DEDICATION

To Our Mothers and Fathers

Who always, with loving sacrifice, have given us their best, that we might more nearly attain those ideals of character which guide and control the actions of all truly honorable men and women.

Whose love and unselfish hearts have ever been to us a constant incentive and inspiration to give to them, to our Alma Mater, and to the world the best that is in us. With increased devotion we dedicate to them this, the thirty-third volume of the BOMB.

Lead horse in the quadrangle of the "Quad."*

CLASSES

"If a man empties his purse into his head no man can take it away from him. An investment in knowledge always pays the best interest."

—FRANKLIN

RAYMOND A. PEARSON
President

A HE most thoughtless of undergraduates must occasionally realize that such institutions as Iowa State do not simply happen. There were founders—pioneers whom we honor, and their successors whom we revere. For the past fourteen years, the man who planned and worked and looked toward the future of our college has been Raymond Allen Pearson—"Prexy"—the man who we all respect, and now wish Godspeed.

His administration has marked the period of the most rapid expansion the college has ever known. The new Library and Home Economics Building are only the more recent manifestations of an extensive building program. Since 1912, the Armory, Science Hall, Physics Building, Chemistry Building and many others have been built. During this period, the acreage of the college farms has been substantially increased, and the Extension Department has been greatly expanded. During the last few years, Veishea, our "open house," has been inaugurated. While he has kept the forward look of the leader, he has not forgotten to consider the mental perspectives of his student body.

And now he is leaving us. What we lose, others gain. His record with us speaks for him—his future cannot be other than successful.

HERMAN KNAPP
Acting President

A HIS college has as its leading object, "—without excluding other scientific and classical studies, and including military tactics, to teach such branches of learning as are related to agriculture and the mechanic arts, in order to promote the liberal and practical education of the industrial classes in the several pursuits and professions of life." This has ever been the purpose of the men at its head, but problems have presented themselves during its growth, and to meet these difficulties some changes had to be made. However, in no case has the college deviated from its originally prescribed purpose. The remarkable success of our great and growing institution is due to its splendid men and women—those who here investigate, supervise and instruct; those who form its splendid student body; those who are its loyal alumni.

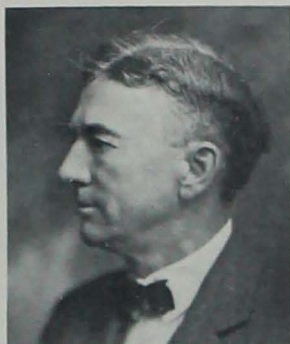

J. W. STANTON
Dean of Women

The office of the Dean of Women is the center from which the social life of the campus is directed. The aim is to keep this life on a high plane, thus equipping our young people with the right ideals with which to go out and carry on in the new communities of which they will become a part.

M. M. ROBERTS
Junior Dean

The office of the dean of the junior college was established in September, 1903, with Dean E. W. Stanton as the first occupant of the position. The feeling had been growing that since the college had increased greatly in numbers, students in the freshman and sophomore classes needed more supervision than they had previously received. The principal duties of the office are to supervise the classification of freshman and sophomore students in all divisions of the college, to keep in touch with their progress in their studies and to advise and encourage them in upholding high ideals of scholarship.

J. E. FOSTER
Dean of Men

A wide variety of personal problems develop at college. There are many important questions outside of books, classrooms and laboratories. The dean of men is at hand as a friend and counselor in connection with such problems and other personal matters of men students. The directorship of the Summer Session is combined with this office.

DR. O. H. CESSNA
Chaplain

The tragedy of college life for many young people is their loss of religious interest. Many who have been active in the home church become negligent and drift away and their friends of former days would hardly recognize them. There are organized, intensive agencies at college planned especially to meet this problem, such as the associations and active church groups and various college religious exercises.

H. E. PRIDE
Alumni Secretary

The alumni staff and alumni office have but one excuse for existence—service to alma mater. This service finds expression in many ways but is seen best in efforts to develop a closely organized and well-informed body of alumni who are enthusiastically supporting their college in every way. To this end comprehensive files are maintained at headquarters, the *Alumnus* is published every month and branches of the General Alumni Association are maintained in most of the important cities of the state and nation.

J. R. SAGE
Registrar

It is the aim of the office to be of help to the student body, alumni and faculty in every way possible. The larger quarters which have been provided make it possible to render better service than in the past. Any request or inquiry from the members of the class of 1926 will receive the best possible consideration.

Graduate College

DEAN R. E. BUCHANAN

The Graduate College is at the same time one of the oldest and one of the newest features of Iowa State College. Students have been enrolled in graduate work every year since 1872. It would have been strange, indeed, if leadership such as that given by President Welch, Dr. Bessey and their associates in the early days had not led to a desire on the part of their students to go further in their work. However, it is within the past 15 years that growth has been most marked.

Graduate opportunities are offered to those who wish to take advanced work or to undertake research in some one of the major subjects appropriate to development in a land grant college. The rapid growth was initiated about 1910. The number of students increased to such an extent that in 1919 a reorganization was necessitated; this took the form of a Graduate College with its graduate faculty. In the year 1924-25 there were 661 graduate students enrolled.

The purpose of the Graduate College is to give advanced training to qualified students whose vocational objectives lie in fields of agriculture, engineering, home economics, industrial science or veterinary medicine. In this enrollment each one of the divisions of the college is well represented.

ROBERT, BUCHANAN, GOOD

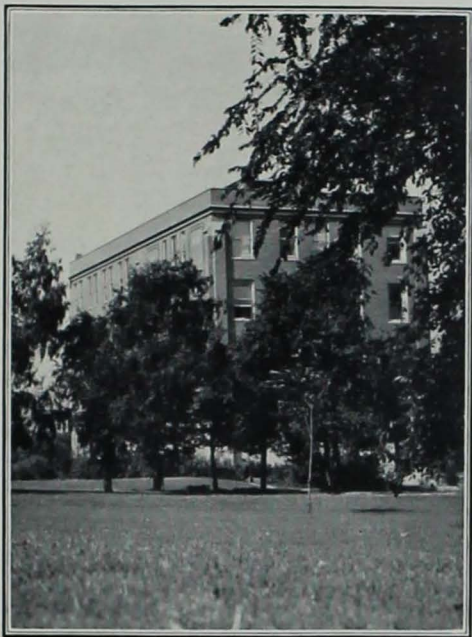

Graduate College

Iowa State College, like many other institutions of its kind, has developed an extensive field in graduate work. Exceptional opportunities are now being offered to students of qualified standing who desire to pursue advanced study in any of the departments now offering major work.

Graduate work became so prominent on the campus that a need for an association of graduates was strongly urged. It was not until February, 1925, that such an association became a reality. The purpose of the new order was to give aid in securing a greater Iowa State thru encouraging and fostering graduate work of the college, and thru programs that will tend to promote the welfare of, and to give development to, the social, moral and intellectual faculties of its members.

Membership in the association consists of all students enrolled in the Graduate College and those who have received an advanced degree from Iowa State College but who are not now enrolled in the Graduate College.

As its first speaker, the association was very fortunate in securing the services of Dr. Edwin Starbuck, Department of Philosophy, University of Iowa, who delivered a splendid address on "Research in Character Education." Later in the season the association was again favored by an illustrated lecture, "The Size and Distance of Stars," by Dr. D. W. Morehouse, president of Drake University, Des Moines, Iowa.

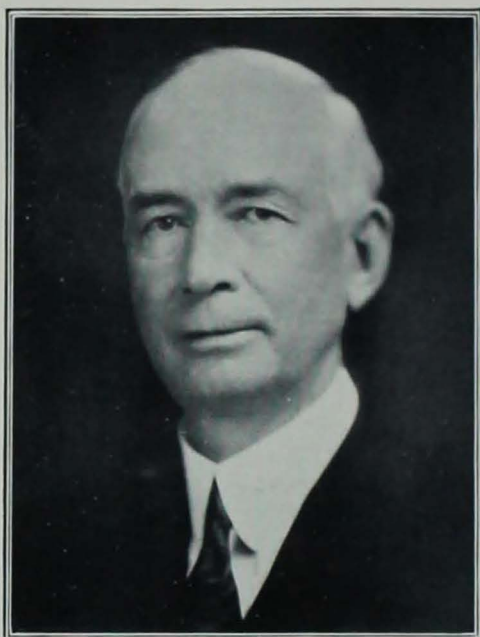

SCIENCE HALL

GRADUATE STUDENTS

College of Agriculture

DEAN C. F. CURTISS

The Division of Agriculture comprises the following departments: Agricultural Engineering, Agricultural Economics and Rural Sociology, Animal Husbandry, including Dairy Husbandry and Poultry Husbandry, Dairying, Farm Crops and Soils, Genetics, Horticulture and Forestry, including landscape and architecture, floriculture and Vegetable Crops, Technical Journalism, and Vocational Education.

Four-year collegiate courses are offered embracing work in all of the above major lines, and research work is conducted in practically all phases of technical and practical agriculture.

The enrollment of students in the Division of Agriculture is the largest in that subject in the United States. The enrollment of graduate students in agriculture is in excess of 100. Many students from other institutions and foreign countries come to the Iowa State College for graduate work.

In addition to the buildings and laboratories and other extensive equipment, the various departments of the division have over 1,500 acres of land used for educational and research work. The enrollment has grown to such proportions that additional buildings and equipment are urgently needed.

Top row: C. Holmes, H. Hughes, M. McDonald, E. Weaver, E. Lindstrom, E. Voltz.
Second row: H. Kildee, W. Lancelot, C. Curtiss, W. Stephenson, B. Pickett, J. Davidson, F. Beckman, M. Mortenson.

College of Agriculture

The Ag. Club is one of the oldest organizations on the Campus, and during the years of its existence it has maintained an enviable record. The Ag. Club is the recognized student organization of the Agricultural Division, and represents the united effort of the agricultural student body. It is because of the untiring effort of its members, faculty and students, that the Agricultural College enjoys the unparalleled position which she now holds in scientific agriculture.

The Division offers many opportunities for the development of student leadership and initiative. Each department has its club with special activities calling for active participation by the members and a closer uniting of those men interested in that particular branch of work.

Student judging teams afford opportunity for twenty-five to thirty men to participate in Intercollegiate Judging Contests annually. The consistent winnings of our teams have brought distinction to our College.

The Ag. Carnival was for many years the big celebration of the year, when the Ag. Division united its effort in a spring celebration advertising the work of the Ag. College as well as the entire school. In the spring of 1922 this event gave precedence to the first Veishea in history. The Ags. joined with the rest of the College in the first annual all-college celebration and display.

College of Engineering

DEAN A. MARSTON

Engineering was specified in the original Land-Grant Act as one of the major lines of work at Iowa State College, and has been carried on as such since the College first opened on March 17, 1869. Collegiate instruction of the highest grade is given in nine 5-year and ten 4-year courses, in nine different branches of the profession.

