The **BOMB**

PRESENTED BY THE
SENIOR CLASS OF THE
IOWA STATE COLLEGE
AT AMES, IOWA, THIS
VOLUME DEPICTS THE
PROGRESS AND PROS-
PERITY WHICH WELL
TRAINED MEN AND
WOMEN CON-
TRIBUTE TO
THE STATE

Whether it be 'midst the
clatter of riveting hammers
and the whine of hoists —

P R O L

YOU MADE THIS BOOK! YOU MADE IT
OF IOWA STATE. WE HAVE TRIED TO
THAT THE MORE YOU HAVE MADE
MORE YOU WILL FIND OF YOURSELF
NOW, BUT FOR A LIFETIME. IF WE
IOWA STATE HAS BECOME PART
HAVE ITS GREATEST VALUE IN THEM
WHEN YOU AND I WILL LOOK BACK
THOSE DAYS WHEN ALL THINGS
PROBABLE. **F**OR THE INSPIRATION
AS OUR THEME A FEW OF THE
AND WOMEN OF YESTERDAY
STANDING SUCCESS. BUT THE
ATION OF TOMORROW
TODAY WHICH IT HAS
OF THIS BOOK

On the quiet farm dealing
hand-to-hand with Nature
at her best and worst—

COGUE

PLAYING YOUR PART IN THE TEEMING LIFE
MAKE IT REPRESENTATIVE OF THAT LIFE, SO
YOURSELF A PART OF THE COLLEGE, THE
IN THESE PAGES. AND NOT ONLY
WE HAVE DONE OUR WORK WELL, AND IF
YOU, YOUR BOMB OF 1931 WILL
TUMULTUOUS, ROARING YEARS AHEAD,
LOOK WISTFULLY TO THESE GLAMOR-
SCENES WERE NOT ONLY POSSIBLE, BUT
TODAY, WE HAVE USED
THE GRAND IOWA STATE MEN
WHO HAVE ACHIEVED OUT-
STANDING WILL FIND YOUR INSPIR-
ATION IN THE MEMORIES OF
THE PRIME PURPOSE
TO EVOKE.

In the new large scale agri-
culture riding the tumultuous
gales of economic forces —

Operating gigantic industrial enterprises amid the mechanism of Modern Science—

The DEDICATION

THE BOMB OF 1931 IS
DEDICATED TO THAT COM-
RADESHIP IN SERVICE
WHICH IS THE VERY ES-
SENCE OF THE SPIRIT OF
IOWA STATE COL-
LEGE. HERE'S TO
YOU, AND YOU,
AND ALL OF US!

HAIL!...AND

FAREWELL!

THE COLLEGE

GRADUATES--late seniors--glorified one day and thrust out into a new world the next to make good his reputation--college days are over--life with its joys and sorrows awaits in the misty beyond --life that rewards or stalks, jostles, and kills--many are bewildered. May we look to those who have gone before for example. May we shape our lives so that our reward will be as great as that of Mr. E. O. Shreve, '04, now Vice-President of the General Electric Company.

Administration

A Message from the President

N Agricultural College which keeps close to the people of the state in every way possible and strongly emphasizes its work for undergraduates, but also does excellent graduate and research work. A College of Engineering that does its best to send out men of character and industry well trained for the profession, and at the same time grows in influence in the graduate and research field. A College of Home Economics whose first interest is to fit girls in the spirit and technique for their work as homemakers and as mothers, and where graduate work and research flourish. A College of Veterinary Medicine outstanding in its field in clinical instruction, in scholarship and in its research program. A College of Science where every department is largely concerned with the practical applications in its field, both in teaching and research. An Institution where good, sympathetic, thorough teaching is maintained throughout, and where the undergraduate student continues to be the main concern of all, a great Technical Institute serving Iowa to the best of its ability.

R. M. HUGHES.

RAYMOND M. HUGHES, *President*

PRESIDENT RAYMOND M. HUGHES was graduated from Miami University at Oxford, Ohio, in 1903. After teaching science for two years in the Hamilton High School he held a teaching fellowship in chemistry at the Ohio State University for two years and studied chemistry at the Massachusetts Institute of Technology during the following year (1897-98). He then was called back to his alma mater as Professor of Chemistry and Physics in the fall of 1898, where he served successively as Professor of Chemistry and Registrar, Dean of the Liberal Arts College, and President until 1927, when he resigned to accept the Presidency at Iowa State College.

During this period he has been active in the service of the Association of American Colleges, the North Central Association of Colleges and Secondary Schools, the National Association of State Universities, and the American Council on Education, in each of which organizations he has at one time served as secretary.

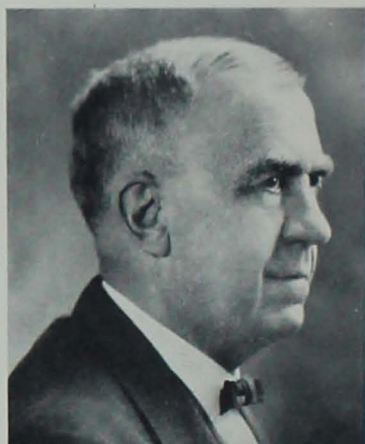

ADMINISTRATION

MARIA ROBERTS

Dean of Junior College

Dean Maria M. Roberts came to the Mathematics Department of Iowa State College in 1891. In 1921 she took over the office of Dean of the Junior College. For eight years she has served Iowa State and its students in that capacity, devoting her rare executive ability and capacity for friendship to the well-being of all undergraduates.

HERMAN KNAPP

Business Manager

Mr. Herman Knapp is a graduate of Iowa State College of 1883. Since that time he has served his college in various capacities. Four years ago, in addition to his duties as Treasurer and Business Manager, he acted as President of Iowa State College.

J. M. SHAW

Assistant to the President

Mr. John Shaw is a graduate of Washburn College, Topeka, Kansas, in 1913, and of Iowa State in 1922. Several times during the absence of Dean J. E. Foster, Mr. Shaw acted as Dean of Men. At present he serves in the capacity of Assistant to the President and Personnel Director.

ADMINISTRATION

O. H. CESSNA

Chaplain

Dr. O. H. Cessna, a member of the first graduating class of Iowa State College, became Professor of Psychology and Chaplain of the institution in 1900. Since that time he has seen many classes come and go. He has witnessed many changes, and yet still has a sincere belief in the men and women with whom he comes in contact.

R. E. BUCHANAN

Dean of Graduate College

Dean R. E. Buchanan, in his twenty-six years at Iowa State College, has served in various capacities: Instructor, Professor and Head of the Department of Bacteriology, Dean of the Division of Industrial Science and Dean of the Graduate College.

J. R. SAGE

Registrar

Mr. J. R. Sage received his education at Ohio State University and Rose Polytechnic Institute. Previous to his appointment as Registrar of Iowa State College in 1920, he was connected with the Mathematics Department of the college.

DR. J. F. EDWARDS

MISS HELEN McDOWELL
Supervisor

Hygiene Department Student Health Service

Graduates of fifteen years ago would scarcely recognize the college infirmary of their day, tucked in, as it is now, behind our modern hospital. The old hospital is now used only for contagious diseases.

The first or north wing of the newer hospital built in 1915, has a capacity of forty beds and includes the kitchen and dining rooms and operating rooms. The east wing, built in 1924, more than doubled the capacity and gives added dispensary and laboratory facilities so that now the college has ample facilities for caring for those needing hospital or ambulatory care.

The Hygiene Department is also a teaching department and gives classroom instruction in hygiene to all freshmen in Industrial Science and Home Economics.

It must not be thought, however, that the care of the sick is the only or even the most important part of the work of the Department of Hygiene. It is even more important that it prevent illness and improve the health of the students while here and give them positive knowledge of health principles and practices.

As the first step, all entering students are given a careful "once over" during the entrance physical examinations. Such as show physical defects or health impairments are followed up in further conferences, and advice and treatment are given with a view of correcting or improving their condition. The students are given another physical examination before entering their junior year and again before graduating.

Hospital Staff

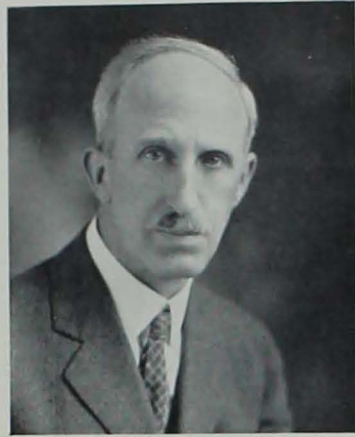

Library

The College Library is designed primarily to serve the needs of the faculty and the students of Iowa State College in their research and study.

The library is the most used building on the campus, loaning on an average of three books per student per month during the college year.

The new building, opened for the use of the public in the spring of 1925, is designed to meet adequately the needs of both graduate and undergraduate students. The library affords facilities for bibliographic research in the scientific literature of the departments giving graduate instruction. The single class subject offered may be allowed as either major or minor credit in any department.

The library collections consist of about 170,000 carefully selected volumes. A special attempt has been made to strengthen the library in sets of periodicals and society publications. The library is receiving currently over 3,000 periodicals, principally in English, French and German, although nearly every language is represented. The collections in the library adequately represent the specialized research work of the college.

DR. C. H. BROWN
Librarian

Library Staff

R. K. BLISS
Director

Extension Service

Iowa State College has become a great repository of scientific information concerning agriculture and home economics. This information has been gathered through extensive experimental and research investigations in Iowa and through access to the work of investigators in other states, including the United States Department of Agriculture. The Extension Service is conducted in order to make the workable part of this information available to the people of the state. Its purpose is to place within reach of farmer and homemaker the latest and best information concerning agriculture and home economics.

In order to accomplish this purpose a staff of workers representing each department in the Divisions of Agriculture and Home Economics and certain phases of Industrial Science and Veterinary Medicine are maintained at the college. These workers are available to the people of the state for lectures, demonstrations and consultation.

The Extension Service of Iowa State College continues to extend the benefits of its experimental and research work to the farmers of the state. Under the direction of Mr. R. K. Bliss and Mr. P. C. Taff, the Extension Service has reached nearly every township in Iowa. Information concerning livestock, clothing and poultry projects continues to lead in the number of townships reached, but the work of the entire service comprises many more projects than these three.

The work of the scientific information such as is disseminated by the Extension Service can scarcely be over-estimated. In actual dollars and cents, it saves the farmers of Iowa many times the cost of the entire service.

Extension Staff

Division of Agriculture

The Division of Agriculture comprises the following departments: Agricultural Engineering, Agricultural Economics and Rural Sociology, Animal Husbandry, including Dairy Husbandry and Poultry Husbandry, Dairying, Farm Crops and Soils, Genetics, Horticulture and Forestry, Landscape Architecture, Floriculture and Vegetable Crops, Technical Journalism, and Vocational Education.

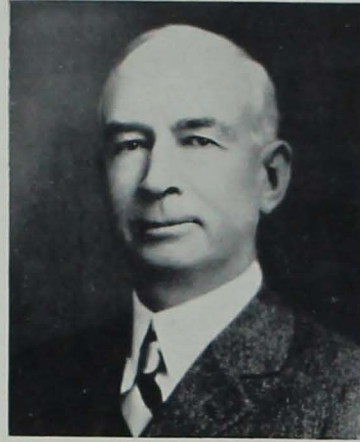

For many years, beginning with the founding of Iowa State College, all the work of the Agricultural Division was under the supervision of two departments, which were called the Department of Agriculture and the Department of Horticulture.

Four-year collegiate courses are offered, embracing the work in all of the major lines, and research work is conducted in practically all phases of technical and practical agriculture.

The enrollment of students in the Division of Agriculture is the largest in that subject in the United States. The enrollment of graduate students in agriculture is in excess of 100. Many students from other institutions and foreign countries come to Iowa State for graduate work.

Student judging teams afford opportunity for twenty-five to thirty men to participate in Inter-collegiate Judging Contests annually. The consistent winning of our teams has brought distinction to our college.

In addition to the buildings and laboratories and other extensive equipment, the various departments of the division have over 1,500 acres of land used for educational and research work.

DEAN C. F. CURTISS

Agricultural Faculty

DEAN ANSON MARSTON

Division of Engineering

Undergraduate instruction in the Division of Engineering is given in ten four-year courses, which have uniform requirements for entrance: Agricultural Engineering, Architectural Engineering, Ceramic Engineering, Chemical Engineering, Civil Engineering, Electrical Engineering, General Engineering, Mechanical Engineering, Mining Engineering, and Trades and Industries (Industrial Arts). Each of these courses leads to the B. S. degree.

In addition to this instruction, the Division of Engineering carries on work in Engineering Extension and Engineering Experiment Station Research. Iowa State College was the first engineering institution in the United States to systematically organize its work along these three major lines.

In each of the collegiate branches of instruction except Industrial Arts, a year of graduate work has been definitely outlined, completion of which entitles the student to a M. S. degree. In addition, two years of graduate work, leading to the Ph. D. degree, are offered in several courses. An increasingly large number of students are taking advantage of these additional years of training.

The student activities of the Engineering Division are directed by the Engineering Council. Members of the council, at the end of their sophomore year, serve two years. Each of the nine departments has two representatives, and the Iowa Engineer and the Cardinal Guild each have representatives.

*Engineering Faculty*

Division of Home Economics

The Home Economics Division is housed in a building which competent authorities claim has no equal in the country. In addition to the main building, there are two nursery schools and four home management houses. The entire plant is in operation throughout the four quarters of the year.

Courses leading to both the bachelor of science and the master of science degrees are offered in the following departments: Applied Art, Foods and Nutrition, Home Management, Institutional Management, Child Development, Household Equipment, Textiles and Clothing, and Home Economics Education. In addition, work leading to the Ph. D. degree is offered by the Department of Foods and Nutrition.

The courses in Home Economics aim to prepare students for intelligent citizenship, efficient homemaking, and economic independence. Graduates from these courses are securing positions as high school and college teachers, extension workers, dietitians, institution managers, nursery school directors, home service directors for utility companies, research workers in commercial laboratories, and members of editorial staffs of publishing companies.

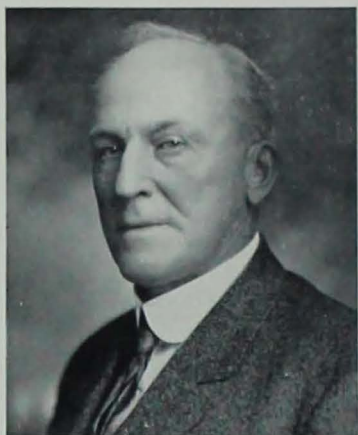

The enrollment for the past collegiate year exceeded 1,100, about 70 of whom were in the graduate school. That of the summer session was over 500, of which two-fifths were in the graduate school. The staff of the division numbers over 80 instructors. During the entire year 243 B. S. and 51 M. S. degrees were conferred upon students of the division.

DEAN GENEVIEVE FISHER

Home Economics Faculty

DEAN S. W. BEYER

Division of Industrial Science

The Division of Industrial Science serves as an administrative unit for those departments whose work, while not in itself technical, is necessary to a well-rounded education in any of the technical courses at Iowa State College. These departments comprise Bacteriology and Hygiene, Botany, Chemistry, Applied Economics and Social Science, Geology, Mathematics, Military Science and Tactics, Physics, Zoology, and Entomology. In addition, the work of the departments of English, History, Psychology, Modern Languages and Public Speaking is under the supervision of the Dean of Industrial Science.

In the early days of Iowa State College, when no distinction was drawn between the different divisions now existing, all of the instruction offered in the institution was given by this Industrial Science Division. When the growing need for specialization and the number of students enrolled made this administrative scheme inadequate, the four other divisions were created. When, in 1879, the Division of Veterinary Medicine was created, the Division of Industrial Science assumed the status it possesses today.

The Industrial Science Council is made up of students of the different departments, who are elected at the divisional convocation in the spring quarter. The council acts as a governing body for the Industrial Science Division and sponsors such activities as the Industrial Science Barbecue, the Industrial Science Club and the Divisional Open House during Veishea.

*Industrial Science Faculty*

Division of Veterinary Medicine

When the Veterinary Medicine course of Iowa State College was made a separate division and a Dean of Veterinary Medicine appointed in 1879, Dr. Walker, the first Dean of the division, was confronted with the impossibility of obtaining competent instructors. It became necessary for him to establish a graduate course, the chief purpose of which was to train instructors for Iowa State College.

The twenty years from 1880, when the first class in the division was graduated, to 1900 were full of advancement for the science of Veterinary Medicine. Growth has been steady and at the present time the work of the division comprises: Anatomy, Medicine, Pathology, Physiology, Surgery, and Veterinary Investigations. Each is a separate department, and, together offer the instruction which was originally administered by a single unit.

In 1884 the Veterinary Medical Society was first established. The membership is composed of all students enrolled in the division. Meetings are held in the Auditorium of the Veterinary Building twice each month and are presided over by the president, who is elected from the senior class. Various committees are appointed to consider matters of special importance. Outstanding events of the year are: the freshman mixer during the fall quarter and the faculty picnic held during the spring quarter. Faculty members aid in planning and suggesting interesting programs for meetings, but the meetings are always conducted by and for the benefit of the student members.

DEAN C. H. STANGE

Veterinary Faculty

MADGE I. MCGLADE
Director of Housing

To serve more adequately the needs of the women students of Iowa State College, the Office of Women's Affairs was established in the fall of 1930, superseding the former office of Dean of Women. Under the present organization the diverse interests passing through this office are divided into three phases—personnel, housing, and social life.

IZA W. MERCHANT
Director of Social Life

FRANCES A. SIMS
Director of Personnel for Women

Miss Frances A. Sims as Director of Personnel for Women, has charge of all matters pertaining to personnel. Mrs. Madge I. McGlade, Director of Housing, has charge of the housing of women students and the maintenance and operation of the dormitories. Mrs. Iza W. Merchant, Director of Social Life, directs the social affairs of the campus.

Book Two

ACTIVITIES

ROLLING fields of waving wheat that stretch for miles--giant combines drawn by powerful tractors--loitering peasants watching the activity --a group of American Engineers directing the work. It is a wheat farm of a million acres in Soviet Russia. Among these men is an Iowa State Engineer who is helping in the development of a new nation. We call unselfish effort on the campus, "Activities". E. J. Stirniman, '17, is giving up the comforts of his own country to help a country in need of American aid. To Mr. Stirniman, therefore, this part of the Bomb is sincerely dedicated.

The Cardinal Guild is the Student Governing Association of the college. Its purpose is to foster, maintain and guard college traditions; to officially voice the sentiment of the student body; to further cooperation between the student body and the faculty; to serve as a unifying body between the several divisions of the school; to further cooperation between them and to combine their interests toward the development of a greater Iowa State College; and to assume such powers and perform such duties as may come in acting as the official representative of the student body.

Veishea evolved out of a desire to unite the various divisional celebrations into one all-college festival held during the spring quarter. Veishea was first held in May, 1921, and has since been an annual festival conducted by the students of Iowa State College acting under the supervision and cooperation of the faculty. The Veishea committee is composed of picked students from all divisions of the college, each one especially qualified to perform the work assigned him. The presenting of Iowa State College, "At Work and Play," to the public lies in the hands of this committee.

The Agricultural Council is the governing body of the Agricultural Club and is composed of a junior and senior representative of the department clubs. The officers of the council are the same as the officers of the club. It is the purpose of the Agricultural Club to foster among the agricultural students and faculty a closer bond of fellowship. The council annually sponsors the Ag. Carnival, the All-Ag. Banquet and the Ag. Ball.

The Engineering Council sponsors and supervises the many activities of the Engineering Division. The Council is made up of two representatives, a junior and a senior, from each of the nine engineering departments and one representative from the Iowa Engineer and the Engineering Faculty. Membership on the Council is to be prized because it offers such excellent opportunities of leadership and experience.

Annually the Council sponsors among its many other activities the Engineers' Campfire or Carnival and Dance, the Engineers' Minstrel Show, the Engineers' Ball, and the collection of all Senior Engineers' Personnel Leaflets.

The Industrial Science Council was conceived with the idea of bringing the various departments of the Industrial Science Division into closer fellowship and to promote the spirit of loyalty to the division and its members. The members of the council are chosen from the student body of the division at the divisional convocation during the spring quarter. Besides acting as a student governing body for the Industrial Science Division, the council sponsors the Industrial Science Barbecue, the Industrial Science Ball and the Divisional Open House during Veishea.

DOROTHEA KNOCKEL.....	Chairman of Child Care and Training Division

The Iowa State College Home Economics Club was organized in 1918 to unify the efforts of the girls in the division and to stimulate their interest in Home Economics. As an affiliated member of both the American and the Iowa Home Economics Associations, delegates are sent each year to the association meetings.

The business of the club is carried on by the executive council, while the club members participate in Home Economics Club picnics for Freshman Girls, the biennial Hee Vodvil, Divisional Open House and Cherry Pie Sale during Veishea, ushering in Home Economics Hall, Vocational Education Club and in the support of the "Iowa Homemaker" and the Catharine MacKay Loan Fund.

