team all-district safety at Wichita Falls High School in both 1980 and 1981...outstanding prep basketball player, winning first-team all-district accolades...district high jump champ three consecutive seasons with a best of 6-8...prep coach was Joe Bob Tyler.

Cyclone Profiles . . .

22 Tommy Davis

5-8, 190, Sr.

East St. Louis, Ill (Assumption)

Second Team All-Big-Eight in 1982

Davis at ISU: In a new role this season after starting at tailback the past two years...second-leading rusher on squad with 171 yards on 40 carries...has also caught 18 passes for 167 yards and a touchdown...had 63 yards on 12 carries in the spring game...three-year letterman earned second-team all-Big Eight Conference honors in 1982 (behind Nebraska's Mike Rozier, Oklahoma's Marcus Dupree, and Oklahoma State's Ernest Anderson) after an 832-yard sophomore season in which he finished fifth in the league in rushing and was nominated as the league's Offensive-Player-of-the-Week three times...racked up 396 yards last year, second highest on the team next to all-Big Eight fullback Jason Jacobs (490)...his best game last season was an 86-yard total in 25 carries at Nebraska...in the season opener his sophomore year, he rambled for 169 yards, including a 75-yard TD at Tennessee...carried 35 times

for 129 yards his freshman season...also a steady receiver...caught 24 passes for 155 yards and a TD last season...had 14 receptions for 80 yards 1982 and 13 catches for 114 yards in '84...broke his tibia (shinbone) in spring drills in 1983 and missed two games in mid-1981 with a knee injury.

High School Experience: Rushed for more than 1,300 yards and averaged 10 yards per carry at Assumption High

under coach Jim Monken as a prep senior...had more than 1,500 yards and averaged 12 yards per carry as a junior...led club to 10-2 record his final year.

Personal: Born September 23, 1963 in East St. Louis, Ill. ...community and regional planning major.

Quick Facts: Bench press (295), hip sled (690), 40-yard dash (4.65), vertical jump (30½).

51 Jeff Braswell

6-1, 235, So.

Riveria Beach Fla. (Suncoast)

Independence J.C. (Independence, KS)

Braswell at ISU: Starting middle line-backer for ISU...has started all five games and recorded a team-leading 36 tackles...has also tackled opposing runners for a loss of yardage four times...also recovered a fumble and caused a fumble.

Junior College Experience: Led the Jayhawk Conference with 98 unassisted tackles last season...all-conference performer and team MVP at Independence Community College...juco coach was Dan Shonka.

High School Experience: Earned all-conference and all-state honors at Suncoast Community High School...team placed second in the state his senior season...compiled 127 total tackles with three interceptions his junior season and had 119 tackles with five intercep-

tions as a senior...two-year prep basketball letterwinner...lettered once in track...prep coach was Al Sutton.

Personal: Born November 23, 1964 in Lake Worth, Fla.

Homecoming Central Committee

The Homecoming Central Committee would like to welcome students, alumni, and friends of Iowa State University.

This year's theme is "Celebrate with Cy" as it marks the 30th birthday of our mascot.

We invite you to join us in this special celebration and wish you an enjoyable weekend.

The 1984 Homecoming Central Committee

Front row, left to right: Barb Pirsch, Edina, MN; Linda Bracken, St Charles, IL; Patty Weiss, Bettendorf; Marlys Nieman, Ankeny; Colleen Mahoney, Mason City. Middle row: Mitch Darrow, La Grangeville, NY; Rhonda Fulcher, staff adviser; Gayle Strong, Des Moines; Jeanne Shellberg, Red Oak; Shelly Adams, Red Oak; Jeff Haas, Algona. Top row: John Immesolte, Davenport; Robin Lowman, Marshalltown; Herman Schamberger, Oak Brook, IL; Kurt Tjaden, Charles City; Dave Mastrofski, West Des Moines; Brad Abbas, Aplinton, IA.

HOMEcoming DANCE: Immediately following the game, 2nd floor lobby, Scheman Continuing Education Center.

MATCH-UPS ON THE LINE

by Don Doxie, Quad-City Times

Once upon a time the line of scrimmage in a college football game resembled the Battle of the Titans.

Gigantic linemen of equal size, equal strength and equal quickness stood facemask to facemask and slugged it out in ferocious fashion. The clash between offensive and defensive lines was

a test of brute strength. Whoever could outmuscle the other guy usually won the game.

It's still pretty ferocious in there. And physical, too. But a lot more finesse goes into line play these days.

Oh, the offensive linemen are still huge. The bigger the better, most

continued

MATCH-UPS ON THE LINE

continued

recruiters will tell you. Tackles who are 6-7 and weigh 280 pounds are commonplace. But, they are almost always offensive tackles, not defensive tackles.

On defense, speed and quickness have become priorities.

"Now defenses are being geared completely to quickness," said one West Coast defensive coach. "The pass rush

that position in recent years who weighed less than 200 pounds. Ends who weigh 220 are more the norm.

It wasn't always that way. A little more than a decade ago, the biggest, most powerful players could be found as often on defense as on offense. Men like Michigan State's 6-7, 295-pound Bubba Smith and Grambling's 6-7, 287-

who can run the 40-yard dash in 4.6 or 4.7. For any other team he'd probably play middle linebacker or fullback. But the coaches put him on a structured weightlifting program for a year or two and come up with a good, quick defensive tackle.

Movement just before the snap of the ball and the use of "slants" are primary

A lot more finesse goes into line play these days, and while offensive linemen are still huge, defensive linemen are becoming faster.

is the reason. Finding guys who can put on a pass rush is the No. 1 priority when we're looking for defensive linemen. We're always looking for guys who can get to the quarterback."

"That's the whole philosophy of most coaches now," agreed another coach. "If you've got 50 linemen to work with, some are going to be fast and some aren't. That doesn't mean the slow ones aren't good players. But the great people who can really run usually end up on defense."

The trend now is toward smaller, quicker defensive linemen. A 6-2, 240-pound defensive tackle or noseguard is more than acceptable these days in major college football. A 6-2, 240-pound offensive tackle is rare.

Defensive ends are usually even lighter. A few teams have had men at

pound Buck Buchanan roamed the defensive side.

"When the other team was running the football all the time, you wanted to have those big guys who could stand up to the offensive linemen and be physical," noted one defensive line coach.

But then the option style of the running attack became popular and teams suddenly needed quicker defensive players to cope with the outside thrusts of the Wishbone and the Veer. The advent of the wide open passing attack has accelerated the trend.

One Big Ten school has been among the leaders in the defensive quickness movement. It has been doing for years what others have only started doing in recent seasons.

The formula is simple. Find a kid who's 6-2 or 6-3 with a solid build and

weapons of a quick defensive line. A defensive tackle slants by lining up directly across from an opposing offensive lineman but facing at an angle. When the ball is snapped he charges into a gap in the line.

"You try to run around the guy instead of standing there and waiting for him to come and block you," explained one line coach. "You try to get into the gaps in the line. Miami did a great job of doing that last year."

The Hurricanes also used a great deal of movement in an effort to disrupt the concentration of the offensive line. Nothing disturbs an offensive guard or tackle more than having the man across from him shift just before the snap.

While quickness has joined (and virtually replaced) size and strength as a

continued

**Now, Quaker State comes
in clean, easy to pour plastic bottles.
Exclusively.**

That Quaker State quality America has trusted for over 70 years now comes in the most convenient containers you can buy. They're a cinch to open, pour and reseal. That means if your oil is less than a quart low you can top it off and save the rest for later.

Quaker State's leading motor oils are refined from 100% Pennsylvania Grade Crude. So now you get 100% Penn-Grade protection. And 0% mess.

Best of all, it's made to cost you nothing extra.

And if the new bottle isn't in your store now, it'll be there soon.

Today you need an oil this good in a package this good.

MATCH-UPS ON THE LINE

continued

gauge of defensive line prowess, those two old staples are still in vogue on the other side of the ball. Offensive linemen in the college ranks are bigger than ever with several teams averaging more than 260 pounds across their front five. Colorado State, not exactly a gridiron powerhouse, claimed to have the biggest line in the country last season with an average of 269 pounds per man.

"With the new rules you're able to use your hands more on pass blocking and teams are throwing the ball more anyway," said one midwestern line coach. "With those factors in mind, it's definitely to your advantage to have big offensive linemen."

"A lot of teams are trying to counter that with quickness. They're sacrificing some size to get people who can out-quick the big offensive linemen."

As a result, offensive linemen are being asked to block men 10, 20, sometimes 40 pounds lighter than themselves. So what does a 270-pound offensive tackle do when the 230-pound defensive end lines up far outside and prepares to make a beeline for the quarterback? Or what does the 260-pound guard do when the 240-pound defensive tackle lines up at a slant and looks

longingly at the gap between guard and center?

He compensates for his lack of foot speed with intelligence and good technique. In other words, he has to anticipate the actions of the defender, get the proper angle on the man he is blocking, and then utilize the blocking tactics that have been drilled into him.

Technique. That word pops up over and over again in conversations among offensive linemen and their coaches. Technique, according to one major independent school line coach, is "every physical movement that is involved in the execution of a block." That includes the use of hands, legs and shoulders, knowing proper flexion of the hips and knees, developing the correct blocking angles, learning every basic tenet of the drive block (for running plays) and the set block (for pass protection). Everything.

"The key to the whole thing is repetition," said one coach. "Offensive linemen have to be willing to work very hard."

It's also nice if they have long arms. It defrays the margin for error.

"If a guy has shorter arms, he has to be that much better with his tech-

nique," explained one coach, "whereas a kid who is 6-7 and has those long arms can be a little sloppy and get away with it. If the shorter kid makes a mistake he can really get burned."

It's a little different with the drive block, where the primary object is to beat the other guy off the line and get leverage on him. Shorter, lighter linemen have their place there, especially if they have a quick first step. No matter how big and strong the guy is across the line, if an offensive lineman can be the driver instead of the drivee, he'll probably get the job done.

Of course, height, weight, speed and wingspan aren't the only criteria for selecting offensive and defensive linemen. Coaches often base their decisions as much on aptitude, attitude and personality.

The general stereotype is something like this:

- Offensive linemen are passive, defensive linemen are aggressive.
- Offensive linemen have above average intelligence, defensive linemen have below average intelligence.
- Offensive linemen are nice, defensive linemen are mean.
- Offensive linemen work hard, defensive linemen are a little lazy.
- Offensive linemen are gentle and contemplative, defensive linemen are loud and rowdy.

You'll get varying opinions on the validity of the stereotype although most view it as having only a thread of truth.

"The offensive lineman has to keep his composure more," admitted one West Coast coach. "You don't want to put sissies on offense but you want them to have a calmer metabolism. The crazier guy who has a tendency to jump offsides belongs on defense."

"You always hear the stories about how this guy wasn't good enough for defense so they moved him to offense," reflected an offensive line coach from the Big Ten. "But we like our guys to be aggressive, too."

"I guess the biggest difference is that an offensive lineman has to play with more control. Pass blocking is a good example. The defensive guys are waiting on you but you have to maintain your control and concentration. Defensive guys can just play a lot more loose."

"A good parallel to playing the offensive line would be hitting a golf ball or hitting a baseball. You want to be intense but you also have to be under control."

And be big and strong and tough and have good technique and be ready to cope with some lightning-footed, scaled-down "titans."

RENO'S MOST WINNING DEAL

**MGM Grand Getaway Three Days/Two Nights
For Only \$60 Per Person**

Make your reservations
for a Sunday through

Thursday stay and take advantage of Reno's best vacation value—the MGM Grand Getaway. For just \$60 per person, double occupancy, you'll stay at America's grandest entertainment resort and enjoy Donn Arden's multi-million dollar musical extravaganza, "Hello Hollywood, Hello!"

COLLEGE LANDMARKS ACROSS THE NATION

Third in a series

The figurehead "Tecumseh," named for a great Native American warrior, has played a prominent part in the U.S. Naval Academy's traditions for many years. The original wooden image was sent to the Academy in 1866 after being salvaged from the wreck of the *Delaware*, which had been sunk at Norfolk during the Civil War to prevent her from falling into Confederate hands. For 40 years the figurehead stood outside until weather took its toll. It was decided to immortalize Tecumseh in bronze in 1929. Today the statue, mounted on a pedestal of Vermont marble adorned with the Naval Academy seal, stands at the main entrance of the midshipmen's dormitory. It is considered a good luck symbol—students toss pennies at Tecumseh or salute it before exams and athletic contests.

Wake Forest University's new Graylyn Conference Center is housed in the restored mansion of the late Bowman Gray, former president and chairman of the board of R.J. Reynolds Tobacco Company. Built in 1927-32, Graylyn is the second largest private home (87 rooms) ever built in North Carolina. It is listed on the National Register of Historic Places as "one of the most significant domestic landmarks in the early twentieth century in North Carolina." The mansion is located on a 55-acre estate near the university's Winston-Salem campus.

One of Miami University's Oxford, Ohio campus landmarks is the McGuffey Museum. A National Historic Landmark, the Museum was the home of William Holmes McGuffey. McGuffey taught at the university and twice was offered its presidency, which he declined. He became well-known for the children's school readers which he wrote in the 1930s. His series became

the standard text in 37 states and by 1900 the editions totaled more than 100 million copies. A new edition was published in 1946, bringing the total of McGuffey Readers in print to over 125 million copies. The Museum contains a complete set of McGuffey's readers and the desk where he did much of his early writing.

FLY WITH THE EAGLES

THIS YEAR'S FASTEST PONTIAC HAS ONLY ONE TIRE —EAGLE VR.

Ask a group of car experts what's the best performance tire in the world.

Chances are, one name will dominate the conversation—Eagle VR.

Now that tire—the tire that has helped the new Corvette achieve “...absolutely astonishing limits of grip...” according to *Road & Track*—has

been selected sole original equipment tire on Pontiac's 1984 Anniversary Trans Am.

And no other high-performance radial combines Eagle VR's unidirectional tread pattern, long tread wear, steel-belted toughness and smooth ride with VR (130 MPH) speed rating.

It seems that more

and more, the builders of the world's finest performance cars are using our new Eagle VR's.

And that suits us just fine.

The Goodyear Eagle VR radial. In the Eagles' Nest at your Goodyear retailer.

For a free copy of the detailed product specification book *Fly With The Eagle*, write to: The Goodyear Tire & Rubber Company, Box 9125, Dept. 69J Akron, Ohio 44305.

GOODYEAR

The world's greatest athletic shoes compete in our arena every day.

Welcome to the Olympics of athletic footwear. At Foot Locker, we've assembled the world's top names in quality and performance. And they're here in force.

Shoes for running, basketball, tennis, soccer, football, baseball, racquetball, or track and field.

Who do we favor? It all depends. On the game, on the wearer and on the commitment.

We go for the Gold, the Silver and the Bronze. A spectrum of contenders to give you all the winning options. Let our Sales Pros help you get your goals and your shoes together. Whatever your choices are, you'll know you're running with the best. Because we're committed to it.

SOUTHPAW QUARTERBACKS

LEFTIES PROVE THEMSELVES RIGHT

by Bill Free, Baltimore Sun

Left-handed quarterback Steve Young of Brigham Young University was outstanding last season.

Oh how the myths have exploded down through the years about those wacky, crazy, flaky and zany left-handed quarterbacks.

They have been portrayed as a fun-loving, free-spirited bunch of football players who march to the beat of a different drum. The guys who throw with the so-called "wrong arm" are sup-

posed to be capable of doing anything at any time to give a coach gray hairs.

In short, it's safe to expect the unexpected from the southpaw throwers. They tantalize their coaches with flashes of brilliance one moment and near total disaster at another moment.

Many left-handed quarterbacks have overcome this nagging stigma of incon-

sistency and gone on to have superb college careers. Last season, two of the top quarterbacks in the nation—Boomer Esiason of Maryland and Steve Young of Brigham Young—threw with their left hand.

They were so brilliant and consistent

continued

SOUTHPAW QUARTERBACKS

continued

Saturday after Saturday that their coaches and fans nearly forgot that they had a left-hander at the most important position on the team.

"The only problem we came upon was if we had to demonstrate something," said a right-handed Atlantic Coast Conference coach who watched his talented left-hander win 16 games over two seasons against some of the top teams in the country.

"Some people say the spin of the ball is different from a left-hander," continued the ACC head coach. "But I don't believe there's any real difficulty unless you talk about it and think about it a lot."

But there can be no question that a left-hander does present problems for his teammates and the opposition on a regular basis, if for no other reason than the fact that he is different from most quarterbacks.

Something like 95 percent of quarterbacks are right-handers. Defenses are accustomed to playing against right-handers and get a different look of where the ball is coming from when a left-hander unloads a pass.

The lefties have also been known to gamble a little more in clutch situations and rise to the occasion when backed into a corner. Maybe they have something to prove since they grew up throwing the ball differently from almost everybody else.

A left-hander is certainly much better at rolling out to his left and putting the ball in the air. When he goes to the left, he's usually attacking the weak side of the defense—those people who don't normally get as much work on a regular afternoon.

Some defensive coaches may want to shift personnel around to compensate for the added dimension a left-hander gives a team. And they also have to be prepared for the different rotation on the football when it leaves the hand of a lefty.

"Sometimes a left-hander will throw a curve, screwball, or something like that," said a Southeastern Conference coach. "The spin on the ball is different but it doesn't matter as long as it gets there."

The different spin would create a problem for a receiver if he were catching the ball from a southpaw for the first time all week. But all receivers catch hundreds of passes every week from all the quarterbacks on the squad. By Saturday afternoon they're ready to catch the ball as long as it doesn't spin, curve, or dip too much.