The Civil and Mechanical Engineering courses were established in 1869, when the College first opened. Electrical Engineering was added in 1891, Mining Engineering in 1894, Ceramic Engineering in 1906, Agricultural and Chemical Engineering in 1909, Architectural Engineering in 1914, Trades and Industries in 1920, Engineering (General) in 1926.

Graduate work in engineering has received special attention since the World War.

Approximately 60 graduate engineering students are now enrolled and the work is growing rapidly.

The enrollment of collegiate engineering students is about 1,350. In addition, noncollegiate instruction is given to about 200 mechanics and draftsmen.

The Engineering Extension Department of the Iowa State College is a recognized leader in the United States and gives extension instruction to several thousand persons yearly.

The Iowa Engineering Experiment Station is an acknowledged pioneer and leader in engineering research, and has made important contributions to modern engineering science. Some of its discoveries save Iowa millions of dollars per year.

The engineering faculty numbers more than 100.

There are approximately 2,500 alumni of Iowa State College. These have attained high recognition in their profession, have achieved a large measure of personal success, and have rendered and are rendering professional service invaluable to Iowa and to the entire nation.

Top row: A. Shane, F. Fish, P. Cox
Second row: A. Fuller, A. Kimball, O. Sweeney, A. Marston, A. Friedrich, W. Meeker

College of Engineering

Ever since 1908, when the first Engineer's Campfire was held, the engineers have been responsible for much of the entertainment offered at Iowa State. The first campfire was sponsored by the engineering faculty in order to create a closer bond between engineering students and faculty, and from that time on the campfire has been successfully staged each year.

In March, 1910, the Civil Engineering Society instituted St. Patrick's Day. This celebration was participated in by both engineers and ags until 1912, at which time the declaration was made that St. Patrick was an engineer, and the ags were not invited to the celebration. From that time until 1922, when Veishea supplanted all divisional holidays, the engineers celebrated St. Patrick's Day every March 17. This celebration had many of the features incorporated in the present Veishea celebration.

The Engineers' Annual Ball is another social function held each year by the engineers. It is held near the end of the winter quarter and draws a gathering of about 200 couples.

All these activities as well as sundry other details, such as the distribution of the engineer's recognition pin, are taken care of by the Engineering Council. Members of the council are elected at the end of their sophomore year to serve two years. Each of the nine departments has one or two representatives, depending on its size, and the Iowa Engineer and Cardinal Guild each have representatives.

The latest accomplishment of the engineers through the council is the purchase and installation, at an expenditure of \$250, of two flood lights for lighting State Field in order that football practice hours may be extended. The engineers not only have the welfare of their own division at heart, but they also strive to make improvements in Iowa State College as a whole.

College of Home Economics

JEAN A. RICHARDSON

*Success is being friendly when another needs a friend;
It's in the cheery words you speak, and in the coins you
lend;
Success is not alone in skill and deeds of daring great;
It's in the roses that you plant beside your garden gate.*
—GUEST.

After fifty-four years of growth and development, the pride and dream of the Home Economics College is expressed in their new building which was completed in the spring of 1926. Through co-operation and determination, with success as their highest goal, the Home Economics staff and student body have reached some of their ideals. They are proud of the fact that Iowa State College may claim the largest active Home Economics College Club in the United States. The "Iowa Home-maker," which is edited by the student club, is one of the few Home Economics magazines being published chiefly by Home Economics undergraduates. The work of the several departments is keeping abreast with the best that is offered in Home Economics. They are responding to the enlarged view of the scope of work which demands a deeper knowledge, and an appreciation of the scientific, social and economic questions which must be met and solved by our people.

We are happy to be able to say to all of you this spring that the new Home Economics Building is completed and will be dedicated June 11th. The corner stone was laid a little less than a year ago, May the 9th, 1925. It stands as a monument to the earnest work and fine idealism of the men and women who have made Iowa State College, and particularly to those who have had a special share in the development of the Home Economics Division. It symbolizes, by its fine proportion, simplicity, dignity and beauty—the best for which Home Economics stands.

The first permanent Home Economics Building, erected in 1911, was a small, red-brick building planned to accommodate about 250 students. It has not been destroyed, but now forms an integral part of the great new building, for it has been covered with Bedford stone and is the west wing of the new structure.

Top row: F. Busse, C. Miller, J. Hanson, G. Elwell
Second row: L. Brown, F. Sims, A. Richardson, W. Tiden

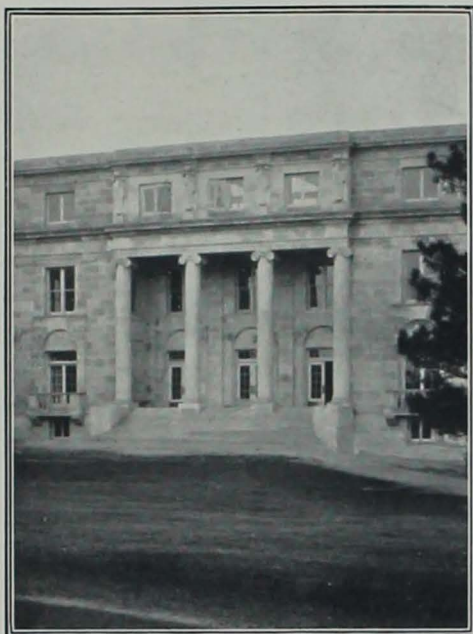

College of Home Economics

Home Economics has thus grown, not by destroying the old, but by building upon, modifying, and remodeling it to meet the constant demands of the new generations of students. The new building will now provide adequate facilities in all departments of Home Economics for about 1,500 students. The building has been the dream and the hope of the students and faculty through many years. We want not only the present student body to be with us for the dedication, but we want the 1,100 Home Economics Alumnae who have gone out from our college to come back to share in the joy of dedicating this building to the ideals of home making and to the service of this institution and of our great state.

The Student Home Economics Club of Iowa State College has been keeping pace with the division. It was organized as a club in 1910 with a small membership; there are now 450 members. In 1923 the club became affiliated with the state and national home economics associations, and in the summer of 1925 sent its first delegate to the national home economics meeting which was held in San Francisco.

All general activities of the home economics students are carried on thru the club. The Home Economics Vodvil held Feb. 19 this year was voted the most successful ever attempted. Tentative plans are now being made for Veishea, at which time the famous cherry pies will be a feature of the Home Economics Open House, the first open house in our new building.

Our tangible results are seen in the contributions made in the past five years: \$2,200 to the Catherine MacKay Memorial loan fund, \$300 to the Ellen H. Richard's fund, \$300 to the Iowa Home-maker, \$200 to the Constantinople Woman's College, \$50 to the American Home Economics Association, \$500 to the Memorial Union Building and \$750 toward a gift for the new Home Economics Building.

College of Industrial Science

DEAN S. BEYER

Under the name of General Science the course now known as Industrial Science has been in existence since the beginning of teaching at Iowa State College. In the early days there was no differentiation into the five divisions as we know them to-day, altho all five lines of work have been taught since the first. About twenty-five years ago the work in agriculture (including veterinary medicine) was put in charge of an agricultural faculty and dean; the same was done with engineering. Industrial Science (then including Home Economics) was administered directly by the president as dean. Still later the divisions as we now know them were recognized and a dean appointed for Industrial Science.

The functions of the Division of Industrial Science were early defined as threefold:

First: To serve as an administrative unit which has charge of instruction in those sciences which are basic to technical and industrial education and which find constant application in technology and the industries. The departments which serve this purpose are: Bacteriology and Hygiene, Botany, Chemistry, Applied Economics and Social Science, Geology, Mathematics, Military Science and Tactics, Physics and Zoology and Entomology.

Second: To serve as an administrative unit for those departments which have charge of instruction in those subjects not sciences which are requisite to the proper education of technical students; the so-called service departments, such as English, History and Psychology, Library, Modern Language, Music, Physical Training and Public Speaking.

Third: To encourage the development of education in those industries not wholly included under the following headings: Agriculture, Engineering, Home Economics, or Veterinary Science, but which need technical application of the sciences taught in this institution.

Top row: N. Horn, L. DeVries, E. Smith, J. Edwards, R. Wagner, J. Evans
 Second row: A. Noble, R. Dunbar, O. Hawley, J. Martin, L. Spinney
 Third row: C. Drake, S. Beyer, W. Coover, L. Schmidt, O. Cessna, S. Galpin

College of Industrial Science

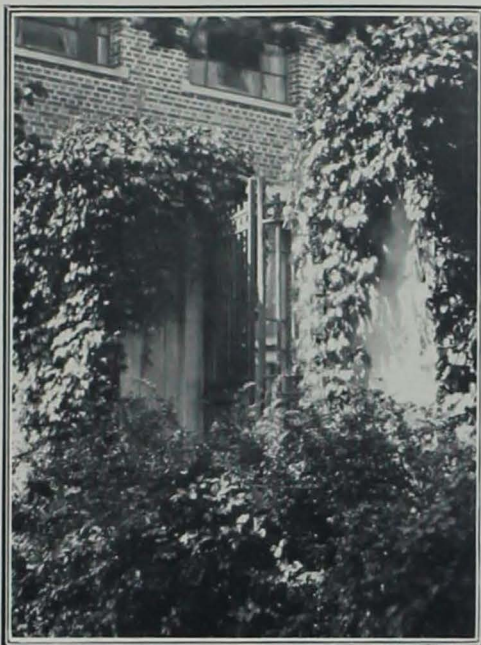

In the early history of I. S. C., there were many more students in Industrial Science than in other lines of work, the majority of alumni graduating before 1900 having been students in science. For several years following 1900 the proportion of students in Industrial Science decreased, but recently it has again increased rapidly.

The rapid increase in enrollment in the Industrial Science Department has necessitated a reorganization of the undergraduate students in the division. All students and faculty are members of the Industrial Science Club, and a council is entrusted with the executive duties of the organization. This council is composed of the officers of the club, two representatives from each class, and three faculty advisors. The society as a whole meets once a quarter, while the council convenes as often as the affairs of the division demand it.

The first Friday of the Fall Quarter the Industrial Science Division holds its annual Barbeque, which serves to introduce the freshmen to the faculty and old students. This Barbeque also has an important influence in stimulating divisional loyalty and enthusiasm.

The Winter Quarter is enlivened by the Winter Frolic, at which time the division entertains the whole student body of the college at a party given in Administration Building.

No distinct divisional activity is carried on during Spring Quarter; all the energy of the division is turned to the preparation of Veishea floats and open houses.

College of Veterinary Medicine

DEAN C. STANGE

The Department of Veterinary Medicine was established at Iowa State College in 1879 by Dr. Millikan Stalker, who was dean of the division at that time. The course was very limited, as competent instructors were not available. Dr. Stalker finally succeeded in perfecting a plan by which a graduate course could be had which gave a degree and diploma.