This year the club has reorganized to pattern itself after the Home Economics Association, and is now divided into five divisional interest groups: Applied Art, Foods and Nutrition, Textiles and Clothing, Child Care and Training and Household Equipment.

The Iowa State Student is the official student newspaper, published tri-weekly during the college year. The entire staff is made up of students, and editorial positions are filled by appointment from the reporters and assistant editors. The paper seeks to unify the student body, to serve as an outlet for faculty and student opinion and criticism, and to further those ideas and ideals which point toward a better Iowa State College.

PUBLICATION BOARD

GERALD L. JOHNSON F. D. PAINE WALLACE ROGERS
 MELVIN NASBY H. E. PRIDE ROBLEY WINFREY

The Iowa Engineer, monthly student publication of the Engineering Division, was established at Iowa State as the I. A. C. Engineer, the first issue of which was printed in 1894. In 1901 the name was changed to The Iowa Engineer. The Iowa Engineer publication board directs the policies of the magazine and makes the appointments of the staff executives, who take office at the beginning of the spring quarter.

This club is made up each year from the singers who try out at the spring and fall trials. They rehearse three times each week under the direction of Prof. Tolbert MacRae.

The annual spring tour includes the following cities: Eldora, Grand Junction, Waterloo, Vinton, Cedar Rapids, Muscatine, Davenport, and Chicago.

Before leaving on tour, the Club appeared in the "Messiah," Farm and Home Week musical program, two appearances in the twilight musicales at Great Hall, as well as an appearance in the leading theatre in the city.

Girls' Glee Club

ELSA SINDT *Business Manager*
 EMILY CONKLIN *Secretary*

The Girls' Glee Club is an organization whose members are chosen on the competitive basis. All its work is done under the direction of Rosalind Cook.

MISS ROSALIND COOK

The Fall Quarter is spent in preparation for the annual Christmas Carol Candlelight Vesper Service which is broadcast during the presentation.

During the winter the club prepares concert numbers which are used for the entertainment of the guests of Iowa State College at the various conventions held on the campus.

It is customary to give a spring concert each year and the club expects to prepare one this year, as usual.

The club appeared at the annual Burns dinner-dance at Memorial Union, and also broadcast a concert over WOI.

Credit of one hour per quarter is being given this year for the first time.

Iowa State Training Band

OSCAR HATCH HAWLEY, *Bandmaster*

The Iowa State Band was organized eleven years ago with a membership of fifty. Since then it has grown so much that we now have two bands—a concert band and a training band in which the students gain the experience needed to qualify for the Concert Band. At present the Concert Band has a membership of almost a hundred men and the Training Band fifty-five. The Band, decked out in its Cadet Gray and Red uniforms, gives an annual fall concert and several spring concerts and, in addition, it appears at all athletic events. Professor Hawley has been the conductor for the past ten years.

The Music Department tries to get all the students who are musically inclined to associate themselves with the different organizations that are under the direction of members of the faculty. These organizations include the two glee clubs, the concert and training bands, and the symphony orchestra. In the Men's Glee Club is the Iowa State Quartet, and the Girls' Glee Club has the I. S. C. Octette. All of the musical organizations give concerts on the campus as well as in neighboring cities during the year.

SYMPHONY ORCHESTRA

Judging Teams

Syndergaard Shearer (coach) Groves Plager Schmuecker Souls Porter Ely

INTERNATIONAL AND AMERICAN ROYAL

Live Stock Judging Team

This year twenty-three teams competed in the livestock judging contest at the Chicago International. The Iowa State team ranked fourth in judging all classes. The contest was won by Oklahoma, with Kansas second, and Kentucky third. Carroll Plager was second high man in individual ranking. Teams from Connecticut to Wyoming and from Texas to Canada competed.

At the Kansas City American Royal the Iowa judges ranked third, with fourteen competing teams. At this contest Edward Syndergaard was high man in individual ranking and was also high man in sheep judging. Carroll Plager was high man in judging horses and Ervin Schmuecker placed third in judging beef cattle. Howard Ely was ninth in judging all classes. The team ranked second in judging beef cattle, third in horses and hogs and sixth in sheep judging.

Dairy Products Judging Team

The Dairy Products Judging Team of Iowa State College for 1930 consisted of James Aldrich, Kern Elerick, Frank Mleynek and Palmer Arnold, alternate, and competed with teams from sixteen other colleges at the National Students' Dairy Products contest held in connection with the Dairy Industries Exposition at Cleveland, Ohio, in October. The team placed second in ice cream, and among the 51 individual judges, Kern Elerick placed third in this product and James Aldrich eleventh. Frank Mleynek placed seventh among the individual cheese judges.

Elerick Arnold Mleynek Aldrich

Kilpatrick Dorchester (coach)
Stover Ankerstjerne Strayer

Crops Judging Team

The Crops Judging Team competed twice this year, winning second at the American Royal in Kansas City, and another second at the International Grain and Livestock Show in Chicago. George Strayer was high man of the Iowa team in both contests, placing second at Kansas City and fourth at Chicago.

At Kansas City the team won the individual silver medals presented by the Kansas City Board of Trade. The second place prize at the Chicago contest was an ebony and silver plaque presented by the International Crop Improvement Association.

INTERNATIONAL AND AMERICAN ROYAL

Meat Judging Team

The Iowa State College Meat Judging Team won first in the Interecollegiate Meat Judging Contest held at the American Royal, in which five universities and colleges competed.

Caputo ranked second, Hardie third, and Artz seventh. The team ranked first on pork and second on beef and lamb.

The Iowa team ranked eighth in the meat judging contest held at the International, in which nine universities and colleges competed.

Nine meat judging contests have been held to date. Iowa has won two firsts, two seconds, three thirds, one fifth and one eighth.

Caputo Hardie Helser
Artz Smith

Ely Hansen (coach) Groves
Stewart Porter

Dairy Cattle Judging Team 1930

A National Championship, and a first at a strong regional show, winning eight team trophies and a large number of individual prizes, is the record of the 1930 Dairy Cattle Team. The National Dairy Exposition at St. Louis had 25 teams in competition and Iowa State took first with the large lead of 146 points. Stewart, Porter and Groves placed third, fifth and seventh as individuals.

At the Dairy Cattle Congress at Waterloo, Iowa State won first against ten strong teams. Robert Stewart was high man of the contest, with the largest individual score ever made.

In the two contests a total of 12 firsts were won, six by the team and six by the team members, Stewart leading with five firsts.

Poultry Judging Team

The Poultry Judging Team, consisting of Kermeth F. Boeke, John Kern, and Welford Lamoreux, with Horace Coolidge acting as first alternate and Carl Larson as second alternate, competed in the Poultry Show held in connection with the National Dairy Show at St. Louis and the Coliseum Poultry Show at Chicago.

The team placed first at St. Louis and was first in all-around judging at Chicago. John Kern was high man of the contest at St. Louis and Kermeth Boeke was high man of all contestants in Chicago. The team placed first in exhibition judging with the highest score ever made at the Chicago contest. Iowa was also first in the Standard examination, the team members placing first, second, and third.

Lamoreux Boeke Kern

Military

LIEUT. COLONEL P. W. BOOKER

Reserve Officers' Training Corps

The Reserve Officers' Training Corps at Iowa State was awarded the "Distinguished College" rating for the years 1925, 1926, and 1927.

Since then the War Department has seen fit to discontinue all comparative ratings of R. O. T. C. units, but the standard of military training at Iowa State has remained at the same high degree of excellence as is to be found in all other departments. This degree of excellence is due to the high standard of the students in the Advanced Military Course. Undoubtedly the work of these men will be rewarded in some form by the War Department in the near future.

Capt. Wightman	Lieut. Andrews	Lieut. Col. Booker	Lieut. Pyle	Lieut. Foreman

Cadet Officers' Association

OFFICERS

EDWIN DENSLOW *President*
 ROBERT TOWNE *Secretary-Treasurer*

EDWIN DENSLOW

The Cadet Officers' Association was founded with the primary purpose of promoting a feeling of good fellowship among the students in the advanced corps; to bring student officers and faculty officers of the Military Department into closer touch with one another; to promote school spirit by cooperating with the other departments of this college and with other institutions, and to secure a broader and more practical knowledge of Military Science.

The Reserve Officers' Training Corps is an indispensable principle in our national defense plan, and is of a nature that would not develop in anyone the desire for war, but would, in case of a national crisis, prepare him for the services which would be of the greatest value to his country. It develops his mind, character, and body by a system of training based on precision, alertness, and a well-timed physical effort.

FRANK KOWSKI
Drum Major

Bugle, Fife, and Drum Corps

This was the second year of existence of the Bugle, Fife and Drum Corps, which is composed of students in the R. O. T. C. unit.

Fifes were added to the corps this year, adding considerably to the music, size, and spirit of the organization.

A number of the men were in the corps last year, which aided greatly in working the corps into shape this year. The new men, starting with a meager knowledge of music, became accomplished fifers, buglers and drummers since fall.

The full corps of sixty men add a great deal to the R. O. T. C. unit reviews in the spring, with their stirring martial music.

Rifle and Pistol Teams

Due to the organization of the R. O. T. C. units at this college, the rifle team is composed of students selected from the Engineer Unit, and the pistol team of students from the Field Artillery Unit. Both teams fire telegraphic matches with R. O. T. C. teams of other schools throughout the season. The outstanding match fired by the pistol team is the National Field Artillery R. O. T. C. match. The important rifle matches are the Seventh Corps Area Match, the Society of American Military Engineers Match, and the Hearst Trophy Match.

DOUGLAS	Marion L. Bruch

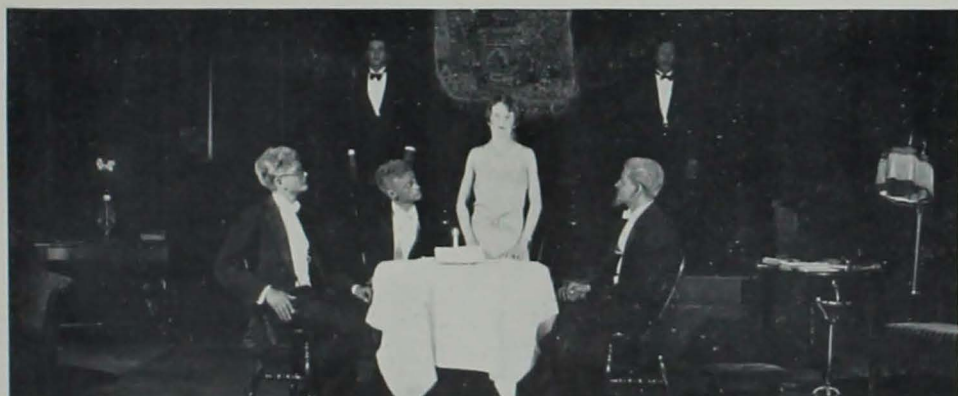

The 1930 Commencement production was "Three Wise Fools," a comedy by Austin Strang.

The scene of the play is the home of the "Three Wise Fools," who are in reality three elderly bachelors. These men, all of them successful in their respective lines of work, have, during the past, at different times, all loved the same woman. At her death, this woman wills to the three men her daughter, an intriguing young miss in her teens. She comes to live with them and immediately the gloom and apparent air of antagonism in their home are replaced by the sunshine and laughter of young womanhood.

A criminal, whom the judge has sent to prison in his court, is caught breaking into the home, and in the course of events discloses that it was through false pretenses that another man was sentenced to a prison term. The unjustly sentenced man is released, and is found to be the father of this adopted daughter of the "Three Wise Fools."

Love has, in the meantime, found its way into the life of the adopted daughter and a nephew of one of "The Fools," and it is thus that the play ends—in a happy romance.

"The Big Pond"

MRS. JANE LIVERMORE	Thelma Combs
BARBARA BILLINGS	Alice Knipe
PIERRE DE MIRANDE	Dwight Dannen
HENRY BILLINGS	Allen Jobe
SARAH	Eva Greenley
MOLLY PERKINS	Clara Schloo

"The Big Pond," by George Middleton and A. E. Thomas, followed, through surprising and humorous complications, an American girl's attempt to transplant her Old World romance into her new world's life.

Barbara Billings found her romantic lover in the person of Pierre De-Mirande, an impoverished French gentleman, who acted as a guide to the family during their stay in Venice. Her rich father resolved to "show up" the Frenchman and so give Barbara a more sane idea of her courteous gentleman. He brought her romance to America. Pierre, in trying to prove, in American fashion, his love to Barbara, amazed and delighted Billings by becoming one of the best "go-getters" in the business. He was only too glad to have Pierre in the family, but Barbara saw the romantic Pierre fast becoming big-business Pierre, so she refused to marry him. Instead, she defied him by arranging an engagement with Ronny Davis, who had delved into Old World ways to interest her. Such treatment aroused Pierre. He became enraged—challenged Ronny to a duel—in short, became again the romantic figure of Barbara's dreams. The play ends with father, daughter, and lover all happy; and romance lives on, even after crossing "The Big Pond."

SACRISTAN OF SAN ANTONIO	Harry Fisk

"The Women Have Their Way," a comedy in two acts by the contemporary Spanish playwrights, Serafin and Joaquin Alvarez Quintero, is brilliant and delicate satire on the theme of small town gossip. Adolfo, a promising young lawyer from Madrid, comes to a Spanish provincial village to settle the estate of a deceased uncle. He has no more than stepped from the train when the women of the town begin gossiping about a supposed romance between him and Juanita la Rosa, the prettiest girl in town. Adolfo resents this direction of his affairs and will admit no interest in the girl until the report is circulated that he has said something offensive about her. As he tries to right himself in her eyes, a genuine interest develops, and in the end he is content to let the women have their way.

"Cock Robin"

HENRY BRIGGS	Clarence Culbert
DOCTOR EDGAR GRACE	John Heffner
MARIA SCOTT	Dorothy Anderson
HELEN MAXWELL	Eva Greenley

Who killed "Cock Robin?" A group of amateur actors become involved in the attempt to arrive at the identity of the Sparrow. When their play is produced the killing scene in the old tavern becomes very real; before the eyes of the audience Robinson is most effectively silenced. The members of the cast attempt to solve the mystery before the authorities arrive. To all appearances Robinson was shot by a bullet from a loaded cartridge that was substituted for the blank in the dueling pistol. Suspicions and accusations are silenced when it is finally proved that the substitution of the bullet for the blank was entirely accidental. It is suddenly discovered that Robinson was knifed in the back—that the bullet did not cause his death. One by one the members of the cast come under suspicion; all have had motives sufficiently strong to account for the killing.

Maria Scott, the director's able assistant, "the girl with the camera-eye," directs the cast through the action preceding the fatal duel and finally the mysterious stabbing is explained.

Knives, pistol-shots, surprising denouncements, and vindication of the actual slayer all contribute to the exciting and interesting unfolding of the answer to the query, "Who Killed Cock Robin?"

"Outward Bound" is Sutton Vane's dramatic answer to man's eternal speculation on the nature of life after death. Seven persons of various ages and stations in life find themselves passengers on an ocean liner; the charwoman, the faded lady of fashion, the member of parliament, the earnest young preacher, the young drunkard, and the young couple who have committed suicide. None of them knows clearly why he is there nor where he is going. The discovery that they are all dead and that they are going to both Heaven and Hell provokes reactions which vary with each character. The boat finally puts into port and the Examiner comes on board to pronounce sentence. All but the young couple are sentenced to go on until they become the people they should have been in life. The young couple are kept in suspense until after the boat sails again; finally they are permitted to go back to life to try again.

Veishea Night Show

The first Veishea Night Show, in 1922, was a hurriedly arranged make-shift affair without plot or theme. Its main claim to entertainment was through vaudeville performance and burlesque. Each year since that time a scenario written and directed by students of Iowa State College has been produced.

For the 1930 Veishea Night Show a three-act comic opera, "Robin Hood," written by Reginald DeKoven in 1890, was produced.

The Engineers' Minstrel Show

The "Annual Conceave of the Grand, Eggsalted and Irradiated Order of Inframural Sunshine Clubs" was held in MacKay Auditorium on February 13 and 14.

With Professor Ben Willis in the role of "Dictator" and other well known campus celebrities as members of the cast, the audience was entertained with two hours of song, dance and specialty numbers interspersed with typical minstrel crossfire concerning campus customs, traditions, and problems. The talented cast, splendid orchestra and striking stage set featuring "Station A," contributed to a production which was greatly enjoyed.

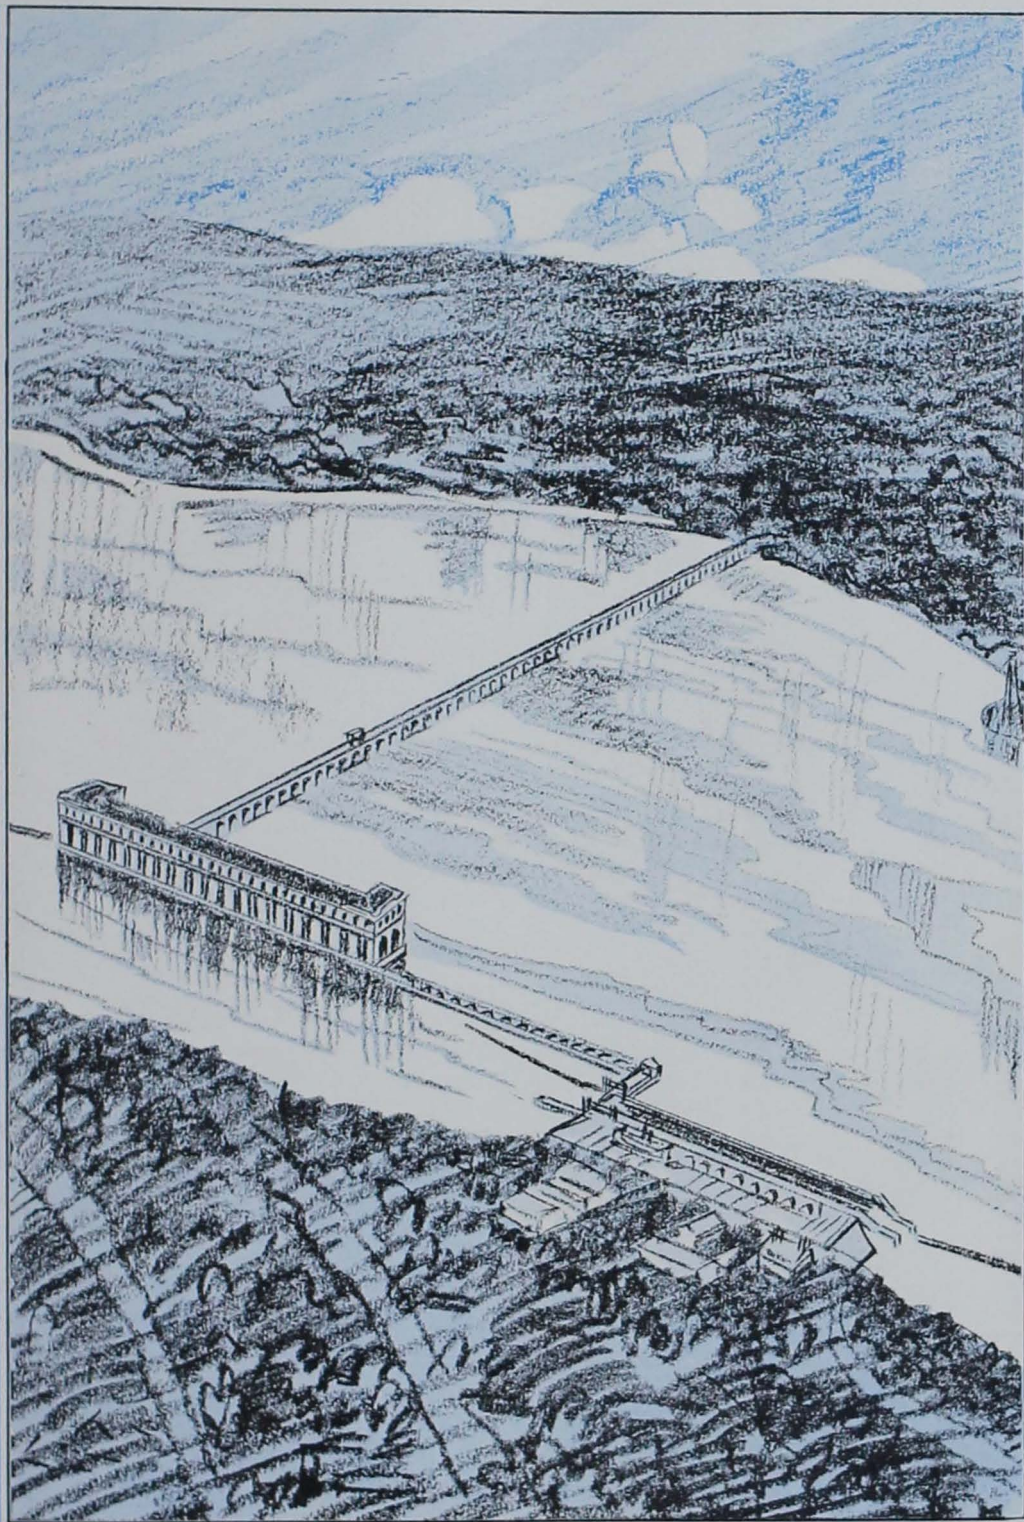

Book Three

ATHLETICS

HITTING hard and shrewd thinking--knowledge and strength--education and athletics--the keys of intellectual success--success in life depends upon both. The fighting, driving, good sportsman of the athletic arena is the shrewd, quick thinking, driving, forceful man of the world to whom goes the credit for the countless aids to the progress of this country. To Mr. H. F. Anthony, '05, Chief Engineer of the Stone and Webster Company, we dedicate this book of the Bomb of 1931.

