RE: Letter from Mrs. Greene

Enclosed please find what I believe is a remarkable letter to be added to the Jack Trice archives.

Several months ago, President Eaton's office received a letter from a Mrs. Betty Armstrong of Youngstown, Ohio, referring to an article about Jack Trice that had appeared in Jet magazine. Mrs. Armstrong revealed that the widow of Jack Trice had remarried and that she is the mother of Mrs. Armstrong.

At the President's request, we responded to the inquiry with various printed materials and correspondence. We also invited the Armstrongs, who were planning to drive to San Francisco for a professional meeting, to stop in Ames, visit the campus and see the Jack Trice statue.

Betty and Herbert Armstrong did just that. We showed them the statue and introduced them to Carver Hall and the Carver-Wallace legacy. They shot a lot of photos and videotape which they planned to take to Betty's mother, who resides in Pomona, CA.

I have been out of town for about three weeks. On my return, I found this very touching letter from Cora Mae Trice Greene, which had been delivered during my absence. I've written to ask her permission to have it placed in your archives.