On Nov. 12, 1879, \$4,000 was appropriated for the building of a veterinary hospital. The first class graduated in 1880. The next twenty years brought steady improvement in the science. Dr. J. H. McNeil, now state veterinarian at Trenton, N. J., succeeded Dr. Stalker as dean of the division. Dr. C. H. Stange followed Dr. McNeil in 1908 and is a willing worker in all of our student affairs. The Division of Veterinary Medicine, originally one department, is now divided into six departments: Anatomy, Pathology, Physiology, Surgery, Medicine and Veterinary Investigation.

In 1884 the Veterinary Medical Society was first established. The membership is composed of all students enrolled in the division. Meetings are held in the auditorium of the Veterinary Building twice each month and are presided over by the president, elected from the senior class. Other officers are elected at the same time. Various committees are appointed to consider matters of special importance. Outstanding events of the year are: the freshman mixer during the fall quarter, the annual banquet or dance during the winter quarter and the faculty picnic held during the spring quarter. Faculty members aid in planning or suggesting interesting programs for meetings, but the meetings are always conducted by and for the benefit of the student members.

The equal recognition of the two-year courses in agriculture and trades and industries established last year has continued and developed this year. Each department has its own societies, but on occasions involving the interest of the whole class a strong spirit of class unity and cooperation is shown. The mixer put on by the class, Oct. 30, 1925, was backed by an attendance of nearly 100 percent.

The members of the class appreciate the specialized work offered them, for it enables them to fit themselves for responsible positions in their chosen vocations with the least possible loss of time.

The class as a whole appreciates the recognition tendered them by the collegiate departments and we are all working for a bigger, stronger and more closely united Iowa State College in the future.

Ours, the Class of 1926, has been one of achievements. The weal or woe of our class has gone hand in hand with the fortunes of Iowa State because we have been linked so closely to her by the stress of our activities.

We have returned here each year because we, of 1926, are inseparable from Iowa State. She is a part of our being. She has done much for us and what little we could give in return we gladly did. One of our tasks this year is to produce this book—THE BOMB. We have united to make it a banner edition, one that can record and denote the greatness of our school and the accomplishments of our class. Through our efforts and our predecessors, THE BOMB has become one of the seven best year books in the United States.

Our class, by producing business and professional men—engineers and agriculturists, teachers and home makers—will turn back and give homage to Iowa State. Our Alma Mater: Shall it always stand for the highest in education, manhood and womanhood, and may we go forth from her protecting mantle bigger and better for our associations here.

The 21st of September was a hot day. Students were pouring onto the Iowa State campus eager to pursue knowledge and to satisfy their hunger for education. A loiterer who was standing by the wayside saw a vast throng approaching, heralded by a cloud of dust, heard their footsteps upon the hot, dusty earth and watched them stream past, looking neither to right nor to left, their eyes apparently fixed upon an unseen goal ahead. After they had disappeared, a solitary man, panting from his exertions, came toiling after them, his brow knit with anxious cares.

The loiterer invited him to rest beside him in the shade, but the man only shook his head and pointed to the cloud of dust on the horizon and answered, "They are the Junior Class of Iowa State pressing on to reach a goal that they have striven for all through their Freshman and Sophomore years. They are hurrying in their course that they may attain great things and, upon graduation, be able to render intelligent and valuable service to their community, state and country."

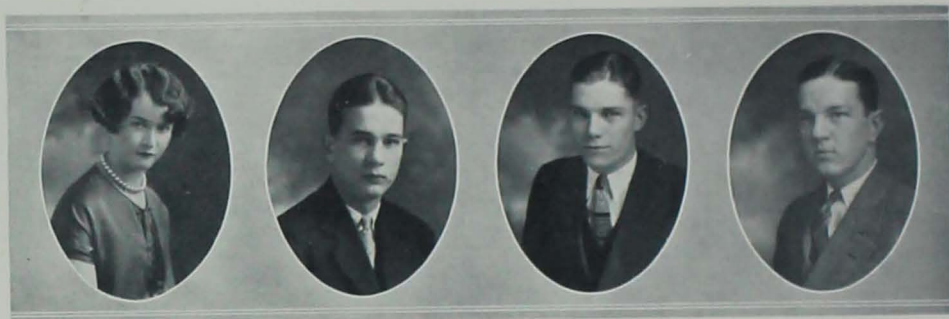

The loiterer said, "Let them hasten in their folly; what have they to do with you?"

The stranger, pressing on, called back, "I am their leader!"

The Sophomore Class feels justly proud of the high ideals and the spirit of democracy which has marked its two years at Iowa State. The class is fortunate in having, as members, people who have distinguished themselves as leaders in all forms of activity.

Regardless of what activity, the Class of '28 is always well represented. The class is united with a common bond of fellowship that will not be destroyed as it passes on into the years that lie before it.

C. Fitzsimmons, W. Weiss, C. Merhart, E. Brooks.

The Class of 1929

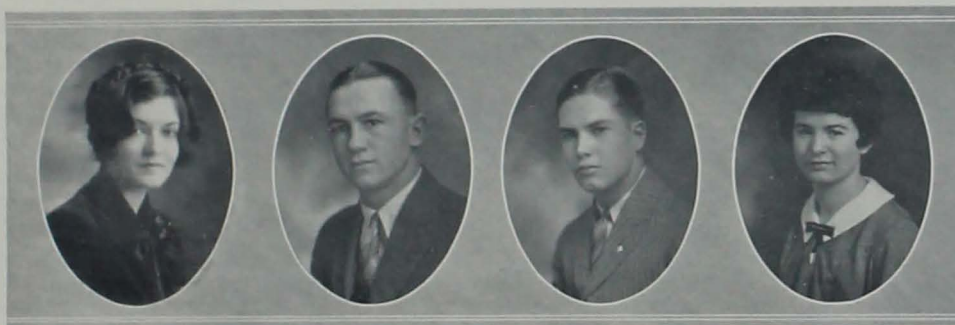

E. Wood, L. Lichty, D. McLeod, R. Hartman.

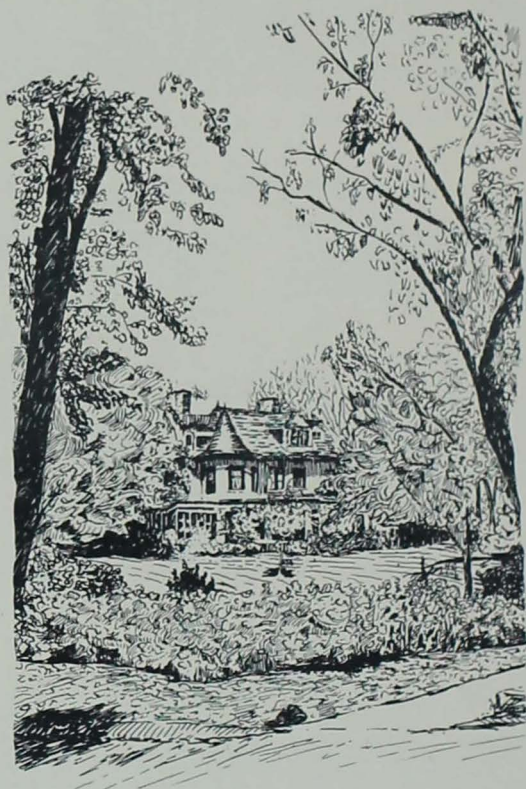

CLASS OFFICERS

<i>Spring Quarter</i>		<i>Fall Quarter</i>

ROBERT HARTMAN	 <i>Treasurer</i>	JULIA BOURNE	 <i>Treasurer</i>

The Class of '29 started out on its right foot when it defeated the Sophomores in the annual Prep-Soph pushball contest. This gave us confidence, and started the molding of our future ideas. We have developed the spirit of I. S. C. by backing all athletic events, social activities and affairs which will make us remember our first year spent in Ames. This year a law was passed that all Freshmen girls should wear prep caps; although it was not carried out as successfully as we had desired, we hope that next year every Freshman girl will respond to this ruling more seriously. We know that I. S. C., located on the banks of the Squaw Creek, is our school, so we have carried out in a bigger and better way the good examples set by other classes.

J. Allen, D. Brown, D. Pray, J. Bourne.

ATHLETICS

If by gaining knowledge we destroy
our health, we labor for a thing that
will be useless in our hands. he that
sinks his vessel by overloading, al-
though it be with gold and silver and
precious stones, will give his country
but an ill account of his voyage.

BACON

ATHLETICS

"If by gaining knowledge we destroy our health, we labor for a thing that will be useless in our hands; he that sinks his vessel by overloading it, though it be with gold and silver and precious stones, will give its owner but an ill account of his voyage."

—BACON

Athletics

Iowa State has just finished a successful year in the way of athletics. Probably the greatest thing to happen was the completion of another wing of the stadium. The addition is identical to the old one, being capable of seating 9,100 persons. It was formally dedicated during the Kansas football game.

Many freshmen were awarded numerals, and indications point to even better teams in the future. Numerals were awarded to track, cross-country, boxing, wrestling, swimming, football, baseball and basketball men. It was something new in several of the sports.

Many new coaches were added to the staff during the year. Noel Workman was appointed head football coach to succeed Sam Willaman, who resigned to take a position at Ohio State. Robert Simpson, head track coach at the University of Missouri for the past few years, will assume his duties as head track coach at Iowa State next fall. Harry Schmidt, former Cyclone athlete, has been secured to fill the position left vacant by the death of Frank Willaman. He will handle intramural athletics and assist Workman with the football squad. With these new coaches and the ones who were retained, we can expect another good year in athletics next year.

DIRECTOR T. N. METCALF

Top row: Firkins, McPhee, Chambers, Peckinpugh, Beanblossom, Ross.
Bottom row: Daubert, Chandler, Otopolik, Metcalf, Willaman, Houser, Wheeler.

Athletics

Following are some of the feature events that took place during the year:

1. The football team went through the season losing but two Valley games.
2. Iowa State's two-mile medley relay team broke the existing record in this event at the Illinois Relays. Suit, Conger, Caulum and Crawford made up the personnel of the team. The two-mile relay team, composed of Meeker, Burnison, Crawford and Conger, broke the record at the Kansas Relays.
3. The Cyclone wrestlers again showed their superiority over other teams by winning all but one dual meet and placing second in the Missouri Valley meet. Of the several men entered in the midwestern A. A. U. meet at Iowa City, three Cyclones ranked high. Boyvey won the championship in the 125 pound class, and Campbell did likewise in the 145 pound class. Prunty, who was wrestling out of his usual weight in the 175 pound class, lost out in the finals to Voltmer of Iowa. Prunty and Boyvey, who have completed their three years of varsity wrestling, have never been defeated in their own weights in a dual meet. Through donations by students, faculty and business men, these two wrestlers were sent to the national A. A. U. meet at Corvallis, Oregon. It is hoped that the national A. A. U. may be held at Ames next year. Among their many victories the Cyclone grapplers won from the Navy team, who had not been defeated in nine years, and the strong West Virginia team.