T. NELSON METCALF
Director of Athletics

COMPETITION in the Big Six conference for 1930, up until the time this book went to press, shows keener rivalry than ever before among the six schools. Nebraska again leads her sister schools, taking all of the below named sports into consideration, with Iowa State, Kansas University, and Oklahoma University, tying for second honors.

Iowa State and Kansas University each has two Big Six championships to their credit, while Missouri and Oklahoma fail to have any.

GERALD SHARF

Cheerleaders

Gerald Sharf, as head cheer leader, and his associates, Peter Topic, Kenneth Ruggles, Gordon, and Pequin, undertook a real job last fall when they were faced with the problem of instilling pep into fans watching a losing football game. But the crowd did yell from the first to the last game, and no little credit is due to the boys out in front. At the end of the fall quarter both Sharf and Pequin left school, and Pete Topic and Kenny Ruggles took over the reins. The antics of Topic, the red-headed clown, and the enthusiasm of Ruggles brought out some real yelling during the winter season.

The national pep organization, Pi Epsilon Pi, under the leadership of Paul Barber, staged "between half" stunts during the football season, and assisted in the cheering during the fall season.

Facing Coach Noel Workman at the beginning of the 1930 season were two big obstacles; one was a long, difficult schedule, without doubt the stiffest in Cyclone grid-history, and the other was a jinx of undeserved defeats from the previous year which threatened to continue unless nipped in the bud by winning over the powerful Illini in the opening contest.

The 1930 record found this same cruel fate of defeat clinging unrelentingly to Iowa State grid teams, but also left in its wake some of the most thrilling contests the Cardinal and Gold have ever engaged in. Though the Cyclones went down to defeat on nine consecutive occasions, it can truly be said, without showering the team with any undeserved credit, that they lost gloriously, and were the source of fully as many thrilling plays as any of their opponents.

At the end of the 1930 season, Coach Workman submitted his resignation to the Athletic Council. It was with deep regret that Coach Workman's associates learned of his leaving, for in the five years he has been connected with Iowa State, he won the respect and friendship of the entire school and city. Not once during the discouraging run of defeats did the student body attempt to throw the blame on Coach Workman's shoulders. On the contrary, Big Six

CAPTAIN SPEAR

critics declared the Cyclone mentor to be one of the brainiest in the conference.

Iowa State opened her 1930 season at Champaign, where they did battle with the heavy Illinois eleven, and after four quarters of exceptionally close playing, dropped the contest 7 to 0. Coach Workman had but two weeks in which to shape a team to face the more thoroughly drilled Zuppke men; however, when the two teams lined up against each other in the Illinois stadium, they battled on the evenest of terms from

Trauger carrying ball through right tackle for gain

FOOTBALL

BENNETT—Guard

TRAUGER—Quarter

start to finish. One error on the part of an Iowa State back, who fumbled on his own 24 yard line, allowing an opposing lineman to recover, gave the Big Ten team the impetus for the only score of the game. The work of Gordon Nagel at center, and Roger Bowen as a kicker assured Coach Workman of a dependable lineman, and excellent punter for the remainder of the season.

A week later the conference season got under way for the Cyclones, when Nebraska University, conference champions a year ago, invaded State Field, and carried away a 14 to 12 victory. The first half of this contest caused Cyclone fans no little disappointment and worry, for the Cornhusker "powerhouse" offense pushed over two touchdowns. The first came after an Iowa State kick was blocked near its own goal, from where Nebraska pushed over the few remaining yards, and the other came after a long drive, with Red Young scintillating, down to the north goal. However, the second half was a reversal, with Iowa State holding the upperhand throughout. The insertion of Dick Grefe, blond sophomore back, proved the spark that sent the Iowa State eleven on its way to scoring. Following a series of brilliant gains by Grefe, the Cyclones uncorked a baffling passing attack that left the Nebraska team in a daze. Twice they pushed over touchdowns, only to miss the added point. With the time fast nearing an end, Coach Workman's men started a third drive which had rapidly progressed to the Nebraska 20 yard line when the gun ended the game.

In spite of their sensational second half comeback in the Nebraska game, the Iowa State team failed to click properly in the crucial moments of their first away from home conference game against Kansas University, and lost by a 20 to 6 score. The fourth quarter aerial attack of the

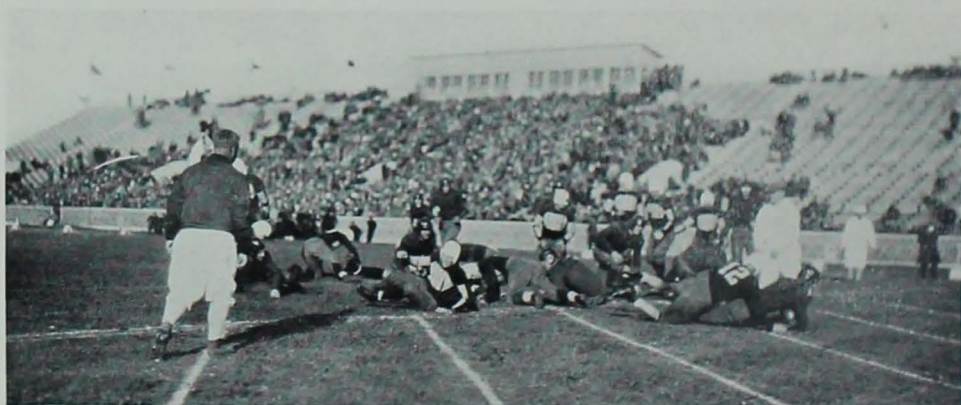

TEGLAND—Full Back

SPEAR—Tackle

Tegland scoring in the Nebraska game

NOLTE—Tackle

SMITH—Tackle

beefy Kansas team proved the undoing of the Cyclones. When the final period was well underway, the score was 7 to 6, with victory in anybody's grasp. The Jayhawks changed their driving game to one in the air, and with but five minutes to play, scored two more touchdowns by the aerial route. The Cyclones' score came as a result of a 59 yard sprint by Dick Grefe, who caught a Kansas punt in midfield, and ran behind splendid interference to the one yard line, where he was forced out of bounds. Tegland smashed over from this point. On another occasion, Trauger and Wells, the respective elusive and speedy Cyclone backs, carried the ball on successive plays from their own 38 yard line to the Kansas 9 yard line. However, the 200 pound Jayhawk line tightened at this point, and took the ball on downs.

The Homecoming game was next in line, and this battle with Oklahoma University, resulting in a last minute defeat for Iowa State by a 19 to 13 score, was one of the highlights of the season. With the score tied at 13 all, and 57 seconds left to play, Oklahoma possessed the ball, and wildly opened a passing attack. One long heave found the arms of a waiting substitute, who scampered for a touchdown to add glory to his name and team. The Cyclones drew first blood in the initial period. Dick Grefe broke away in mid-field on one of his specialty runs, and dashed forty yards before the giant Sooner tackle, Captain Fields, ran him down from behind. From here a pass to Swoboda was completed for a score. The Sooners quickly retaliated, with a long drive down the field, Bus Mills and the speedy Warren playing the chief roles, resulting in a score and extra point to tie affairs. Iowa State was not to be outdone, however, and pierced the Sooner line and pass defense regularly until another pass to Johnny Moen scored again. The half thus ended 13 to 13.

FOOTBALL

BOWES—Halfback

NAGLE—Center

The following week proved to be the lowest point in the Iowa State schedule. Facing only a mediocre Missouri University team at Columbia, the Cyclones launched their attack with effectiveness only once during the game, and allowed the Tiger team to win 14 to 0 in the latter's first conference victory. Early in the fourth quarter Iowa State made its only threat when Tegland carried the ball 26 yards and 14 yards successively, placing the ball on Missouri's 12 yard line. Here a pass, Wilcox to Farrell, dropped over the goal line, automatically ending a chance to score. The Missouri touchdown came in the closing minutes of the first half, when a Tiger back intercepted an Iowa State pass on their own 45 yard line, Van Dyne straightway passed to Collings, who sprinted 25 yards to the Iowa State goal. Again in the middle of the third period Heitz of Missouri passed to Van Dyne for a second Tiger score.

The next week found three Iowa State regular backfield men on the sidelines with injuries, the veterans Trauger, Tegland, and Wells being on the bench. This fact, coupled with the splendid playing of an inspired Kansas Aggie team led by Auker, resulted in a 12 to 0 victory for Coach Bo McMillen's men. The Kansas Aggies started the game in whirlwind style, and scored twice in the first period, with Auker, versatile Kansas backfield star, leading the attack. Early in the game the Kansas Aggies launched their first scoring attack. Taking the ball on their own 15 yard line, Schartz and Auker made it first and ten on their own 25 yard line. On the next play Nigro stepped back and tossed a long pass to Auker, who ran the remaining 25 yards for a touchdown. A few minutes later the Kansas Aggies gained possession of the ball on the Iowa State 25 yard line following a poor punt, and after bucking the line twice to no avail, completely fooled the Cyclone backs on a pass, Auker

MOEN—End

WELLS—Halfback

GREFF—Halfback

IMPSON—Fullback

to Fisher, which was good for the final score of the game. After this scoring melee on the part of the Kansas Aggies, neither team succeeded in making a dangerous threat.

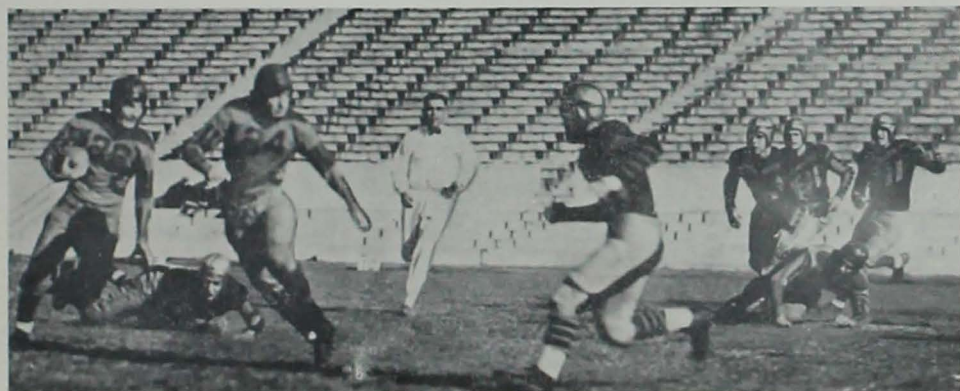

On November 22, the traditional battle against Drake University took place, and it far outshone most of the previous encounters between the two schools in thrills, and history-making plays. Drake won the game 20 to 19, their final touchdown being made 27 seconds before the game ended. Without doubt this was the most heart-breaking defeat the Cyclones were forced to accept in the 1930 season. A superb line stopped every Drake charge before it ever got under way, and in addition opened mammoth holes in the Bulldog forward wall through which the Iowa State ball carriers galloped ten, fifteen, and twenty-five yards almost at will. Iowa State gained 283 yards from scrimmage as compared with 82 yards gained by Drake by this fundamental method. The Cyclone eleven played as an inspired team in every department of the game save one, the pass defense; and this glaring failure cost them a well earned victory as it had in previous games. The total summary of Drake's part in the game was the completion of three well timed passes, all resulting in touchdowns, one early in the first quarter, another in the second quarter, and the third just before the final whistle blew. Lynn King, the Bulldog ace, performed brilliantly on the receiving end of two of the three passes. Every Cyclone score came as a consequence of brilliant, smashing drives down the field, Ivan Impson, sophomore fullback, crashing through the Drake line for large gains on nearly every play in a spectacular performance. Inability to kick goal on two out of three occasions cheated Iowa State out of even a tie.

Following the Drake game, Iowa State assumed the role of ramblers, and invaded the Sunny South for two games, the first being against Loyola at New Orleans, and one a week

DUNN—Manager

later with Rice Institute. Here again, as was the case all season, a poor pass defense spelled defeat, after the Cyclones had outplayed their fellow men in the line. Loyola triumphed 14 to 7, while Rice gained a 13 to 7 victory. At New Orleans Iowa State gained at will in midfield, gaining 12 first downs to Loyola's eight, but lacked the final drive near the goal. The Cyclones scored first, rambling straight down the field in the first quarter to the four yard line, where Bowes carried the ball over on a sweeping end run. Loyola soon evened things up when they scored on a long pass. Late in the third quarter Wilcox's punt was blocked, Loyola recovering on the one yard line. This led to the winning score, for neither team made another serious scoring threat.

At Houston the Owls of Rice Institute passed their way to thirteen points in the second and third periods, while Iowa State was gathering seven. The Iowa State score came after a beautiful drive from midfield to the Rice goal, with Grefe, Bowes, and Tegland carrying the ball. Trauger and Captain Spears saw little service in this final contest due to injury in the Loyola game.

Varsity Basketball

The opening of the 1931 basketball season was anticipated with high hopes by Cyclone supporters. Ex-captain Woods was the only regular who did not return from last year's exceptional team.

Co-captains Hawk and Heitman, the brilliant Roadcap, and "Mighty Max" Rieke formed the nucleus for a strong team. It was not until the season was well under way that the lanky Thomson, by virtue of greater speed and accuracy under the basket, clinched the vacant forward berth from his fellow sophomore, Ludwig. Thomson's play the latter part of the season was excellent and in his two remaining years much is expected from him.

Jack Roadcap, Cyclone captain-elect, led the conference in scoring this season. Along with this honor, he has been placed on all of the mythical All-Star Big Six teams by sports writers and scribes. Even when he was "put on the spot" the last part of the season, not even the new All-Conference guards could stop his scoring. In the last nine games of the season, including non-conference games, he averaged eleven points a game. No doubt Jack is one of the country's leading players.

Hawk, handicapped by injuries, received honorable mention as guard and Thomson ranked tenth among scorers of the circuit.

The play this season was extremely close. This is shown by the fact that every team lost at least three games. Scribes refused to select pre-game winners. Iowa State suffers least from graduation, and with all five regulars back next season, the team is expected to make basketball history.

CO-CAPTAINS HEITMAN AND HAWK

Simpson opened the season Dec. 20, and were easily trounced 39 to 12. Both teams used numerous substitutes. Heitman, elongated Cyclone center, led the scoring with fourteen points.

New Year's Eve, the Drake feud was renewed at Des Moines, Iowa State winning 17 to 16. The game was close and hard fought, play being featured by the work of the opposing guards.

The following week, the team journeyed to Minneapolis. Hopes for a Big Ten scalp were destroyed when Roadcap was carried from the floor unconscious after Hawk's shoulder had collided with his jaw in the scramble for the opening tip-off. Weakened by the loss of their offensive ace, the Cyclones received the short end of a 29 to 17 count.

Bunched for a follow-in shot in the Oklahoma game

BASKETBALL

HAWK
Guard

The conference season was opened the next Saturday in State Gym. Oklahoma furnished the opposition. Iowa State flashed championship form and won handily 35 to 25. Anderson's free throw gave the Sooners the initial lead, but Heitman showed why he is famous for one handed push shots and the Cyclones were never headed off after that. Beck, All-American high school guard, was the outstanding visitor. Rieke played a wonderful game at guard for Iowa State.

Missouri was then encountered at Columbia and the boys were upset 20 to 18. The winners kept the Cyclone score down by keeping possession of the ball mainly through the work of Huhn, 6 foot 6 inch All-Conference center. Iowa State was held to four field goals during the game. The loss of Hawk, who sprained his ankle at the start of the second half, greatly weakened the team.

Kansas U. was next entertained in State Gym. and the visitors won a thriller 34 to 27. The Cyclones were bewildered in the first half by the clever passing of the Jayhawks and went to the showers trailing 23 to 9. The team came back in the second half, completely outplayed the visi-

HEITMAN
Center

tors, and with four minutes to play were but three points behind. With the crowd cheering madly for a victory, Bishop slipped through the Iowa State defense for two set-ups and the game was lost. Holmes, substituting for Hawk, played well, holding the flashy O'Leary to one field goal in the second half.

Two days later Creighton was encountered at Omaha, Creighton winning 44 to 16. Playing without the services of Hawk and Thomson, who were injured, the Cyclones were at a disadvantage. Rieke, stellar guard, went out on personal fouls in the first half. "Sparkplug" Roadcap played the entire game with one eye practically covered, due to a painful injury received in the Kansas game. Heitman, with 12 points, did the bulk of the scoring for Iowa State.

ROADCAP
Forward

Rieke seems to have full possession of the ball in the Kansas U. game

BASKETBALL

A week later at Manhattan, the Kansas Aggies were soundly trounced by a rejuvenated Cyclone team 46 to 31. Kansas sports writers paid a great tribute to the clever teamwork of the Menze men and described Roadcap as America's greatest player. Jack led the scoring with 8 field goals. Hawk, in holding Nigro, K-Aggie captain, to one field goal, played a splendid defensive game.

The next night at Lincoln, the Cornhuskers won handily over a tired Cyclone team 31 to 19. Roadcap again injured his eye in this game. Fisher, then leading the conference in scoring, accounted for 14 points of the winners' total.

The first week in February, Missouri was encountered at Ames. Coach Menze was set for the delayed Missouri offense and the outcome was never in doubt, the final score being 29 to 19. Not only did the gigantic Huhn fail to control the tip-off, but his scoring efforts were limited to two charity tosses by Rieke, who undoubtedly played the best game of his career.

WILCOX
Forward

RIEKE
Guard

LUDWIG
Center

Iowa State next tangled with Drake at Des Moines and again emerged victorious 23 to 20. The game was slow and raggedly played. Drake never seriously threatened and the Cyclones seemed content to maintain a lead. Heitman with eight points and Monahan of Drake, with nine points, were the offensive aces.

In the next game, Cyclone fans were treated to the greatest exhibition of basket shooting seen in State Gym this season. The Kansas Aggies

were the unceremonious visitors who upset our eagers 38 to 24. They came here crippled by the flu, with three reserves in the lineup. These subs, particularly one Brockway, playing his first college game, could not miss the basket. It seemed only necessary to shoot the ball in the general direction of the net and it would drop through without touching the rim. Fourteen times in the second half the Kansans shot and nine times the leather sphere

but received little help from his mates, offensively. Hawk and Rieke held the Kansas sharpshooters, Bishop and O'Leary, to two field goals each.

The final game of the season was with Drake on the home floor. For the third time this year, the Bulldogs were defeated by the Cyclones, this time 39 to 21. For the first part of the game, it was closely contested, but gradually developed into a complete rout. Al Heitman's one-hand shots were timed to perfection and he scored seven field goals from all angles. Derson and Lynn King, Drake stars, were used in an attempt to stop Roadcap's scoring. Such opposition only made the "Speedboy" more elusive and six field goals were his reward for the evening. When he was removed near the end of the game, he received a tremendous ovation from the crowd. Monahan was again the Drake star.

swished through the netting for two points each. The Cyclones were as cold as the visitors were hot and could not make their shots count. Brockway led both attacks with seven field goals.

In the next game, Coach Menze's leather-pushers returned to form and pleased a most enthusiastic crowd by walloping Nebraska 42 to 28. The Cornhuskers, then conference leaders, were held to three field goals in the first half. Near the end of the second period, with Iowa State leading 39 to 13, Coach Menze inserted the second team and Nebraska did most of their scoring for the evening. Thomson's work under the basket netted him fourteen points, while Roadcap played tag with Hokuf, All-Conference guard, to score nineteen points. Hawk held the high scoring Fisher to one lone basket.

On their final trip of the year, the Cyclones met with disaster and were defeated by Oklahoma U 26 to 21, and Kansas, the new champions, 27 to 16. Against Oklahoma, Hawk again played brilliantly, holding Andy Beck, Sooner scoring ace, to one free throw. The following Monday night, at Lawrence, the game was rather loosely played. Roadcap scored eight points,

Kansas State	3	2	.600
Nebraska U.	2	3	.400
Kansas U.	1	4	.200
Missouri U.	0	5	.000

The 1930 fall track season saw a new athletic event, namely the two mile run, take the place of the regular cross-country team event. A six man team running individually composes the team. Eight laps around the quarter mile track, run between halves of the respective conference grid games, completes the race.