When that happens, the left-handed quarterback usually says he was just

Maryland's Boomer Esiason, throwing left-handed, shattered records in '83.

being "creative" and messing up the defense. But both the quarterback and his pass-catchers know that every now and then a southpaw is going to look bad on a pass when it gets away from him.

Most coaches say they don't install any special pass patterns for a lefty. However, they'll try to attack the weak side of the defense as often as possible if they have a quarterback who is mobile enough to roll left and throw effectively on the run.

In these days of complicated and multiple defenses, the offensive coaches are always looking for a minor twist or turn to gain any kind of slight advantage a left-hander might provide. Even if the quarterback and his receiver do everything the same on a pass pattern a right-hander would do, there is still the obvious difference of trying to stop a passer who has the ball in the other hand.

The left side of the defensive line has more distance to travel to get to the football when a lefty has it. When the defensive linemen start bearing down on a left-handed quarterback, the first thing they are usually facing is his back and not the ball.

This can give the quarterback the few extra precious seconds he might need to get the pass off or to scramble out of trouble and find another receiver.

So what happens if the left-handed

starter suddenly gets hurt during a game and the coach has to call on his back-up—a right-hander—to come into the game?

The tendency is to believe the offensive team has to completely readjust its plan of attack. This could be true in some cases, but most coaches like to give their back-up quarterback enough playing time to be comfortable with the first unit.

If the No. 2 signal caller has only been in games with the second team, that's when the problems start. You can practice for days with the first team, but there's no substitute for working under game conditions with your receivers, running backs and offensive linemen.

Although there is no difference in the way a left-hander takes a snap from center, there are the usual timing factors to be concerned about. These are important when a right-hander replaces a right-hander, and are a little more ticklish when a righty subs for a southpaw.

As far as defensive adjustments a team has to make when it is going to face a left-hander are concerned, it all depends on the quarterback's strengths and weaknesses.

If he runs a well-balanced offense to both sides of the field, there isn't much an opponent can do to project what's coming on Saturday afternoon. But if the lefty has shown a tendency to favor a certain pass pattern over another, the wheels are set in motion for some defensive wizardry.

"You do make a thorough study of quarterbacks," said BYU's offensive coordinator. "You study his tendencies and see what he likes to do the most. Sometimes those traits may be a little easier to pick up with a lefty who is obviously more comfortable going to his left."

The BYU coach, who worked with record-shattering Steve Young last season, said that all left-handed quarterbacks like to say they can go to their right better than their left.

"But it's just not true," he said. "These guys like to make people believe they can roll right to prove their versatility. But you know a left-hander is naturally going to be more at ease going to his left."

No lefty likes to think he is limited, especially a quarterback who thrives on confidence and complete belief in his ability to get the job accomplished. Some have said left-handers are more cocky and brash than their right-handed counterparts.

But believers in the left-handers con-

"Is it homemade or Hormel?"
Because sometimes it's really hard to tell.

SOUTHPAW QUARTERBACKS

continued

tend that it's just the quarterback position that makes everybody seem that way. They don't think most lefties are arrogant. They have to be strong to lead 10 other guys on the field, and that strength is sometimes confused with obnoxiousness.

Unlike baseball where the southpaw is restricted to pitching, first base and the outfield, football holds no major limitations on where a left-hander can play. The only time a football coach might make a change because a player is left-handed would be in determining on which side of the line he might use the lefty.

Most coaches like their offensive and defensive linemen to be ambidextrous, but if a player is much more at ease hitting with his left arm first he will usually be put in a position where he can utilize his strengths to the utmost.

"You just see which guys are more comfortable on a certain side of the field," said a Big Ten coach. "The same can be true of right-handers as well as lefties. It's something you look at for linebackers and defensive backs as well as linemen and ends."

While the left-handed quarterback

"Sometimes a left-hander will throw a curve, screwball, or something like that," said a Southeastern Conference coach. "The spin on the ball is different but it doesn't matter as long as it gets there."

has some advantages and a few disadvantages, a running back who is left-handed would have a definite advantage if the coach wanted to use him on a pass-option play. He could carry the ball in the right hand and then suddenly switch the ball away from the defender to the left hand and throw a pass.

All-America Steve Young last season helped dispel some of those fables about left-handers. His soft touch

passes rolled up points on the scoreboard and skyrocketed his passing statistics.

"He was completely opposite from what you always hear about left-handers," said the BYU coach. "He was the most accurate quarterback we've had here and we never did anything to compensate for him being left-handed."

While Young did the job with a soft pass, Maryland's southpaw Boomer Esiason shattered passing records with a whistling pass that split defenders many times to find the open arms of receivers.

Both quarterbacks received super results with different methods, but they both used what teachers and educators once referred to as the "bad arm."

The BYU coach recalled the days when he was in elementary school and a kid in the room was reprimanded for using his left hand. It was a time when all youngsters were being taught to use their right hands.

Now that thinking has changed. As one left-hander put it, "We are more spontaneous and creative. We use the hand that is closest to our heart, which makes us more sincere."

Watch the game with a wide receiver.

A pair of Bushnell precision binoculars lets you get more of what you pay for when you buy football tickets: more excitement, more color, more action. Bushnell wide angle models have the power to put you on the field from any seat in the stadium, and the wide angle view lets you keep all the

action in focus. Bushnell makes the largest selection of wide-angle binoculars and other high-quality sports optics. See them at your Bushnell dealer.

Some people find buying a new car much easier than others

After you've found the GM car or truck of your dreams, don't turn the financing into a hassle. All you really have to do is tell your GM Dealer to arrange GMAC Financing—at rates that make good sense.

It's so easy with GMAC. You save time because your GM Dealer can handle all the arrangements right in the showroom. And that convenience is just one of the reasons why

more people finance more cars and trucks with GMAC than anyone else in the business.

So why not finance your new GM car or truck the easy way. Just ask your GM Dealer for GMAC Financing. More car buyers do.

THE RADIO COLOR MAN: PAINTING A PICTURE

HE BROKE
THE LINE...
ON THE
30...20...10...
HE'S

by John Jones,
The New Orleans Times-Picayune

He is a man who puts the Crimson in Harvard football.

The man who never mispronounces a Cajun French surname on the roster of LSU.

The man who is a walking encyclopedia of facts, prominent and obscure, about your favorite college football team.

He is the radio color man on college football broadcasts, the scene setter, the play analyzer, the artist with words.

In the broadcast business the color man is candidly considered the second banana on a team anchored by the play-by-play announcer.

The color man's job doesn't ensure the long-term security frequently associated with the work of top play-by-play men.

Yet in the hearts of a legion of college fans from Boston to Austin, the color man *continued*

THE RADIO COLOR MAN

continued

is as singular a trademark as a team's helmet logo or mascot.

His expressions become a part of the fan's vocabulary.

His voice and rhythmic delivery are mimicked.

His descriptions of game scenes become a permanent chapter of team history for every fan who couldn't make it to the stadium on time.

Color men come from a variety of backgrounds.

Some are formerly prominent college players, often alumni of the teams they're broadcasting.

Some are full time broadcasters with years of experience.

A third group fits neither category. They weren't great players, and they're just learning the broadcasting business. But people like to hear their voices during a game.

"A good color man," says a veteran play-by-play announcer in the Big Ten, "can add a real dimension to a broadcast. He can inject a liveliness into the story line that complements the play-by-play man's job. A good play-by-play man always comes prepared to do his job. A good color man can make him sound even better."

The converse is also true.

No matter how flawless the play-by-play delivery, a weak color man can disrupt the broadcast flow more quickly than a power failure.

With each broadcast team, the color man's job varies.

In a two-man team, the color man's responsibilities are expanded beyond simply making comments during a game.

The color man in the two-man team usually gets the game show on and off the air. He handles introductions, including halftime guests. If there are no halftime guests, he describes halftime ceremonies.

Often he's also responsible for locker room interviews on the post-game show.

Every color man is expected to provide requisite game facts in his pre-game comments: who's playing, where they're playing, what the teams' records are and how weather conditions may affect the game's outcome.

Better color men go a step further, delving into the nuances of a game by briefly charting the storylines they'll follow during the afternoon: key matchups, relationships of opposing coaches, the impact the game could have on bowl game aspirations of either or both teams.

Three-man broadcast teams are distinguished by the addition of a game analyst to the roster.

The analyst, usually a former coach or player, uses his intimate knowledge of college football to apprise listeners of what strategy and tactics are being used. In this situation, the color man avoids technical aspects of the game to concentrate on other areas.

Whether two-man or three-man, the broadcast team has to learn to work together, becoming familiar with the cadence of the play-by-play man's voice and the lulls in which the color man and analyst can make their points.

"The 25 seconds between plays in a college game makes a vastly different broadcast than a pro game in which 30 seconds transpire between plays," says a veteran Southeastern Conference broadcaster who has served as both color man and play-by-play announcer for the better part of 20 years.

"The extra five seconds in the pro game can be interminable. You'll have a bit more freedom as a color man to get your thoughts on the air. The college game gives the impression of moving along so much faster. You have to know what you're going to say and say it

succinctly."

In the radio booth as well as on the playing field, the opening two or three games of the season are usually the proving ground.

Because the popularity of college football radio broadcasts generates big ratings — and big profits — radio executives are very critical in their reviews of broadcast teams.

A color man who can't hold his own in the two-man team, or one who steps on the lines of his compatriots in the three-man team, is immediately relegated to less air time.

An experienced broadcast team that's worked together for several seasons has a comfortable feel for the radio audience right from the season opener.

A team with one or more new members can have its ups and downs.

"The longer you work with someone, the better patterns you get into," said an announcer with five decades of college football broadcasting duty, the last two decades coming on the broadcast team of a Los Angeles-based Pac-10 team.

"The play-by-play man accepts the other guy and learns from him. The big thing is that one pair of eyes can't see it all. The play-by-play man follows the ball. The color man can more closely analyze what the defense is doing. He

sees who caused the fumble.

"A priority," he said, "is to keep it simple.

"You don't want to be too technical in the college game," he said. "College football is more a spectacle. People are dressed up and meeting old friends. There's a larger audience of women. It's a social event.

"They just aren't as involved in the technical points of the game. You don't kiss off the technical stuff altogether, but there's a lot going on at a college game beyond pure unadulterated football."

Perhaps the best way to keep the pace flowing in a college broadcast is to be well prepared.

"If you want to be a professional," said one former Big-10 color commentator, "you come in prepared. A lot of guys don't, but if you don't do your homework, you're not doing your job.

"It's extremely important to get input from the coaches. They know what a guy's strengths and weaknesses are. They know the kinds of things that can make it a long day for a player.

"So you watch for it. Pick out something you can look for that you expect to be a key and monitor the pattern through the game."

The color man's job in recent years has been immeasurably assisted by the growing intricacies of college football.

"The frequent use of statistics, for one thing," the veteran Pac-10

announcer said. "The sheer amount of information you have at your fingertips helps you do a better job. It's all changed. You're not in the press box any more. It's the communications center."

The difference in the color man's duties can be altered by the medium. On radio, he's an illustrator and educator. On television, he can be like a counterpunching boxer.

"When you're doing TV, it's not necessary to say the pass is dragging downfield like a crippled quail and has interception written all over it," says the veteran SEC color commentator.

"All that's done for you. The color man becomes analyst in a TV broadcast. Radio lets you paint the picture."

The best test of a color man's craft is how well he communicates the flavor and excitement of the game via the radio airwaves, how artfully he illustrates the scene to a fan who may be hundreds of miles away and fishing from a bass boat floating in the middle of a lake.

If he can fire up that angler, get him dialed into every play, the fisherman is going to become a cheerleader.

And the cheerleader is going to shout loud enough to drive the fish away.

The fishing trip may be ruined.

But the fisherman has enjoyed an afternoon of college football thanks to the second banana who brings the game to life—the radio color man. ●

THE FIRST COLLEGE FOOTBALL HALL OF FAMERS

Harold "Red" Grange

Alvin "Bo" McMillin

In 1951 the National Football Foundation and Hall of Fame inducted its first members. They were a distinguished group, many of them familiar legends in college football. Each year since 1951, the Hall of Fame has named new members and honored them at awards banquets.

1951 HALL OF FAME INDUCTEES

Every football fan knows that the score doesn't always give a good picture of a game. A few statistics, like those that can be kept on this page can make the picture clearer, show what the individual stars contribute and help to win post-game "debates." Besides, it can be fun to second guess the official scorers whose statistics will appear in tomorrow's papers. But before you start, here are some pointers on being a statistician:

1. Keep cumulative totals to be informed "up to the minute" and to simplify your figuring of team totals. Example: Jones gains 3, 6, 9, 2 yards and you write 3, 9, 18, 20 on his line.

2. On plays involving penalties measured from the point of the foul, credit the rusher or pass receiver with yardage only to the point of the infraction.

3. Charge gains and losses on fumbles to the player who, in your judgment, contributed most to the error.

4. Don't score two-point conversion attempts after touchdowns as rushing or passing plays.

The Heisman Trophy[®] is 50 this fall

Crum and Forster
origins date to 1822...

Excellence endures.

At Crum and Forster, the grand tradition of Heisman Trophy winners—the pursuit of excellence—is part of our day-to-day activities. That's why we're producing and sponsoring The Heisman Trophy Award Television Special again this year.

C&F is one of America's leading property/liability insurers. Our companies write many kinds of insurance both personal and commercial, and sell it through more than 9,000 independent agents and brokers in the United States and Canada.

They believe as we do: In business—as in sports and life—excellence counts. And lasts.

Don't miss "The 1984 Heisman Trophy Award" the first week in December.

1983 ACADEMIC ALL-AMERICAS

UNIVERSITY DIVISION

Brian Salonen, Montana

Jeff Hostetler, West Virginia

John Bergren, Stanford

The College Sports Information Directors of America (CoSIDA) chose 23 players for the 1983 college division Academic All-America team, and 24 players for the university division team.

Heading the university division were standout quarterback Jeff Hostetler of

West Virginia, Lombardi Award finalist Doug Dawson of Texas and two-time All-America defensive back Terry Hoage of Georgia. In the college division, two top pass receivers were chosen for the team—Marc Knowles of Millikin and Bob Stefanski of Northern Michigan. Between them, these two players accounted for

nearly 1,800 yards in receptions during the 1983 season.

To be eligible for the Academic All-America teams, a player must be a regular performer for his school's team and must have at least a 3.2 grade point average (on a 4.0 scale) for the previous year.

A LOT OF THE TRAINING THAT HELPED HIM BECOME A CHAMPION HAD NOTHING TO DO WITH DIVING.

Russ Rebmann is a Pacific 10 Conference diving champion at the University of Southern California and an Army ROTC cadet.

"I feel the key to becoming a champion diver is having discipline, good concentration, and a lot of self-confidence.

My ROTC training helped me develop in all those areas.

"At ROTC Basic Camp, I got my first real taste of what it's like to be a leader, to be the man in charge. Handling that kind of responsibility has made me feel more confident about myself.

"What made me enroll in Army ROTC? I started thinking about my future. I can't dive the rest

of my life. And to be a champ in business, you've got to be a leader and a manager. I'm learning how to do that in ROTC. And I can use my training wherever I go, whatever I do."

If you're thinking about your future, think about enrolling in Army ROTC. The training you'll receive can give you the edge you need...no matter what the competition.

For more information, write: Army ROTC, Dept. AF, P.O. Box 9100, Clifton, N.J. 07015.

ARMY ROTC. BE ALL YOU CAN BE.

COLLEGE FOOTBALL

Quiz

1. Who is the only college coach to guide his team to an undefeated season and national championship in his first year? _____
2. Who was the first collegiate player to surpass 2,000 yards rushing in a single season? _____
3. He was an All-Southwestern Conference fullback at the University of Texas. He started his career at UT as a quarterback but was replaced by Bobby Layne. He is now a successful professional football coach. Can you name him? _____
4. Which former Heisman Trophy winners are now in the Professional Football Hall of Fame? _____
5. Who holds the NCAA season record for field goal accuracy? _____
6. Fordham University's rugged defensive line of 1935-36 was known as the "Seven Blocks of Granite," allowing not a single touchdown in 1936. What revered former NFL coach played guard on that line? _____
7. Who was the oldest college football coach? _____
8. Which former University of Kansas quarterback holds the NCAA record for most yards rushing (294) by a QB in a game? _____
9. Can you name the four Notre Dame quarterbacks who have won the Heisman Trophy? _____, _____, _____, _____
10. Who set NCAA receiving records in 1965 with 134 catches and 1,779 yards? _____

ANSWERS: 1) Bennie Oosterbaan, Michigan, 1948; 2) Marcus Allen, USC, 1981 (2,342 yards); 3) Tom Landry, head coach, Dallas Cowboys; 4) none; 5) Chuck Nelson, Washington, 1983, as an assistant until age 98; 6) Vince Lombardi; 7) Amos Alonzo Stagg, head coach until the age of 84 and served as an assistant until age 98; 8) Nolan Cromwell, 1975, vs. Oregon State; 9) Angelo Bertelli (1943), John Lujack (1947), Paul Hornung (1956), John Huarte (1964); 10) Howard Twilley, Tulsa (Photo: Marcus Allen)

80 million football fans are dreaming of a trip to Palo Alto. Enter the J&B Super Sweepstakes and win it.

It's Super Bowl XIX! With not one, but three Grand Prize Winners. Each will win a trip for two to Palo Alto and Super Bowl XIX. That means airfare, hotel, breakfasts, dinners, a rental car, and two tickets to the game of the year!

Use the coupon below or see your participating liquor retailer for entry blanks and details.

How to enter.

Official Rules. No purchase necessary.