Boyney won the National Championship in the A. A. U. 125-pound class, and Prunty was runner-up in National A. A. U. 160-pound class.

Varsity Football

Coach Sam Willaman had eleven lettermen from previous years as a nucleus to build his football team around. Captain Johnny Behm, along with his brother, N. Behm, C. Hill and Bob Fisher, were all on hand to make bids for the backfield positions. The most promising Sophomores who reported for backfield duty were L. Cory and Vernon Hall, who had shown up very well on the Freshman team.

Two veteran ends were available in the persons of "Petey" Bond and "Bud" Coe. Both had considerable experience on varsity teams. The other promising linemen were "Fat" Thornburg, Mayer, Thomas, Galbraith, Rasmess, Grimes and Kingery. The latter two were graduated from the Freshman ranks. Cleo Watts, a letterman of two years previous, reported for the first practice and was counted on to get into a few of the following games of the season.

With such a group of players gathered together, prospects of a winning team were very bright. An eight-game schedule had been arranged, including the opening game with an Iowa Conference team and another game with a Big Ten entry.

COACH S. WILLAMAN

A. THORBERG

AMES-SIMPSON GAME

The opening game of the season was with Simpson College on the home field.

Ames won the game easily, in spite of a very muddy field, with the final score of 28 to 0. Simpson was not able to stop the attack of the Cyclones. N. Behm got away for several of his long runs around the ends, while Cory proved himself a capable fullback by smashing through the line for gains almost at will. Coach Willaman was able to make frequent substitutions in this game in order to give all the men a chance to see what they could do. These substitutions did not weaken the team to any great extent, so a successful season seemed to be ahead for the Cyclones.

The Simpson team was coached by Noel Workman, who at the time that this book went to press, had become head coach of football at Iowa State. He brought a team of experienced players who had put Simpson at the lead of their conference for the two previous years.

F. MAYER

N. THOMAS

R. FISHER

AMES-WISCONSIN GAME

The following week the Cyclones departed for Madison to take on the Badgers. The outcome of this game was not so satisfactory to Iowa State followers, as Wisconsin came out on top with a 30-to-0 score. The score does not truly indicate the game. The light Cyclone team held Wisconsin on even terms for the first half of the game, but weakened in the latter part of the game, when the Badgers went on a scoring rampage.

The Cyclones used a deceiving aerial attack to gain most of the ground, but it was finally solved by the Badgers. The two Behm brothers handled most of the passing, while Coe, Kingery and Thornburg played good games on the line.

R. GALBRAITH

STADIUM DEDICATION GAME

After all the ceremonies were completed in the dedication of the new east section of the stadium, the football team celebrated still further by trouncing Kansas University by the score of 20 to 0. The Cyclones were superior to the Jayhawkers in all fundamentals of the game. They used a varying attack of line plunging, wide end runs and passing that kept the Kansas team bewildered throughout the entire game. The only way the Jayhawkers could gain ground was by the air route, but even this method was not satisfactory, for they were held to a single first down during the whole game.

Captain Behm, Cory and Hall were the shining lights in the Cyclone offense, for they gained ground consistently by one way or another. The line as a whole played a strong defensive game, as can be seen by the number of first downs made by the Jayhawkers.

C. HILL

E. KINGERY

AMES-WASHINGTON GAME

The schedule called for a week's rest, after which time the Pikers were scheduled to play on the Iowa State field. This game turned out to be one of the most exciting games of the year. The teams played on fairly even terms for the first three quarters, the 13-to-7 score giving Washington a slight advantage.

Things looked very gloomy around the Cyclone camp at the beginning of the fourth quarter. However, soon after the final period opened, the Cyclones put on a burst of speed and fight and scored three touchdowns in quick order. Cory was responsible for the first one by smashing over the line after N. Behm had intercepted a pass and carried it to the 1-yard line.

The next two counters came as a result of a series of forward passes. Bond caught a long pass from N. Behm and raced over the line, and Captain Behm was on the receiving end of another pass that resulted in the third touchdown. Cory was again the backfield star of the game.

V. HALL

L. CORY

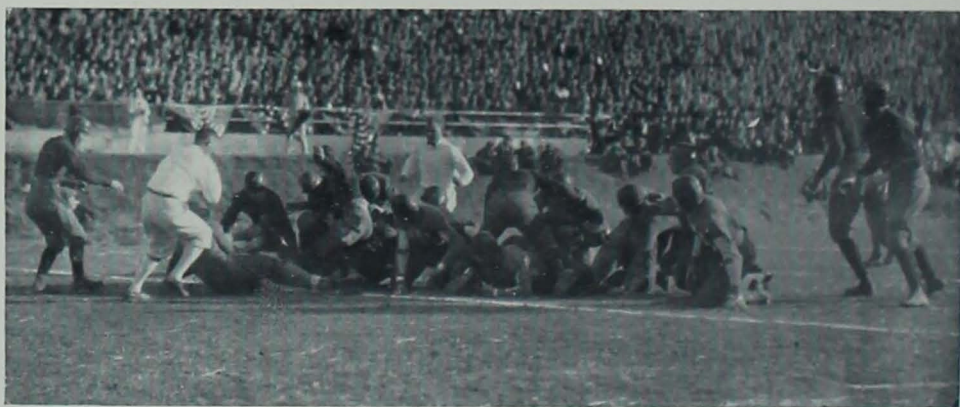

L. GRIMES

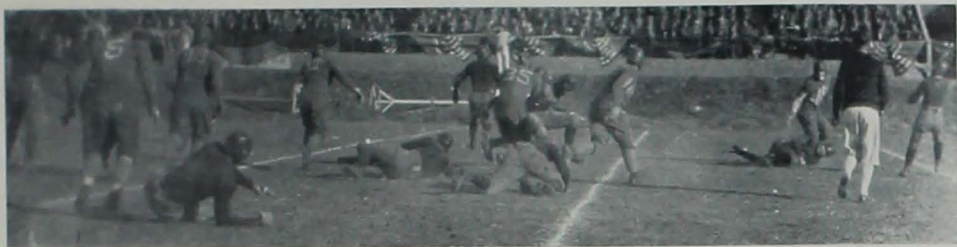

AMES-MISSOURI GAME

Iowa State suffered its first defeat in the Valley at the hands of Missouri. When the final whistle blew the score was 23 to 8. The Tigers scored first in the first quarter, when a long pass netted them a touchdown. Cory tore through the line in the second quarter to knot the count at 6 all. The score remained the same until the fourth quarter, when Missouri gained new life and started an offense that netted them 17 points, while the best the Cyclones could do was to add 2 points, for a safety, to their score.

E. J. ANDERSON

AMES-GRINNELL GAME

The Pioneers journeyed to State Field for the annual Ames-Grinnell encounter. According to the usual dope that precedes every game, Iowa State was ruled a favorite to win the game. But there is always some upset to the dope put out, and this was the case for this game.

Ames started out in the first quarter according to the dope and hung up a 9 to 0 lead. This was very encouraging to Cyclone followers, but that ended the Cyclone scoring for that day. There were no more scores made until the third quarter, when Grinnell blocked Coe's punt and recovered the ball back of the goal line for a touchdown. Their try for extra point was good, and put the score 9 to 7. In the fourth quarter the Cyclones had possession of the ball in the shadow of their own goal post, and, rather than take a chance of fumbling the ball and letting Grinnell recover for a touchdown and probably win the game, Captain Behm called for the ball and touched it to the ground for a safety and thereby causing a tie game.

R. RASMUSS

W. WEISS

AMES-DRAKE GAME

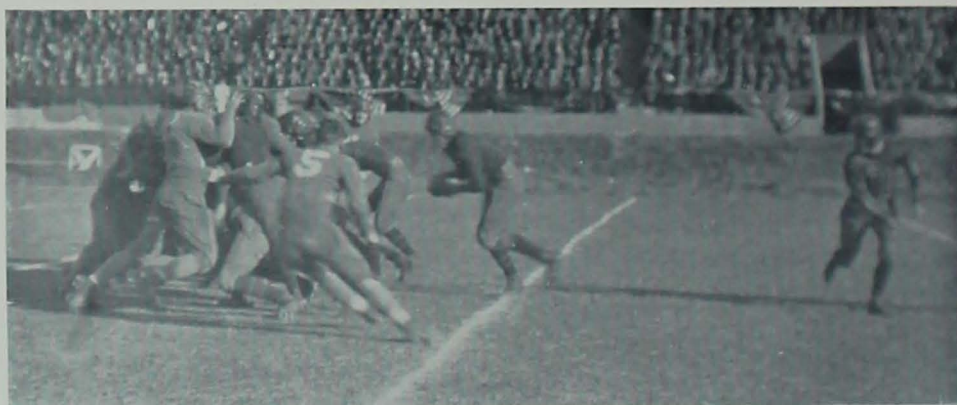

The two teams met in the Drake stadium and played on even terms all through the game. No points were made by either team until the last quarter. The Cyclones had advanced the ball to within scoring distance of the goal the last few minutes of the third quarter. On the first play in the final period, Cory took the ball over for a touchdown. Captain Behm made the extra point from placement, which was the margin of victory. The Bulldogs tried desperately to even the count by opening up with passes and succeeded in making some good gains. Captain Behm was not going to take any chances on letting Drake take the offensive, so he intentionally made three safeties in succession, which gave Drake 6 points and consumed the remaining time of the game, the final score being 7 to 6, thereby giving the Cyclones one more victory over the Bulldogs.

E. HILL

H. MYERS

AMES-KANSAS AGGIES GAME

The Kansas Aggies were the Cyclones' opponents for the Thanksgiving Day game. They hung up a surprise victory by the score of 12 to 7. The defeat might be attributed to the fact that the Cyclones had had a hard game with Drake only a few days previous, while the Aggies had an open date the week before. No doubt if the Iowa State gridders had played the brand of ball that they played against Drake, they would have easily defeated the Aggies.

Iowa State held a 7 to 6 lead until the final minutes of play. They were fighting desperately to block a place-kick by Ens, which, if completed, would win the game. They blocked the kick, but their efforts were all in vain, for another Aggie scooped the ball up and ran behind good interference for a touchdown.

Ames scored early in the first quarter when N. Behm grabbed a twenty-yard pass and ran thirty-five yards farther for a touchdown.

As this game was the last of the season, several men ended their football careers at Iowa State.

The following are the men who will be missed from next year's team: Captain J. Behm, N. Behm, C. Hill, Mayer, Thornburg, Bond and Rasmess.