The high hopes for a winning distance team for Iowa State were not frustrated at any time during the fall season, and the final meet found the Cyclone runners in possession of the first Big Six championship of the two mile team event. The two returning veterans, Captain Ray Putnam and Walter Thompson, supported by the two outstanding numeral men of a year ago, Earl Labertew and Art Eichelkraut, made up a quartette which copped the first three or four places in the majority of the meets. The remaining varsity men, Nagel, McClarnon, and Chapman, also aided substantially in bringing Big Six honors to Iowa State.

The first meet of the season, held between halves of the Nebraska-Iowa State grid game, resulted in a 36 to 19 victory for Coach Bob Simpson's men. Captain Putnam came in far in the lead in the rather slow time of 9:48. Thompson of Iowa State finished second and Neurnberger of Nebraska third. A week later

McClarnon Putnam Thompson Eichelkraut Coach Simpson
 Labertew Chapman Nagel

Two Mile Team

the team journeyed to Lawrence, where they defeated the Jayhawk runners 32 to 23. Three Iowa State men led the field to the tape, Putnam winning the event, and Labertew and Eichelkraut placing second and third, respectively. McClarnon placed seventh and Nagel tenth in the same race. Putnam's winning time was 9:45.3.

Another trip was on schedule for November 1, when the sextette of Cyclones took Oklahoma University into camp by a 31 to 24 score. This race again brought together Captain Ray Putnam and Captain Dawson of the Sooners, the latter having won the Big Six conference race a year ago after Putnam had led the pack of runners over all but the last 100 yards of the course. This time, however, Putnam easily out-classed his old rival, beating him to the tape in the excellent time of 9:32. Labertew and Eichelkraut placed third and fourth, respectively.

The Missouri dual at Columbia saw a new team record and also a new Iowa State record shattered, when Ray Putnam covered the two mile course in the remarkable time of 9:22.5. Labertew finished second, Schwartz of Missouri third, Eichelkraut fourth, Nagel fifth, and Chapman sixth, to give Iowa State a 37 to 18 win over the Tigers.

The final dual meet of the season was held between halves of the last home grid game against the Kansas Aggies. Putnam, Labertew, and Eichelkraut again finished first, second, and third, with Nagel running sixth and Chapman eighth. The winning time was 9:52, the slowest time of the year.

1930 Track

The 1930 track season left in its wake a sensational list of records established by Iowa State track men unequalled in recent years. Hubert Meier, the Cyclone sprint king, established a world's indoor record of 6.2 seconds in the 60 yard dash, and later in the spring equalled the best time ever made by man in the hundred yard dash, when he raced the distance in 9.4 seconds.

In addition to Meier's world's record performance in the Big Six outdoor meet, two other Iowa State men shattered existing conference records. Bob Hager, Cyclone hurdler, led all competitors to the tap in the 120-yard high hurdles to set a Big Six record of 14.6 seconds, while only a few minutes later Ray Putnam, Iowa State's crack distance man, broke the standing mark in the two mile run, to establish a new one of 9 minutes 30.2 seconds.

Climaxing the season came the announcement that three Iowa State men had been selected by the National Track and Field Committee for places on the special collegiate honor roll in their particular events. The men receiving this distinguished recognition in the athletic world were Meier, cited in the 100 and 200 yard dashes, Ray Putnam in the mile and two mile runs, and Robert Hager in the 120 yard high hurdles. This is the first time

M. W. SOULTS

any Iowa State man has ever been selected for this award.

A resume of the season, though not as brilliant as certain individual performances, shows Iowa State high up in conference standing. Victories were registered in the triangular meet with Drake University and Grinnell College, over Missouri University, and over Drake University. The Big Six Indoor Meet found Iowa State in second place, and the outdoor affair netted them a third. Also, high honors were won in the Kansas City Athletic Club Games, and in the Illinois and Kansas Relays. The only dual meet defeat came at the hands of Nebraska in an indoor contest at Lincoln.

Meier runs the 100 in 9.4 seconds at Nebraska

Sprints

State 77, Grinnell 31, and Drake 22. Eight firsts were chalked up by Iowa State men, including shut-out victories in the high jump and broad jump.

The only defeat of the season handed Coach Simpson's men came the following week at Lincoln, Nebraska, where the Cornhuskers won a dual contest between the two schools 68 to 36. Meier won the 60 yard sprint, Wells placing third. Putnam took individual honors by winning the mile and two mile runs, and placing second in the half mile event. M. R. Soultz tied with Ossian of Nebraska for a new pole vault mark of 12 feet 6 inches. Hager won first in the high hurdles, and M. R. Soultz tied for first in the high jump.

The first competition of the indoor season was the Kansas City Athletic Club meet during the first week-end of February. Coach Bob Simpson's men won the majority of high honors offered at these games. Hubert Meier tied the existing 50 yard indoor sprint record time of 5.4 seconds. Maurice W. Soultz won the high hurdle event, and the Iowa State two mile and mile relay teams both won their respective events. The two mile team was composed of Elston, Thompson, Nagel, and Punam. The mile quartet included M. R. Soultz, Jay, Wilson, and Elerick.

The following week the Cyclone runners completely outclassed the runners from Drake University and Grinnell in the annual meet held at Des Moines. The final standing was Iowa

Hager leading in the high hurdles

The Big Six Indoor Meet at Columbia, Missouri, was featured by the performance of Hubert Meier of Iowa State, in establishing a new world's record in the 60 yard dash of 6.1 seconds. In completing this sensational race Meier sustained an ankle injury which kept him out of active competition until late in the spring. In a little contest of their own, Putnam, of Iowa State, and Dawson, of Oklahoma, broke even, each winning one of the two distance events in which they were entered. Dawson led Putnam to the tape in the mile run in the time of 4:27.6, but just a few minutes later Putnam won the two mile race in 9:48.9. Bob Hager took first and second in the 60 yard lows and 60 yard highs, respectively. Maurice W. Soultz placed second in the pole vault to Os-

sian of Nebraska, who established a meet record of 13 feet $\frac{1}{8}$ inch. Two other meet records were made, Tomson of Nebraska broad jumping 23 feet $\frac{6}{8}$ inches, and Jim Bausch throwing the shot 48 feet 7 inches.

The final indoor competition of the year was the Illinois Relays meet. Only two Cyclones made this trip, both placing in their respective events. Putnam won the special 1,500 meter race, setting a record in the event of 4:00.4. Hager, getting off to a slow start, placed third in the 75 yard high hurdle event in which Sentman, of Illinois, set a world's record of 9.2 seconds.

The Kansas Relays formally opened the outdoor collegiate track season for 1930. Ray Putnam, fleet Cyclone distance star, again led the field in the special 3,000 meter run, winning the event in 8:54.3.

LARSON
Shot Put

WELLS
Sprints

but succumbed to Martin early in the second mile, and finally to Manning as they neared the tape. Martin won the race in 9:26.2. The 400 yard shuttle race proved a repetition of the previous year, Illinois winning the event and Iowa State placing second.

The annual Missouri-Iowa State dual held in Ames, proved to be the closest meet the two schools have ever faced each other in. The final score was 66½ to 64, and credit for the marginal points of victory goes to Dick Wilcox, whose third toss in the final event of the day, the javelin throw, netted Iowa State a second in the event and victory. Iowa State scored clean sweeps in the 100 yard high hurdles, and pole vault, while Missouri copped all points in the

A week later Coach Simpson took his proteges to the Drake Relays, but failed to gain the usual number of gold medals there. Meier, a sure point winner in the dashes, was still suffering from an ankle injury, and did not make the trip. Nearly all of the other likely point winners were below par condition due to a prevailing cold epidemic. Bob Hager led Sentman, of Illinois, to the tape in a preliminary heat of the 120 yard high hurdles, but the final race found Sentman breaking the tape in 14.7 seconds, followed by Lamson of Nebraska and Hager. Ray Putnam faced two nationally famous distance stars in the two mile event, when he measured strides with Orville Martin of Purdue and Manning of Wichita University. The Cyclone runner led for more than a mile,

Meier breaks tape ahead of Wells

440 yard dash. The best mark of the day was chalked up by Ray Putnam, who won the meet record, and also the Iowa State track record, in the mile run, when he covered the distance in 4:19. Bob Hager broke a second meet record, one established in 1916 by the Iowa State track mentor, Bob Simpson, when running under the colors of Missouri. This new mark was in the 220 yard low hurdles, which Hager ran in 24.5 seconds. Hubert Meier, running his first race following injury in the Big Six Indoor Meet in March, won the 100 yard dash in 10 seconds flat.

On May 14 the Drake trackmen proved no match for the Cyclones, and dropped the meet to Iowa State by a score of 91 to 40. Iowa State won all three places in the two mile run, shot

Broad Jump

put, high jump, and broad jump. Drake scored a slam in the 440 yard dash. Meier and Hager both made exceptionally good time in their respective events. Meier stepped the dash event in 9.9 seconds, and Hager was clocked at 14.8 seconds for the 120 yard high hurdles.

The Big Six Outdoor Meet held at Lincoln turned into a literal record breaking fest. Iowa State men were responsible for the most sensational, as well as the greatest number of records broken. In the first event of the day, Hubert Meier, Cyclone sprint king, shattered all records to cover 100 yards in 9.4 seconds. The only other person ever to equal this time was Wykoff, of California, who ran the century in exactly the same time. Bob Hager, just a few minutes later,

CAMPBELL
Manager

brought more fame to Iowa State, when he broke the tape in the 120 yard high hurdles in 14.6 seconds to smash the former Big Six record, and establish himself as one of the nation's best hurdlers. Ray Putnam, the Cyclones' consistent distance winner, was not to be outdone by his team-mates, and later in the afternoon set a new conference record in the two mile run of 9:30.2.

Jim Bausch, the all-around Kansas athlete, won individual honors, and brought his team the conference championship, by winning first in the shot put, pole vault, and javelin, and placing third in the discus throw. Wells, of Iowa State, ran an exceptionally fine race in the hundred yard dash, and placed second to Meier in the record breaking heat. He also took third in the 220 yard dash, likewise won by Meier. Maurice W. Soult placed third in the high hurdle event, copped by his team-mate, Hager.

Displaying apparent superiority over every opponent save one, the Iowa State matmen wrestled their way thru a highly successful season, in spite of the fact that the one defeat, at the hands of the powerful Kansas State team, cheated the Cyclones out of a deserved conference championship. Coach Otopalik's men hung up a remarkable record, both as a team and individually, during the 1931 season. As a team it won nine victories and lost 1 match. On an eastern invasion the Cyclone team scored three shut-out victories in two days, piling up 106 points over the best teams in the east without the loss of a point. A fourth white-wash victory was scored over Nebraska University later in the season.

As individuals, Richard Cole, 135 pounds, made a most remarkable record, and the three sophomores, Thomas, Hess, and Martin, established themselves as dangerous men in their respective divisions for the next two years. Cole was high point man of the team, winning 43 points in 10

CAPTAIN JUHL

matches. He wrestled his first two matches to draws, then scored 8 consecutive falls to complete his collegiate career. Thomas, 145 pounds, was the only team member beside Cole to go thru the season undefeated. He also was forced to two draws during the season. Hess was runnerup for points, winning 41 points and dropping a 3 point decision for the year.

Nearly a fall in the 115 pound class

pound bout, in which their captain, Lyle Morford, and Dick Cole of Iowa State, meeting for their fifth time, wrestled to a draw.

During the last week in January, the Iowa State mat squad made a week's invasion of the East, which left her three opponents in a daze. On a Friday afternoon the Cyclones ran through the Syracuse University wrestlers by a 38 to 0 score. Only five hours later, they were in Rochester, and in short order blanked the best in the East, the title held by the Rochester Tech. school, by a 34 to 0 score. Racing again across state, Coach Otopalik's men stole a march on the West Pointers, and on Saturday afternoon whitewashed Uncle Sam's picked men 34 to 0.

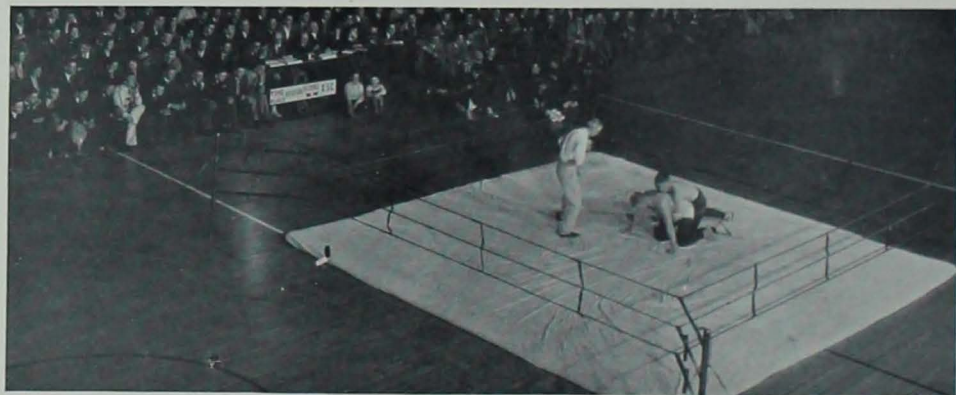

COLE
135 pound

WILLIAMS
125 pound

The opening match of the year, against the experienced Iowa State Teachers' College team, proved one of the toughest of the year. The final score was 20 to 8, but several of the bouts were extremely close. Captain Finn Erickson of the Tutors, and Dick Cole, Cyclone 135 pounder, wrestled to a draw in the feature bout of the evening. Williams, 125 pounder for Iowa State, lost a last minute fall after piling up a big time advantage over his Tutor opponent.

The following week-end, Iowa State entertained and defeated a crippled Cornell team 34½ to 1½. The purple matmen won their only points in the 135

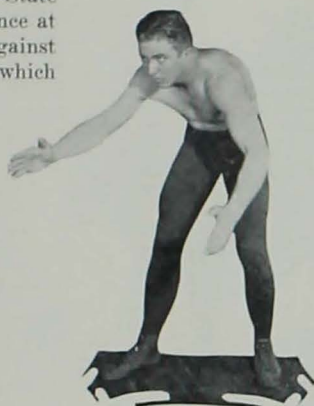

Cole is behind and is working for a fall

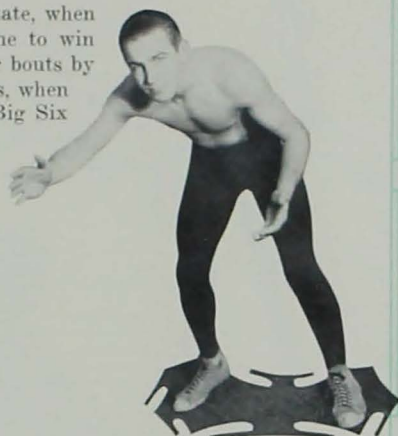

The conference season opened with a bang for Iowa State, when they outwrestled every Missouri University man but one to win 31 to 3. Every Cyclone but Williams and Juhl won their bouts by the fall route, while Hiner lost the only Iowa State points, when he lost a decision to Captain Von Robbins of Missouri, Big Six champion of a year ago. Another home meet appeared on the Iowa State schedule a week later, and the results stamped Iowa State as the class of the conference at that time. This match against Oklahoma University, which

MARTIN

THOMAS
145 pound

HESSE
175 pound

ended in a 17 to 9 win for Iowa State, saw the Cyclones wrestling in their best form of the season. The two best matches of the evening came in the 135 pound and 175 pound classes. In the former, Dick Cole gained the only fall of the evening when he presented a beautiful offensive attack to pin Mayes of the Sooners with a complicated arm lock from underneath. In the 175 pound bout, Philip Berry, Big Six champion, and Robert Hess, the Cyclones' 168 pound candidate for the 175 pound class, changed top and bottom no less than nine times, before the referee finally declared Berry the winner by a slight time advantage.

Championship hopes went smothering for the Iowa State team a

HINER
Heavyweight

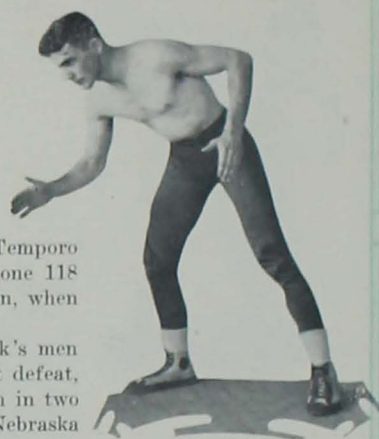

week later when they dropped their only match of the year to the seasoned and undefeated Kansas Aggie team by a 17½ to 12½ count. The K-Aggie team, composed of the pick of the Kansas State wrestlers for the last three years, presented the strongest lineup seen in State Gymnasium in some time. It was expected that the match would be a nip and tuck affair thruout, and the two bouts which literally spelled defeat for Iowa State were in the 125 pound and 155 pound classes. In the former, Fickel, Big Six champion in the 125 pound class, won a fall over Dory Williams in what appeared to be a rather hasty decision. In the 155 pound bout, Richardson of the Aggies won a referee's de-

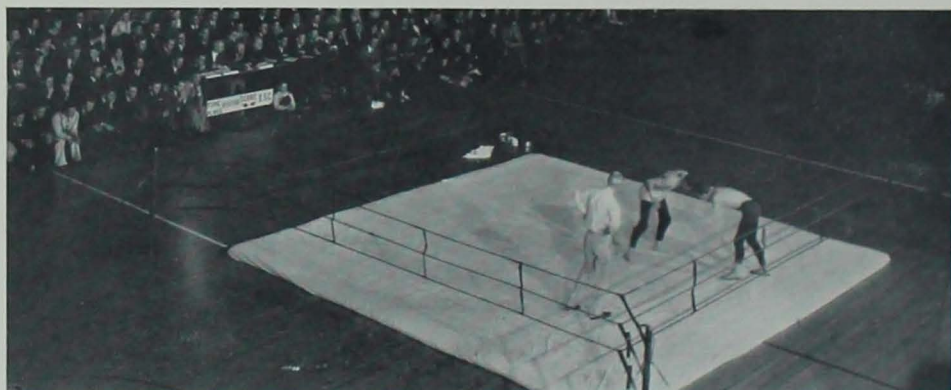

GIBSON
115 pound

cision over Captain Wilbur Juhl on a scant minute's time advantage after the Cyclone had carried the fight to his opponent thruout the match. Cole again won the only Cyclone fall of the evening when he threw Temporo of Kansas State with a short arm scissors. Gibson, Cyclone 118 pounder, lost his only match of the season on this occasion, when he dropped a close decision to Griffith of the K-Aggies.

With two more conference matches left, Coach Otopalik's men determined to prove that fire had not left with the recent defeat, and on the final trip of the season dropped but one match in two evenings of wrestling. On Saturday the Cyclones blanked Nebraska University 32 to 0, and two days later tripped Kansas University by a 29 to 3 score.

Five major lettermen answered Coach Menze's call to the diamond for the season of 1930. Those reporting were Captain Oldham, Huntbatch, Towne, Adland, and Gustafson. Wintry blasts kept the men indoors most of the time before the start of the southern trip the middle of April.

Iowa State opened the season with Baker University at Baldwin, Kansas. In a hard fought battle the Cyclones nosed out their opponents by the score of 9 to 8. The game was won in the eighth, when Hawk lapped one of Romig's pitches to left center for two bases. With two down Huntbatch came through with a long single, scoring Hawk with what proved to be the winning counter. Hawk and Huntbatch led the Cyclone attack, while the veteran Gustafson hurled stellar ball in the pinches, striking out 10 of the Bakerites.

The second game of the trip was with Oklahoma City University. In a great pitching duel the Indians won 2 to 0. Thrift of the Cyclones holding the victors to three hits, while Ferguson gave the Cyclones but one hit, a two bagger by Hawk. The game was won in the second, when Ferguson hit to Huntbatch, shortstop, who threw wild to first, permitting Ferguson to go to second, from where he scored on Morris' single down the third base line.

Iowa State opened the conference season with Oklahoma University. The Soon-

CAPTAIN OLDHAM

ers had their batting togs on and battered Gustafson for 11 hits and 9 runs, while the Cyclones were scoring only twice. Huntbatch and Hawk continued their fine hitting. Huntbatch met one of Cannon's fast ones on the nose and when the Sooner centerfielder finally caught up with the ball, Gibby was crossing home plate. The other Cyclone score came when Wells' single was followed by a long double by Hawk.

In the second game of the series Heitman pitched good ball for the Cyclones in his first appearance on the mound. Inability to hit in the pinches cost the Cyclones the game, 3 to 6.

The final game of the southern invasion was a heart-breaker with Rockhurst College, the Kansas Cityans winning 2 to 1. The Cyclones outthit the victors and were leading 1 to 0 up to the ninth inning by virtue of Holtgrewe's base on balls, his steal of second and Wells' timely single to right, scoring Holtgrewe. In the ninth, Thrift, who had replaced Gustafson, walked Joyce. Then ragged fielding on the part of the Cyclone outfield permitted two runs to cross the plate and the game was lost.