1. Fill in the Official Entry Form or, on a plain 3" x 5" piece of paper, print your name, address, zip code, phone number, and age, plus: "I certify that I am of legal drinking age under the laws of my home state." Also include with your entry, the answer to the question: What do the initials J&B stand for on the label of a bottle of J&B Scotch?

2. This contest is only open to adults of legal drinking age. Each entry must be mailed separately to: J&B Scotch Super Sweepstakes, P.O. Box 3693, Syosset, N.Y. 11775

Entries must be received by October 31st, 1984.

3. **Three Grand Prize Winners and 1,000 second prize Stadium Seat Cushion Winners will be selected. Each Grand Prize Winner will receive a trip for 2 to Super Bowl XIX including round trip airfare for two, hotel accommodations for 3 days/2 nights including breakfast and dinner, rental car and 2 tickets to Super Bowl XIX.**

4. Winners will be selected at random by National Judging Institute, Inc., an independent judging organization whose decisions are final on all matters relating to this

sweepstakes. All prizes will be awarded and winners notified by mail. Only one prize to an individual or family. Prizes are nontransferable and no substitutions or cash equivalents are allowed. Taxes, if any, are the responsibility of the individual winners. Winners may be asked to execute an affidavit of eligibility and release.

5. Sweepstakes open to U.S. residents of legal drinking age in the state of their home residence as of September 1st, 1984, except employees and their families of THE PADDINGTON CORPORATION, its affiliates, subsidiaries, participating

liquor wholesalers and retail alcoholic beverage licensees, advertising agencies, Wesco Associates, Inc., printers involved in the J&B Sweepstakes and Don Jagoda Associates, Inc. This offer is void wherever prohibited, and subject to all federal, state and local laws.

6. **For a list of major winners, send a stamped, self-addressed envelope after December 15th, 1984 to: J&B SCOTCH SUPER SWEEPSTAKES WINNERS, P.O. Box 3706, Syosset, N.Y. 11775**

J&B. It whispers.

Official Entry Form

The initials J&B on the label of a bottle of J&B Rare Scotch stand for: _____

Name _____ (Please print)

Address _____

City _____ State _____ Zip _____

Age _____ Phone () _____

Mail to: J&B Scotch Super Sweepstakes
P.O. Box 3693, Syosset, N.Y. 11775

Entries must be received by October 31, 1984.

It takes a stress-tested oil to stay ahead of the little guys.

If you're driving one of today's higher revving, small engine cars, you need a motor oil that can stand the strain.

Here are facts that Pennzoil has worked with to exceed the lubrication requirements of today's small engines.

Situation

FACT: Small car engines are built to tighter tolerances than V-8's. Varnish and sludge build-up become an even greater problem, robbing the engine of power and performance.

FACT: Like racecars, small engines need optimum oil viscosity performance at high operating temperatures. Also, small engines are harder to start or crank when cold, so they need greater fluidity for easy start-up just like racecar engines.

FACT: Small engines work 20% harder over sustained periods. Reduced friction is critical to minimize wear in engines which are running near the edge of their operating capability.

Solution

FACT: Pennzoil is the leader in the development of motor oils with high tech additive properties...such as Z-7... which help prevent varnish and sludge build-up in engines.

FACT: Pennzoil led the way in developing high tech multi-viscosity racing oils. The same technology has been applied to Pennzoil Multi-Vis Motor Oil for your car.

FACT: Pennzoil was first to introduce friction reducers in all their multi-vis oils.

Knowing these vital facts, Pennzoil has been stress-tested to protect small engines that work harder to do the same job as a large engine. And since a smaller engine is under the stress of working at much higher rpm, it needs all of Pennzoil's extra protection. That's why you need Pennzoil protection in your car.

Pennzoil doesn't just keep up with the stress of today's small engine demands...it stays ahead. So you can depend on the latest Pennzoil state-of-the-art technology to give your car the protection it needs.

Pennzoil—quality protection worth asking for.

**HIGH TECHNOLOGY
QUALITY = PENNZOIL**

WANTED

by most college football teams in America: One quality noseguard. Must have exceptional quickness and strength. Must enjoy seeing centers stretched flat on their backs. Must figure that being double- and often triple-teamed is just part of a day's work. Apply immediately.

BAKER Trainee, night shift,
ply 229 Columbus SF 94133

by Billy Watkins,
Jackson Daily News

The most common defense among college football teams today is the "50" defense, consisting of five linemen, two inside linebackers and a four-deep secondary. One of those linemen is the noseguard, who is usually positioned head-up on the center.

It's the noseguard who has the biggest say in whether or not a team plays a good "50" defense or a lousy one.

"It's the most essential position of the front," says one coach in the South. "I feel very strongly that if you've got a person in there who cannot dominate, then you should play another defense. Those are pretty strong words, but that's the way I've always felt about it."

Says another coach from a southern school, "You're going to struggle or be mighty average unless you have a domi-

nant noseguard in a '50' front."

It's quite obvious why the noseguard is so important in the "50" defense. In most "50" alignments, the noseguard is over the center, the two tackles are head-up with the offensive tackles and the two ends (the outside linebackers, as they are sometimes called) are outside the tight end. Each has a certain area of responsibility.

"We use what we call gap control," says one coach. "For instance, the two tackles are responsible for the gap between the guards and the tackles. Our ends have the area from the tight end to the sideline."

That leaves the noseguard with the area from guard to guard. He's the only player on the defensive front who is asked to cover two gaps — the center-

guard gap on both sides of the football.

"And if you can find a guy who can cover two gaps," says a coach, "then you've got yourself one heckuva football player."

Says another coach, "Regardless of which side they should run to, right or left, the noseguard should be the first man on the tackle if the play goes between the guards. We tell all our people they should be in on the tackle, but they have one gap that is their primary concern until the ball is snapped. Then they can leave that area."

One coach who employs the 4-3 defense at his school says the noseguard's two-gap responsibility is the main reason he doesn't like the "50" front.

"In our 4-3 our middle linebacker has

by Alf Van Hoose, *Birmingham News*

This is not an April Fool football story. These games happened. Believe it or not!

Sewanee 12, University of Texas 0

Sewanee 10, Texas A&M 0

Sewanee 23, Tulane 0

Sewanee 34, LSU 0

Sewanee 12, Ole Miss 0

So what? So what, indeed. But think on this: Those five games were played in a six-day period.

Five football games in six days? Right, and don't quit reading.

Sewanee won them all on the road.

Furthermore, Princeton-alumnus coach Herman Suter used only 15 of his 21-man Sewanee squad on the 2,500-mile shutout victory swing which wasn't by auto, or bus, or plane. His Purple Tigers traveled by train, with wood-burning engines.

EXPERIENCE MAZDA 626.

MAZDA 626 SPORT COUPE. UNUSUAL PERFORMANCE, LUXURY, AND VALUE IN ONE GREAT ROAD CAR.

The word got out fast. *Motor Trend* magazine named the all-new front-wheel-drive Mazda 626 its 1983 Import Car of the Year. *Car and Driver* said: "The Mazda 626 does everything well, and that makes it the standard of comparison in its class as far as we're concerned."

The public responded by making it one of the most popular road cars ever introduced in America.

And why not? The innovative 626 gives you a lot to like. An

advanced 2-litre overhead cam engine that moves you from zero to 50 in 8 seconds flat. A years-ahead suspension system for exceptional handling. An interior spacious enough for five people. A 6-way adjustable driver's seat. A stunning list of standard features.

Electronic Variable Shock Absorbers are controlled by buttons on the dash linked to a solenoid valve atop each shock. **NORMAL** setting provides a softer ride. In **AUTO-MATIC** mode, the front shocks stiffen above 50 mph for greater stability at cruising speed. **SPORT**, as the name implies, gives you firmer damping in all four shocks.

In truth, the 626 is one road car that permits you to experience something highly unusual.

Namely, the performance and luxury you look for—at a price you hardly dared hope for.

1984 Mazda 626 Sport Coupe

\$8645**

Standard features include 5-speed overdrive transmission (3-speed automatic optional) • Steel-belted radial tires • Rack-and-pinion steering • Power-assisted front disc brakes • Front and rear anti-sway bars • Electric rear window defroster • 60/40 split fold-down rear seatbacks • Full cut-pile carpeting • Quartz digital clock • Tilt steering wheel • Tachometer • Carpeted trunk.

Experienced drivers buckle up.

*EPA estimates for comparison. Your mileage may vary with trip length, speed and weather. Highway mileage will probably be less. **Manufacturer's suggested retail price. Actual price set by dealer. Taxes, license, freight, options (tires/al. wheels shown) and other dealer charges extra. Price may change without notice. Availability of vehicles with specific features may vary.

THE NOSEGUARD

continued from page 33

the same gaps to cover as the nose-guard," he says. "But we think he can do a better job of it by standing up three or four yards off the ball rather than getting down face to face with the center. We think it's easier to react that way."

When searching for a noseguard, a coach is looking for two things: he must have great quickness and he must be strong enough to battle one, two or three offensive linemen.

"The noseguard has to move and be into the center as soon as the ball moves," says a coach who uses the "50" defense. "That's the most important thing in teaching noseguard play: moving on the football. That's something you can develop to a degree, but it's mainly something you're born with."

"You want to move so quickly that the center would swear you're offsides. And many times the good ones are offsides because of that great anticipation. We really stress how important it is to move when the ball moves."

The noseguard is taught to move through the center's block instead of trying to go around him. "If you go around him," says a coach, "the center will just cut you off. We tell our kids that if the center moves left, then you've got to work that way."

It's tough on a center. He must worry first about getting off a good snap to the quarterback. Then comes the blocking part. All this happens in a fraction of a second, and it's a demanding situation.

"More and more I think we're seeing the best athletes on the offensive line at center because of all the good noseguards around," says a coach. "And if you can't handle the noseguard, you'll be in for a long day."

The most obvious problem a good noseguard could cause is poor exchanges from the center to the quarterback.

"If you've got a noseguard going into the center every play, you're going to create some mistakes," a coach says. "The center tries to move his hands a little quicker. He might not be concentrating as much on the exchange as he is on the guy in front of him. And the quarterback may be trying to get out of there a little quicker than normal."

"Even if you don't create fumbles, you might interrupt the exchange from the quarterback to a running back. It just destroys whatever cohesiveness an offensive might have."

Offense must make adjustments to handle dominant noseguards. "What we do," says one offensive coach, "is try to give the center as much help as possible. We'll use one guard, sometimes both guards if we have to, on the

noseguard."

The new scheme may block the noseguard, but it also leaves one-on-one blocking for the defensive tackles, which in turn makes them much more effective.

As one defensive coach bluntly puts it, "You can block my noseguard one-on-one and he'll eat your lunch. You can double-team my noseguard and my tackles will eat your lunch. Makes no difference to me."

If an offense does cook up a new blocking scheme to handle the noseguard, it may do more harm to the offense than good.

"Many teams have had malfunctions against us," a defensive coach says, "because they've had to change the things they'd been doing all season. The type of guy who can force a team to change what they normally do is the type of guy we're looking for to play noseguard."

No one can measure the effect a dominant noseguard has on the opposition during the week before a game, but one coach believes it would be surprising.

"Those players sit there all week, watching films of your noseguard just destroying a center," one coach says, "and they realize that 'Hey, this guy may force us into a lot of mistakes.' It works on their minds."

There are certain variations of the "50" that are frequently used. "Rarely do you see a team play a straight '50' for a whole game," says a coach. And that may change the responsibility of the noseguard.

What a team might do is run an "overshift" to the strong (or tight end) side, then shift the secondary to the weak (away from the tight end) side for run support there.

In the "overshift," the noseguard moves into the center-guard gap on the strong side. The tackle on the weak side moves down from head-up with the offensive tackle to directly over the guard.

One coach who uses the wide-tackle-six defense — a popular defense in years gone by, but employed by just a handful of teams these days — laughs when someone mentions the "50" overshift.

"All they're doing then," he says, "is running our defense. We take our 60-guard and put him in the guard-center gap, just like they do with the noseguard. It's the same thing. Then, every front player is responsible for just one gap. And most teams are better when they have their players in one-gap responsibility."

But some teams using the wide-tackle-six alignment convert to the "50" in certain situations.

"Sometimes, we'll move our guard from the center-guard gap to directly over the center, just like a noseguard, in passing situations," says one coach. "We feel like he gets a little better pass rush over the center than the guard because the center is worried about snapping the ball first, then blocking."

One coach compares finding a quality noseguard to finding a quality quarterback. "There just aren't many around," he says. "What we've always done is take our best defensive lineman and put him there. Everything in the '50' is structured around him. That's where the heart of the defense is. He's the cog."

"That's what we tell a guy when we put him there: 'Everything revolves around you. You set up the huddle. The others come to you. When the defense is called, you're the first one to the ball. And when the ball moves, you're the first one on defense to move.'"

And what the noseguard does on that initial move following each snap can determine who wins the game. ●

Contac keeps you going

McCadam & Co. Battle for Big Eight Title

by Bret Gilliland
Sports Information Student Asst.

This year's Cyclone men's swimmers could be in strong contention for the Big Eight title, according to Head Coach Bob Groseth, provided some talented newcomers mature quickly and help solidify the backstroke events.

Gone from last season's squad, which placed a surprising second in the conference meet, are five seniors. Included among the losses are middle distance freestyler Dave Symons, who was last year's Big Eight champion in the 500-yard free style, and the squad's top backstroker, Charlie Hugo. Groseth hopes these gaps can be filled by the development of an excellent recruiting class.

"We have a great freshman team coming in," said Groseth. "It's the best I've ever recruited. We're going to bring them along slowly, but as they develop we should get tougher."

The development of the new swimmers will be the key to the backstroke question, an event that Groseth feels will be important for the Cyclones. He will look to sophomore returnee Charlie Vanek along with newcomers Eric Hansen and Bill Pavlec for answers in this area. Hansen was the Iowa state champion in the 100-yard backstroke in 1984, while Pavlec was runner-up in the Illinois state meet in the same event.

In addition to the new talent, the Cyclones will return 15 letterwinners. Leading the returnees in 1984-85 is Big Eight Swimmer-of-the-Year, junior Scott McCadam. As a sophomore, McCadam won the 50, 100, and 200-yard freestyle events in record times at the conference meet. He advanced to the NCAA Championships and captured third in the 100-yard freestyle. Groseth expects big things from McCadam again this season.

"Scott is a veteran swimmer who knows the ropes," said Groseth. "He will undoubtedly be one of our team leaders."

In general, Groseth sees a need to balance the team's strength in the short freestyles with some improvement in the stroke events. Along with the emergence of team leaders, he feels this balance could give the Cyclones a shot at a Big Eight title.

Scott McCadam

"Our recruiting has put us in a head-to-head battle with Nebraska," said Groseth. "We are both strong in the same events and a winner could be decided at our peak for the Big Eight Championships," he said.

In addition to McCadam in the sprints, Groseth expects junior Tom Barron and sophomore Nick Hansen to lead in the breaststroke, while junior Jens Nielsen, senior Larry Lundgren, and sophomore Joe Murphy will handle the Cyclones' distance freestyle duties.

Barron was third in the 100-yard breaststroke in last season's Big Eight meet and Hansen was selected the Cyclone's Most Improved Swimmer in 1984. Nielsen placed second in the 1,650 freestyle and third in the 500 free-

Larry Lundgren

Jens Nielsen

style at the conference meet. Lundgren is a three-year letterwinner and Murphy placed in the 400 individual medley at the Big Eight meet as a freshman.

Iowa State also has three strong competitors in the diving events, led by senior Mark Spindler, who placed fifth in both the one and three-meter competitions at last year's Big Eight meet. Sophomore Jeff Johnson showed marked improvement on the three-meter board during the summer and is expected to do well for the squad this fall. The Cyclones will also benefit from the talents of incoming freshman Kurt Bendall, the 1984 Illinois state diving champ.

There's excitement on central campus, too!

Only 20 years ago the Iowa State Center and adjacent stadium were only dreams. Today visitors marvel at the magnificence of the facilities.

Now Iowa Staters have another dream. Attention is focused on the heart of the institution. And rising on central campus is an academic complex as distinctive and functional as the Iowa State Center.

Its first phase was the expanded Parks Library. Now the goal is to build a state-of-the-art Computation Center. Eventually a mathematical sciences building will join the nearby engineering and science facilities to create an unrivaled teaching and research complex.

A magnificent alumni leadership gift of \$3 million has set the Computation Center campaign pace. An additional \$7 million in gifts and pledges from alumni, friends, corporations and foundations is needed to turn this vital and visionary project into reality.

Your help is needed—as a personal or corporate donor, or as a source of information about other potential donors. Please contact us today.

Off-Season Conditioning Vital to Gridders

by Steve McLaughlin
Student Asst. Trainer

Football has progressed into more than just a fall sport. Not only are there spring drills, but also off-season conditioning programs. In fact, two different seasons of the year are devoted exclusively to conditioning. During the summer months, the players prepare for the fall season, while a winter program prepares them for spring drills.

Iowa State's conditioning program is conducted by Strength Coach Tom Wilson. Wilson is assisted by Head Athletic Trainer Frank Randall and his staff.

"We have four main goals with our conditioning program," said Wilson. "We attempt to increase strength, agility, speed and overall conditioning."

The program is designed so the athletes work out four days a week, according to Wilson. The athletes lift free weights, run sprints, do speed improvement drills and plyometrics (explosive leg power exercises).

The ISU weight room is equipped with a variety of weight exercises, but most are of the free weight nature. Wilson is an advocate of free weights for several reasons.

"There are a variety of advantages," said Wilson. "The players seem more motivated with free weights and you get more even body building. They also help improve balance and greater strength gains are realized over a faster period of time."