J. GRAHAM

Freshman Football

F. WILLAMAN

One of the best Freshman football teams in the history of the school was developed by the late Frank R. Willaman. There were eight men on the squad who had been placed on mythical all-state high school teams in their respective states. With these men as a nucleus and many other good men, Coach Willaman was able to put a team on the field that gave the varsity good competition.

Allen Holman, all-state backfield man from Fairfield, Iowa, acted as captain for the Preps and proved a versatile leader. He was one of the best backs ever seen in action here for some time. He should make a strong bid for a varsity berth next year.

Other men who showed up well in the backfield were Hahn, Hill, Wilson, Kulp and Seeds. Hahn was handicapped the greater part of the year with an injury which kept him out of practice.

A very strong line was developed by Coach Willaman. Casey and Lamson were making strong bids for the pivot job. Both were considered too good to be left out of the lineup, so Casey was later shifted to a tackle position. Many men saw service in the other line berths, but Coomer, Roe, Toom, Homrig, Junker and Johnson showed up the best. With these men and varsity men available, prospects are bright for a good football season next year.

C. MADSEN	S. BROWN

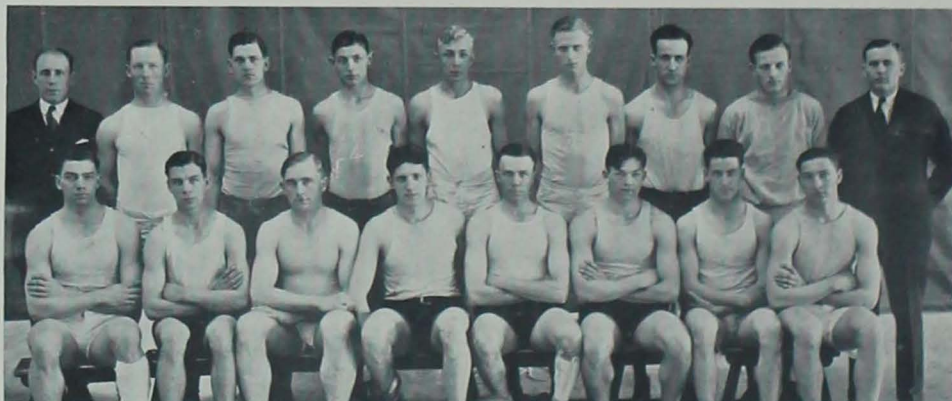

When the initial call was made for Freshman basket ball candidates, one of the largest squads in the history of the school reported for drill. From a wealth of material for every position, Coach Wheeler developed a squad of basketekers that scrimmaged the varsity on even terms.

The Freshman team was drilled varsity tactics, the short pass and pivot game, an outstanding feature of the Cyclone quintet in all of its games. Large, rangy, and fast players described this year's prep eagers, and they were well adapted to the regular's short-pass system.

Outstanding men on the squad were Ludwig, Holman, Nieman, Wilson, forwards; Wagner, Coomer, center; C. Madsen, Taylor, S. Brown, Lawson, guards. The best scoring combination consisted of Ludwig, Nieman, forwards; Wagner, center; Holman, C. Madsen, guards.

Wagner's height enabled him to secure the tip-off at will, and, undoubtedly, the rangy pivot man will help to solve the center problem on next year's varsity team. Ludwig and Nieman at the forward positions formed a combination that was hard to break up. Both men displayed a keen basket eye and a drive that varsity guards found difficult in stopping. Madsen and Holman at the guard berths played a strong defensive game and limited their opponents, more or less, to mid-floor shots.

With the excellent brand of basket ball displayed by the preps this season, next year's varsity squad will have plenty of available material for every position.

Standing: Coach Wheeler, Hill, Lamson, Rohwer, Schroeder, Shesly, Weekly, Goodrich, Hetzel (Manager).
Sitting: Coomer, S. Brown, C. Madsen, Wagner, Nieman, Holman, Taylor, Rudi.

Varsity Baseball

Coch Chandler started the baseball season with prospects for another championship team. With Captain Jacobsen, Fisher, Charles Towne and Carmen Towne, all lettermen, back for infield positions, and several men from the freshman squad, the infield worries were cast aside.

The biggest task was to find battery material for no lettermen were available. Wright, Lamp and Lougee were on the squad of a year before but did not have the chance to work. These three men, together with Berray and McCracken, were chosen to do most of the mound work.

Three catchers were on hand. Boller and Greenlee with very little varsity experience, and Murphy from the freshman team, were carried throughout the season.

To get a good hard-hitting outfield was another job. The only veteran to report was Riemenschneider. The new men trying for outfield berths were Tanner, Jacobsen, Nave, Konecky and Raff, a letterman of two years previous.

The schedule called for three nonconference and twelve valley games. In the opening game, Berray was on the mound and Greenlee did the receiving. Captain Jacobsen was at first, Charles Towne at second, Bob Fisher at short, and Ed Hill at third. Tanner Jacobsen was in left field, McCracken in center, and Raff in right. It was found that McCracken could play the outfield as well as pitch, and being a good hitter he alternated between the two positions.

This lineup was the one used throughout the season with only a few changes. Boller replaced Greenlee behind the bat while Nave replaced McCracken in the outfield when the latter was in the box. Konecky saw duty both at the keystone sack and center field in a number of games.

The Cyclones won two of the pre-season games and only three conference games. Most of the games were placed in the winning column in the early part of the season, but then losing three games to Washington and two more to Nebraska.

Ames finished sixth in the Missouri Valley, winning three games and losing six. Berray won all the valley games and two of the pre-season tilts. He ranked sixth in the valley in pitching and fifth in strikeouts.

McCracken led the Cyclones in batting with a .345 percentage, with Captain Jacobsen next with .314.

UNIVERSITY OF COMMERCE-AMES

In the first game of the season, the Cyclones were victorious over the University of Commerce team of Des Moines by the score of 4 to 3. Berray, who did the twirling, allowed but six hits and showed signs of developing into a winning pitcher. Greenlee did the receiving, and although weak with the bat, he caught a good game. O. Jacobsen played his usual good game at first and got a two-base hit in the fourth inning.

I. S. T.-AMES

Iowa State Teachers traveled to Ames for two games with the Cyclone nine. Ames suffered its first defeat in the opening game. McCracken made

W. CHANDLER

his initial appearance in the box, and although he pitched good ball, he was bested a little by Wilson, who worked on the mound for the Teachers.

Several new names were in the lineup for this game. Boller did the catching in place of Greenlee, and Konecky took McCracken's place in the outfield.

The second game proved to be a decisive victory for the Cyclones. Berray pitched a masterful game, letting the Teachers get but two hits, one being a home run by Rider. Coach Chandler tried Murphy behind the bat in this game. He also showed the same weakness that the other two backstops possessed, namely, the inability to hit safely.

KANSAS UNIVERSITY-AMES

In the first conference game of the season Iowa State took on the Jayhawker nine on the home field. Berray toiled on the mound for the Cyclones and held his opponents in check the entire game. He allowed but five hits and retired 13 men by the strikeout method. At no time during the game was he in serious trouble. He was given a three-run lead in the first inning by his mates. Captain Jacobsen and McCracken carried off the hitting honors for the day, the former getting two hits, one of which was a homer with one man on base, while McCracken collected three singles. The second scheduled game was called off because of rain.

NEBRASKA-AMES

The Cyclones made their first road trip to Nebraska to play a two-game series with the Cornhuskers. With Berray in excellent form, the Cyclones emerged in the end with a 5 to 3 score. It was a fifteen-inning affair, with both Berray and Rhodes going the entire route. Berray fanned eleven men, while Rhodes succeeded in making twenty batters fan the air. The game was clinched in the fifteenth inning by scoring two runs. Boller was safe on an error and advanced to second on an infield out. Hill was also safe on an error, which allowed Boller to score. Hill stole second and advanced to third on a wild pitch and scored immediately afterwards on a second wild one by "Lefty" Rhodes.

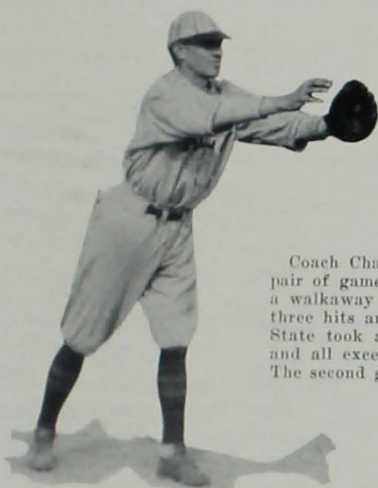

T. JACOBSEN

H. MCCrackEN

The second game turned out to be another battle, but this time Ames was the loser by a 1 to 0 score. The Huskers made their only score in the first inning and from then on were set down in order by Wright. He only allowed two hits and struck out five men. The Cyclones' best chance to score was in the third inning, when McCracken, the first man up, cracked out a double. But Lange settled down and struck out the next three men in order. Iowa State threatened to score in the sixth and eighth innings, but Lange was invincible in the pinches.

C. TOWNE

MISSOURI-AMES

Coach Chandler took his men to Missouri for a pair of games with the Tigers. The first game was a walkaway for the Cyclones. Berray allowed but three hits and never had to extend himself. Iowa State took a liking to Waters' style of pitching, and all except one man collected at least one hit. The second game was called off on account of rain.

R. FISHER (Captain Elect)

WASHINGTON-AMES

The next four scheduled games were with Washington, two being played at St. Louis and two on the home diamond. This series was disastrous to Ames' championship hopes. The pitching showed signs of weakening at this stage of the season, and the result was that Washington was able to win three games. The fourth game was never played, because of rain.

The first game lasted eleven innings and was a pitching duel between Wright and Levy. Wright was taken out in the ninth inning in favor of a pinch hitter, and Berray finished the game. Three errors, coupled with a stolen base, were responsible for the winning run in the eleventh. The final score was 4 to 3.

The score of the second game was 5 to 1. Berray, who had pitched part of the game the previous day, started the game, but was taken out in the fourth after the Pikers had scored four runs. Wright was sent in to finish the game and, although he allowed but one more hit, his mates were not able to overcome the lead. McCracken did the best hitting, getting two hits, one being for an extra base.

After a day's rest the Cyclones again played Washington, but this time on the home field. Coach Chandler assigned "Red" Lamp to mound duty for this game. The Pikers found his pitching to their liking, and he was relieved in the fifth by McCracken, who finished the game in good fashion. The feature of the game was the heavy hitting of both teams. There were five doubles, four triples and two home runs listed in the box score.

A. BOLLER

E. HILL

NEBRASKA-AMES

The last two games of the season were with Nebraska at Ames. In the first game Nebraska won easily, 14 to 2, by clouting the ball to all corners of the field. Coach Chandler sent in three pitchers in an effort to stop the Cornhuskers, but they were not to be stopped. The Cyclones were off to a good start by scoring two runs in the first inning. McCracken was walked and scored on a double by Captain Jacobsen. T. Jacobsen's long single scored his brother from second. Dormier, pitching for the visitors, held the locals in check the remainder of the game.