The Iowa State team made its first home appearance against Drake, trouncing the Bulldogs in easy fashion 8 to 3. Al Heitman had his fast one working in great shape and as a result 17 Bulldogs marched up to the plate and waved their bats frantically in

approved Casey Jones style. Adland, star backstop, got three hits out of four attempts, and Hawk had a perfect day, getting three hits and two walks.

On May 2, Iowa State journeyed to Lawrence and conquered Kansas University by the score of 5 to 2. It required three Cyclone pitchers and some fast double plays by the infield to keep the score down. The Jayhawk pitchers could not find the plate and walked fifteen of the Cyclone batters. Timely hits by Towne and Wells accounted for the margin of victory.

The Cyclones swept the series by winning the second game 4 to 2. Gustafson was steady in the pinches and after the fifth, the Kansans never threatened. Iowa State sewed up the game in the eighth by scoring two runs after counting twice in the sixth. Singles by "Gus," Wells, and Huntbatch, and a double by Hawk accounted for the winning runs. Hawk, with four hits in four trips to the platter, led the Cyclone offense.

The next game was with Missouri University, the Cyclones losing by a 3 to 4 score. The Cyclones won the game in the sixth and threw it away in the ninth. In the sixth, Oldham singled and was forced at second by Huntbatch. Hawk drove one down the third base line for two bases, scoring Huntbatch. Heitman scored Hawk with a drive that was too hot for the Tiger shortstop to handle. Al advanced when Rieke was safe on an error and scored when Holtgrewe came through with a pretty drive to right field. Going into the ninth with a lead of one run, the Cyclone defense blew up long enough for the Missourians to push two scores across, and that was the ball game.

The Cyclones evened the series by trouncing the Tigers in the second game, 6 to 0. Gustafson pitched airtight ball and had the Missourians helpless. Four-

teen of them waved hopefully at the bleachers without touching the sphere. Gus allowed only two hits. Iowa State won the game in the first. Wells was hit by a pitched ball, Towne was safe on an error by the first sacker. Both runners advanced on Oldham's perfect bunt. Huntbatch was safe when the play on his grounder was made too late, and the bases were full. Hawk hoisted a long fly to left and Wells scored. Heitman's hit scored both Towne and Huntbatch.

As part of the Veishea celebration, Nebraska was entertained in a two game series. The Cyclones trounced the Cornhuskers in the first game 5 to 3. Thrift permitted only three hits in seven innings and Gustafson finished the game, allowing three more. Iowa State was never in difficulty. Adland opened the scoring in the third by slamming the ball to the stadium for two bases and scored when Wells lifted a fast one into deep center for a triple. Wells was out a few minutes later on a close decision at the plate when he attempted to steal home. Four more tallies were produced in the fifth on two walks, an error, a single by Adland and Towne's double to the stadium.

The second game of the series was a comedy of errors played in a sea of mud. The Cornhuskers proved to be the better mud horses and won 12 to 8. The game was featured by the activities of Tommy Sloss' wheelbarrow gang in keeping the mud in the pitcher's and batter's box wadeable and the verbal battle carried on between Grace—Nebraska's Art Shires—and the bleachers. Witte, Nebraska outfielder, led the batters with four hits. Fielding features were provided by Wells, who made two sensational shoestring catches.

Right at an inopportune time, the Kansas Aggies came along and swept a two game series, winning 7 to 1 and 16 to 1. The games were featured by the masterful pitching of the Aggie hurlers. Wilcox was the only Cyclone who could hit the offerings of the Aggies.

When Oklahoma University arrived for two games, sore arms were taking their toll among the Cyclone hurlers. By virtue of hits by Oldham, Heitman, and Huntbatch, Iowa State led in the sixth inning of the first game, 7 to 3. In the seventh the storm broke, and before Thrift, who replaced Heitman, could stop the rampage, five runs were scored. In the eighth, an error and six hits gave the invaders seven more runs.

The second game of the series was another rout, the score being 9 to 4 in favor of the Sooners. The winners stepped right out in the first and were never

headed. An error by Huntbatch gave Newman life and May followed with a terrific drive past the flag pole for a "Babe Ruth." Ragged pitching and fielding gave Oklahoma seven more runs.

The final series of the season was played at Lincoln. The Cyclones were drubbed 14 to 1 in the first game. They garnered only three hits, two of which were by Towne. Wildness on the part of Thrift and Heitman aided in the one-sided score.

The final game resulted in an 8 to 6 victory for Nebraska. The winners scored in the first when Huntbatch let Williams' grounder slip through his fingers, Witte then lashed a hit past White for two bases and Row followed with a single over second, scoring Williams. Errors by Heitman and Blohm allowed the winning counters to be scored in the fifth inning. The Cyclones scored five runs in the sixth. In the last inning, with the tying runs on base resulting from singles by Huntbatch and Heitman, and with two out, Wilcox slashed out a hard drive, but a sensational catch by Davison ended the game.

BIG SIX CONFERENCE MEET

Iowa State	46
Nebraska University	29
Kansas University	22
Oklahoma University	12
Kansas Aggies	8

Big Six champions, winners of major honors in the A. A. U. meet, and undefeated in the season's dual meets, is the season's record for the Cyclone swimming team. It is a record to be proud of and too much praise cannot be given Coach Jake Daubert for his untiring efforts, which placed the Cyclones on top of the heap. George Unser, major "I" man, and minor lettermen Captain Smith and Gibbard are the only men lost through graduation. Their loss will be keenly felt, but Cyclone followers are predicting another championship team for next season.

The first dual of the season was with Grinnell in State Pool. Iowa State was never headed, winning 58 to 26. Sands, sophomore flash, started his record breaking career by setting a new tank mark in the 200 yard breaststroke race.

Nebraska, defending Big Six champions, were next overwhelmed 55 to 29. In this meet Sands established a new Big Six record for the 200 yard breaststroke, and Unser also lowered the Big Six time in the 440 yard free style swim.

The following week-end, competing against the pick of the middle west in the A. A. U. meet at Omaha, the swimmers wearing the colors of Iowa State captured practically every event they entered. Records began falling when Bill Weld set a new A. A. U. record in the 150 yard backstroke event. Sands followed with another record breaking performance in the 220 yard breaststroke

CAPTAIN SMITH

race, and Iowa State also took first in the 300 yard medley relay event. Dick Fleig defeated the defending champion for the diving honors. To assure Iowa State supremacy, "Iron Man" Unser won the 220 yard free style event, and placed second in the 100 yard free style and 500 yard free style races.

The closest meet of the year was with Drake, the Cyclones winning 44 to 40. Handicapped by the illness of Weld, the meet was not within the Cyclones' grasp until Fraser and Unser captured the first two places in the 220 yard free style event in the next to the last race of the evening.

The Big Six meet closed the season. As was predicted, the Cyclones were never threatened and scored 46 points to lead the runner-up—Nebraska—by 17 points. In this meet the Cyclone tankers established four new records, brought home three plaques, eleven gold medals, and two silver medals. Fraser was high point man of the meet, by virtue of record breaking performances in the 440 yard and 220 yard free style events. He also swam on the record breaking relay team. Sands also broke the existing mark in the 220 yard breaststroke, and Fleig easily captured the diving event.

On the All-Conference team, Fraser, placed in the 440 and 220 yard swims, was named captain. Sands in the 200 yard breaststroke and Fleig in the dives were the other Cyclones placed on the All-Star team.

Freshman Athletics

Freshman Athletics

The freshman athletes at Iowa State College are always the subject of anxious scrutiny on the part of Cyclone sport followers. New fighting spirit, new stars, new regulars, and new substitutes alike must appear each year if Iowa State athletics are to stay in the running. The class of 1934 not only demonstrated that they would fulfill their required assignment, but that they possessed adequate potential to send Cyclone athletic achievement on the upward trend. The excellent training and tireless labor expended by the freshman coaching staff are to a great measure responsible for the outstanding work done by freshman athletes this year.

Freshman football left in its wake not only a rosy outlook for future Cyclone grid teams, but a clean interscholastic record. Their first contest against the Coe freshmen ended in a 20 to 0 victory for the Cyclone yearlings. Two weeks later Coach Menze's men again demonstrated their superiority when they downed the Drake frosh by a 25 to 13 score. The league team method of coaching freshman football at Iowa State results in both increased individual attention and great sport for the players.

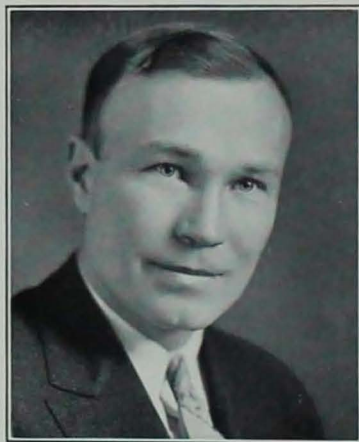

A new system of coaching prep basketball gave aspirants greater opportunity to "show their stuff" this year. All candidates were placed on a team and allowed to play through a tournament before the squad was cut. The close of the season found an exceptionally good squad of basketeers, possessing both range and speed.

Coach Hugo Otopalik failed to find as many stars among his first year men this year as he did last season; however, under the tutelage of "Holly" Groth, freshman mentor, some real natural ability was uncovered and developed. The small mortality from graduation on the varsity squad relieved the responsibility thrown on the freshman grapplers this year of filling varsity berths.

Freshman swimming uncovered some of the best material in many years, and Coach Daubert is anticipating more champions within another year.

Tennis material last spring was far above the ordinary, and a full team of prospective varsity material will step into varsity ranks this spring. Prep baseball found a great number of aspirants, but little in the way of great talent; however, every numeral man shows the possibility of developing into real varsity caliber under proper coaching.

DICK COLLINS, *Athletic Editor.*

COACH VEENKER

Henry Veenker, pictured here, is Iowa State's new football coach, following the resignation of former Coach Noel Workman, and assumed his new duties here in March. Coach Veenker comes to Iowa State from Michigan University, where he was head basketball coach and assistant football coach. The new grid mentor's sparkling personality has quickly made him popular, and the enthusiasm shown in spring football points to a good season next fall.

Intramural

HARRY SCHMIDT
Director

Intramural Athletics

Intramural Athletics at Iowa State are promoted by the Department of Physical Education, for every male student on the campus.

The immediate organization for the program is under the direction of Harry J. Schmidt as Intramural Director, with the assistance of a corps of student managers, headed this year by James A. Brockelsby, senior manager, and Clifford Atkinson as associate senior manager. Three junior managers, Willard Robinson, Armand Mettler, and Harold Paul, have each had charge and the responsibility of managing one quarter of sports. Assisting the junior managers are sophomore manager candidates working for promotion to the posts of junior managers. In addition to the departmental managerial staff are unit managers, each representing and taking charge

of relations of the department with their respective units. These representatives are members of the Fraternity Ward Intramural Association, which meets in regular monthly meetings to decide policies and procedure for carrying on the many phases of the program.

There are four main groupings of competition concerning the undergraduate student body, namely: fraternities, fraternity freshmen, ward and divisional class. Each of these groups is composed of playing units representing the fraternities in the first two, definite residential districts in the ward group, and the classes of the various divisions of the college in the last. The great problem in this work has always been how to make the slogan, "Athletics for All," a reality because the students not affiliated with fraternities could not be organized into teams in sufficient numbers to give that half of the student body its representation. The ward system as it has been put into operation this year, divides the entire residential district adjacent to the campus, into twenty divisions called wards, each having approximately sixty students without other affiliations. In addition to these twenty, the three wings of the Men's Dormitory and the Alumni Hall dormitory on the campus, form four more wards. In all, twenty-four playing units have been definitely established through which the unorganized students can enter into the Intramural program to the man.

Atkinson Lantz Mettler Shearer
Paul Robinson Brockelsby Newton Lieb

The program of athletics is divided into three classes:

Major sports include speedball, basketball, indoor track, playground ball, and outdoor track; minor sports—pentathlon, swimming, tennis, and volleyball; while the fall relays, handball, wrestling, and horse-shoes are classified as special sports. Numerous meets, tournaments and leagues in each sport gives each student who is interested an opportunity to compete.

Awards consisting of trophies, charms, and ribbons, are given in the various sports. Point systems for the units in fraternity groups, and the individuals in the ward group, reward the participant for all around participation.

The main objectives of the program may be briefly outlined to be: to offer regular physical recreation to the greatest number possible, and in so doing to provide for those students not taking part in intercollegiate athletics the social, educational, physical and moral values of competitive athletics.

The function of this department may be summed up to be: To encourage the entire male student body to participate in organized athletics, and to instill in the various students those characteristics of fair play, sportsmanship, and manhood that make real students as well as real business men.

JAMES BROCKELSBY, Senior Manager

CARDINAL AND GOLD DAYS

FRATERNITY rushing -- athletics -- campus society -- publications -- sessions -- midnight frolics -- board swinging -- exams -- endless classes -- probations -- excursions -- sunshine club meetings -- organization meetings -- military parade -- ticket sales -- North Woods -- Veishea -- graduation -- a year in student's life. May we never forget these days; may this section of unadulterated student life on the campus be real, natural, and lively enough to give the past a living picture of your college days this year. To Mr. P. F. Hopkins '16, City Manager of Mason City, this division is dedicated.

Shirley Wells, Home Economics Senior, was elected Queen of the May Fete at an all-women's election in March. According to tradition no woman knew the name of the girl elected until the choice was revealed at the May Fete held on the opening day of Veishea.

Student Life

THE glimpses of campus life on this page hardly need any explanation—VEISHEA! Foremost is the so-called yellow-bellied lounge lizards, but that leader is not our shrinking Violet.—Perhaps you recognize some of the girls showing off, I don't (maybe they aren't).—Floats are always the chief attraction during the parade, but how everyone hates to work on one before-hand! Some of these look like someone worked on them—notice the new ideas!

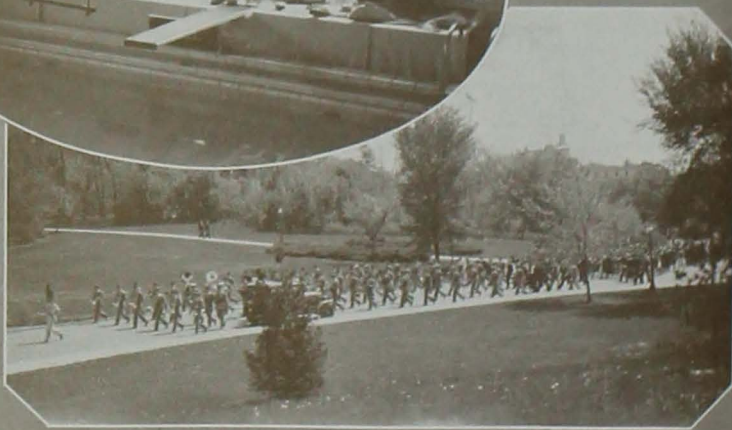

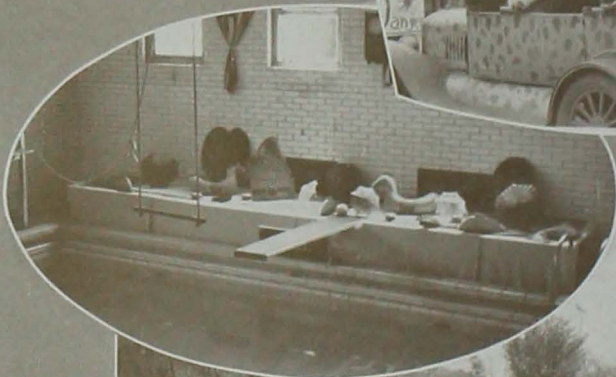

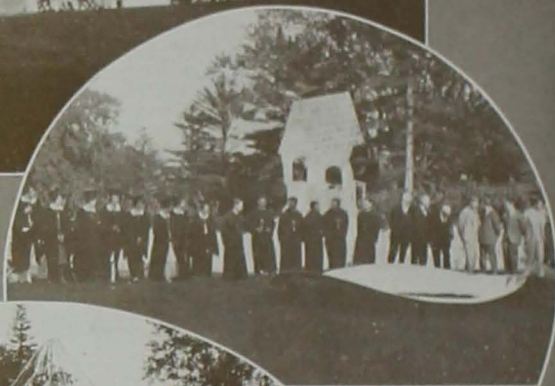

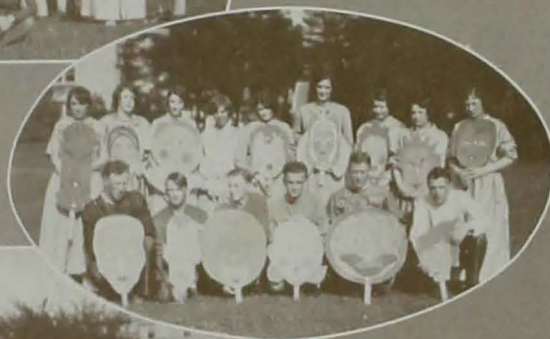

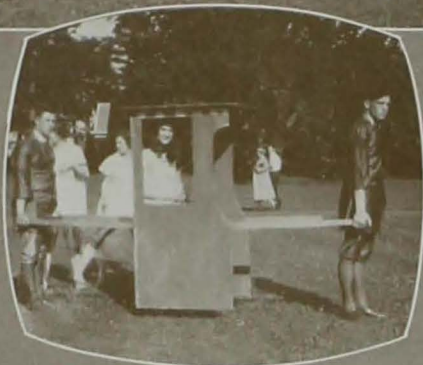

VEISHEA, I o w a
 State at work and play. It
 seems as if it were mostly
 play. A few floats, the May
 Fete, and Open House, and
 the prep caps bonfire rep-
 resent some of Veishea.

MORE Veishea!

The photographer was busy then. The King and Queen at home to friends and the one all-important feature of any May Fete—the May Pole dance. The little kids almost got mixed up a couple of times. The old "H. E. Pride cry" in his cage. All ready for the ducking for the benefit of the evening's crowds for the swimming circus. The parade swings up the road to the gym. Cardinal Key and Mortar Board out to do some people some good—pledging time.

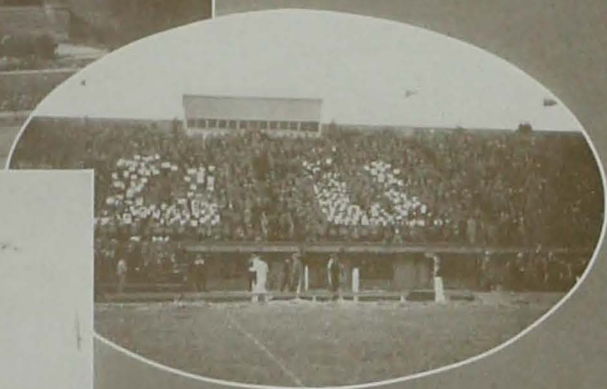

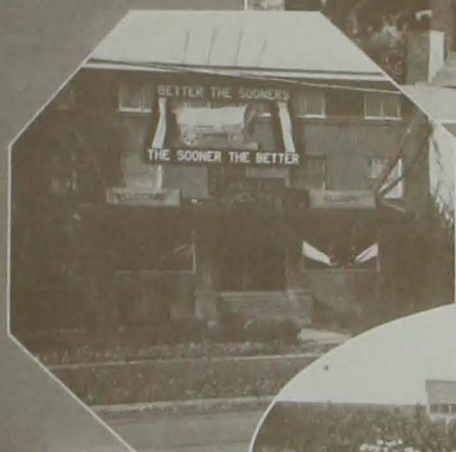

THE MAY FETE, with Margaret Stanton and Steve McDonough presiding. Steve was our first May King and had a hard time keeping his face straight. The King chose Margaret to share his throne. A few of the groups in the Fete are shown; pick out your acquaintances. Really, everyone took part even though the feeling was that a May Fete was for girls only.

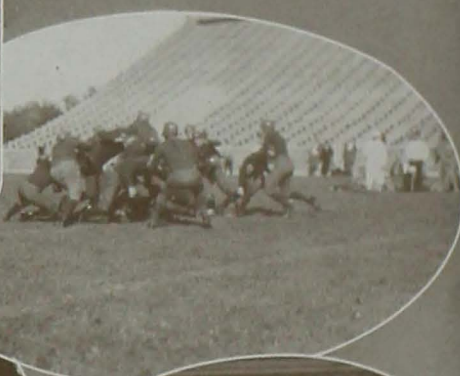

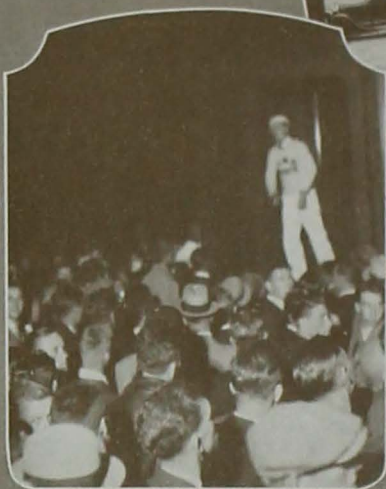

THE LEDGES, the one approved place for picnics—it is pretty over there! Here's a detail of a picnic that proves it is being done. Military review—the weekly "attention" and demerit orgy. The girls stage an open air party on the dorm lawns. One of the scenes in North Woods—North Woods is a pretty spot, too! The last picture—Guess who?