The programs for pre-fall and pre-spring are the same. The winter program starts after the players return from Christmas break, while the summer program starts around June 1.

Wilson said another very important part of the program is testing. This is where Randall and his staff get involved. All of the players are tested before and after each conditioning program.

"By testing we can evaluate our conditioning program and also check the athletes' progress," Wilson said.

Randall agreed that testing is the only way to find out how successful your conditioning program is. He added that

"Many coaches rely on won-loss records, which is probably the worst way to evaluate the player's conditioning."

Randall also said testing provides a means of predicting which players have the most potential for injury. With this information, individual weaknesses which could lead to injury can be corrected.

The testing routine covers all areas of physical fitness. Each athlete is tested in the weight room for strength. Other measurements taken are 40-yard dash times, agility run, vertical jump, leg power test, flexibility of the legs and arms, a twelve-minute run for endurance, and percent body fat measurements. Sophisticated timing devices are used for the 40-yard dash, leg power test and agility run.

Another test is performed on the Cybex machine. The Cybex gives a computerized read-out of the strength of the legs. The machine measures the power of the leg through a full range of motion, and can give trainers an approximate numerical figure of the difference on strength between a healthy leg and an injured one.

The computer is becoming more important in testing. As technology improves and more data is gathered, it will be easier to design a conditioning pro-

Sophomore defensive tackle Jay Nelson is tested in the vertical jump.

gram, according to Randall.

He said ISU is probably one of the leaders in testing and conditioning. Randall indicated that most school just time 40-yard dashes and agility runs.

Scott Benson, a sophomore from Omaha, Neb., was selected as the top weightlifter on the Cyclone squad last season.

YOUR WAY TO A WINNING ROAD TRIP.

Ozark serves more than 60 cities coast to coast. Our service to the St. Louis gateway can get you quickly on your way to dozens of other Ozark cities, too... Atlanta, Dallas-Ft. Worth, San Diego, Miami, Washington, D.C. and

Philadelphia among them.

So whether you're following the team or traveling on business, fly the way the Cyclones fly. Ozark turns road trips into winners.

Call your travel expert, or Ozark, for reservations.

 **OZARK FLIES YOUR WAY[®]**

#1 scores again.

CIMARRON '84 THIS ONE'S GOT THE TOUCH.

The Cadillac touch. It's Electronic Fuel Injection, matched by a tenacious Touring Suspension that comes to grips with the road. It's leather-faced front bucket seats with lumbar support behind a leather-trimmed steering wheel that lets you know you're in control. It's new grille and taillight styling. Laser-accurate quality fits. It's Cimarron '84...with something no other car in its class has. The Cadillac touch.

BEST OF ALL...IT'S A CADILLAC.

Let's Get It Together...Buckle Up.

Iowa State Salutes 1984

Junior Moses Kiyai competed in the long and triple jump.

Sophomore Danny Harris earned a silver in the men's 400 hurdles.

ISU graduate Bob Verbeeck ran in the 5,000 meters for Belgium.

It's touted as the "ultimate" in amateur athletics. It's an event where legends are born and dreams come true. And for five Iowa State athletes who worked years to perfect their talents, the 1984 Los Angeles Olympic Games proved to be the light at the end of the tunnel.

The five Cyclone Olympic track and field participants and the three medals that they earned highlighted one of the most successful track seasons in Iowa State history. Junior Nawal El Moutawakel, competing for Morocco, smashed the Olympic record in the women's 400-meter intermediate hurdles en route to the first gold medal in her nation's history. American Danny Harris, then just 18 years old, upset several of the world's best hurdlers in the men's 400-meter intermediate hurdles and earned a silver medal. Senior sprinter Sunday Uti ran on the Nigerian 4 x 400-meter relay squad which captured a bronze medal, and also qualified for the finals of the 400-meter dash. Moses Kiyai competed in both the long and triple jump for Kenya, while Bob Verbeeck ran in the 5,000 meters for Belgium.

El Moutawakel was unbeaten in the 400-meter hurdles during the collegiate season at ISU. She became the first woman in history to win the 400-meter hurdles "triple crown" with victories at the Texas, Kansas, and Drake Relays. In addition to her victory in the Los Angeles Olympics last summer, El Moutawakel captured the 400-meter hurdles titles at both the Big Eight Championships and the NCAA Championships. She also placed fourth in the NCAA 400-meter dash finals, and won three individual titles in the 1984 African Games (200 meters, 400 meters, 400-meter intermediate hurdles).

Harris entered the national limelight in impressive style last summer after a record-breaking spring. He broke his own junior world record in the 400-meter intermediate hurdles for the fourth time with a 48.02

Olympians

clocking at the Olympic Trials, finishing second to world record holder and defending Olympic champion Edwin Moses. He erased his own record of 48.81 which he established en route to an individual title at the NCAA Championships. Harris won the Big Eight's 300-yard dash at the 1984 indoor meet, and was selected meet MVP in the conference outdoor meet after winning the 400-meter intermediate hurdles and 400-meter dash in meet record times. He also claimed individual titles, and established meet records, at both the Texas and Drake Relays.

Last summer marked the second consecutive Olympiad for Uti, who ran on the Nigerian 4 x 400-meter relay unit as a 17-year-old in the 1980 Moscow Games. In addition to his third-place relay finish in 1984, he placed sixth in the finals of the 400-meter dash after being ranked fourth in the world during 1983. Uti is a six-time All-American and has finished as the NCAA runner-up at 400 meters three times. He upset the defending Olympic champion, Victor Merkin of the Soviet Union, winning the 400-meter title at the 1983 World University Games - one of the world's premier track events. During the Olympic 400-meter final, Uti ran a Big Eight and ISU all-time 400-meter best of 44.83. He also owns the Cyclone

Nawal El Moutawakel won a gold medal in the women's 400 hurdles.

mark in the 200-meter dash (20.6).

Kiyai competed in both the long jump and triple jump for the Kenyan team, but did not place. He won the long jump title at the Big Eight Outdoor Championships with a meet record 26-6 1/2 leap. That jump also broke his own Kenyan national record (26-0 1/4) that he established while winning the individual title at the Drake Relays. He finished second in the long jump at the Big Eight Indoor Championships, while capturing first place in the triple jump. Kiyai qualified for the long jump competition in both the NCAA Indoor and Outdoor Track and Field Championships.

Six-time All-American Sunday Uti won a bronze medal for Nigeria.

Verbeeck, who has completed his eligibility, owns all-time Big Eight marks in both the 1,000 meters (2:21.53) and the 2,000 meters (5:00.9). He also has four Iowa State and Iowa Intercollegiate records and was a five-time Big Eight Conference champion. He highlighted his great career at Iowa State by capturing an NCAA indoor title last winter in the 1,500-meter run. He also placed fifth in the mile run at the 1982 NCAA Indoor Championships, and won the 1,500-meter title at both the Texas and Drake Relays. He owns the distinction of being the first Iowa collegian to ever run a sub-four-minute mile.

The University of Oklahoma

The 93-year-old University of Oklahoma is a comprehensive university offering approximately 200 degree programs including professional degrees in law and medicine. It is located on 2,100 landscaped acres in Norman, with its health sciences programs centered on campuses in Oklahoma City and Tulsa.

The wide variety of offerings reveal academic strength in such areas as energy, engineering, the arts, meteorology, architecture and numerous other subjects. OU also houses the state's largest library, which has 2 million volumes and two world-renowned special collections: the History of Science Collections of many rare historical first edition works by famous scientists like Galileo, and the Western History Collection on the American West, including its famed congressional archives.

Almost 25,000 students from throughout Oklahoma, every state

in the union and 80 countries annually attend OU.

The students are enrolled in any of OU's 17 colleges—11 on the Norman campus and six at the Health Sciences Center in Oklahoma City.

Since its founding on Dec. 19, 1890, 17 years before Oklahoma became a state, OU has conferred more than 125,000 degrees. Among its graduates are former U.S. Speaker of the House Carl Albert; actors Dennis Weaver and Van Heflin; aerobics founder Kenneth Cooper; astronauts Owen Garriott and Shannon Lucid; oil exploration pioneer J. Clarence Karcher; gymnast Bart Conner; and Heisman Trophy winners Billy Vessels, Steve Owens and Billy Sims.

Ten men have served as OU presidents. President William Slater Banowsky has been OU's chief administrative officer since 1978 and has presided over an era of

active growth that included more than \$155 million in new construction, tripling of OU's permanent endowment, strengthening of admission standards and expansion of its library. OU also has embarked on construction of a \$45 million Energy Center that builds on OU's outstanding tradition in geology, geophysics, and petroleum engineering.

OU's school colors, selected around 1895, originally were crimson and corn—a color ranging from yellow to white depending on what merchants could obtain—but were later changed to crimson and cream because of the unreliable supply of the corn color.

The school mascot is the Sooner Schooner, a covered wagon pulled by white shetland ponies, which represents the spirited pioneers who settled the land and established a university that is a source of pride for all Oklahomans.

Cyclone All-Americans

Polly Wallace - Iowa State's first All-American...honored as an All-American center in 1920...in addition, Wallace was a three time All-Missouri Vally Conference selection at that position...captained the team in his final season, 1921.

* *

Ed Bock - ISU's first and only consensus All-American selection...chosen in 1938 as an All-American guard...two-time All-Big Six selection at the same position...the only Cyclone football player to be inducted into the National Football Hall of Fame...was the first ISU player to appear in a post-season all-star game, playing in the 1939 East-West Shrine game.

* *

Jim Doran - Honored as an All-American end in 1950...two-time all-Big Seven selection...caught 79 passes in three-year career, amassing 1,410 yards...holds ISU's mark for reception yards in a game, with 203 yards in the 1950 game with Oklahoma...appeared in the 1951 East-West Shrine game, and was first Cyclone to play in the

Hula Bowl...played professional football from 1951-1961 with the Detroit Lions and the Dallas Cowboys.

* *

Dwight Nichols - All-American tailback in 1959...Captain of the famed "Dirty Thirty" team of 1959...three-time all-Big Eight selection as a tailback...first Cyclone back to top the 2,000 yard rushing mark for a career, ending with 2,232 yards...also named to the 1959 Academic All-Conference team...first Cyclone to appear in three post-season all-star games, playing in the 1961 Hula Bowl, 1962 Blue-Gray Bowl, and the 1960 Optimist Bowl.

* *

Tom Watkins - All-American fullback in 1960...rushed for 1,605 yards in three year career...two-time all-Big Eight selection...named All-American following the 1960 season...played in the East-West Shrine game, the Hula Bowl, and the Lion's All-American Bowl...played pro football from 1961-1968 with the Cleveland Browns and Detroit Lions

Cyclone Football Trivia Test

1. Name the former coach who guided the Cyclones to their last bowl appearance.

2. Last season quarterback Dave Archer completed 29 passes against Kansas State, breaking the record for completions in a game. Whose record did he break?

3. Archer broke several Big Eight records last season including most yards total offense in a season. This record had been held by another Cyclone. Who?

4. Name the Cyclone great who was the first ever Iowa State All-American.

5. Name the former Cyclone all-Big Eight defensive lineman now playing with the Houston Oilers.

6. The Cyclones' second all-time leading scorer is a kicker. Name this kicker.

7. Who was the first Big Eight and Cyclone receiver to ever amass 1,000 reception yards in a single season?

8. Who is the only player to have his number retired at Iowa State? What was his number?

9. The largest home attendance ever at ISU was 54,066 people. Who was the opponent and what year was the record set?

10. A former Cyclone fullback holds a Big Eight record for most receptions ever in a season by a back. Name this fullback.

11. Name the former Cyclone running back who is first in career points scored, career touchdowns and career rushing yards at ISU.

12. The Cyclones' first ever bowl appearance was in 1971. Name the coach of that team and the bowl.

13. The largest crowd ever to see the Cyclones play was 90,201. Where was this game?

14. A former Cyclone coach is enshrined in the National Football Hall of Fame. Name this coach.

15. A former Cyclone player led the Big Eight in unassisted tackles in 1982. Who was this player?

16. Only one former Cyclone great ever played in the World Football League. Name that player.

17. Last year Jim Criner was the first coach in 52 seasons (10 coaches) to win at least four games in his first season. Name the last coach to accomplish this.

18. Who was the first Iowa State player to receive Coach Criner's Red Helmet Award last season?

19. Which of these Cyclone kickers holds the record for most career field goals, Tom Goedjen or Alex Giffords?

20. Name the former Cyclone with the most ISU career interceptions.

1. Earle Bruce
2. his own (1983)
3. George Amundson
4. Polly Wallace (1920)
5. Mike Stensrud
6. Alex Giffords
7. Tracy Henderson
8. Mike Cox (62-63-64), number 30
9. Iowa (1983)
10. Jason Jacobs
11. Dexter Green
12. John Majors, Sun Bowl
13. Knoxville, Tenn. University of Tennessee (1982)
14. Glenn (Pop) Warner
15. Chris Washington
16. Ike Harris
17. George Veenker (1931)
18. Chuck Meyers
19. Giffords (43)
20. Barry Hill (21)

ANSWERS

PONTIAC FIERO

**BURSTS ON
THE SCENE TO
RAVE REVIEWS!**

From the moment the hot new mid-engine Fiero hit America's streets, it became the driving sensation of the year. And the automotive critics agree:

"The Fiero 2M4 is a thrill to look at, a joy to ride in, and a ball to drive." — CAR AND DRIVER September 1983

Fiero features fully-independent suspension, rack and pinion steering and power four-wheel disc brakes, all standard. But Fiero excitement isn't limited to the way it drives:

"The Fiero has its own brand of fresh technology: a space frame machined to tolerances normally reserved for engines and transmissions." — MOTOR TREND September 1983

The Fiero space frame is "milled and drilled" for precise fit of the Enduraflex™ body panels, which resist minor dents and will never rust. And what about Fiero's bottom line?

"We welcome its addition to the ranks of affordable machines for enthusiast drivers." —

ROAD & TRACK September 1983

Fiero prices start at just \$7,999* Even at \$8,499* (Fiero Sport Coupe shown), Fiero takes its rightful place among the great cars of the world. The mid-engine Pontiac Fiero: practical, durable, economical* and flat-out exciting — only from Pontiac!

*Manufacturer's Suggested Retail Price including dealer prep. Taxes, license, destination charges and optional equipment additional. Fiero Sport Coupe (shown), with WS6 pert. pkg. — \$463 additional.

*Pontiac Fiero Sport Coupe offers an EPA EST MPG of 26; and a highway estimate of 40. Use estimated MPG for comparisons. Your mileage may differ depending on speed, distance, weather. Actual highway mileage lower.

Some Pontiacs are equipped with engines produced by other GM divisions, subsidiaries or affiliated companies worldwide. See your Pontiac dealer for details.

S-211

THERE'S NEW FIRE AT FIRESTONE.

So you think college football is a rough, tough game? You're right, it certainly is, but how about all those athletes who played the great American game during the first 70 years — the "60-minute men."

Now that was really rough and tough football and it challenged an athlete's

60 THE -MINUTE MEN

stamina as much as his skills. The college football players of the "good ol' days" played both offense and defense and were in the game from the opening kickoff to the final gun.

Unlike the game today in which 11 fresh players trot onto the field whenever the ball goes from one team to the other, football in the old days was played with just 11 men.

For most of college football's 115 years, the "60-minute men" dominated the sport, and it wasn't until 1941, when the free-substitution rule was adopted, that there were full units of specialists for offense and defense.

It was a mark of courage, toughness and durability to play the entire game in the old days and the entire game actually was 90 minutes instead of 60 because the halves were 45 minutes, not 30.

Substitutions were rare (most often there were just 15 players on a team — 11 regulars and four substitutes) and a substitute could only enter the game when there was an injury.

On occasion, however, a tiring player would be asked by his coach or captain to feign an injury in order to get a fresh player in the lineup.

Force was the name of the game and the flying wedge was one of the most popular plays.

One wonders how long college football would have survived as a college sport had not President Theodore Roosevelt intervened in the early 1900s in the interests of safety and less brutal play.

The story is told that Roosevelt reacted in rage after seeing a photograph of an injured Swarthmore player who had been the object of some particularly rough play on the part of Pennsylvania.

The sight of Bob Maxwell staggering off the field caused Roosevelt to issue an ultimatum to the football fathers of the day:

"Clean up the game or it'll be banned by presidential edict."

by **Wayne DeNeff**,
The Ann Arbor News

Led by Walter Camp, often called "The Father of Football," the college football people reacted quickly to Roosevelt's demand.

Here are some of the changes instituted:

- Forward passing was legalized, making the game more a game of skill.
- Mass interference plays were eliminated.
- A neutral zone was established at the line of scrimmage.
- The yardage for a first down was increased from five yards to 10 yards.

So the game started to change from a pushing and shoving match to a game of skills in which a knack for throwing and catching the ball was as important as wrestling an opponent in a mass of bodies.

And legalization of the forward pass created the glamour boy of football — the quarterback.

Who were some of the great 60-minute football players?

Almost every outstanding football player from the birth of the game in 1869 to the free-substitution rule of 1941—Walter Camp, Pudge Heffelfinger, Knute Rockne, Red Grange, Jim Thorpe, Bronco Nagurski, Ernie Nevers, Alonzo Stagg, Frank Hinkey, Willie Heston, Chic Harley, and the list could go on and on.

The rules makers added three little words that made all the difference in the world:

A substitute could enter the game "at any time."

Previously, a player could not re-enter the game during the period in which he had left.

There are times in athletics when an innocent rule revision results in revolutionary changes of the sport itself. All it takes is some ingenuity on the part of the coaches.