The final game was another defeat for Chandler's men although they outthit their opponents. McCracken allowed but four hits, but they were coupled with errors and came at critical moments. The Cyclones were able to collect six hits from B. Lange, the Huskers' star hurler. Iowa State threatened to score in the third by filling the bases with no outs, but no scores were able to be obtained.

COACH CHAMBERS

FRESHMAN NUMERAL AWARDS

I. POWELL	E. KREKOW	R. WOOD
G. DORR	H. COLE	D. GOVIER
V. HALL	K. L. SMITH	M. HELD
M. WARD	V. YOUNG	P. DALE
L. BATTEY	J. LOUK	J. THORNGREN

Coach Mike Chambers' first call for freshman baseball men brought forth a large number of candidates which was cut down from time to time in order to give the best men the attention deserved. A squad of about thirty men were kept to make up the squad and furnish opposition to the varsity now and then.

Coach Chambers found that he had three good pitchers on hand, including one left-hander. They were Powell, Dale and Dorr, the latter being the "southpaw." All of these men were given chances to show their stuff in practice tilts with the varsity, showing that they were varsity possibilities.

The catchers available were led by Hall and Ward, the former being one of the starts on the prep football squad. Ward started the season at first, but was later tried behind the bat, and proved his capability as a backstop, remaining in this position for the rest of the season.

Several men were making bids for the first baseman's job. The most promising men were Battey, Wood and Krekow. All of these men saw considerable service there. Battey was probably used the most, for he was a left-hander and would be desirable for that position.

The other infield positions were held down most of the time by the same three men. With Smith at short and Thorngren at second, the preps had a good double play combination. Both were excellent fielders and kept the team pepped up at all times.

Cole usually played at third base and caught everything coming his way. He was a tall, rangy player with a very good peg to first.

Young, Govier and Louk were the preps' defense in the outfield. They were able to fill their positions both in the field and at bat.

With such a team lined up, they were able to make an interesting game for the varsity athletes. Many times they played on even terms. It is expected that most of these men will make quite a bid for varsity berths next year.

KANSAS RELAYS

Iowa State opened the outdoor track season by sending a two-mile relay team to the Kansas Relays and engaging in a dual meet with Simpson College on the same day. The Cyclones came out victorious in both events.

The relay team, composed of Crawford, Burnison, Meeker and Conger, ran the two-mile course in exceptionally fast time, lowering the meet record by almost eight seconds. Conger, the Cyclone anchor man, ran his half in fast time and was responsible for lowering the record considerably.

At Simpson, the Iowa State cinder artists won easily by a 88 to 44 score by clinching eight first places and winning many second and thirds. Simpson gathered most of its points by scoring on six first places and only a few seconds and thirds.

This dual meet was a dedication for Simpson's new track. Because of its newness the track was soft and slow, and, incidentally, no records were broken or tied.

GRINNELL-AMES MEET

Grinnell and Iowa State engaged in a dual meet in which the Pioneers won by a narrow margin of ten points. Ames scored heavier in the meet than they were doped to. As usual, the Cyclones scored heavily in the distance runs, while the Pioneers gathered their points in the dashes and hurdles. Both teams placed about even in the field events.

The feature of the day was the 440-yard run, when both Suit and Greenlee of Iowa State nosed out Kitchen, the Grinnell star, in his favorite race. The Cyclones captured all the points in both the mile and half mile runs, and placed at least one man in each of the other events.

STATE COLLEGE MEET AT GRINNELL

The best the Cyclone cinder artists could do at the state meet was to take third place with 26 points, 21 points behind Grinnell, who was in turn headed by the strong Iowa team that garnered 74½ points to win the meet for the sixth successive time.

Conger again led the field in the mile run, closely followed by his teammate, Bonnell. Crawford won the 880-yard run, while Meeker, another Cyclone, finished fourth in the same event. Captain Owens pole vaulted second to Dalby of Drake, who broke the existing record of 11 feet 10½ inches by two inches.

Iowa State men placed in the two-mile relay, mile relay, mile run, 440-yard dash, 880-yard run, pole vault and high jump.

R. PAYTON

MISSOURI VALLEY MEET

Iowa State placed in the mile relay also. This Valley meet held at Norman, Oklahoma, just one-half a point behind the Jayhawkers.

Ames' first counters came when Crawford finished second in the 880-yard run. The next event in which the Cyclones placed was the mile, when Conger and Bonnell placed first and fourth respectively. The distance was covered in the good time of 4:30 5-10, although Conger was never required to run his hardest.

Iowa State ranked sixth in the annual Missouri event was run in two heats and the winner decided according to the time. The Cyclone runners won their heat in the fastest time. They were clocked in 3:26 7-10 as against the 3:29 3-10 of the second heat, won by Nebraska.

Many records were equalled and some were broken, but none were allowed to stand because of the strong wind which was at the backs of the runners.

DRAKE RELAYS

Iowa State was pinning its hopes of winning further glory on the cinder track at the Drake relays on the quartet of runners who had done so

well at the Kansas Relays. Bonnell was used as second man in place of Burnison. The other three men who ran were Meeker, Crawford and Conger. They were entered in the two-mile university relay and were the favorites to win this event. However, Michigan placed a classy group of runners in this event and gave the Cyclones something to worry about.

This race was one of the prettiest races ever run at the relays. The first three men from each institution ran almost on even terms. The two anchor men, Conger and Reinke of Iowa State and Michigan respectively, were given the baton, neither having an advantage of a lead. They ran side by side for the first half of the course. Conger, upon whom the Iowa State fans placed their last hopes of victory, tried his best to obtain a lead, but the Michigan star gained inch by inch, until he broke the tape, at which time he was leading by only two strides.

Michigan was forced to break the old Drake record of 7:52 2-10 in order to win the event. The new record made was 7:51 4-10. The last part of the race run by the anchor men was by far the fastest. Reinke was clocked in 1:54 3-10, while Conger, who was only two strides behind, made approximately the same time, which is very fast for the half mile.

Freshman Track and Cross-Country

W. BEANBLOSSOM

The following 26 men were awarded freshman track numerals for their good work on the outdoor track team: H. Mann, J. Darnall, S. C. Hamilton, W. P. Manatt, Dale Tooker, V. Thompson, K. Greenlee, H. F. Marshall, Q. Thornberg, V. Martin, L. S. Townsend, J. B. Ringer, H. P. Sargisson, E. Kingery, G. Voss, C. Kyner, L. P. Scholtes, L. F. Meeter, J. F. Wood and G. F. Griswold.

Coach Beanblossom was in charge of a very likely looking group of freshmen for the outdoor track team. He had a large number of men trying out for every event. However, his most promising men were in the dashes, hurdles and short distance runs.

Mann and Darnall were the outstanding men in the dashes. Of these two the former was a little the fastest, running the 100-yard dash in less than 10 seconds several times during the season.

Marshall, Thornberg and Martin were the three best bets in the half-mile and mile runs. Thornberg was probably the best man in the half-mile, but Marshall and Martin gave him some good competition and besides led the freshman in the mile.

Sargisson and Griswold were the yearlings' best high jumpers. Both were capable of jumping in the neighborhood of 6 feet.

Scholtes and Hamilton led in the broad jump, both making jumps of around 20 feet, and with a little experience they should develop a greater distance.

Kingery and Voss were the bright lights for the preps in the field events. Both men handled the shot, discus and javelin in good fashion. Hamilton led in the pole vault.

Coach Beanblossom also developed some good cross-country men who ought to make good in varsity competition next year. Bishop, Brown and Hoak showed exceptional quality as long distance runners. H. Seaton, a brother to the former Cyclone athlete, also came through in fine style.

Top row: O'Harrow, Smith, Touner, Martin, McDonald, Hoak, Kulp, Bangs, Beanblossom.
Front row: Wood, Seaton, Schomerhorn, Swigert, H. Brown, Bishop, Hoyt, Christenson, Fritzel, Cisler.

CAPTAIN WOODHULL

Prospects for a winning wrestling team were very bright when Coach Otopalik issued the first call for candidates. Five lettermen were available, including Captain Woodhull and two ex-captains, Harold Boyvey and Ralph Prunty. Schmidt and Lawrence were back to fill their respective classes. This left but two vacancies in the squad to fill with new men. Much material was on hand for the remaining weights, the 115 and heavyweight.

It was found from the early practices that the man who filled the 115 pound class would be picked from the following three men: Chamberlain, Myers and Higgins. These three men were matched fairly even and no one was sure who would enter the ring for the opening meet.

Kingery, who played on the Cyclone football team, was probably the outstanding man for the heavyweight berth, although if Ole Anderson, a letterman of previous years, had been eligible, Kingery would probably have had to share the honors.

Quite a heavy schedule was arranged for the matmen. Besides the regular Missouri Valley foes, meets were scheduled with Simpson, Cornell, Des Moines University, the Navy at Annapolis and West Virginia at Morgantown. The Valley foes to be met were Oklahoma University, Kansas University, Oklahoma A. & M., Nebraska, and winding up the season by competing in the Missouri Valley meet at Stillwater, Oklahoma.

First row: Chambers, Wolf, Prunty, Kingery, Anderson, Lawrence, Woodhull, Otopalik, Parkhurst.
 Second row: Myers, Sigwalt, Lane, Johnson, King, Schmidt, Smith, Beach.
 Third row: Kurtz, Boyvey.

IOWA STATE VS. DES MOINES UNIVERSITY

Iowa State successfully opened the wrestling season by drubbing the Des Moines University grapplers with the score of 44 to 0. As this was more or less a practice tilt, there were three extra bouts on the program by agreement between the two coaches. The Cyclones won six of the bouts by falls and the remainder by decisions based on time advantages.

Coach Otopalik tried out all men, both new and old. Boyvey was the first man to enter the ring in the 115-pound class. It took him only 43 seconds to toss his man. McInnes, who was the loser in this bout, was defeated once more, but this time at the hands of Myers, who threw him in 2:07.

Johnson was Coach Otopalik's choice to grapple in the 125-pound class. He was able to down Vickery easily in 3:03.

There were two bouts in the 135-pound class. The veteran Schmidt was only able to gain a decision over Stubbs, while Beach, the other Cyclone entry, downed Schneider in 4:42.

The 145-pound class was also a double affair. Captain Woodhull threw McLaughlin in 7:56, and Smith won on a decision after a time advantage of 4:51.

Prunty obtained more practice in his bout than any other man. He tried several methods to throw Parkman, but did not succeed until he applied his favorite head scissors and arm lock after wrestling 7 minutes and 47 seconds.

Lawrence did not waste any time on Roth, pinning him with a half nelson and body hold in 1:56.