SEVERAL of the fraternity displays for the Decoration cup before homecoming—Delta Shelter didn't place first this time, but fraternity relations!—Pi Epsilon Pi again with their cards in the stands and Keith Kahle as the blooming Lady of Victory (wrong prediction)—a little of the game action; see the ball about to nestle in the player's arms.

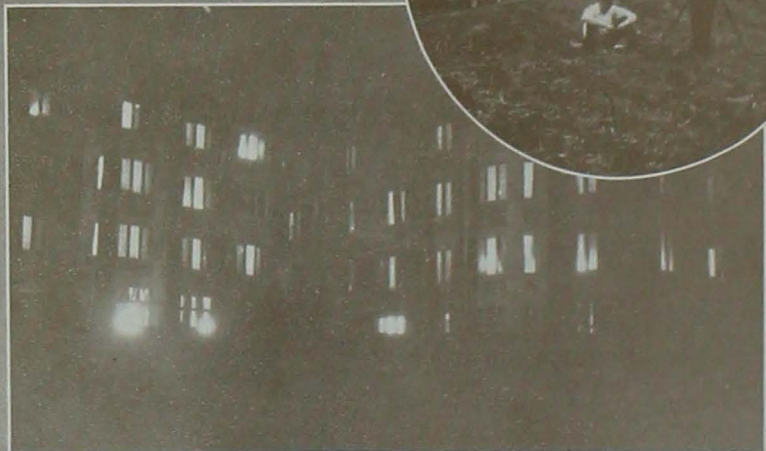

THE lounge lizards show a little spirit—The battle ranges on, but where is the ball?—Everyone enjoyed the barbecue, at least we hope they did—The cops didn't care much for this sudden outbreak of the students, but what could they do about it?—Put is about to finish, how, as usual in first place.

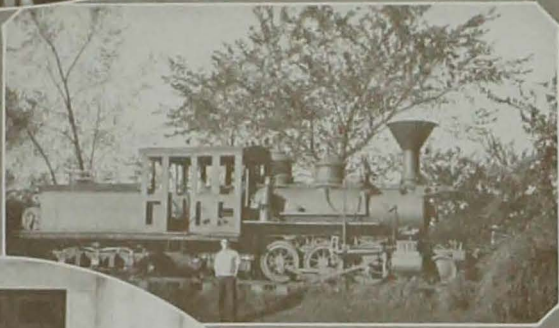

Look long at this page, as we may never have another such layout, as campus probations are out of date. First, we have the organizations which get the publicity of the campus on this count; Pebul and TLB. Noons during the period of probation find the neophytes on the campus somewhere performing for the passersby—These pictures show some of their little tasks. We could not leave out Pi Epsilon Pi after the news leaked out that they were extinct; the third and fifth pictures on this page show that someone made a mistake. Tau Beta Pi still holds the barbaric rites of probation on the campus even though it is a scholastic honorary.

A STAMPEDE to get to convocation—Geologists in deep thought—A full house at convocation—Who said the Engineers' Carnival wasn't a success?—Civil Engineers running a line of levels—The Men's Dorm at night (an unusual picture, as there are too many lights on).

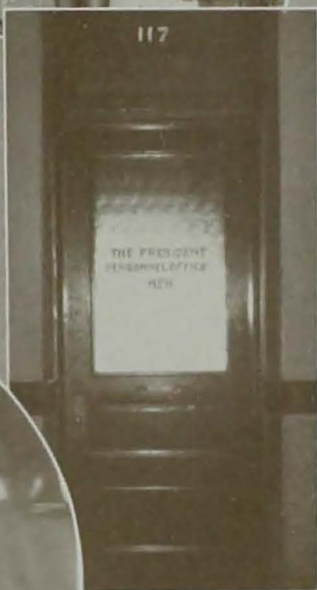

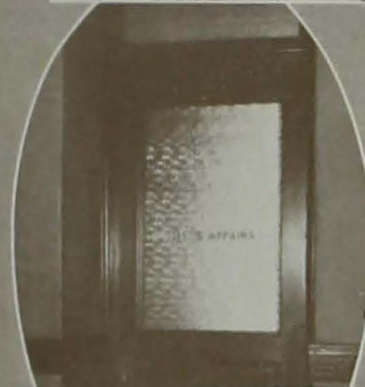

HAVE you bought your Green Gander?—The crowd and a juggler gone wild—An old timer, the engine (the engine, not the fellow)—The Eta Kappa Nuers hold their national convention, hic!—The library at night, day or what have you.

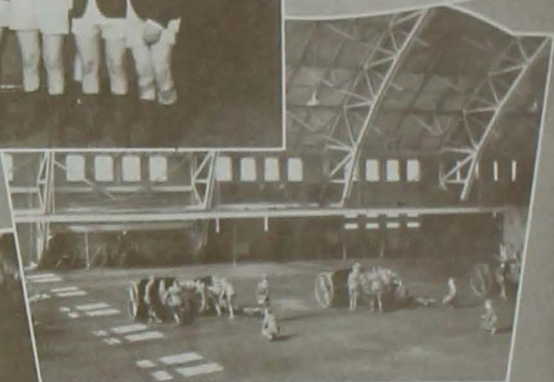

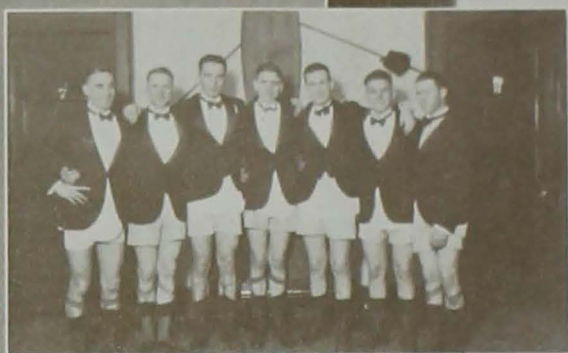

OF COURSE this must be a formal, 'cause only a stiff front can produce such expressions—Really, there are usually more people on the campus than this—Men at work, please don't bother them—The Belgian bell ringer in person—The Drake Relays, event number fifteen.

Looks like "Papa Charnley" all right. Where the chimes come from—now we know "there's bats in the belfry." A couple of intimate (?) scenes in a Hee management house—And now they have an office for the girls' "affairs!" A view of the Student workers—Bur stuck his head in just in time. Which of the three signs are we to believe? Prof. Fish in E. E. senior class—this is enough to know, as you've heard of his birth, death, engagement, marriage, etc., announcements.

Does the top photo look familiar? Mayhap, in future years, this sign will bring back happy memories. New costume for night club waiters, the "Y" throwing a formal dinner, or what? The Country Club is a scene of many dances—even in the winter. The "passing in review"—blow wind blow! "Vet Quad." To contrast these good times, remember the "stable smell" and dusty gun drill in the Armory? Training may be good for me, but the "cure is as bad as the fault" (soliloquy of a prep—or sophomore).

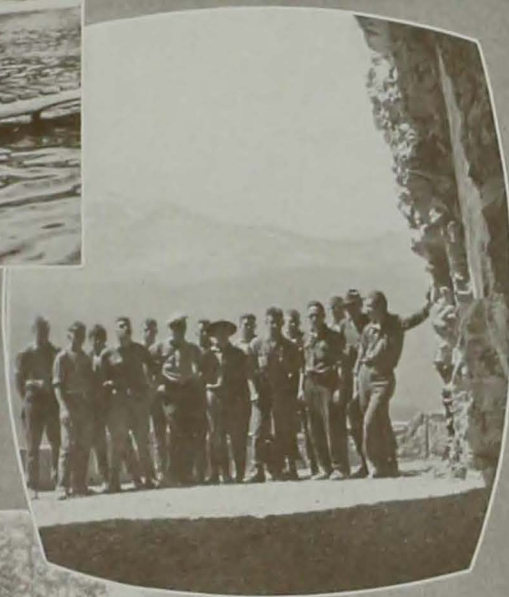

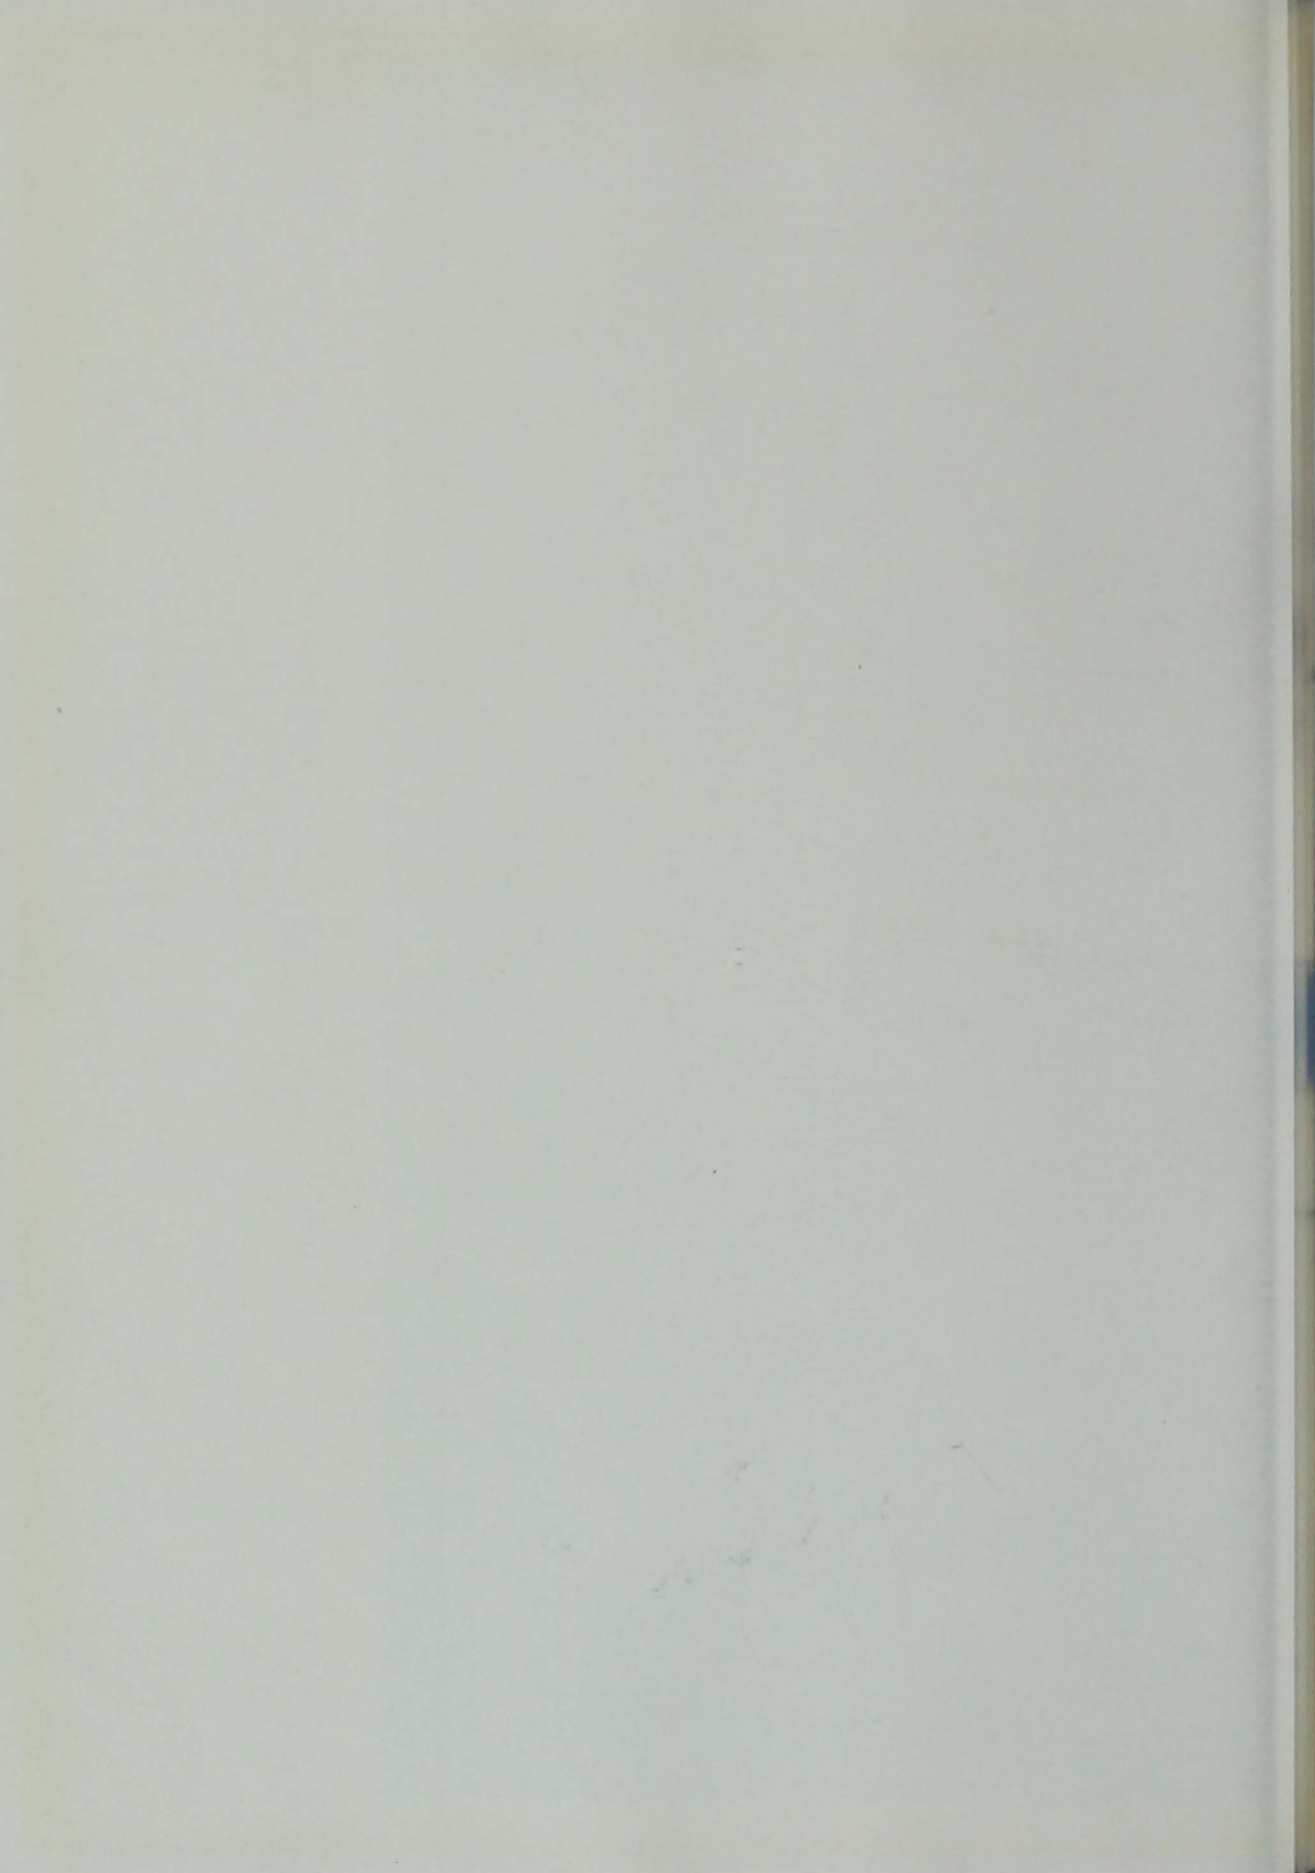

WHAT'S wrong with the bench picture?—the evening scene might suggest! The Landscape Architecture "studio" with surrounding landscaping—Winter is pretty, but—! The Presidential Knoll.

THESE pictures were not taken in Ames. The Blue Mosque in Constantinople—Shiltz and Intermill at Military Camp—Real Englishmen, at least the picture as taken in England—Trauger just had a shave—The last picture speaks for itself!

THE nice soft jobs that one gets during summer camps—But now and then one does have fun swimming and fishing—and one nice thing about it is that one doesn't have to shave, and old clothes are the fashion for quite a bit of the time. Notes and instructions are necessary for learning even when out next to nature. "Ain't nature wonderful?"

Book Five

OWA STATE WOMEN

DELICIOUS meals served in cross-country planes-- immense cafeterias and cafes-- textile purchasing in Paris, style center of the world-- happy homes-- bustling business life-- all have places for the coed graduates of Iowa State. While at Iowa State-- publications-- athletics-- councils-- Veishea-- dramatics-- music-- we will always be proud of Iowa State Women. One of our successful graduates, Miss Mabel V. Campbell, Dean of Home Economics at the University of Missouri and Federal Agent of Home Economics, is truly representative of this division of the Bomb

Beauty Contest

THE six girls whose pictures are presented in this section were chosen by Richard Barthelmess. Each sorority, dormitory and the town group made two nominations from its group in order that the nominees might be representative of the entire school. The student body chose twelve girls from this group and their photographs were sent to Richard Barthelmess, who chose these six girls as Iowa State's Beauties of 1931.

WOMEN'S EDITOR.

Women's Athletics

MISS WINIFRED TILDEN

Physical Education Department

To present a program of sports which will interest every girl in recreational activity and to meet the challenge which the increased participation of women in sports offers, are the goals of the Women's Physical Education Department.

Under the able guidance of Miss Winifred Tilden and her staff, these purposes are being fulfilled. In so doing they have selected activities which tend to develop leadership, initiative, sportsmanship, vitality and strength, all of which qualities make for capability and efficiency.

By promoting the highest ideals of women in Physical Education and by instilling in the women of Iowa State the spirit of "Play for the Joy of Playing," the Physical Education faculty is doing a fine piece of work.

The Women's Athletic Council is the governing body of W. A. A. The council arranges the athletic program for the year, and passes upon all business matters before they are presented to the Association.

The Women's Athletic Association, with the aid of the Physical Education Department, sponsors all extra-curricular sport activities, having as its motto, "Play for Play's Sake." W. A. A. is affiliated with the American Hockey Association, the Athletic Conference of American College Women, and the Women's Division of the National Amateur Athletic Association.

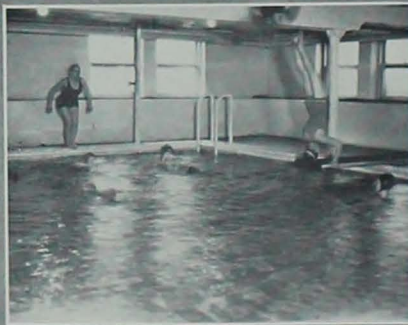

Gring Irwin Merrick Penly Johnson Thuirer
Baer Williams Guthrie Pyle M. Johnson Heins Mosher

FIELD hockey is one of the most popular W. A. A. sports offered this fall. The varsity hockey team pictured at the left defeated Drake 3-0 in a very exciting game at Des Moines. Mary Irwin, the varsity captain for two years, and the team are shown. This is the second year that such a play-day has been held.

IOWA STATE was hostess at the State W. A. A. Convention held at the beginning of the winter quarter. Thirteen schools were represented.

SWIMMING has been offered both fall and winter quarters with a great deal of enthusiasm shown by the participants. Several of the girls who won life-saving emblems this year are shown.

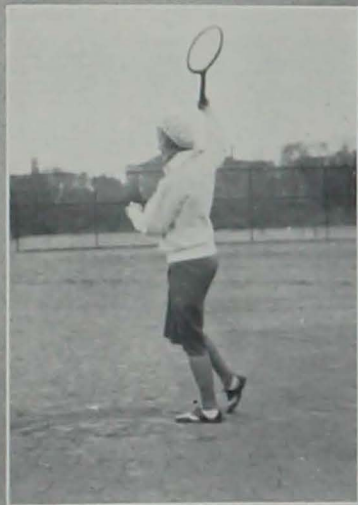

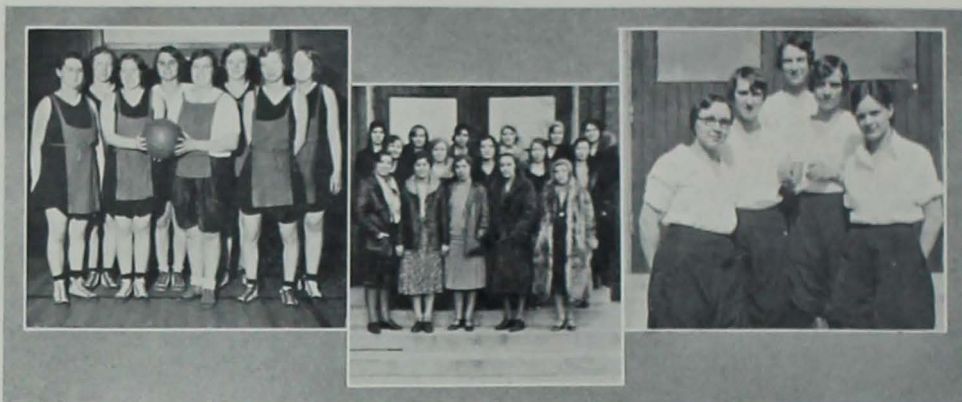

BASKETBALL has lost none of its usual prominence as a winter sport for W. A. A. The varsity team chosen by the basketball coach and Manda Johnson, the sport head, are shown above.