And ingenuity, plus necessity, was

there on Oct. 13, 1945, when the era of "60-minute man" finally came to an end.

On that date, Michigan was scheduled to play one of the greatest Army teams of all time, led by Mr. Inside and Mr. Outside, Glenn Davis and Doc Blanchard.

It was during World War II. Some of the Army players were 22 and 23 years

old, while Michigan Coach Fritz Crisler was fielding a team of 17- and 18-year-old freshmen. Most of the older players had been drafted into military service.

The week of the game, New York sportswriters were calling Crisler's team "The Fuzz Kids" and the Cadets were solid five-touchdown favorites.

Crisler figured there was no way he was going to defeat Army with his best 11 against Army's best 11, but his idea, developed during a week of practice, was to have one Michigan unit for offense and one unit for defense.

It marked the beginning of two-platoon football.

Instead of 11 against 11, it would be something like 22 Wolverines against 11 Cadets.

"When you have a dime and the other guy has \$1,000," said Crisler, "it's time to gamble."

The 70,000 spectators in Yankee Stadium on that mid-October day looked on in amazement as a whole new group of Wolverines entered the game when Michigan took over the ball, and another new group entered when the Wolverines went on defense.

Army scored the first two touchdowns to take a 14-0 lead but the college football world was shocked when Michigan became the first team to score on Army that season and the lead was trimmed to 14-7.

The harried Cadets finally scored twice in the fourth quarter for a 28-7 victory, but Michigan's amazing Wolverines were the talk of college football that fall.

Crisler's phone was ringing off the hook the rest of that season as coaches and sportswriters sought more information on the revolutionary way of playing the game.

"Our only hope was to keep fresh players in the game and play our best tacklers on one unit and our best runners and blockers on the other unit," said Crisler.

On that day the "60-minute man" had passed into oblivion.

How to move with and take your modern times PC with you.

Meet the IBM *Portable* Personal Computer.

It's a complete PC. In a case. With a handle. And a welcome addition to the family.

The IBM *Portable* Personal Computer is the first IBM PC system you can pick up and take with you. Across town or across the hall. Or put away easily for another day.

It's a powerful system, with 256 KB of user memory (expandable to 512 KB) and a slimline double-sided 5¼" diskette drive (and room for another). Plus a built-in

9" monitor with easy-to-read amber characters. Text and graphics capability. And an 83-key keyboard.

All fitted into a sturdy, transportable case that's easy to handle. And park.

The IBM[®] of portable personal computers. Make no mistake about it, this is a true IBM PC.

Which means it is part of the same dependable family as the IBM Personal Computer, the IBM PC/XT and the IBM PCjr. And that means you can use many IBM Personal Computer Software

programs to help you reach your goals.

All this and five expansion slots, ready to accept expanded memory, printers and other useful IBM Personal Computer options. Which should keep you rolling far into the future.

Pick one up at a store near you. You can see the IBM *Portable* Personal Computer at any authorized dealer or IBM Product Center.

To find the store nearest you, call 1-800-447-4700. In Alaska or Hawaii, call 1-800-447-0890.

IBM[®]

Michigan went to the first Rose Bowl in 1902, vs. Stanford.

FAMOUS FIRSTS IN FOOTBALL

— The first time a football with a rubber covering was used in a major college game was on October 13, 1951, at Grant Field in Atlanta, Georgia. Georgia Tech beat Louisiana State 25-7 in that game.

— The first football book was *American Football*, written by Walter "Father of American Football" Camp in 1891. It contained 175 pages with 31 portraits.

— The first football club was the Oneida Football Club, organized in 1862 at Epes Sargent Dixwell's School in Boston, Massachusetts. Members played all challengers from 1862-65. The club was never defeated and its goal line was never crossed.

— The first intercollegiate football association was the Intercollegiate Football Association organized in Springfield, Massachusetts, with Columbia, Harvard and Princeton as its charter members (Rutgers and Yale joined later). The Association standardized the number of men on the field—15—and the area of the field—140 by 70 yards.

— The first football dummy used for tackling practice was designed by Coach Amos Alonzo Stagg at Yale in the fall of 1889. He used an old gymnasium mat.

— The first all-star football game was organized by Chicago Tribune Charities, Inc., a non-profit organization, and was played on August 31, 1934 at Soldier Field, Chicago. The Chicago Bears, coached by George Halas, played the College All-Stars, coached by Noble Kizer of Purdue. The score was 0-0.

— The first Army-Navy game was played on November 29, 1890 at West Point, New York. Navy beat Army, 24-0.

— The first football game to be played at night occurred on September 29, 1892 at the Mansfield Fair, Pennsylvania. The opponents, Mansfield Teachers College and Wyoming Seminary, played under 20 electric lights of 2,000 candlepower. Neither team scored in the game, which lasted 70 minutes and consisted of only one half.

— The first college football game played in the United States and broadcast by radio in England involved Yale and Harvard. Harvard won, 13-0.

— The first game to attract 100,000 fans was played at Memorial Stadium at the University of California, Berkeley on Novem-

ber 22, 1924. Both the Bears and Stanford were undefeated coming into the game, which ended in a 20-20 score. The stadium held 76,000, while 24,000 more fans watched from "Tight Wad" hill near the stadium.

— The first indoor college game pitted Springfield Massachusetts Young Men's Christian Association against the Yale Consolidated Team, which included five Yale varsity players. It was played at the end of the 1891 season as part of a three-day winter carnival at Madison Square Garden, New York. The score was 16-10 in Yale's favor.

— The first intercollegiate football championship was won in the fall of 1876 by Yale, which played and beat Columbia, Harvard and Princeton.

— The first international college football game was played on December 6, 1873 at New Haven, Connecticut. Yale beat Eton, England two goals to one.

— The first goal post was used in a game between McGill University of Canada and Harvard, at Cambridge, Massachusetts, on May 14, 1874. Also at that game, admission was charged for the first time at a college sports event. (The proceeds were used to entertain the McGill team.)

— The first player to score 50 points in one game was Clark Hinkle of Bucknell University, Pennsylvania on November 28, 1929 vs. Dickinson College, Pennsylvania. Hinkle made eight touchdowns and two extra points. Bucknell won, 78-0.

— The first team to score more than 750 points in a season was Harvard, in 1886. The team made 765 points in 14 games; it won 12, lost two.

— The first midwestern team to play on the Pacific Coast was the University of Chicago, on December 25, 1884 vs. Stanford. The score was 24-4, Chicago.

— The first Rose Bowl game was played in 1902, matching up Michigan and Stanford.

— The first time two teams wore uniforms was on November 13, 1875 at a New Haven, Connecticut game between Yale and Harvard.

— The first time uniform numbers were worn was on December 5, 1880. The teams were the University of Pittsburgh and Washington & Jefferson University.

GET A PART-TIME JOB IN OUR BODY SHOP.

It feels great to work your body into top condition. To push it to the limit. And then exceed it.

But it takes training. To get fit. And to stay fit. And the Army National Guard will give you that training. And we'll give you the incentives to keep working at it. Incentives like a good paycheck, new skills, college tuition assistance, and many other valuable benefits.

In the Guard, you'll train to keep your body in condition while you practice your military skills. You'll be doing something good for yourself, your community and your country. Start shaping your future today by giving us one weekend a month and two weeks a year. **Call your local Army Guard recruiter or call toll-free 800-638-7600.***

You Can Call Me SID

by John Mooney,
Salt Lake Tribune

To paraphrase that comic monologue ("You can call me Ray and you can call me Bill"), the routine of the Sports Information Director might begin, "You can call me SID, and you can call me Anytime!"

What does the SID do?

Rick Brewer of the University of North Carolina answers, "Of course, the thing the SID does more than anything else is get interrupted. That may be the SID's main function—handle interruptions."

continued

TODAY BELONGS TO JIM BEAM.

KENTUCKY STRAIGHT BOURBON WHISKEY. 80 PROOF. DISTILLED AND BOTTLED BY JAMES B. BEAM DISTILLING CO., CLERMONT, BEAM, KY.

You Can Call Me SID

continued

And Will Perry, a former SID who is now assistant athletic director at Michigan, answers, "Anything the athletic director wants him to do. Don Canham had more ideas than I had arms and legs. We launched vast marketing, direct mail and advertising programs out of the SID office in 1968 (before there were promotion and marketing directors in athletic departments). Canham once told CoSIDA (College Sports Information Directors of America) years ago, 'make yourself valuable to the department or they are going to hire someone to do the job that you can do.' That's exactly what happened."

In answer to the question, Hal Bateman, the SID at the U.S. Air Force Academy, sent a job summation written by an anonymous SID:

The Sports Information Director

"He's a phenom; a mental and physical marvel. He must be able to eat like Hoss Cartwright, drink like Dean Martin, write like Grantland Rice and have Bill Toomey's stamina. El SID must be as suave as Cary Grant, as unshakable as John Wayne and as cool-headed as James Bond..."

"The Sports Publicity Man finishes his duties at midnight and no one sees him stumbling down the steps in the dark, a typewriter under one arm, ditto machine under the other, brief case in his teeth and throbbing pain in his head... So if it looks like a job for Superman, it is."

However, Mark D. Colone of the University of North Carolina-Charlotte offers another viewpoint: "When I first walked into Marty Rasnake's office as a freshman I didn't know what a SID was. That's how unnoticed our profession is. I accepted a very small scholarship and began my life in this rewarding profession. My first job entailed the simple job of shagging errant soccer balls as they went out of bounds. And I went expecting to be the official scorer! I got that job after the game and my career took off! I'm now the youngest SID in Division I in the country."

One of the veterans, Bill Whitmore of Rice, a CoSIDA past president who retired this summer, offered this philosophy: "At least they let us in the game free and give us a good seat and a meal."

What does the SID do?

Maxey Parrish of Baylor answers: "The question might be better posed, 'What does the SID NOT do?' Sometimes when I look at what I do and what it takes to do my job well, it's almost scary."

"Between press releases, statistics,

brochures, media guides, recruiting material, posters, newsletters, hosting events, travel to other events and generally being the athletic department's representative to the public and the media, the different duties pile up. But the bottom line, in addition to doing all the things normally associated with a SID, is to be accessible and helpful. A SID can have lots of faults but lack of accessibility CANNOT be one of them."

"The increase in electronic media coverage has made my job more difficult now after 17 years in the business," Bateman of the Air Force submits. "This really has spread the SID very thin since the print and electronic boys constantly are vying for the SID's attention, which puts you in a difficult situation."

George Wine, SID at the University of Iowa, raises a point on a tough facet of the job: "At some schools the SID is to service the coaches, not the media. Fortunately, I have always been able to convince my bosses that I am an information person first and a publicist second. The campus phone book one year listed me as 'Sports Informant' which sounds a little like Watergate's 'Deep Throat.' But that's the toughest part of the SID job."

Johnny (Ranger) Keith, formerly of Oklahoma U. and now at New Mexico, agrees, adding, "Coaches think you are solely a promoter of their athletes. Maybe so, in a small way. But the title Sports Information Director means to me you're a news service more than a promotional tool."

"Probably the most important phase of the job," Keith adds, "is serving as a liaison between coaches, athletes, staff and the media, solving their differences, explaining to one party why the other does this or that, and getting the parties together when necessary."

"A sports information director who goes home at 5 p.m. isn't doing his job. If I came home at 5 p.m. my wife would shoot me for breaking and entering," Keith added.

David Housel of Auburn agrees, contributing, "Too many SID's are afraid of losing their jobs. The good SID must act as the middleman and he continually walks a tight rope between the media and the coach, defending the coach when necessary. He must not be afraid to tell a coach he is wrong. He — the SID — is a paid professional and he is just as important in his area of expertise as coaches are in their areas."

Not all SID's have this problem. Mike Treps of Oklahoma is a lucky one. "We are fortunate in that our coaches do not believe in closed practices or locker

rooms, so there is little trouble getting anyone you need. The fact you can promise a writer or broadcaster he or she can have access to the coach or athlete of their choice without having to contact the coach or athlete is a big help in my job."

Interviews, especially with a great star, can pose problems, as Claude Felton of Georgia reminds in the case of Herschel Walker.

"In Herschel's freshman year, we were receiving 12-15 interview requests a day, from all over the country, and 95 percent of them were for in-person interviews. Time was a premium, but one writer from San Francisco flew to Atlanta, drove 65 miles to Athens, talked to Herschel for 20 minutes and flew back home," Felton marveled.

It's the unusual which makes the SID job interesting, or heart-breaking.

Jim Garner, now athletic director at Appalachian State but formerly SID at Texas Christian, admits, "My most memorable moments deal with tragedy. In 1971, our head football coach, Jim Pittman, died on the sidelines of a heart attack during a game at Waco; in the spring of 1972, his replacement, Billy Tohill, had a terrible auto accident and had a foot amputated, and in 1974 halfback Kent Waldrep suffered a paralyzing injury in a game against Alabama. In each case, handling the media called for special tact."

Mike Wilson of Washington remembers a not-so-tragic incident involving Bob Murphy of Stanford.

"While there are many stories of coaches leaving the SID's at the airport, Murphy did one better," Mike contributes. "In the days before hijackings, it was not uncommon for the SID to drive his car loaded with media people right on the runway, unload and have the airline people turn the car in to the rental agency at the airport. That's exactly what Murphy did, and it wasn't until the plane was 10,000 feet off the ground he realized he still had the rental car keys in his pocket. He never heard how they got that car off the runway."

But maybe the biggest crisis was faced by Marv Homan of Ohio State, who reminds: "I was an assistant in the mid-'50s and the Big Ten Skywriters were making their visit to Columbus. As I was greeting the writers as they left the bus for our practice, some of the early departures were coming back. Coach Woody Hayes had barred the gates for the press. Eventually, Woody left practice and talked to the writers, but the reception was short of cordial."

continued

You Can Call ME SID

continued

Nick Vista of Michigan State still shudders over one of his embarrassing moments.

"It was Michigan State-Ohio State on national TV in 1972 when I was assistant to Fred Stabley," Nick shuddered. "For the first time in my career, I didn't check the uniform numbers. We launch a drive and I'm on the lower photo deck when it appears our drive is stalled and we'll kick a field goal. I spot a No. 5 warming up and I suddenly realize we don't have a No. 5 on the roster. Much to my horror, I realize it's a soccer player of Dutch descent brought up by Duffy late in the week from the junior varsity. His name is Dirk Kryt. I knew I had the J.V. roster in my brief case, but by the time I got there Dirk had booted a 23-yard field goal, the first of four he was to kick that afternoon.

"We finally got the word to everyone who the kicker was, but we didn't have the name spelled right nor did we pronounce it correctly. Keith Jackson never lets me forget that error."

Publicity men get blamed for many things, but Haywood Harris of Tennessee takes the prize.

"It was my duty to see the bus was at the airport when the team arrived on Friday afternoon," he admits. "But when the team was aboard, the bus wouldn't start. The driver gave the coach the bad news the fan belt was broken.

"The coach yelled, 'Hey, Haywood, didn't you check the fan belt?' and the only retort I could make was a weak, 'Well, coach, it was working last time I looked.'"

Jack Zane of Maryland won't forget the night the lights went out in Virginia, either.

"When I was at George Washington, we played a few games in Alexandria and Arlington, Va.," he prompted. "We were playing The Citadel and had the papers all on Saturday night deadlines. The moment the 12,000 fans left the stadium, all the lights were turned off. The stadium manager informed me we had rented the stadium for the game and the game was over. It took a little cash to get the lights on for the press box.

"The Oyster Bowl stadium in Norfolk had the Telex machines on the ground floor and the press stories were sent down by pneumatic tubes. I went to the Western Union with some special instructions, only to find no copy had come down the tubes, the containers being stuck between floors. Everyone had to start writing all over."

Ralph Carpenter, of Texas A & M, but then of Texas Tech, remembers a smashing experience, "The athletic di-

Among the myriad duties of a sports information director, having the press box ready for the press corps is just one.

rector and I were planning to take a plane from Lubbock to Dallas and as usual, we were late starting. In haste to get his bags in the car, I left my suitcase right behind the rear wheel and when we backed out... Well, you should see me walking through the lobby with my Fruit of the Loom undies hanging out of the battered bag."

Will Perry recalled the time the county health inspector closed all the concessions in the Michigan stadium, including the stand which sent the box lunches for the writers in the press box. He also mentions the case of the missing pencil sharpener in the press box.

"Everything was in order, until Joe Falls from the Free Press complained about the lack of a pencil sharpener, and sure enough, someone had stolen it, just as someone had from my predecessor, Les Etter, years before," Will recalled.

There are many stories of the SID facing a frozen mimeograph machine, but legend says it was Wilbur Snyppe of Ohio State who solved the problem by pouring a fifth of vodka into the frozen ink well and everything came out fine.

Butch Henry of Arizona and formerly at Arkansas points out the hardships of a family-man SID.

"Our first child was born on a Saturday in October. My wife came out of the delivery room, we named the child and I caught the plane for Dayton and

walked into the press box as they were playing the National Anthem. Our second child was born on the last day of the Arkansas Relays.

"My wife called the press box to say she was ready to go to the hospital. Soon as the prelims of the mile relay were over I rushed home, took her to the hospital and told her, 'Hang on until the mile relay finals are over.'"

"Sure enough, I saw the winning team break the tape and still made it to the delivery room on time. Maybe this is why we have only two children," Butch laughed.

Maybe the best answer to "What does the SID do?" was supplied by Rich Brewer: "I got a phone call from a guy in Norfolk who told me he was interested in replacing me at Carolina and wanted to know who he should contact about it. He was quite serious and said he was tired of his job and liked Chapel Hill.