It was Kingery's job to take on the Tiger coach, Jorgenson. He got behind at the start and stayed there to gain a time advantage of 7:26.

IOWA STATE VS. SIMPSON

The Cyclones continued their winning streak by decisively defeating the matmen from Simpson 20 to 7. Simpson was only able to win one bout, but earned draws in two others.

Summary:

- 115—Myers (A) got a draw after two overtime periods.
- 125—Boyvey threw Hansell, 1:52.
- 135—Bingham defeated Schmidt in the overtime period.
- 145—Smith and Rider drew after two overtime periods.
- 158—Prunty threw Hoggendorn, 2:07.
- 175—Lawrence threw Griffin, 2:55.
- Heavy—Kingery was awarded the decision after two overtime periods for aggressiveness.

IOWA STATE VS. CORNELL COLLEGE

This meet was one of the best held this season. Cornell, who was coached by Barker, former Cyclone athlete, brought a squad of experienced matmen. The personnel included Truckenmiller, national A. A. U. champion, and Van Etten, a remarkable wrestler in the 125-pound class. These two men were to be matched with Prunty and Boyvey, respectively, and proved to be the feature bouts of the evening.

Truckenmiller started out by having a little the best of the argument, but soon wore down until Prunty was able to get on even terms with him. Both men were putting out their greatest effort to win the bout. At the end of the scheduled time, the judges declared the bout a draw. This meant that it was to go into extra periods. Truckenmiller was on the verge of collapsing as a result of the head scissors which Prunty had applied just before the time was up. Before the extra period started Coach Barker forfeited the bout to Prunty.

Boyvey and Van Etten staged a fast and furious exhibition of wrestling for the first few minutes until Boyvey clamped on his favorite body scissors, by which means he finally succeeded in downing his man.

Lawrence was able to throw his man, while Schmidt and Captain Woodhull had to be content by winning a decision. Kingery and Midkiff drew in the heavy-weight class.

IOWA STATE VS. OKLAHOMA UNIVERSITY

Iowa State won every bout in its meet with Polly Wallace's grapplers from Oklahoma University. Three were won by falls and the remainder were won on decisions. Although the score indicates an easy vic-

Varsity Wrestling

KINGERY
Heavyweight

tory, the Cyclone entries were forced to their limits in every bout. Two went into extra periods. Prunty and Boyvey furnished the crowd with plenty of thrills before they finally pinned their men. Lawrence was the other Cyclone to throw his man in this meet.

EASTERN TRIP

The Cyclones' invasion of the east turned out to be very successful, for they defeated the two strongest teams on the Atlantic coast—the Navy and West Virginia.

The Navy team was the first victim, succumbing to the Iowa State matmen by the score of 19 to 8. It was the first defeat handed to the Navy team in nine years.

Boyvey and Prunty again showed their championship caliber by throwing their opponents in quick fashion. Lawrence, Chamberlain and Schmidt won with decisions, while Captain Woodhull and Kingery lost their matches, the former by a decision, while Kingery was thrown.

Three days later the Cyclones took the West Virginians into camp by a 17 to 6 score, and thereby laying claim to the title of national champions. Only one team lay in the path, that being Oklahoma A. & M., who were to be met at a later date.

Boyvey added further glory to himself by running his string of victories to six and at the same time breaking Millender's string of 14 straight falls by throwing him with his favorite body scissors.

Captain Woodhull lost by a small time advantage of 1:03 to the West Virginia captain. Prunty was unable to throw his man, but managed to get a 10 minute time advantage. Chamberlain lost to Neil by a decision, but Schmidt, Lawrence and Kingery were able to obtain time advantages over their opponents.

IOWA STATE VS. OKLAHOMA A. & M.

Immediately upon their return from their long trip to the east, Coach Otopalik prepared his men for the coming meet with the strong Oklahoma Aggies. The Cyclone matmen showed signs of weariness in this meet

and as a result were not up to their usual form and lost by a 19 to 8 score.

Boyvey and Prunty were the only men to collect points for Iowa State.

Higgins wrestled in the 115-pound class in place of Chamberlain. Although he was on the defensive most of the time, he prevented Campbell, the A. A. U. champ, from throwing him. Boyvey won by a decision, but Schmidt, Captain Woodhull and Lawrence were thrown. Prunty was able to down his man, although White applied the body scissors several times before. Prunty broke these holds and lost no time in applying his head scissors. Kingery lost to Collins by a time advantage of 2:00.

IOWA STATE VS. NEBRASKA

Iowa State ended up its list of dual meets by defeating Nebraska 13 to 9. This was the last chance Iowa State followers had to see the four veterans, Boyvey, Schmidt, Woodhull and Prunty in action. Boyvey and Prunty won their final set-tos, but Schmidt and Captain Woodhull both lost on decisions gained in extra pounds. The meet was close throughout and the result was always doubtful. Because of an injury to Kingery, Prunty and Lawrence were moved up a weight and Wolf filled the 150-pound class. Wolf got a draw with Branigan, although he obtained a 45 second time advantage.

MISSOURI VALLEY MEET

After a week's rest the Cyclones left for Stillwater, Oklahoma, to participate in the Valley meet. There was expected to be great rivalry between the Oklahoma Aggies and Iowa State for first honors, as both were considered the strongest in the Valley, with Oklahoma having a slight advantage because of its defeat of Iowa State earlier in the season.

Oklahoma Aggies placed first by taking five championships, with Iowa State second with two champions and a third place. Boyvey and Prunty were the Cyclone stars, who showed their superiority over everyone in their class and proved themselves to be two of the best wrestlers in the country.

Freshman Wrestling

A very promising group of freshman wrestlers greeted Coach Peckinpaugh for the initial workout of the season. Several men who had gained fame during their high school careers were among those to report.

In the 115-pound class Shader and Nordyke were the two outstanding men. Both were fast and exhibited a wide assortment of holds on their opponents. During the season they were pitted against the varsity grapplers and handled themselves in commendable fashion.

Holding and Greenwood were considered the best in the 125-pound class. Using the knowledge they already had of the game, plus the additional knowledge gained from their practices with Boyvey, the varsity star, these two men developed into good wrestlers who ought to make a bid for a varsity berth next year.

The 135-pound class was well taken care of by Gerling and Martin. These men were just about evenly matched when they came together on the mat.

There was one outstanding man in the 145-pound class and he was Rex Campbell. From the initial workout he showed a great deal of superiority over all the other candidates. He was exceptionally large for his weight and used his size to advantage. He was able to hold his own with almost anyone. He entered the A. A. U. meet at Iowa City unattached and won the finals in his weight, so nothing more need be said about his capabilities as a wrestler and future Cyclone.

Blair in the 158-pound class showed up very well for the first-year men. He should be one of the men making a bid for the berth left vacant by the departure of Prunty.

Honors in the 175-pound class were shared evenly by Langendorfer and Curtis. Both men exhibited a great deal of wrestling skill in all their matches.

Casey, who was one of the stars on the football team, again came to the front and was easily the class in his weight. In the dual meet between the freshmen and varsity reserves, he was able to win from the veteran Ole Anderson.

The following men were awarded numerals:

115 pound—Lyle Shader, Lee Nordyke.	158 pound—James Blair.
125 pound—Roscoe Greenwood, Arthur Holding.	175 pound—Lowell Langendorfer, Charles Curtis.
135 pound—Don Gerling, Clyde Martin.	Heavy—Clarence Casey.
145 pound—Rex Campbell.	

The following men received honorable mention:

Max Campbell, Eldene Rapp, Orlo Hursch, Morrow Sweeney, Raymond Owen.

Standing: Rapp, Holding, Pinnie, Hursh, Roe, Curtis, Hahn, M. Campbell, Lund, Gerling, Canon.
Sitting: Coach Peckinpaugh, Nordyke, Shader, Brunemeier, R. Campbell, Casey, Langendorfer, Martin,
Greenwood, Sweeney.

Varsity Boxing

G. KENDALL
Captain-Elect

C. BLOOM, Captain

M. CHAMBERS
Coach

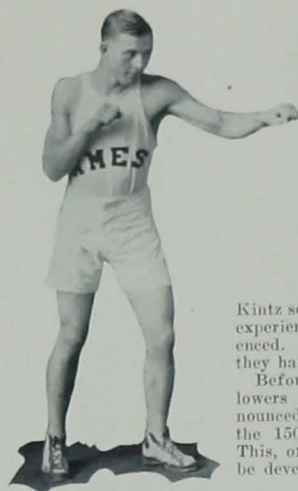

Prospects for a winning boxing team were anything but bright when Coach Chambers issued the initial call for varsity boxers. Only two veterans, Captain Bloom and Kintz, were available. This naturally meant that at least five men had to be developed to fill the vacancies in the other weights. Captain Bloom was expected to take care of the 158-pound class, while Kintz, who did so well in the 145-pound class last year, was counted on to fill that position. An all-college boxing tournament was held in the hope of uncovering some new material. This proved somewhat satisfactory and gave Coach Chambers something on which he could work.

In the 115-pound class, Criley seemed the best prospect, and showed signs of developing into a good fighter. In the 125-pound class, Long was easily the outstanding man. He was rather short, but made up for this handicap by his aggressiveness. He developed a good defense and was able to place a counting blow almost at will.

In the 135-pound class, J. Behm, the Cyclone football captain, came to the front. He had the natural ability to evade his opponent's blows, and, with his clever footwork, he was able to work through his opponent's defense without endangering himself. Traylor and Baird were expected to give the veteran

COREY, KENDALL, BLOOM, CAPT. MEYERS, CHAMBERS
CRILEY, LONG, BEHM, KINTZ, BAIRD

Varsity Boxing

KINTZ

Kintz some stiff competition. Trailer had had a year's experience, while Baird was comparatively inexperienced. Both these men showed good footwork, but they had not developed the necessary drive.

Before the season opened, Iowa State boxing followers were given a severe shock, when it was announced that Captain Bloom would not be able to fill the 150-pound position because of doctor's orders. This, of course, meant that a new man would have to be developed here. The most promising man to take

LONG

Bloom's place was Kendall, a tall, rangy boxer, who had won the finals in this weight in the previous tournament. Harold Myers was groomed to fill the 175-pound class. He had easily won his weight in the all-college tournament earlier in the year. His height and long reach were great advantages in his favor.

To find a man for the heavyweight position was Coach Chambers' greatest problem, for there was a scarcity of heavyweight material. Cory, the fullback of the Cyclone eleven, again came into the limelight by showing Iowa State his ability as a boxer. Although rather short, he weighed around 180 pounds and several times demonstrated his "knockout punch."

These men were chosen by Coach Chambers to represent Iowa State in the ring for the initial meet of the season. The Cyclones were scheduled for three meets, two with the Kansas Aggies and one with Notre Dame. Up to this time the Cyclones had not lost a meet since boxing became a major sport at this institution several years ago. It was with the idea of continuing this record that each Cyclone fighter entered the ring. They were successful in the first two meets, for they defeated the Aggies and Notre Dame, although they were given some keen competition. In the last meet of the season, however, the Aggies came back with greater strength, and defeated the Cyclones by the score of 5 to 2.