SOME girls were snapped on a brisk winter morning as they were leaving their dormitory for an early hike. More than twenty participated in this activity.

MORE contestants than ever before were entered in the tournament held last spring to determine the women's tennis champion. Thelma Eldredge was the winner and Constance Crockett, shown in action, the runner-up.

INTRAMURAL athletics have played an ever increasing importance in the program of sports for women. Above is shown the Intramural Board, composed of one representative from each house and dormitory. Below is Lucile Gring, who has served as intramural head this year.

A TEAM from Welch West won the winter basketball tournament when it defeated Clara Barton 13-9.

SOME of the girls from Mary Lyon Hall are seen holding the final intramural trophy which they won last year. It seems that they are strong contenders for it again. Above is their winning volleyball team and the other picture depicts them in action.

THE Alpha Delta Pi tennis team won the cup offered in that sport last fall.

The purpose of Mortar Board is to further democracy and good fellowship among the women of the college and to accomplish some permanent good for the college each year.

On February 1, 1925, the local chapter, founded November 1, 1924, became the twenty-ninth chapter of the national organization. It is an honorary society for senior women in recognition of leadership, campus service and scholarship. Members are chosen in the spring from the junior class.

The national organization of Phi Upsilon Omicron was established at the University of Minnesota, February 10, 1909.

The local organization was established at Iowa State College in the fall of 1926. Election of members is based upon scholarship, professional attitude, personality, and leadership. The purpose of the organization is to establish and strengthen bonds of friendship, to promote moral and intellectual development of its members, and to advance and promote Home Economics.

On May 23, 1912, the organization of Delta Phi Delta art fraternity was completed and the Alpha Chapter was established at the University of Kansas, Lawrence, Kansas. The Omicron Chapter was established at Iowa State College on May 26, 1928. In recognition of the fact that, although honorary and semi-social, the greatest service on the professional side must come from the alumni group, the objects of this fraternity are: to select from undergraduates in American universities and art schools the type that gives the greatest promise of potential professional ability; to promote and recognize scholarship; to provide social activity based on the true friendships formed while working together, with the same interests and ambitions. A candidate for Delta Phi Delta may have no failures, and only one subject below 75, with an average of 85.

Jack O'Lantern was founded at Iowa State College in 1908. The purpose of the organization is to promote higher scholarship, create a vital interest in college activities, and to develop a democratic spirit on the campus of Iowa State. The members are chosen in the spring of the sophomore year and the requirements are based on scholarship, activities, high ideals and learning applied to living.

Sigma Alpha Iota Music Fraternity was founded at Ann Arbor, Michigan, in 1903, to promote a feeling of friendliness among the most talented women musicians of the school, so that by working together and helping one another they might attain the highest ideal in music scholarship and be a credit to the school. There are now 56 active chapters. Sigma Lambda Chapter was established at Iowa State College in 1924. The fraternity strives to create and promote interest in music and music activities. The members are elected from the outstanding women musicians for their participation and interest in music activities, their personality and scholarship.

Naiad is an honorary swimming organization for women which was founded at Iowa State College in 1922. Its purpose is to further swimming at Iowa State College and to encourage swimming as a sport for women. To be eligible for membership in Naiad a girl must have won her Senior Life Saving Emblem and have placed in an Iowa State Swimming Meet.

The Women's Science Club is a divisional club for all Industrial Science women. It was organized in the fall of 1930 as a result of a need felt on the campus for some time to recognize women enrolled in the Industrial Science Division.

The purpose of the club is to promote a divisional consciousness and encourage a professional interest in science. Miss Gertrude Herr is the organizer and advisor for the club. An executive council composed of the officers and one representative from each class year group is the governing body.

The object of the League shall be to foster education in citizenship; to work for needed legislation, to interest women in college policies and the promotion of self-government, to teach them how and when to vote, to urge women to join the party of their choice, but the League shall not be allied with nor support any party.

The League of Women Voters Council is composed of two representatives, preferably an upper and underclass woman, from every organized house and hall on the campus. The general membership of the League is composed of the council and any college girl who is interested in politics.

The Iowa State College League of Women Voters is a member of the State and Federal League of Women Voters.

Book Six

ORGANIZATIONS

ASSOCIATION with fellow students -- informal debates -- fraternity and sorority life -- exchange of opinions -- all embody trends toward the development of knowledge equal to that of the classroom -- it is not difficult to show the parallel of a directors' meeting or a consultation meeting and a university organization meeting. The number and importance of campus organizations have proved their worth. To Joe Porter, '84, Vice-President of New England National Bank and of the Kansas City Light and Power Company, this section is respectfully dedicated.

The Interfraternity Council of Iowa State College is an organization of representatives from each national fraternity. Regular meetings are held monthly to handle all matters relative to the fraternity system and to study the various campus fraternity problems, initiating and fostering whatever tends toward the best growth and development of the fraternity system.

The Interfraternity Council, further, subscribes to the so-called "Greek Letter Creed," particularly to the statement: "It is our earnest wish and desire to inculcate in our various chapters true principles of manhood, to promote the moral welfare of all of our members, to stimulate and encourage loyalty to the active interest in the institution where they may be located, to foster a democratic and friendly spirit between our members and to all others with whom they may be associated, and to inspire among our members a true, loyal and lasting friendship."

The Alpha Chi Sigma fraternity was organized at the University of Wisconsin in 1902. The chapter in Ames was installed Nov. 9, 1929. There are now forty-six active chapters.

The object of this organization is to further increase interest in science, and to bring men having a common interest together in a fraternal relationship. Members are chosen from the graduate and undergraduate colleges in chemistry and chemical engineering. The selection is based on personality and scholarship.

Cardinal Key was organized as a Senior Honorary for Iowa State men to recognize such qualities as Service to Iowa State, Character, Leadership and Scholarship.

Each spring, during Veishea, twelve men are tapped at the base of the Campanile—six seniors and six juniors. The six seniors tapped round out the representation from the graduating class and the six juniors rewarded carry on the organization for the next year and are the men who select the recipients of the reward the following spring.

With the establishment of Townshend chapter at Ohio State in 1897, a national Agricultural Fraternity was founded to honor college men who have shown exceptional ability in the advancement of science in Agriculture.

Wilson Chapter was organized in 1905, and so named in honor of Hon. James C. Wilson, former secretary of Agriculture.

High scholarship, personality, leadership and sociability are the requisites for membership.

At present there are 39 chapters of Alpha Zeta located in the larger Agricultural Colleges of the United States.

The Bomb Key is an honorary award given to those Iowa State students who are of the most service to the Iowa State Bomb.

The Keys are awarded on the following basis:

1. Time devoted to the Bomb.
2. Useful work performed in that time.
3. Willingness and helpful suggestions.
4. Number of Bombs sold.

Eta Kappa Nu is the honorary fraternity of Electrical Engineering. The organization was founded at the University of Illinois in 1904 for closer co-operation among students and others in the profession, who by their attainments in college or in practice manifest exceptional interest and marked ability in Electrical Engineering. The Nu Chapter was installed at Iowa State in 1916.

The qualifications for membership are high scholarship and activities.

Gamma Sigma Delta is the Honorary Society of Agriculture. The organization was founded in 1905 at the Ohio State University. The Iowa State College Chapter was installed in 1907 and has taken a leading part in the affairs of the national organization since that time.

The purpose of Gamma Sigma Delta is to encourage high standards of scholarship in all branches of Agricultural Science and Education. Students are elected to membership from the graduating and post-graduate classes who have shown exceptional ability during their undergraduate or graduate work. Faculty members are also elected to membership who have rendered signal service to the cause of agricultural development.

Each year the society awards a trophy to the freshman student in agriculture ranking highest in scholarship during his first three quarters' work.

National Collegiate Players is conducted as a purely honorary organization, selecting its membership from casts and production staffs of campus theatricals upon the basis of experience and excellence of work. Its purpose is to affiliate closely the college groups which are working for the betterment of drama in their own institutions, and so to raise the standard of amateur drama in America.

Phi Kappa Phi was established to provide for an honor society dedicated to the unity and democracy of education, open to honor students of all departments of American universities and colleges. Its prime object is to emphasize scholarship and character in the thought of college students, to hold fast to the original purpose for which institutions of learning were founded, and to stimulate mental achievement by the prize of membership.

The society was founded in 1899, at the University of Illinois. The aim of the founders was to promote and protect scholarship and original investigation in all branches of pure and applied chemistry. At the present time there are twenty-seven chapters of Phi Lambda Upsilon with a total membership of approximately four thousand.

The chapter, Theta, was founded in 1912 at Iowa State College. At the present time we have forty active members.

Phi Mu Alpha Sinfonia was organized October 6, 1898, by Ossian E. Mills and thirteen associates, at the New England Conservatory of Music. There are now forty-four chapters. Alpha Delta was installed at Iowa State in 1922. Members are chosen from those male students who have a consistent scholastic record above college average, and have to their credit at least five quarters of musical activity.

The principal endeavor of the organization is to promote a spirit of music on the campus. The Interfraternity Sing, various programs, etc., are among activities sponsored by the fraternity.

The graduating class of 1924 created a pep organization known as the "Twisters." During the winter quarter of 1925, the group became a part of the national honorary pep fraternity, Pi Epsilon Pi.

The purpose of the organization is to foster school spirit and tradition. It attains this objective by sponsoring pep meetings upon the departure or the arrival of the various athletic teams, by arranging bonfires and special pep meetings before important contests, and by acting as a nucleus for the cheering section at football games.

The Porpoise Club of Iowa State College was organized in 1921 in response to the need for some means of promoting activities. Since its organization, the club has materially contributed to the growth of swimming as a major sport at Iowa State, and under the influence of the swimming coach, C. E. Daubert, it has promoted the development of the Red Cross Life Saving Corps.

Membership is limited to those who show outstanding ability and an active interest in swimming. College women and others of marked prominence or interest in swimming may be admitted as honorary members.

Scabbard and Blade, a national honorary military fraternity, was founded in 1905 at the University of Wisconsin. In the past twenty-six years it has grown until it now includes over seventy-five chapters in practically every state in the union. The local chapter became national in 1915 and has seen active service since that time. Membership is restricted to those men taking Advanced Military who have shown exceptional qualities of leadership and command necessary to the successful officer.

Sigma Alpha was organized at Iowa State College in the spring of 1926. The major purpose of the organization is to further the cause of agriculture in the state to the end that one hundred percent of the farmers will farm scientifically. The minor purposes are to increase the prestige of Agricultural Education among members of the teaching profession, to promote closer cooperation between those engaged in agricultural work in the field and those in college.

Membership is based on leadership and scholarship.

Sigma Delta Chi is an organization of men whose chief interest is journalism and who intend to follow it as a profession following graduation. The local chapter sponsors the annual Gridiron Dinner, awards prizes to outstanding country weeklies and college newspapers in various contests, awards a gold watch to the outstanding campus journalist each year, and assists in the publication of the Green Gander, humor publication. During the nine years in which a national efficiency contest has been conducted by the national organization the local chapter has won the F. W. Beckman trophy four times.

Sigma Upsilon was founded by the federation of four southern literary clubs; Caumet of Vanderbilt University, Sopherim of the University of the South, Osiris of Randolph-Macon, and Senior Round Table of the University of Georgia. There are at present forty-one active chapters. Sigma Upsilon conducts a national short story contest every year. The national organization publishes the monthly Sigma Upsilon Newsletter.

Kappa Lambda Alpha chapter was organized as a local literary fraternity in March, 1924, by a group of faculty and students, who were publishing the first series of the "Ames Narratives." In June of the same year Kappa Lambda Alpha became the twenty-ninth chapter of Sigma Upsilon.

The purpose of the organization is to develop and encourage creative work on the campus. Eligibility to membership is based primarily on literary ability, interest and attainment.

Kappa Chapter of Tau Sigma Delta, a national honorary fraternity in architecture, landscape architecture and the allied arts, was established at Iowa State in January, 1930. Membership is limited to those students ranking highest in scholarship, particularly in their major technical work. Tau Sigma Delta is non-social, though special emphasis is placed upon personality and high character. The faculties have full control of elections and activities. Tau Sigma Delta was founded at the University of Michigan in 1913. There are nine active chapters at the following universities: Michigan, Minnesota, Carnegie Tech., Syracuse, Pennsylvania, California, Ohio State, Georgia Tech., and Iowa State.

The Newman Club

OFFICERS

MILDRED H. CORLISS *President*
 FRANK WHEELAN *Vice-President*
 MARGARET McDONOUGH *Secretary-Treasurer*

The Newman Club is an outgrowth of the Catholic Students' Association and is composed of all Catholic students in the college.

The aims of this club are to promote good fellowship between the Catholic students, to further the good will already existing between Catholics and non-Catholics, and to aid the new students in becoming quickly oriented. To accomplish these purposes, a number of mixers and parties are held each year.

Frisbie Fellowship is an organization composed of all students who give Congregational as their church preference. The Iowa Conference of Congregational Churches maintains the student center—Frisbie House—and provides a college pastor, the present incumbent being Harold E. Schmidt. The organization is governed by a cabinet of thirty-five, which is divided into departments in order to carry out efficiently the activities of that body. These activities include religious services, study and discussion groups and social gatherings.

The Young Women's Christian Association of Iowa State College, a member of the Young Women's Christian Association of the United States of America, and a participant in the World's Student Christian Federation, declares its purpose to be:

We, the members of the Young Women's Christian Association of Iowa State College, unite in the desire to realize full and creative life through a growing knowledge of God.

We determine to have a part in making that life possible for all people.

In this task we seek to understand Jesus and follow Him.

FACULTY ADVISOR

J. BROWNLEE DAVIDSON

The American Society of Agricultural Engineers is a national organization of engineers who are interested in the problems of engineering as they are applied to agriculture. Its purpose is to encourage research and development in the fields of farm machinery and power, drainage and irrigation, and farm buildings and equipment.

The Society was organized at the University of Wisconsin in 1907. The founders were a group of college instructors who were teaching farm mechanics and allied subjects in agricultural colleges. There were seventeen charter members, Professor J. Brownlee Davidson, of Iowa State College, being the first president of the Society and prominently identified with all its early activities and development. Conventions are held annually, at which times subjects of interest to the profession are discussed.

The Society maintains student branches in schools where professional instruction in Agricultural Engineering is offered. The official publication, "Agricultural Engineering Journal," has been published by the Society since 1920.

American Ceramic Society

E. J. COON		C. WEST, JR.

The organization was founded during a convention of the National Brick Manufacturers' Association in 1898. It was founded for the purpose of studying ceramics from a scientific standpoint, and to increase a student's technical ability along ceramic lines. A banquet is given at the beginning of each school year, the purpose of which is to introduce the new students and to create a better fellowship between faculty and students.

American Institute of Chemical Engineers

OFFICERS

LYLE K. HUHN	<i>President</i>
MAHLON BECKER	<i>Vice-President</i>
HAROLD YATES	<i>Secretary-Treasurer</i>
JOHN OVERHOLT	<i>Junior Representative to Engr. Council</i>
HAROLD B. WRIGHT	<i>Keeper of the Shirt</i>

MEMBERS IN FACULTY

DR. O. R. SWEENEY	L. K. ARNOLD	DR. H. A. WEBBER
DR. FRANK C. VILBRANDT		PAUL BIRD

The American Institute of Chemical Engineers, organized at Philadelphia, June 22, 1908, has as its primary objects the advancement of chemical engineering in theory and practice and the maintenance of a high professional standing. Membership consists of three kinds; Active, Associate and Honorary. Attainment of active membership requires several years of experience in a responsible position in one of the chemical industries.

The local chapter holds monthly meetings in the interests of chemical engineering education and the promotion of fellowship among the chemical engineering students; handles all routine matters coming before an organization of this kind; and works with the national organization.

American Society of Civil Engineers

OFFICERS

F. H. WHITCOMBE	<i>President</i>
R. W. KRUSER	<i>Vice-President</i>
W. H. FOLCKEMER	<i>Secretary-Treasurer</i>
H. C. WURDEMAN	<i>Junior Eng. Council Representative</i>
PROFESSOR A. H. FULLER	<i>Faculty Advisor</i>

The Civil Engineering Society was organized in the fall of 1910, having had for its object the rejuvenation of the old junior and senior seminars, which were gradually losing their popularity and value. It was felt more good could be obtained from addresses by prominent engineers than was being derived from student papers presented before the old seminars. Since the society has been organized, it has instigated and sponsored many divisional activities besides carrying out the purpose for which it was founded.

The objects of the society are the advancement of the science of engineering, the professional improvement of its members, and the encouragement of better relations with students of civil engineering and practicing engineers.

Iowa State Dairy Club

OFFICERS

CLARENCE E. GUSTAFSON	<i>President</i>
GLENN WOODS	<i>Vice-President</i>
ORVAL AUSE	<i>Secretary-Treasurer</i>
ORVAL AUSE	<i>Junior Representative to Ag. Council</i>
FRANK MLEYNEK	<i>Senior Representative to Ag. Council</i>
NORMAN WALKER	<i>Publicity and Program</i>

The Dairy Club was founded at Ames in 1909 and was the first organization of its kind in the United States. With the growing student body, the need was felt for a common meeting ground for all dairy students. It was impossible for members of the different classes to become well acquainted in their classroom work. The club was founded with the idea of promoting a better fellowship among students of the different classes and members of the faculty. The Dairy Club was a success from the start and has been a big factor in building up a spirit of loyalty and enthusiasm among its members which is not surpassed by any other group on the campus.

The American Institute of Electrical Engineers is the national professional society of Electrical Engineers. It is composed of engineers with varied experience, training, and standing in the profession, and who hold rank accordingly. These ranks are Honorary Member, Fellow Member, and Associate. The purpose of the student branches is to give to the students an opportunity to become better acquainted with the needs and accomplishments of the profession.

Any person registered as a full-time student in a university or technical school of recognized Electrical Engineering may become enrolled, although membership is generally limited to juniors and seniors.

The local branch sponsors E. E. Smokers, technical lectures and demonstrations, educational pictures and the Electrical Engineering Open House at Vei-shea, as well as being affiliated with the work of the national organization.

Forestry Club

OFFICERS

FERDINAND PRIESTER *President*
 HAROLD J. BOEGER *Vice-President*

GRADUATE MEMBERS

IRVING L. CHRISTENSEN CLARENCE D. CHASE JOE H. STOECKELER

The Forestry Club aims to develop a spirit of comradeship among Iowa State Foresters; to create an interest in topics relating to forestry among students of the department; and to provide for the publication of an annual magazine. This publication is of a semi-technical nature, dealing with the activities of the club and alumni.

The organization was founded in the spring of 1912, and every student enrolled in technical forestry is eligible for membership. The recognition of the group, which was adopted in the fall of 1914, is the official "stag shirt," bearing the Foresters' emblem, the pine tree.

Iowa State Herdsmen's Club

A. L. ANDERSON	M. D. HELSER	H. H. KILDEE

The Herdsmen's Course is a two quarter course given only in the winter quarter of the college year. It is planned for those who are primarily interested in good livestock, and who have only a short time to prepare themselves to care for livestock. Those who finish the course go out as herdsmen for breeding establishments, supervise cow test associations, or go back home to their own livestock farms.

The Herdsmen's Club is for the purpose of furthering the interests of the members in an educational and social way.

The objects of this club are to serve as a unifying influence for Industrial Arts Students, and enable the group to secure valuable contacts with men prominent throughout the state in Industrial Arts education. Any Iowa State College student who is interested in Industrial Arts may become a member of the club. This organization has had a healthy growth in membership and promises to become of considerable influence in raising educational standards in Industrial Arts.

Society of Industrial Engineers

OFFICERS

WALLACE ROGERS.....	<i>President—Senior Rep. Eng. Council</i>
GEORGE MICHEAL	<i>Vice-President</i>
LAVERN SCHILTZ	<i>Secretary-Treasurer</i>
GERALD FLEMING	<i>Junior Rep. to Eng. Council</i>

The Society of Industrial Engineers is a national organization composed of prominent leaders in industrial organizations. Membership in the Iowa State chapter is limited to those Sophomores, Juniors, Seniors, and Faculty members (Engineering) who are interested in the program of the organization. Meetings are held weekly. The usual order of business consists of reports of special interest to the General Engineers, but this is frequently varied by a talk given by some noted engineer.