"Then he asked the key question: 'What exactly do you do?' I couldn't answer him then and I can't now."

Vista, also a former CoSIDA president, sums it up: "Write what you want, but please remember that we couldn't be in a more exciting or rewarding business. Working with the thousands of fine student-athletes over the years and meeting the hundreds of media folks has been something. We may not get our glory, or our pay, or even our just return, but kicks we do get to boot." ●

Easy come, easy go.

With FALS One-Stop System it's never been easier to lease a new Ford.

If you're interested in leasing a new car or truck look at FALS, Ford Authorized Leasing System. Just one stop at your local FALS dealer can put you in the driver's seat of a new Ford car or truck because your vehicle, taxes, insurance, even road service can be handled at one convenient location.

The service.

FALS also offers the

optional and convenient protection of Ford's Extended Service Plan which can be included in your monthly lease payments. This program insures you against future high repair bills. And, if your car should need service, your FALS dealer's Ford-trained professionals have the experience and quality replacement parts to get the job done right. And since our service network

is nationwide, you can count on excellent service no matter where you are.

The vehicles.

When you lease through FALS, you're not limited to a few special models or certain option packages. You can choose any one of many high quality Ford cars or trucks. From the versatile Ford Escort to the sophisticated Thunderbird to the hard working F-series pickups, your FALS dealer has a vehicle to fit your needs.

The quality.

When we say "Quality is Job 1" it's more than just

a slogan, it's a commitment. A commitment to integrity and quality in both the design and manufacture of every new Ford car and truck. So check the yellow pages for your nearest Ford Authorized Leasing System dealer. In just one stop, he'll show you just how easy the going can be.

Have you driven a Ford... lately?

EASTERN COLLEGE ATHLETIC CONFERENCE

THE ROLE OF THE CONFERENCE COMMISSIONER

BIG SKY CONFERENCE

SOUTHWEST ATHLETIC CONFERENCE

LONE STAR CONFERENCE

ATLANTIC COAST CONFERENCE

CENTRAL COLLEGIATE CONFERENCE

by Ron Maly,
Des Moines Register

If the assignment was to write a classified ad for the job of commissioner of an athletic conference, the listing might go something like this:

WANTED: Intelligent, mature person for commissioner. Must be skilled in public relations, dealing with people, rules interpretation and eligibility. Should have a thorough knowledge of the television industry. Law back-

ground helpful. Those who are fans of a particular team need not apply. Should be prepared to work long hours, seven-day week possible. Be on call at all hours. Salary open.

Yes, it takes a talented, well-rounded, thick-skinned person to be a conference commissioner these days. Gone is the time when someone who had been a coach or athletic director was simply

CONFERENCE COMMISSIONER

continued

"kicked upstairs" and could be a good ol' boy commissioner who showed up every Saturday in the fall at a different football stadium and at the conference meeting in the spring.

"I was the youngest commissioner in the nation when I started in the Big Eight Conference at age 34," says Wayne Duke of the Big Ten. "I thought I knew all the answers, but found out I didn't know half the questions."

Managing and maintaining peace in a conference is often rewarding, often frustrating in the ever-changing world of collegiate athletics. Indeed, because so many decisions are made in the courtroom these days, a law degree might be helpful. And with television's megabucks being such an integral part of the sports scene, a commissioner had better know about such things as ratings, markets and contracts, and be on a first-name basis with network executives.

"The role of commissioner has expanded considerably in recent years," says Dick Martin of the Missouri Valley Conference. "A commissioner must be involved with TV, promotion and marketing much more now. Frankly, much of my time is spent on TV."

"Then there are such things as eligibility and enforcement, which are very important. There are more issues today, such as financial pressures on institutions."

Martin served in various athletic capacities to prepare himself to be a commissioner. He was a high school and college football coach, a college athletic director and was a Big Eight administrator.

Duke didn't coach and wasn't an athletic director, but came from a public relations background to work for the National Collegiate Athletic Association

Patty Viverito
Commissioner — Gateway Collegiate Athletic Conference

Dick Martin
Commissioner
Missouri Valley Conference

tion and was commissioner of the Big Eight before going to the Big Ten.

One thing Duke, or any other commissioner, can't be is a fan.

"I'm not an Iowa Hawkeye, a Michigan Wolverine or a Wisconsin Badger," says Duke. "I'm all those people. Everyone must realize that what a commissioner does is for the common good."

"I actually consider myself a very private person, but as commissioner of the

Big Ten I feel I'm working in a fishbowl. We're sitting in a very large geographical base, which means we have a large number of followers, as well as some critics.

"Even though I'm a sensitive person, I can accept the criticism of people if they know what we as a conference are doing is for the good of all 10 teams."

Duke feels commissioners are often given too much credit when something good happens and too much blame when something not so good happens.

"We have a lot of influence at such things as NCAA meetings, but have different roles," Duke commented. "I hope people respect me for what I say. But I feel I don't carry any more weight than the commissioner of any other conference."

Duke is in charge of a conference office that employs 18 persons. The Big Ten, with its lucrative Rose bowl contract and its ability to put an unusual number of teams in other bowl games and national basketball tournaments, is viewed with envy around the country.

Although Duke won't say so, much of the reason the Big Ten has fared so well in those areas is because of him and his years of experience in working with influential persons at the national level.

By the same token, there also may be a "backlash" effect in other leagues because of the success the Big Ten has

continued

CONFERENCE COMMISSIONER

continued

had.

"I know my job is much more complex than it was years ago," said Duke. "In the old days, a football man might be moved upstairs to the conference office to assign officials for games, and that was about all there was to his job."

Fred Jacoby was commissioner of the Mid-American Conference from 1971-82, and has been in charge of the Southwest Conference ever since.

"My feeling is that a conference office has two functions—service and regulation," says Jacoby, who adds that his job is "on my mind seven days a week."

Jacoby wishes he had more time to digest all the things there are to read in regard to his job. He spends a considerable amount of time talking on the telephone about rules and the interpretation of them. Every night he takes home a briefcase filled with materials he hasn't had time to deal with in his office.

"We have nine men's sports and eight women's sports in the Southwest Conference," Jacoby said, "and financing is a very big item. We make money from football, TV, the conference post-season basketball tournament and a little from baseball in men's sports, but the women have no sports in which receipts exceed expenses."

Because Jacoby spent many years as a coach, he admits having a "sensitivity to coaches and the recruiting process. It would help to have a law background so you could understand the legal process," he said. "The job is more difficult than it was in the 1970s because of so many legal matters."

"But I think those of us who have a background in coaching have an advantage in being a commissioner. I can relate to the coach's position."

Jacoby said the most dramatic change in the commissioner's job has been the growth of women's programs. He feels there are more rewards than frustrations on the job "because there's so much variety."

Variety is something Tom Hansen of the Pac-10 is used to. Hansen, who has been executive director of the Pac-10 since August of 1983, spent 15 years on the staff of the National Collegiate Athletic Association (NCAA) where he was involved in all facets of the administration of intercollegiate athletics. As

Fred Jacoby
Commissioner —
Southwest Conference

head of the NCAA Communication Department he directed, among other things, all the Association's activities in public relations and marketing.

Hansen's appointment at the Pac-10 is a kind of "coming home," since he spent six years in the 1960s as director of public relations for the Athletic Association of Western Universities — the forerunner of the Pacific-10 Conference.

"I have found that being executive director or commissioner of a major conference is one of the most challenging and invigorating positions in the world of athletic administration," said Hansen. "The primary charge is to provide service and leadership to the member institutions of the conference. But there are many publics to be served. While we are primarily concerned with the administration of athletic programs, it must be remembered that these programs fall within the larger context of higher education, in the case of the Pac-10 some of the country's foremost institutions of higher learning. You also are operating in the very real world of business, and in this day and age, a solid grasp of both fiscal and legal matters are a necessity. All of this is

done under the glare of considerable attention. In short, you wear many hats."

Steve Hatchell, commissioner of the Metropolitan Intercollegiate Athletic Conference, commonly called the Metro, would like to be a fan, but knows he can't.

"You go to a game and cheer for the guys wearing the black and white shirts—the officials," said Hatchell. "You hope they make all the right calls."

The Metro is primarily a basketball conference, but all the schools play football on an independent basis. In a way, it surprised Hatchell that he was picked for the job last year.

"At my age (36), I didn't think there would be much opportunity to be a commissioner," said Hatchell, who was in the Big Eight office at the time. "But the Metro expressed an interest in me, and I pursued the job."

Patty Viverito took office as the first commissioner of the women's Gateway Collegiate Athletic Conference two years ago, and calls it a "fun job — the most rewarding I've ever had."

Viverito studied marketing in college, worked as a sales representative, went back to college to study sports management and calls herself a "frustrated jock."

"You serve as a mediator," she says. "We have 10 schools and nine sports. At national meetings, women are starting to be noticed. When those running the meetings see five or six skirts in the room, they say, 'Well, now, how will this ruling concern women?' It used to be that women weren't really heard from."

The biggest change for Lou McCullough, commissioner of the Trans-America Conference — primarily a basketball league — is that now he is responsible for 10 teams instead of one. Before going to the Trans-America, he was the athletic director at Iowa State.

"We're a small conference," said McCullough, "and money is our big problem."

Ken Free is commissioner of the Mid-eastern Athletic Conference. He thinks commissioners must be marketing experts more than in the past. "You have to be a super-salesman," Free said, "in order to bring in the needed revenue."

Free said much of his job entails "making sure our schools play by the rules and continue in the pursuit of excellence."

"HOW BIC DOES IT FOR 20¢ BEATS ME."

John McEnroe doesn't hand out compliments easily. But the extraordinary ability of a 20¢ BIC to shave this smooth, close and comfortably left him momentarily speechless. And that's not easy to do.

 **THE SHAVE THAT SAVES.**

*20¢ per shaver

THE MAXWELL AWARD

Founded 1937

Founded in 1937, the primary goal of the Maxwell Football Club has never changed. That goal is to foster and promote the game of football in the name of Robert "Tiny" Maxwell, a man whose many qualities as an All-America football player (University of Chicago, 1902; Swarthmore, 1904-05), a respected and dedicated football official, and as a noted sports editor and humorist endeared him to football fans throughout the country.

The Maxwell Club organizes numerous activities annually to enhance the sport of football. These activities include sponsorship of an athletic injury clinic for area coaches and trainers, as well as financial support for sports medicine clinics at the University of Pennsylvania and Temple

University.

Perhaps the Maxwell Club's most important function is the financing, through membership fees and donations, of an awards program which is conducted during the football season. Weekly luncheons honor outstanding high school and college athletes and provide a public forum for local fans and speakers of national note.

The Maxwell Club has also given financial support to the Philadelphia City All-Star Football Game, the Philadelphia Eagles "Fly for Leukemia" campaign and to national studies on protective equipment; specifically, studies concerning improvement of football shoes and helmets.

Each year the Maxwell Club presents the Maxwell Trophy to the nation's out-

standing college player. The selection process begins with a nominating ballot which is sent to members, media representatives and former Maxwell Award winners. Each person nominates three players and the ballots are forwarded to the Maxwell Club executive committee. Using the ballots along with players' season statistics and accomplishments, the committee narrows the field to three to five names. Then the Club board of governors makes the final selection.

The Club also sponsors the Bert Bell Award honoring the outstanding professional football player of the year.

about our Hotel Management System

"I discovered the QANTEL Hotel & Leisure system while attending a trade show last year. I was very impressed. It was evident that HAL™ was written by hotel people for hotel people.

HAL clearly offered the operational control that's essential for a profitable hospitality business, as well as the flexibility to adapt to situations we might encounter years in the future. We bought the system and were operational in March with Front Office and Back Office modules, which include Reservations and Accounting. Thanks to HAL, we've never been more on top of things."

about our Retail Management System

"I used to spend a lot of my time commuting from store to store. Now I can efficiently operate most of my business from the QANTEL computer that sits on my desk.

With the QANTEL FRAME™ software, I can follow each of our six stores, category by category, with Monthly Profit Profiles. I can also condense my stock of over 2,000 plus items into 50 key items, and determine, with a Hot and Cold Report, which ones to keep or drop. I can even get print-outs of sizes in a format that conforms to the footwear industry. FRAME has given me the vision to see future possibilities."

For Hoteliers, Retailers, Manufacturers, Sports and Transit Management, MDS Qantel offers industry-specific solutions that work.

THE 1964 ALL-AMERICAS:

Where are They Now?

Gale Sayers of Kansas has been referred to as the most feared breakaway runner of all time.

by Gene Collier, Pittsburgh Post-Gazette

Coming from Dick Butkus, the fearsome and fearless Hall of Fame linebacker, the following admission of fear was filled with irony.

Here was a middle linebacker whose brutality glorified his position and whose menace made offenses fidget. He'd met every foe with the glare of a grizzly and the disquieting sight of thick forearms forever caked with the obligatory mud and blood. Yet in a recent conversation, Dick Butkus uttered a sentence that had genuine fear in it.

"They put us up against Dallas," he sighed. "It was a very tough situation."

The "Dallas" Dick Butkus spoke of with such apprehension is your Friday prime-time Dallas — J.R. and Sue Ellen and Cliff Barnes and all that oily money and all those Nielsen points. It was more than enough to bring about the cancellation of a show called "Blue Thunder," which starred a certain former University of Illinois and Chicago Bear linebacker — Dick Butkus himself.

"Our ratings started to come up a

little at the end," Butkus said. "But it was too late."

Twenty years ago it was a lot simpler. Twenty years ago, if Dick Butkus had had a problem with Larry Hagman and those other hobnobbers, he'd just have decked them. Twenty years ago, Dick Butkus was a part of the collective omnipotence of a remarkable assemblage of talent known as the 1964 All-

continued

THE 1964-ALL AMERICAS

continued

Americas.

Gale Sayers and Fred Biletnikoff and Jack Snow and Tucker Frederickson and Ralph Neely were among them as well, and while each of those players impacted the professional game and are success stories in other disciplines today, none has remained so visible as Butkus.

We watched him on television on Sunday afternoons until 1973, then we watched him accompany Bubba Smith in fruitless pursuit of culture in beer commercials. We even watched bemusedly as he toyed with a singing career. And if Dick Butkus is right, we will

Baylor's Lawrence Elkins left the football field for the oil fields.

watch him on some prime-time television venture again this fall. All that is certain is that he will not be playing Don Knotts' character on something called Mayberry RF3D.

Twenty years ago, Butkus never dreamed television dreams. In 1964, all that mattered to him was winning. Being an All-America didn't give him the rush it had the previous autumn.

"It wasn't that big a deal," he remembers. "I was an All-America my junior year (1963) and we went to the Rose Bowl. In 1964, we were picked to win the Big Ten, but at that time, you couldn't repeat as the conference representative to the Rose Bowl.

"We got off to a bad start our senior year. It was a pretty disappointing season for us."

Far more disappointing perhaps than last season and the end of "Blue

Thunder."

"Blue Thunder" was a good opportunity," he said. "I took it because it was good experience and to show that I was serious about television and about acting. I decided that maybe two years ago. I wasn't thinking about making it a career until then.

"But I began to realize that I really liked the little bit of acting I had done and I just decided to move everybody out here to California. So far it's worked out. I'm considering various offers for the next television season and there might be a movie deal coming up too."

And the beer commercials.

"Oh, yeah. I just shot another one."

And now back to Dallas.

Dallas is the real life address of Ralph Neely, who runs Ralph Neely and Associates, a real estate development corporation. Neely, a Cowboy for his entire career, played the game so well he joined Butkus and Sayers on the Pro Football Hall of Fame selection committee's all-pro team of the 1960s.

Unlike Butkus, being an All-America at Oklahoma in 1964 made a great deal of difference in Neely's future.

"It was one of the real big deals that happened to me sports-wise," Neely remembers. "I hadn't thought about playing football professionally until I got to college. I went there to get an education. I always thought that if football came along, it came along.

"Well, it came along and I played 13 years professionally, but I didn't know if I could make it at one point."

Rick Redman was a force at Washington in 1964.

All-America wide receiver Jack Snow was a standout at Notre Dame.

Helping to assuage Neely's fears was his 1964 All-America selection at offensive tackle. You see, he knew he could play defense, because he'd been selected All-America at defensive tackle in 1963.

"In 1963 I played both ways, actually," Neely said. "I averaged 50 minutes a game or something like that. In 1964, they put in the free substitution rule and the coaches told me they were going to move me to offense and keep me there."

The 1964 season was not a particularly good one at Oklahoma, which put it in common with any season in which the Sooners do not win the Big Eight Championship, but the disappointment felt in Norman, Okla. didn't sting like that felt at Auburn.

"We were picked to be No. 1 in the country," said Tucker Frederickson, now a New York investment broker. "Sports Illustrated had us on the cover."

But early season injuries shredded the Tigers' dreams and the only real bright spot of a long season was Freder-

"The 300 ZX Turbo has instantly joined the ranks of the world's fastest production cars."—Sports Car Graphic
Listen carefully. You just might hear a faint "growl" as you approach the new 300 ZX Turbo.
Because this is one machine not meant to stand still—it's a machine designed to move...in ways reserved for just a handful of cars worldwide.

The remarkably sophisticated, turbo-charged, V-6 engine wrings 200 horsepower from just 181 cubic inches; at 227 ft/lbs., torque is just short of unbelievable.

How does Nissan harness all this power? The 300 ZX boasts a newly designed, fully independent suspension: McPherson struts upfront, expanded—span trailing arms aft. This new geometry provides near-flat cornering and reduces roll to a memory...for a sense of control that feels absolute.

The new 300 ZX Turbo—an extraordinary blend of challenging performance and incomparable luxury.