American Society of Mechanical Engineers

OFFICERS

PROFESSOR J. G. HUMMEL	<i>Honorary Chairman</i>
J. HOWARD DUNN	<i>Student President</i>
WM. F. FITZGERALD	<i>Vice-President</i>
CLARE L. YALE	<i>Secretary</i>
ERWIN W. GRAHAM	<i>Treasurer</i>

The American Society of Mechanical Engineers is a national organization of graduate Engineers. The student branch is an undergraduate society for the purpose of acquainting the student with the practical side of the field of Mechanical Engineering. These student branches are maintained in all of the principal engineering schools throughout the country.

The local branch manages the open house and parade float for the Mechanical Engineering Department for Veishea, sponsors a Mechanical Engineering banquet, smokers, and meetings at which interesting engineering topics and films are presented.

The Veterinary Medical Society is the oldest divisional organization on the campus, having been founded in 1896. All Veterinary students are eligible to membership in the society, and all members of the society are automatically junior members of the American Veterinary Medical Association. The purpose of the society is to foster the spirit of the Veterinary Division, and to maintain co-operation between the students and faculty in the promotion of divisional spirit and activity.

The Vocational Education Club is the organization of the Vocational Education Department. Its members consist of the students and faculty of the department. The purpose of the club is to foster the interest of this group of men while they are on the campus; to bring them together in meetings, called the "Laboratory of Leadership;" to make them better acquainted with each other; to practice cooperation; and to bring them into closer contact with the members of their profession in the field. This year they are putting special emphasis upon helping the Future Farmers' organization of Iowa.

Pin-hooking in Ye Good Olde Days

ANNOUNCING—

THE RESULTS OF THE ANNUAL PIN-HOOKING CONTEST
FOR SORORITIES

IOWA STATE takes great pride in her sororities, all of whom average as many and some of whom average many more pins per year than the national average for sororities. This last year was particularly fruitful, for the fraternity pins have been dropping with increasing regularity ever since the beginning of the contest on February 14 until the climax was reached at Veishea time.

Pi Beta Phi again heads the list. After slumping horribly shortly following the official opening of the contest on St. Valentines' Day, the arrow girls rallied in late March and came thru to break their own record of last year. Anne Larrabee, doped to be a cinch point winner, failed to produce this spring, much to her sisters' disappointment. However, a few of the girls who had given no indication of pin-hooking ability sprung surprises and helped bring the average up to the top.

Gamma Phi Beta, altho handicapped considerably by the fact that several of the girls kept their pins from last year, placed second. Bee Brown, acting as coxswain to the crew, urged the girls on until their last ounce of energy was spent. The Phi Delt picking was not quite so fruitful this year, but this misfortune was overcome by the uncovering of a new field, Delta Tau Delta. The Delta shelter is to be further strengthened by the addition of a few likely boys from the Ausonia house, too.

The Chi O's, despite the fighting spirit and enthusiasm they showed, were forced to take third place to their rivals—the Gamma Phi's and Pi Phi's. One of the sisters who had been counted on as a sure point-taker overdid herself and got married, thereby disqualifying herself from further competition. This, say the jolly Chi O's, is carrying a good thing too far.

Alpha Delta Pi adopted as its slogan at the beginning of the contest, "All Dames Produce." This they believed would serve as an incentive to work, since it not only typified the object of the contest, but reminded them of the three words, Alpha Delta Pi. Phyllis Penly and Alice Knipe were joint chairmen for the campaign and they did right well. It is really too bad that some of the boys picked as victims didn't make their grades and so had no pins to lose. Fourth place among 11 sororities is not so bad, tho.

Zeta Tau Alpha upset pre-season dope and climbed into fifth place just as the contest closed. Altho these girls did not seem to rank so well on the Bomb sales campaign, they certainly had a knack of nabbing

pins. As yet the secret of their success has not been uncovered by the Tri-Delts, who failed to place in the first five.

Delta Delta Delta, abounding in natural resources, garnered only seven pins, a truly humble number for this group of parlor athletes. Marion McMahon and Esther Friesth disappointed the rest of the sisters by failing to make a single point.

Upset of all upsets—the K. D.'s failed to rank higher than seventh! Kay Means failed to capitalize on her fame as a Bomb beauty and we hear the girls won't speak to her now.

As the first seven places only received prizes, we will merely give the number of points for the other four teams: Alpha Gamma Delta, 5; Phi Omega Pi, 0; Sigma Delta, 0; Sigma Kappa, 0.

Sorority	Points	Pins	Girls	Victims
Pi Beta Phi	11	43	38	28
Gamma Phi Beta	10	41	37	30
Chi Omega	9	19	21	34**
Alpha Delta Pi	8	14	20	32
Zeta Tau Alpha	7	14	17	27
Delta (thrice)	6	7	13	34***
Kappa Delta	5	8	11	25
Alpha Gamma Delta	4	5	7	24
Phi Omega Pi	3	0	0	22
Sigma Delta	2	0	0	14
Sigma Kappa	1	0	0	19

*It is known to be a fact that they have several Kappa Sig pins, but they don't count.

**One of their girls got married and was disqualified.

***Monica Adlard was classed as a professional and was disqualified.

Figures following sororities' names give their rank in purity.

Point Scale for Various Pins

Ausonia, Pi Kappa Alpha, Pi Epsilon Pi, Delta Tau Delta, Beta Kappa Epsilon, all 2 points; Kappa Sigma, 0; all others, 1.

A few of the leading pin-hookers posed for the Bomb.

—And Then Came Lynch!

IN THE year of 1930 A. D., Iowa State's pep crawled back in its shell and died very dead. Whereupon the he-men of the college quickly degenerated into a species of lounge lizard with yellow bellies, and a tendency to frequent pink teas. Things were in a sad, sad state.

The powers that be, however, generally manage to take a timely hand in affairs. When there was a Delaware to be crossed, they brought forth a Washington. When there was an ocean to be crossed, they brought forth a Lindbergh.

So, as a salvation to the raw edge of defunct pep on our campus came V. M. Lynch, the Carrie Nation of Iowa State's intemperate enthusiasm. With a manly gesture he flung open the proverbial closet door and exhibited the skeleton dangling there.

He set Iowa State to thinking. They discovered that the schools whose cheerleaders could tie themselves in double knots always had better football teams than the ones whose cheerleaders could only do single knots and stand on their heads.

Even the band took it to heart. Instead of the motto: "What the hell do we care?" they adopted a new slogan about the old gray mare. The band that plays pieces about hell only loses yardage for its team.

Mr. Lynch also divulged the answer to the question about where the faculty goes instead of to the football game. It seems that since the students slept thru the games just as they did thru their classes the teachers went to Younker's to shop for a change.

It had been a warm summer and nobody had much vigor left. The challenge caught Iowa State quite off its guard. But did Iowa State let the challenge go unaccepted? No. Thrice no. (NO, NO, NO.)

Did she not paint her sidewalks with menacing retorts to show Mr. Lynch there was still hope? She did.

Did she not question her students about their lounging habits? She did.

And did she not almost win a football game? She did.

Helen of Troy launched a thousand ships, it is said. But she had nothing on V. M. Lynch. He launched a goodly four thousand students on a riotous pilgrimage in search of pep. And didn't they come back with all the empty crates and boxes and barrels from six neighboring counties?

This revolution came just at the time of the last home game of the season and it was a lot like deciding to like spinach when there is only one forkful left.

Works That Live Like the Pyramids—

High above Egyptian wastes the pyramids rear their heads, marvels of scientific craftsmanship. Thru the centuries they have withstood the searing blast of desert sand, the tests of storm and time, the ravages of the Napoleons of the ages. Built to dominate and to endure, they have fulfilled their dual purpose.

Towering like the pyramids are the works of the colleges. The men and women who make them are the builders of the modern pyramids—skilled workers using every modern device to perfect their product. And their works are the alumni of the colleges, young men and women who are taught to build not for today or tomorrow, but for the vast future.

Iowa State College believes the task—the duty—of education is not ephemeral, but a thing measured in centuries. Its energies and its experts are keyed to the fulfillment of a lasting obligation.

Iowa State College
Ames

We Had A Cut Dance

IT SEEMS that we just can't keep out these eastern customs. We try to keep our campus pure and moral and all that, but things stronger than our wills swoop down unexpectedly and quite suddenly we realize we are just on the verge of going modern.

Rarely, however, does our conscientious training fail us and in practically every case we manage to squelch the inridding danger before it is too late, so we remain the noble-spirited college that we have always been.

Apparently this has been the fate of the cut dance at Iowa State. The evil minded Industrial Sciencers introduced it at their fall barbecue dance in the gym. We generally expect such improper ideas to come from them. They don't really go to school anyhow, and have ample leisure time to loaf around thinking up daring and bizarre schemes and putting them into practice.

It remains for the stable-minded Ags and Home Ees to properly censure the projected ideas of these Industrial Science students. And that is just what they seem to have done, for what on earth has happened to the cut dance at Iowa State? Where has it gone? What has become of the leering bunch of men-without-women who once (and once only) staggered around the edge of a dance floor.

They have gone. Every one of them. And Iowa State has again been made safe for mid-Victorianism.

Chalk up another one for the Industrial Science Council.

ON THE CAMPUS

How Our Fraternities Initiate

ACACIA

President Howard Bewick: Whom have we at the door?
 Guard: Xavier Michael Kelly, who desires to become a member of our club.
 Pres: Show him in. . . . Neophyte, do you promise that you will never stray from the teachings of Masonry and forever uphold Acacia as the symbol of righteousness?
 Neo: I do.
 Pres: All right, then. Here's the grip. It'll cost you to get a pin. Talk to the treasurer.

ADELANTE

President Walter Kuchn: Whom have we at the door?
 Guard: I don't know. We just pledged him yesterday and I've forgotten.
 Pres: Show him in. . . . Neophyte, did you ever, or will you ever, or do you smoke, drink, play bridge, dance or swear?
 Neo: I don't.
 Pres: All right. Consider yourself a member of Adelante and you'd better not hang your pin for a week or two.

ALPHA GAMMA RHO

President Art Porter: Who's knocking at our celestial chambers?
 Guard: Hie, hie—heh, heh. . . . I—I—that's Silas Henry Hayseed.
 Pres: Carry him in, if you're able. Neophyte, do you plan to take up farming when you leave this school?
 Neo: I do.
 Pres: Well, quit shaking. Here, have a drink. Now, if you can drink that quart and walk straight up here, you can be an A. G. R. Bring in the next one.

ALPHA SIGMA PHI

President George Felton: Who's that knocking at our door?
 Guard: One of the pledges who made an O. K. slip.
 Pres: Fine, bring him in. Young fella, I'm proud of you. You have surpassed nearly insurmountable difficulties and are now ready to become a loyal Alpha Swig. Give him one, brother secretary.
 Secretary: A swig or a pin?
 Pres: A pin. He can get his own swig.

ALPHA TAU OMEGA

President Jim Carland: Guard, who desires admittance to our sacred shrine?
 Guard: Max Bird. He's finally equeezed an O. K. slip out of the college and he wants to be initiated.
 Pres: Well, bring him in. Bird, at last I have the chance I've waited for. Bend over and be welcomed into Alpha Tau Omega in the traditional manner.
 Bird: Not by a damn site! Either you initiate me right or I'll spill the beans about you the last time you were in Des Moines.
 Pres: Here's your pin, blackmailer.

AMERICAN COMMONS CLUB

President Lloyd Blank: Whom do we initiate tonight?
 Others in unison: All the freshmen.
 Pres: Are their board bills paid?
 Treas: All except one.
 Pres: Show all the others in and tell him to go pledge a fraternity. I'll hand out the pins on the right here.

Home Again- by GREYHOUND Bus

HOME again or back to school, travel this modern way via Pickwick-Greyhound. Motor coach fares are very economical . . . this makes possible more trips home during the school term. Start your vacation right and go home by bus.

UNION BUS TERMINAL
917 McGee
Kansas City, Mo.

To Nearly All the
Big Schools

Linking most of the important campuses in the country . . . thousands of college students choose this modern travel-way.

PICKWICK-GREYHOUND LINES

AUSONIA

President Russell Mouw: Who's there?
 Trembling Athlete: Me.
 Pres: Close your eyes and walk in.
 (Athlete trips over barrel and all the brothers pounce on him with might and main. After 15 minutes of this, when the poor neophyte is physically unfit for further maltreatment, he is given a pin by the president.)
 Pres: You must now swear on your holy honor to try to get the Deltas to take us in as soon as possible.

BETA THETA PI

President Pete Peterson: Guard, who's at the door.
 Guard: How should I know? I didn't go over to get the O. K. slips.
 Pres: Show him in. All right, kid, what's your reason for wanting to be a Beta?
 Neophyte: I want to room with Putnam.
 Pres: Here's the grip. Take this pin and guard it with your life for evermore.

CHI PHI

President Burdette Pilcher: Next man.
 Guard: Ezekiel Waltham Dodger.
 Pres: Ezekiel Waltham Dodger, do you play bridge well in formal clothing? Do you know what to bid when your partner has bid three hearts and you are holding the ace, king, queen and four little ones in that suit?
 Neophyte: Two clubs.
 Pres: Right. Give him a badge.

DELTA CHI

President Clarence Bauer: How many boys to initiate?
 Guard: Two.
 Pres: Tell one of the preps that didn't make the grade to call up my girl and tell her I'll be over in five minutes. . . . Neophyte, what's the greatest, noblest and finest of all fraternities?
 Neophyte: Why, you told me Delta Chi was last fall.
 Pres: So I did. Well?
 Neo: Delta Chi.
 Pres: O. K. Here's the badge.

DELTA SIGMA PHI

President Gerald Kruse: Bring in another neophyte.
 Guide: There's only one more. The other guy just got a Sigma Nu bid.
 Pres: Neophyte, you are about to engage in a great test of virtue.
 Neo: O. K. What's up?
 Pres: For true companionship and faithful fellowship, what do you choose?
 Neo: Chi Omega.
 Pres: Right. Bring on his pin.

DELTA TAU DELTA

President Dick Wilcox: Bring on the next brain prodigy. . . . Neophyte, what is your aim in life?
 Neophyte: The all-ninety list and Phi Kappa Phi.
 Pres: How is your tiddle-de-winks game? And have you learned to yodel yet?
 Do you have athlete's foot?
 Neo: Almost.
 Pres: Ah, you have the makings of a great Delt.

DELTA UPSILON

President Glenn Cook: Are you a journalist or do you go to school?
 Neo: I engineer, please, sir.
 Pres: There's nothing like variety. Here's the grip. It's as good as the Elks' any day. And remember we have a big house to fill, so don't loaf this summer.

FARM HOUSE

President Ed Syndergaard: Where are the pledges?

Right Hand Man: They've just finished the milking.

Pres: Did they get the west 80 plowed today?

R. H. M.: Yes, and the chicken house roof patched.

Pres: Good. Give them their pins. I've got another meeting. . . .

KAPPA SIGMA

President Art Nelson: Do you promise that your behavior shall always be in accord with the trend of our architecture?

Neophyte: I'm afraid so.

Pres: Have you tried the Pi Phis?

Neo: Yes. And a Gamma Phi once, too.

Pres: That's bad. You'll never make a Kappa Sig. Goodbye. You might look in on the Theta Chis.

LAMBDA CHI ALPHA

President Zimmerman: Have you learned the ways of the Scoreboard?

Neo: Well, Manzel hasn't gotten around to teach me all of them yet.

Pres: I hope you realize the standard I've set for the Lambda Chis to live up to and intend to give it at least a part of your attention.

Neo: Of course.

Pres: Have you made your Union pledge?

Neo: I should think you'd remember that.

PHI DELTA THETA

President Bud Hopkins: For what is Phi Delta Theta famous?

Neophyte: Castle painted blue, castle painted white.

Pres: What else?

Neo: P-Nuts Lindgren.

Pres: Bye me.

PHI GAMMA DELTA

President Wes Brott: Neophytes, name three great Fijis in unison and without a moment's hesitation.

Neophytes (as one): Mitch Charnley, Cal Coolidge and Booker T. Washington.

Pres: Check. Dish out the badges and we'll have a round of beer.

PHI KAPPA

President James J. Grotter: Open the door and let in those preps. . . . Neophytes, who has the best football team in the country?

Neos: Notre Dame.

Pres: Who's the best wrestler in the world?

Neos: Dick Cole.

Pres: Give the Phi Kappa motto.

Neos: Veni, vidi, vici.

PHI KAPPA PSI

President Pontius: Any luck since the grades came out again?

Guard: A pair of deuces, a joker, and a couple of blanks.

Pres: Up to par at least, aren't we? Let's run thru the first half of the alphabet tonight.

PHI KAPPA TAU

President Vernon Boyer: Pledge, do you fully realize the seriousness of the undertaking upon which you are about to engage?

Neophyte: Do I? At least 10 guys right in this chapter have told me to move out of here before they got a pin on me.

Pres: It's too damn late now. Grab him, men.

PHI SIGMA KAPPA

President Johnson: Liquid capacity?

Neophyte: Never been ascertained.

Pres: What are you doing with the Phi
Sigs? Dismissed. . . . Insufficient evidence.

PI KAPPA ALPHA

President Squirrely Martin: Next!

Neophyte: Coming.

Pres: Do you or do you not think you
can lick me?

Neo: I do not.

Pres: Smart fellow: See that you re-
member that. Welcome, brother.

PI KAPPA PHI

President Kenneth Johnson: Neophyte,
can you drink like an A. T. O., swear like a
Beta, date like a Phi Gam and handshake
like a Lambda Chi?

Neo: I can and do.

Pres: When you go upstairs you may take
my pin off my Sunday suit and wear it un-
til your own comes.

SIGMA ALPHA EPSILON

President Paul Gnam: As a Sig Alph, in what do you place your trust and hopes, Neophyte?

Neo: My father's bank account and Maytag washing machines.

Pres: I guess that lets you in.

SIGMA CHI

President Walton: Go thru the O. K. slips and sort out a couple undersized preps. I don't feel up to my usual sterling self to-night.

Guard: They've gone to Nevada.

Pres: Then a couple of normal sized ones.

Guard: They've gone to the library.

Pres: I suppose we'll have to take the big ones, then.

Guard: They've gone to prayer meeting.

SIGMA NU

President Dick Collins: Neophyte, what would you rather be or a Delt?

Neo: The white star of Sigma Nu.

Pres: Do you promise to shine nobly and try to grow to be a man like Pete Topic?

Neo: I do. So help me, Shaw.

Pres: I guess that takes care of you, then.

SIGMA PHI EPSILON

President Birchard: What would you rather make than Sig Ep, freshman?

Neophyte: Kappa Delta.

Pres: He deserves to be an active man—give him a pin.

SIGMA PI

President Glenn Woods: While we've some spare time, let's initiate. Bring on one or two of the preps.

Guide: There don't seem to be any. I guess we forgot to rush last fall.

Pres: My Gawd! Can we borrow a few from the Deltas?

SIGMA SIGMA

President Whitecombe: How do you initiate these guys? Only thing they did to me was give me a pin.

One of the Club: Ask McMahon. He's been here since the war.

McMahon: Oh, hell, I forgot. What's the difference? Get their money and give 'em a pin.

TATU KAPPA EPSILON

President Johnson: Neophyte, in your wanderings thru life, always remember the green lights of the old Toke house at Ames.

Neophyte: Ay, ay, even as in a military camp, sir.

THETA CHI

President Frederick Thompson: Prep, what's your highest ambition in life?

Prep: To sing like Tolbert MacBae.

Pres: You'll do. You can be initiated if you'll try out for the glee club. And don't forget that we want to win that Inter-fraternity sing next year.

THETA DELTA CHI

President Al Martin: Bring in the seums to be initiated.

Guard: All of them got cold feet except one.

Pres: Bring him in. . . Neophyte, what do you intend to do in your three remaining years in college?

Neo: Run like the Soultz brothers, rassle like Juhl and pray for pledges.

Pres: Give him the badge.

THETA NU EPSILON

President Clare Yale: Are all the neophytes drunk?

Guide: Yes, but nobody has passed out yet.

Pres: Well, there's no national officer here! Let's put the pins on them anyway. Nobody will know whether they were out cold or not.

THETA XI

President Cooper: Neophyte, who's greater, in your estimation, than President Hughes, Babe Ruth or Doug Fairbanks?

Neo: Al Heitman.

Pres: How come you pledged Theta Xi?

Neo: They told me I'd be able to date Gamma Phi's.

Pres: You'll do.

UPSILON SIGMA ALPHA

President Willard Prestein: Youse pledges are damn lucky to get to belong to a fraternity like this.

Neophytes: Yeah?

Pres: Why did you pledge here then?

Neophytes (together): The board is cheap.

Pres: Of course, you had me there. Now hold out your chests and I'll pin on the badges—pay as you leave and we're having liver and onions tonight.