Take a test drive at your Datsun dealer. It's an awesome example of Major Motion...even standing still.

THE 1964-ALL AMERICAS

continued

John Huarte won the Heisman Trophy in 1964 while quarterbacking the Fighting Irish.

ickson's selection as an All-America.

"I guess if you really want to put it in perspective, that was a big deal," said Frederickson. "I wasn't expecting anything like that, but I wound up being the first player taken in the draft by the Giants."

The Giants selected a running back who would have a fine rookie season. But Frederickson had knee surgery in each of the next two seasons and had a very painful time hanging on until 1971, when his career ended.

"I guess being an All-America had a lot to do with me coming to New York and getting into New York business and into New York life," Frederickson said. "Those things are very important to me now."

In 1963, football was very important to Notre Dame. It just didn't look that way. And that's why what happened at South Bend 20 years ago this fall seems so incredible.

Ara Parseghian was Notre Dame's new coach charged with shaking down some of the old thunder.

Hugh Devore, in one miserable year at the helm, had gone 2-7. Joe Kuharich,

in the four years previous, did not produce a single winning team. In the three years prior to the arrival of Parseghian, Notre Dame never had to worry about the strength of its bench, specifically because the condition of its starters was plenty enough to produce widespread handwringing.

Yet from that same virtually useless bench, Parseghian would excavate two players who would not only become All-America, but who would spark Notre Dame to a national championship in the process.

They were wide receiver Jack Snow and quarterback John Huarte.

"Being an All-America in that season is something I'll always remember because of what transpired in that year," said Snow, who does color commentary for CBS college telecasts and works for IDB, a building and developing company in Seal Beach, Calif. "I hadn't done much until that year. To accomplish as much as we did accomplish that season was really something. And it was something to come off the bench and finish fifth in the Heisman voting."

Notre Dame went from a team with

Tucker Frederickson of Auburn was the first player taken in the pro draft following the 1964 college season.

100 ways to beat itself to one with 100 ways to beat everybody else and didn't bother to spare many of them on nine straight opponents in 1964.

The Irish opened with a 31-7 rout of Wisconsin on the road, won the home opener against Purdue, 34-15, went on the road to whip Air Force 34-7, blitzed UCLA 24-0 and Stanford 28-6 at Notre Dame, mauled Navy 40-0 at Philadelphia, nudged Pitt at Pitt 17-15, then ripped Michigan State 34-7 and Iowa 28-0 at home.

It wasn't until their final game at USC that the Irish stumbled.

"Typical USC stuff," Snow said. "We were No. 1 and unbeaten. We led at the half 17-0 and lost 20-17."

Nonetheless, Notre Dame was given the MacArthur Bowl as the nation's top team at season's end.

"It was just remarkable because we were under a new coach with a lot of new players who had never played together before," Snow said. "It really was a tribute to coaching and what coaching can do."

"What some of us did was remarkable,

continued

THE 1964-ALL AMERICAS

continued

but more remarkable than anyone was John Huarte."

John Huarte, now in Tempe, Ariz., explained where he is and what he does 20 years after. He is president of Arizona Tile, which imports tiles from Italy, Brazil and Germany.

"We have six regional offices," Huarte said, "from San Diego to Anaheim to Denver."

Huarte can speak much more confidently about the tile business than he could about Notre Dame football, par-

had never won a letter. I hadn't even played enough to win a letter, but I thought I was a pretty good athlete.

"I was just kind of thrust into this situation. I knew I was the best passer on the team, but I didn't even know if we were going to use much of a passing offense."

Parseghian put in plenty of passing but he put in enough of something intangible and even foreign to Notre Dame at that point in its history to make the largest portion of the improvement

finishing a collegiate career in which he gained 6.5 yards per carry. Today, he works for a public relations firm in Chicago, where he played pro ball for only seven seasons because of almost crippling knee injuries. Yet those seven seasons were a self-sculpted monument to his talent.

In 1969, the Hall of Fame selection committee picked Sayers to the all-time all-pro team, which was chosen in commemoration of the 50th anniversary of the NFL.

Dick Butkus was an All-America his junior and senior years at Illinois and was the star of the 1963 Rose Bowl.

ticularly his contribution at the start of the 1964 season.

"I still wonder about it to this day," he said. "You talk about wanting to give up. Imagine what it must have been like to sit for three years."

In 1964, John Huarte completed 114 of 205 passes for a Notre Dame record of 2,062 yards (it would later be broken by Joe Theismann) and a Notre Dame record 16 touchdowns (later tied by Theismann), nine of which were to Snow.

In the three seasons through 1963, Huarte had not so much as earned a letter. In 1964, he won the Heisman Trophy.

"Being an All-America and winning the Heisman Trophy was really a traumatic experience for me," he said. "I

Nebraska's Larry Kramer is now head football coach at Emporia State.

possible, according to Huarte.

"That was a generally inexperienced team, but it was very enthusiastic with good leadership and also very ambitious," Huarte said. "But the real key was solid coaching."

Coaching was almost an incidental element in the romantic career of one Gale Sayers, the 1964 All-Americas' foremost contribution to greatness. You don't associate Sayers with coaches for the same reason you don't associate Einstein with math teachers.

What Sayers had, what Sayers did, you couldn't coach. But you could watch and the watching was pretty good.

Twenty years ago, he was at Kansas,

Ralph Neely played both ways at Oklahoma and was a 1964 All-America selection at offensive tackle.

He has been referred to often as the most feared breakaway threat of all time.

Sayers may not be the most feared PR man of all time, but his football accomplishments are burned into our memories as are those of most of this class of memorable All-Americans.

Rick Redman, Washington's 215-pound All-America guard in 1964, is the president of Sellen Construction Company in Seattle. Larry Kramer, Nebraska's All-America tackle that year, is head football coach at Emporia State University in Emporia, Kans. Glenn Ressler, Penn State's All-America center-guard, is a Camp Hill, Pa. restaurateur, Lawrence Elkins, Baylor's All-America flanker that year, is an independent oil and gas contractor in Texas.

“If it had Jensen speakers, it would be a classic.”

Presenting the Series 3000 Triax® and Coax speakers. Classic sound for contemporary cars.

Sizzling stereo sound that pushes sensitivity to the outer limits. Distortion is diminished. Clarity is redefined.

Precisely accurate sonic reproduction is achieved with high-tech components developed over years of research and testing.

With these technological breakthroughs showing the way, all Series 3000 speakers have been dynamic range-enhanced to maximize fidelity and performance. Dynamic range-enhanced to respond brilliantly to the acoustics of any car interior and improve the presentation of any car receiver.

PLAYING SURFACES

Do They Make a Difference?

by Mickey Spagnola, Jackson Daily News

From the beginning, we had grass, those soft green blades to carpet our land, and most importantly, our athletic arenas.

Grass had personality. You could grow it, cut it, shape it, even vary the shades of it to suit any whim, not to mention athletic ability. Fast teams were into the crew cut. Slow teams were into the rarely cut. Accusations inevitably were levied. Advantages were gained, albeit they were mostly psychological.

Then, as we explored space, got into synthetics and were enamored with the creation of artificial substitutes for milk, potatoes, sweeteners and whatnot, grass was no exception. We created artificial grass for our athletic arenas first, then for our very own porches.

Artificial turf had no personality. You couldn't grow it, you laid it. You couldn't cut it or shape it, you sewed it. And only wear and tear and exposure to

the sun varied the shade of factory green. Fast teams insisted they became faster, but bad teams rarely became better. It became a status symbol, as do most artificial substitutes.

But now, in the year foretold by George Orwell, with Big Brother still a little ways off, the rush for artificial surfaces in college football has entered its remission stage. Since we've grown so accustomed to this stuff which does not grow, it no longer is a telltale difference — if it ever really was.

Going into this 1984 season, in Division I-A football alone 56 schools play their football on artificial turf, while the other 48 still play on the much more traditional grass. There is no rhyme or reason as to who has it or who doesn't — nothing to do with geographical location, quality of football or financial assets.

In the Big Ten Conference, only one
continued

PLAYING SURFACES

continued

institution still plays on real, live grass — Purdue. The same holds true in the Big Eight. Only Missouri plays on grass. In the Pac-10 it's an even split, five on artificial turf and five on grass. In the Southwest Conference, it's a clean sweep for artificial turf, while in the Atlantic Coast Conference, grass fields hold a 6-2 advantage. In the Southeastern Conference, six of the 10 teams play on the real thing.

In fact, one southern school has gone in the opposite direction, digging up its artificial turf to replant grass.

"It was a situation in which the wear and tear on the field was not that important," said the school's athletic director, pointing out that half his school's home games were played in a larger city 160 miles down the road. "And when we looked at our schedule, we realized we had been playing on grass more than artificial turf.

"And maybe most of all, our climate here is very conducive to growing grass," he said.

There were some financial considerations, too. The existing artificial turf had been down eight years, and the fibers were wearing thin. So was traction. It had been the second carpet laid since 1970. It was time for a third.

To replace the artificial turf would have cost roughly \$475,000, and that did not include the possibility of having to replace the seven-to-eight inches of asphalt padding underneath. If that had been the case, the cost would have nearly doubled.

Yet to dig up the existing turf and padding and sprig a field of grass — akin to a hair transplant — the cost ran roughly \$350,000. But then, too, you must figure in yearly upkeep of the grass field. The artificial turf costs next to nothing, except for a little white-wash on the lines and maybe a new carpet every eight years or so. Maintenance of the grass field — watering, fertilizing and cutting — is estimated to run roughly \$10,000 a year, but much of that is already being paid for the upkeep of existing grass practice fields.

There was another consideration. Heat. Southern fall afternoons are not much different than August afternoons. It is no secret that these artificial turfs conduct heat, so when it's 90 degrees outside, on the playing field it's liable to be upwards of 120 degrees.

"If you have artificial turf in the South you should be playing at night," said a southern college coach. "Grass is cooler, and I do like that aspect."

There are other differences between the two surfaces. Traction is one. No matter the weather, save an ice storm,

The footing on artificial turf is much better, but bad teams don't become good and good teams better because of the surface.

the footing on artificial turf is much better. Linemen can push off better. Running backs seem to pick up speed. And wide receivers can make sharper cuts.

"Your timing is different," said one coach of moving from one surface to the other. "You see kids stumble around for a while."

Maybe the most difficult conversion is for running backs going from accustomed artificial turf to grass. They invariably lose their footing, trying to make cuts too sharp, their feet flying out from underneath. They talk of the grass slowing them down.

Many schools without artificial playing surfaces have installed 10, maybe 20, yards of the synthetic turf on their practice fields. This is used before games to be played on artificial turf, to enable linemen to acclimate themselves and kickers to adjust to the sturdy footing.

"But I think the kicking game is affected the most," said one coach. "On grass, though, it's still hard to tell, but you can nearly figure out how the ball is going to bounce. But on artificial turf the ball is liable to go anywhere. It's much more unpredictable."

The most celebrated controversy is injury susceptibility. Increasingly it has become evident more knee and ankle injuries are likely to occur on artificial turf, since there is no give in the footing. And there is this new-fangled injury called "turf toe," a direct by-product of artificial turf. It is simply the swelling of the big toe from repeated run-ins with the unmovable turf.

"We just seem to have more joint injuries on artificial turf than we have on natural grass," said the coach from the school which is reverting to a grass field. "Plus, the artificial turf would hurt your legs. It's so hard, it seemed to tire the team out. Even though we had it, we stayed off it. We'd spend 90 percent of our time on grass. We wouldn't go on it before a game until Thursday."

But on the other side of the ledger, if an indoor practice facility is not available, having an artificial turf playing field insures a school of a place to practice no matter the weather. "Most coaches just want a place to practice if the weather is bad," said one athletic director.

As for the actual playing of the game, strategy remains unchanged. No more passes are thrown on one surface than the other. No more blitzes are called. No one yet has detected an ability to rush for more yards on artificial surface than natural grass.

And maybe most importantly, bad teams do not become good and good teams do not become better just because of the surface.

"We've lost to teams that have had artificial turf and to teams that did not have artificial turf. The type of surface does not change the ability of a football team," said the southern school athletic director.

"Most teams that play well on artificial turf will play well on grass, and most teams that play well on grass will play well on artificial turf," he added.

The turf leaves no telltale difference in the final score.

DISCOVER COMPUTERS WITH ATARI.

AtariWriter™
makes it easier
to be a
better writer.

"You get to spend your energy on ideas rather than typing."

—Alan Alda

The AtariWriter™ program takes the drudgery out of writing by eliminating the drudgery of typing—worrying about typos, whitening out mistakes, retyping new drafts over and over and over.

**Spend more time writing,
no time retyping.**

Whether you're writing a personal letter, a paper for school, a report for your club or magazine articles for a living, AtariWriter lets you compose and edit your text on your TV screen, before you put it on paper. Got a sentence that seems out of order? It's easy to reposition it with AtariWriter. Would the third paragraph make more sense as

the fifth paragraph? It's just as easy to move whole paragraphs around. Are you a miserable speller? Add the new 36,000 word ATARI® Proofreader™ program and your ATARI Home Computer will search out spelling errors for you. You can even instruct the Proofreader program to check spelling on technical words you may need in your writing.

**Not a word touches paper
until you're sure
it's right.**

Remember, you've been able to make all these changes before a single word has been put on paper. You've been spending your time creating, not wasting it typing draft after draft. But when you finally feel your writing is polished to perfection, the ATARI 1027™ Letter Quality Printer will print out as many crisp, clean copies as you need on plain bond paper or your personal stationery. (It even automatically numbers pages for you!)

What if you suddenly find you need more copies six months from now? No problem at all if you've got either the sophisticated ATARI 1050™ Disk Drive or less expensive 1010™ Program Recorder. These devices let you

"store" your text indefinitely, "just in case."

**Here's what you need to
start writing better.**

The AtariWriter word processing program works with any ATARI Home Computer—including the new 600XL™ and 800XL™. You can choose either of two ATARI printers: the high speed ATARI 1025™ 80-column, dot matrix or the ATARI 1027 Letter Quality model. And either of two text storage systems: the ATARI 1050 Disk Drive or ATARI 1010 Program Recorder. No matter what combination you choose you'll be paying less than most other word processing systems.

Stop by your Atari Dealer today and see how much easier it is to be a better writer—now that Atari has made it so much easier to write.

Will your next AM/FM Receiver also give you Stereoplex™ television sound? Only if it's Technics.

Now Technics brings you stereo receivers that are so technologically advanced, they give you more than dramatically clean AM. More than brilliant FM. Now Technics receivers also tune in television sound. And electronically expand it into Stereoplex television sound.

So with Technics Stereoplex receivers, ordinary TV shows now sound extraordinary. Special effects now sound truly spectacular. And there's more.

Every new Technics Stereoplex receiver contains two microprocessors. The first controls Technics innovative Computer-Drive circuitry. To actually stop distortion before it starts. For music of astonishing clarity.

The second microprocessor controls and monitors the quartz synthesis tuner. The most accurate tuning system in the world. For locked-in, drift-free reception.

In addition, there's an input to connect a Compact Disc player, a VCR or a video monitor.

The new Technics stereo receivers. More than AM. More than FM. Even more than television sound. Because they're more than ordinary stereo receivers. They're Technics.

Technics
The science of sound

THE ONE-BACK OFFENSE

Why Don't We See More of it in College Football?

by Joe McLaughlin
Houston Chronicle

The One-back Offense in college football, up to the present time, has been about as scarce as the whooping crane.

An offense which has been employed almost exclusively by the professionals has never made much of an impression in college football.

Why? To begin with, college coaches have stubbornly adhered to the belief,

with some justification, that passing teams don't win championships. And, the One-back Offense is basically a passing formation.

Historically, coaches have been correct in their assumptions. One would be hard-pressed to name a national champion or, in most cases, a conference champion which was an advocate of the One-back Offense.

College coaches, in the main, have stuck to the premise that three things can happen when you throw the football, and two of them are bad.

Proponents of the One-back Offense, however, point out legitimate reasons why this thinking has been prevalent.

One coach says, "College football has always been trendy. One team will

continued

THE ONE-BACK OFFENSE

continued

come out with something new, have some success with it, and all of a sudden everyone is trying it. It happened that way with all the offenses — the Single and Double Wings, the Split Backs, the Veer, the Wishbone, the I and the Multiple Offense.

"If a few more teams start having some success with the One-back Offense, you will see more college coaches turning to it."

In the past, the concept has been that if you are throwing the ball a lot, you are usually behind and trying to catch up. And passing is the quickest way to do it.

One-back Offense theories explain the difference: "The philosophy is this," says one coach. "You go into the game with the idea that you *want* to throw the ball, not that you *have* to.

"There are three ways to throw the ball: (1) down field; (2) control passing; and (3) option passing. The ideal is to control the ball by passing, much like running teams control it on the ground.

"You can't run the One-back Offense without a good, sharp quarterback," the coach continued, "because his hands are on the ball all the time. It's the most 'quarterback offense' in football.

"A lot of coaches don't want that much pressure on one man. But a sharp quarterback can handle it. That has been proven. The key is for your quarterback to control the ball, have a good defense and not to revert to running when you get close to scoring.

"You try to let your predominant ballcarrier have the ball. You get four receivers out real quickly, spreading the other team's defense. You hope to catch the defense in a lot of one-on-one situations.

"Once again, to control the ball passing, you throw high-percentage passes and don't often go deep down field.

"First of all, the coaches must believe in the offense and your kids must believe in it. It is a sound offense if it is organized properly."

Run properly, the One-back Offense is highly effective, proponents claim.

"In the first place," says one coach, "not many people can just line up and blow the opponent's defense away. It is easier to teach pass blocking, especially since the rules have changed where an offensive lineman can use his hands if he is in a retreat block or giving ground. That's one reason even predominant running teams now are throwing more."

Most college coaches agree that the day is gone when one team can line up and simply overpower another one

A team that employs the One-back Offense uses the pass to set up the run.

week in and week out. Consequently, the traditional running teams are now passing more.

"One reason for that," a coach says, "is that everybody is putting their best athletes on defense, and the offense has to find new ways to move the ball."

Another coach says, "If a One-back Offense team knows what it is doing, it's the hardest to defense. With four receivers going out, a defense generally can take two of them away, but with four it's tough.

"Then, they say, 'Well, the defense then will put seven defensive backs into the game.' That's what you would love to see if you are a One-back offensive coach. That way you have the other people guessing all the time. Then you can come back with your traps, draws, counters and sweeps. It's a constant cat-and-mouse game."

Ideally, a team will pass about 50 percent of the time in a One-back Offense. If you are throwing 75 percent of the time, you're usually trying to catch up.

"Many passing teams get the ball in scoring position and then turn to the

run, and most often, fail. The key to the One-back is that you start with the pass and you finish with it."

"Perhaps the most successful passing team in the college ranks is Brigham Young University," says one coach. "They are not strictly a One-back Offense, even though their philosophy is similar. A lot of the West Coast teams are using it more—probably more than any other section of the country."

Like most changes in college football strategy, the popularity of One-back Offense has developed at many places because of necessity. Most teams don't, and can't, line up and beat a Texas or a Penn State head to head. It's a fact of life. Consequently, coaches are trying to find new ways to balance those inequities.

As one coach put it, "The One-back Offense is becoming more popular in college. But you still have to have key personnel in any offense. There is no real answer to all the problems, because there is none."

But the One-back Offense is another exciting chapter in the game.

Use only as directed.

Veteran Gymnasts Brighten 1984-85 Outlook

by Donna Hart
Women's Sports Information Director

The last two seasons have been stellar ones for the Iowa State women's gymnastics team and this season should be no exception. The Cyclones smashed every team and individual record during the 1982-83 season with a squad composed of freshmen and sophomores. Last year, they continued the trend, breaking four of five individual records and two team marks.

ISU Coach Donna Kramer returns six letterwinners and has two things she has not enjoyed during her six-year stint at ISU—experienced seniors and a large number of gymnasts.

Seniors Debbie Diskerud, Mimi Starks, and Sara Krause have stayed with the ISU program as it grew and prospered and they should lend leadership. Junior Kathy Edwards has been an important part of the growth and holds four of the five individual records. That quartet will be part of a 21-member squad.

"We have enough returnees that we should have strong leadership this year," Kramer says. "We also have sufficient numbers so we should be able to specialize more. We will have more competition among the team members and that is a healthy atmosphere. More development should occur throughout the team.

"The seniors will be a great asset to the team," Kramer said, noting the Cyclones have not had senior leadership for three years. "They will provide us with stability and experience for the team and should give guidance to the freshmen. These seniors are still growing as far as gymnastics skills and should continue to improve. The maturity they have acquired through their three years of competing will be very beneficial."

Kramer said three freshmen should

Debbie Diskerud

contribute immediately—Ann Lohmann from Haddonfield, N.J., Tracy Remien from Tallahassee, Fla., and Liebe Teller from Libertyville, Ill.

"I expect these three to be able to compete right away. They come from good gymnastics backgrounds and are going to push the people we have on the team. They like to win and we can use that attitude."

Kramer said the other freshmen come from strong backgrounds, especially in tumbling skills. She expects them to need time adjusting to college gymnastics and perfecting skills in other areas, but with experience at the top, she will have time to bring them along.

While ISU should continue improving, Kramer notes it will be difficult to continue the record-breaking trend of the past two years. "The beam record (of 9.2 held by Diskerud) can be broken but the others are getting pretty high. One of our goals will be to continue to score better as a team."

The Cyclones will attempt to crack the 175-point total this season after rewriting the team mark at 173.90 against Southern Illinois last year. They also will try to move up the ladder in a very competitive Big Eight Conference.

Kathy Edwards

Kramer sees little change in the Big Eight, with Oklahoma and Nebraska rated slight favorites over Missouri and Oklahoma State, though all four have the power to challenge for the title. The Cyclones will meet all four teams before the Big Eight Championship, in addition to facing Big Ten powers Iowa, Michigan State, Wisconsin, and Minnesota.

"I am optimistic about the season," Kramer says. "We keep getting better every year and the people who are coming in are much more skilled than in the past. We should blend our experience and youth well to perform stronger as a team."

Mimi Starks

The
Iowa State University
MARCHING BAND
says: *Go Cyclones, Go!!*

The bands at Iowa State are an integral part of the Department of Music, providing the music major with professional ensemble experience and the non-major with a quality avocational interest. Every student has the

opportunity to perform in the kinds of groups for which his skills and interest have prepared him.

The 280 Cyclone Band members were chosen from 490 applicants. The

Cyclone Marching Band is one of the most exciting and popular organizations on campus. The band performs at all home football games and this year travels to Iowa City and Lawrence, Kan.

Cyclone Scouting Report

Historically: Iowa State trails in the all-time series 50-4-2, and hasn't won against Oklahoma since 1961. ISU's 1981 squad managed a 7-7 tie at Norman, but the Cyclones dropped the last two contests (13-3 in 1982 and 49-11 in 1983).

1984 Review: The Sooners finished a disappointing 7-4-1 last season, but are off to an impressive 4-0-1 start this season. OU was ranked third nationally prior to the Texas game and nearly pulled off an upset over the top-ranked Longhorns, before settling for a 15-15 tie in the final seconds.

Offensively: Oklahoma elected to go back to the wishbone offense this season, but incorporated several options within the three-back set. Quarterback Danny Bradley is a two-year starter who has both the running and passing ability to fit in well with OU's balanced, run-pass concept. Halfbacks Spencer Tillman, who has been injured much of the early season, and Steve Sewell are among the best in the league.

Defensively: Oklahoma's defense is one of the best nationally against the rush. Prior to the Texas game, they were allowing just 64.0 yards per game which ranked first in the Big Eight and second in the nation. They appear to be more vulnerable against the pass, however, giving up over 165 yards per contest. Noseguard Tony Casillas is a returning starter who has been OU's Big Eight defensive player of the week nominee twice, while linebacker Brian Bosworth is also a two-time nominee.

Kicking: Placekicker Tim Lashar has booted five field goals, and has converted 15 of 16 extra points. Sophomore punter Mike Winchester has averaged 40.4 yards per kick.

The Coach: Barry Switzer is in his 12th year as the Sooner head coach. His 110-21-4 career mark is the best among college coaches. Under his guidance, Oklahoma has won two national titles, and won or shared the Big Eight title eight times.

1984-85 Cyclone Basketball Outlook

There may be some new faces on the work force, yet Johnny Orr's 1984-85 Cyclone squad will likely be his most talented at Iowa State. And that could give the Cyclones a chance to match last season's success when they won 16 games, finished in the upper division of the Big Eight Conference, and earned a berth in the National Invitation Tournament (NIT).

The Cyclones lost two starters in forward Ron Harris and off-guard Terrence Allen. However, it appears that Orr's recruiting efforts could bring more offensive spark than his Cyclone teams ever had. And he could build some potentially gripping defenses.

"This group certainly has to rate as one of my best recruiting classes ever, including those when I was at Michigan," Orr said. "We went out and recruited the kind of people to fit our style of play," he said, in reference to the addition of three Michigan all-stars in **Jeff Grayer**, **Gary Thompkins** and **Eli Parker**. "I don't like to watch slow down basketball, so I sure as heck don't want to coach it," he cracked.

Orr has another newcomer some people may have forgotten. **Lafester Rhodes**, the talented Memphis native, signed with the Cyclones two years ago and spent last season as a redshirt.

"Thompkins and Grayer, and possibly Rhodes, will push to start," Orr says. "And with three starters and some key reserves returning, that's something I can get excited about."

The three returning starters — forward **Barry Stevens**, guard **Jeff Hornacek**, and center **David Moss** — are among nine returning lettermen.

Stevens is one of the Midwest's premier players. His 22-point scoring average was second in the Big Eight to Oklahoma's All-American and Olympian Wayman Tisdale. Stevens earned first team all-Big Eight and honorable mention All-America honors.

Hornacek, a junior guard, dished out a school record 198 assists and contributed 10 points per game. He may, however, be seen in a new role this year. If Thompkins can adapt to the collegiate game as quickly as Orr feels he can, he could take over the point guard duties in a move which could send Hornacek to off-guard.

David Moss, a 6-9, 220-pound junior, scored 7.3 points and led the team in rebounding with 5.9 per game last year.

Lack of depth was one of ISU's weaknesses last season. Only junior swing guard **Ron Virgil** logged a considerable amount of playing time.

Those who could be in more prominent roles this season are sophomore centers **Sam Hill** (6'9") and **Brad Dudek** (7'1"). And that would help offset Iowa State's past problem of matching up with taller opponents.

Iowa Pork Producers Salute

GREAT

IOWA

PRODUCTS

Iowa's Pure Pleasure Pork and the Iowa State Cyclones!

Iowa is known for producing top quality athletes . . . and top quality, lean, nutritious pork. Iowa's pork producers are proud to participate in the Cyclone sports programs.

WE'RE PROUD . . . to put Iowa Pork on the ISU training table . . . and to support ISU athletes all year long!

Support two winning teams:

**The Iowa State
Cyclones**

and

**The Iowa Pork Producers
Association**

Front Row: L to R - Betty Teague, Larry Ritland, Dorothy Schumer, Peggy Greer, Jaylene McCaskey. Second Row: L to R - Deb Moeller, Jacque Reed, Mona Barker, S. Dee Lohrman, Lynn Agnew, Jo Knudson, Sara Hatcher, Tracy Harbachek, Nancy Olson, Terri Olson, Kirk Sogard.

WORLD WIDE TRAVEL CENTER

IT MAKES A WORLD OF DIFFERENCE WHEN YOU TRAVEL WITH US!

THE FLYING KARAMAZOV BROTHERS

"These master jugglers are hilarious! Drop everything and go see them!" So said Gene Shalit of the NBC-TV Today Show.

And in the *Dallas Times Herald* Dan Hulbert wrote: "The Flying Karamazov Brothers are circus for grown-ups. They're slapstick for sophisticates. They're vaudeville for the computer age. They're an absolute, gut-busting scream."

But best of all, they're coming to Stephens Auditorium at the Iowa State Center in Ames!

Bear in mind that The Flying Karamazov Brothers don't fly and they aren't brothers. They do dress like misplaced cossacks, bearded and in peasant shirts, but that's as close as they come to being Russian.

Sure, they're jugglers, and they're likely to toss everything from meat cleavers and raw liver to sickles and flaming torches. But juggling just gives them something to do with their hands while they engage in zany comedy routines.

There may be an air of improvisation about the show, although with its complexity nothing can be left to chance.

The Flying Karamazov Brothers will perform in Stephens Auditorium Saturday, Oct. 27, at 8 p.m.

Tickets are on sale now, priced at \$12.50, \$10.50, and \$8.50. With a \$4 discount for groups of 20 or more, persons 65 or older, and all students, the show makes ideal family fare.

The Iowa State Center ticket office in Stephens Auditorium is open from 10 a.m. to 5 p.m. weekdays and from 10 a.m. to 1 p.m. Saturdays. With Visa or MasterCard telephone orders may be placed at 515/294-2436. Good seats still remain, and tickets also may be purchased at the door.

As Clive Barnes of the *New York Post* said about the show: "Catch it before they kill themselves with a meat cleaver."

THANKS, CYCLONES...

...for giving us some of the most exciting moments in major college football.

As the official food and beverage supplier for Cyclone Stadium, we're proud to be a part of this great program.

SAA ISU

Announcing . . . the 1984-85 Student Ambassadors

Student Ambassadors work with the admissions office to inform prospective students about Iowa State University and college life. They travel throughout the state visiting students at their high schools to present a slide show of campus scenes and student activities, and to answer questions. Ambassadors travel over 14,000 miles between October and March and visit over 200 high schools. For more information, call 294-8488.

ISU FIGHT SONG

Oh we will Fight, Fight, Fight for Iowa State,
And may her colors ever fly.
Oh we will fight with might for Iowa State,
With the will to do or die! Rah! Rah! Rah!
Loyal sons forever true,
And we will fight the battle through!
And when we hit that line
We'll hit it hard, every yard, for I.S.U.

Songs of Iowa State

RISE SONS OF IOWA STATE

Verse:

Fighting sons we sing to you,
keep your spirit ringing true;
Make your valor carry on,
and you'll see the battle through,

Chorus:

Rise sons of Iowa State
and proudly raise your flaming banner
to the sky;

Lift our ringing challenge valiantly,
let our fighting war-cry ever be "Victory!"
Bold sons of Iowa State
keep marching onward ever near the
vic'try gate;

There to consecrate
our everlasting loyalty.
Rise! Iowa State.

Cyclone All-Americans

George Amundson - ISU's only All-American quarterback...named All-American in 1972...holds the ISU record for career total offense with 5,094 yards...only Cyclone to rush for 2,000 yards and throw for 2,000 yards...ranks second on the single season rushing, passing, and total offense charts...played in three post season classics, the East-West Shrine game, the Hula Bowl, and the All-Star game...also played pro football with the Houston Oilers and the Philadelphia Eagles from 1973-1975.

has played with the Minnesota Vikings since 1974.

* *

Barry Hill - ISU's only All-American safety...named All-American in 1974...intercepted a school record four passes against Kansas as a senior in 1974...holds the ISU and Big Eight record for interceptions in a season (nine, 1974) and interceptions in a career (21)...only Cyclone to play in four post-season classics, appearing in the Blue-Gray game, the Lion's All-American Bowl, the All-American Game, and the East-West Shrine game...played two seasons (1975-1976) with the Miami Dolphins.

* *

Luther Blue - All-American split-end in 1976...also an all-Big Eight choice the same year...caught 69 passes for 1,274 yards in his three-year career...also ranks fourth on the career kickoff return chart with 38 returns for 1,006 yards...owns the second best kickoff return for a touchdown with his 95-yard return vs. Nebraska in 1976... only post-season classic was the Senior Bowl...played pro football with the Lions and Colts

Iowa State
All-American **GEARY MURDOCK**

Geary Murdock - One of three ISU All-Americans in 1972...all-Big Eight offensive guard in addition to All-American honors...played in the Lion's Club All-American Bowl.

* *

Matt Blair - One of the top linebackers ever to wear the Cardinal and Gold...All-American rover in 1973...all-Big Eight that season...played on the 1971 Cyclone squad that went to the Sun Bowl...totalled 121 tackles in 1971...played in three post-season classics, the Hula Bowl, the East-West Shrine game, and the Senior Bowl...

Iowa State
All-American **MATT BLAIR**

Iowa State
All-American **BARRY HILL**

Iowa State
All-American **LUTHER BLUE**

Cyclone All-Americans

Mike Stensrud - Led the Cyclones to back-to-back bowl games in 1977 and 1978...named All-American defensive tackle in 1978...two-time all-Big Eight selection at defensive tackle...Hula and Senior Bowl participant...currently playing with the Houston Oilers...recorded 306 tackles in his four seasons with the Cyclones.

* *

Dexter Green ISU's all-time leading rusher with 3,757 yards...All-American in 1978...also tops the career scoring chart with 240 points...second on the total offense chart for career with 3,820 yards...one of four ISU players to rush for 200 yards in a game with a 214-yard effort against Missouri in 1976...two-time all-Big Eight tailback...Hula Bowl and Japan Bowl participant.

* *

Dwayne Crutchfield - All-American tailback in 1980, when he rushed for an ISU single season record of 1,312 yards...his 2,501 career rushing yards rank him fourth on that list...scored 104 points in 1981, that's the best in ISU history for a single season...two-

time all-Big Eight selection...Hula and Olympia Gold Bowl participant...played two seasons with the New York Jets.

* *

Karl Nelson - All-American offensive tackle in 1982...two-time all-Big Eight selection and a three-time all-Big Eight Academic pick...named the Cyclones' top offensive lineman three consecutive years...played in the East-West Shrine game...drafted by the New York Giants in the third round...still playing.

* *

Tracy Henderson - Nation's leading returning wide receiver...named third team All-American by AP...first team all-Big Eight by both wire services...caught 81 passes for 1,051 yards and eight touchdowns...set ISU and Big Eight marks for receptions in a season, reception yards in a season, and receptions in a game with 16 catches at Kansas State...also set the ISU record for TD receptions in a season...in addition, Henderson was the first Big Eight receiver to ever amass 1,000 reception yards in a single season.

COUPON EXPIRES DEC. 31, 1984

AVAILABLE HERE AT THE STADIUM

WHATEVER THE SEASON THERE'S A REASON FOR S-10 BLAZER.

Chevy S-10 Blazer is that versatile. Lots to carry? Just fold down the optional rear seat for more load length than any full-size sport utility. Tote up to 1,000 lbs., including people and cargo. That's 4-passenger-plus load versatility.

Shift on the fly. S-10 Blazer 4x4 with revolutionary Insta-Trac lets you shift from free-wheeling 2-wheel drive to 4-wheel-drive High and back while driving at any speed. **Tow up to 5,000 lbs.** Properly equipped, S-10 Blazer 2WD can tow up to 5,000 lbs.

S-10 4x4 up to 4,000 lbs., including trailer and cargo. Versatile S-10 Blazer. The sport utility that's always in season.

Let's get it together...buckle up!