BEHM

MEYERS

CRILEY

CORY

Tennis

F. SEYMOUR

B. SHOEMAKER

Tennis is gradually becoming one of the interesting sports on the athletic calendar. Although no coach has been appointed to direct the work of the candidates, some very likely material was on hand to participate in the few meets that were scheduled.

The members of the team were Shoemaker, McCord, Holmquist and Captain Seymour.

Iowa State was forced to take the small end of the score in the dual meet with Coe College. The visitors brought a strong quartet of players, being able to win all but one match.

Luther College players were responsible for causing the Cyclones' second defeat of the season. Although several of the matches were hard fought, the Cyclone entries could not cope with the slashing attack of the Luther players.

Tennis will be advanced considerably next year, for the athletic department has appointed a faculty coach in the person of Fred Fenton, who with his assistants will have charge of the freshman and varsity teams. In all probability letters and numerals will be awarded to outstanding men on the squads.

E. HOLMQUIST

IOWA STATE VS. COE COLLEGE

Shoemaker (A) defeated Clark (C) 3-6, 6-4, 9-7.
 Montieth (C) defeated McCord (A) 6-2, 6-3.
 Brown (C) defeated Holmquist (A) 6-3, 11-9.
 Mitchell (C) defeated Seymour (A) 6-1, 6-2.
 Mitchell and Montieth (C) defeated Holmquist and Seymour (A) 6-4, 6-4.
 Clark and Brown (C) defeated Shoemaker and McCord (A) 10-8, 4-6, 6-3.

IOWA STATE VS. LUTHER COLLEGE

Shoemaker (A) defeated Roman (L) 6-3, 3-6, 6-3.
 Olson (L) defeated McCord (A) 6-3, 6-3.
 Korsrud (L) defeated Holmquist (A) 6-3, 6-3.
 Algier (L) defeated Seymour (A) 6-2, 6-1.
 Roman and Korsrud (L) defeated McCord and Shoemaker (A) 6-2, 6-3.
 Algier and Olson (L) defeated Seymour and Holmquist (A) 6-1, 6-1.

RESULTS OF MISSOURI VALLEY MEET

	Points
Washington University.....	54
Iowa State College.....	28
Kansas University.....	15½
Drake University.....	13
Missouri University.....	4½

Standing: Jacobs, Delahooke, Sulzbach, Coach Daubert.
Sitting: Schultz, Butler, Miller, Wicks.

Varsity Swimming

Iowa State has just completed a very successful year in swimming. Coach Daubert's men came thru in fine shape in every meet in which they were entered.

The schedule called for three Missouri Valley dual meets, two being with Drake and one with Washington University. The Cyclones were able to defeat the Drake tankmen in both events, but lost to Washington, last year's Valley champions.

Washington repeated last year's victory in the Valley meet with Iowa State, taking second easily by taking one first, four seconds and three thirds for a total of 28 points.

Coach Daubert sent Miller and Jacobs to Des Moines for the Y. M. C. A.-A. A. U. meet, where only the best swimmers in the state were participating. Both men won first place in the event in which they were entered. Miller took first in the 220-yard breast stroke, while Jacobs carried off the honors in fancy diving.

The same two men entered the Midwest A. A. U. meet held at Iowa City. Champions of all the surrounding states were on hand. Miller finished four in the 220-yard breast stroke and Jacobs placed third in the fancy diving event. Considering the fact that all the competition was furnished by only the best, the two Cyclone stars did well to place as they did in this meet.

MISSOURI VALLEY CONFERENCE MEET

200-yard relay—Kansas first, Washington second, Iowa State third, Drake fourth. Time, 1:51 5/10.
200-yard breast stroke—McArdle (W) first, Dumont (D) second, Miller (A) third, Ullman (W) fourth. Time, 2:47 8/10.
50-yard free style—Eberhard (W) first, Hamilton (M) and Barrow (K) tied for second, Jocelyn (K) fourth. Time, 1:27 2/10.
440-yard free style—Haverstick (W) first, Sulzbach (A) second, Hamilton (M) third, Cohen (W) fourth. Time, 6:28 8/10.
150-yard back stroke—Baer (W) first, Miller (A) second, Kaerchner (M) third, Chastian (D) fourth. Time, 1:58 8/10.
100-yard free style—Eberhard (W) first, Jocelyn (K) second, Thompson (D) third, Goodrich (D) fourth. Time, 1:00 8/10.
Fancy diving—Schultz (A) first, Millstone (W) second, Jacobs (A) third, Jonas (K) fourth.
220-yard free style—Baer (W) first, Butler (A) second, Haverstick (W) third, Bargasser (K) fourth. Time, 2:49 6/10.
300-yard medley relay—Washington first, Iowa State second, Drake third, Missouri fourth. Time, 3:36 6/10.

RESULTS OF SWIMMING MEETS

DRAKE VS. IOWA STATE SCORE: IOWA STATE 42, DRAKE 27

160-yard relay—Iowa State first. Time, 1:26 6/10.
220-yard breast stroke—Dumont (D) first; Miller (A) second, Wicks (A) third. Time, 2:59 1/10.
40-yard free style—Thompson (D) first, Lyons (D) second, Schultz (A) third. Time, 1:21 4/10.
440-yard free style—Sulzbach (A) first, Delahooke (A) second, Dumont (D) third. Time, 5:58 6/10.
150-yard back stroke—Miller (A) first, Chastian (D) second, Wicks (A) third. Time, 2:08 4/10.
100-yard free style—Goodrich (D) first, Butler (A) second, Thompson (D) third. Time, 1:02 3/10.
Diving—Schultz (A) first, Jacobs (A) second, King (D) third.
220-yard free style—Butler (A) first, Goodrich (D) second, Sulzbach (A) third. Time, 2:51 1/10.

FRESHMAN SQUAD

Standing: Paterson, Longmoor, Peddie, White, Voorhees, Blythe.
Sitting: Lockwood, Parloski, Lau, Harris, Squier, Miller.

Intramural Athletics

SPRING TRACK

Spring Track was won by El Paso in a meet in which strong competition was shown by the many contestants. Phi Kappa Psi Came thru for second honors after the final count and settlement had been made.

THIRD ANNUAL ATHLETIC CARNIVAL

The Third Annual Athletic Carnival was run off very successfully, and much enthusiasm was shown by the contestants.

The following list gives the events and the winners of each event:

Local Relays

El Paso first, Ausonia second.

Class President Race (a Comic Race)

McLeod, President of the Freshman Class.

Sorority Relay

Sigma Kappa, with Owens, Simpson and Burnison running.

Faculty Walking Race

Prof. Thurber.

Hall Needle Race

Margaret Hall, with D. McDonald running.

Varsity Captain Roller Skate

Fred Crawford, Captain 1926 Track.

National Relay

Phi Kappa Psi first, Alpha Sigma Phi second, Phi Kappa third, Delta Upsilon fourth.

During the school year, the Intramural Department also sponsored a State High School Foul Shooting Tournament. High score in this tournament was 48 baskets made out of 50 thrown. This was made by U. Welcher of East High, Des Moines. East High finished first in the tournament, while Huxley ended second.

FALL HANDBALL

Competition in Fall Handball did not become interesting until the last few games, many of the first games being won by default. In the finals El Paso defeated Theta Chi in the singles and the Elite Club defeated the El Pasos in the doubles.

Intramural Athletics

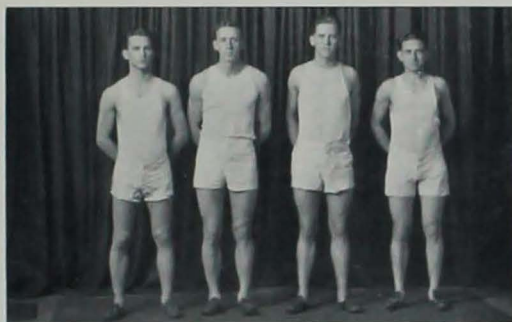

SPRING BASEBALL

After winning in their league, Adelante continued their offensive by defeating the Phi Psi's in the finals of Spring Baseball in a close game. The superior pitching of Masters, of the Adelantes, cinched the game and the championship. The score was 3 to 1.

CROSS-COUNTRY

Theta Delta Chi took the Cross-country run. El Paso was second, Alpha Gamma Rho third, and Sigma Phi Epsilon fourth.

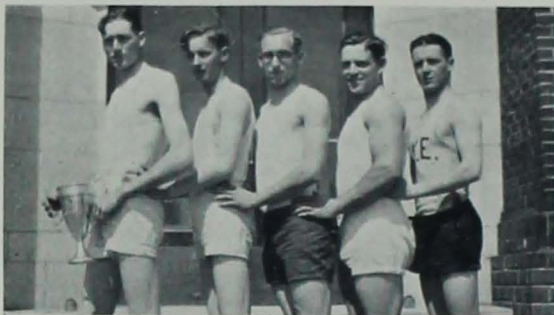

PLAYGROUND BASEBALL

Playground Baseball promises to become one of the hotly contested sports in Intramural athletics in the future, judging from this year's games. During the season 61 teams played 179 games involving approximately 800 players. In the finals Adelante defeated the Kappa Sigma by a score of 11 to 6.

Intramural Athletics

INDOOR TRACK

Strong competition was shown in the different league contests in Indoor Track. The two high-point teams in each league participated in the finals. Tau Kappa Epsilon took the championship cup, with Phi Delta Theta second, and Phi Gamma Delta third.

The league winners are as follows:

Alpha League:	Points
First—Phi Delta Theta	28
Second—Delta Upsilon	20
Beta League:	
First—El Paso	25
Second—Tau Kappa Epsilon	23
Gamma League:	
First—Phi Gamma Delta	35 3/4
Second—Phi Sigma Kappa	27 3/4
Delta League:	
First—Sigma Sigma	40 1/5
Second—Lambda Delta Chi	24 1/5

BOXING

The Boxing event was won by Theta Chi. Phi Kappa was next in the running and Kappa Sigma third.

The following list gives the results of each weight:

115-pound class—Stilson, Kappa Sigma.
 125-pound class—Kennedy, Phi Kappa.
 135-pound class—Reusser, Theta Chi.
 145-pound class—Owens, Theta Chi.
 158-pound class—Worstell, Sigma Sigma.
 175-pound class—Wagner, Phi Kappa.
 Heavyweight—Wilson, Theta Chi.

SWIMMING

The Swimming meet was taken by the Kappa Sigmas. They had a well-balanced team, placing in most of the events. Their total points numbered 20; Phi Delta Theta was second with 16 points, and Phi Gamma Delta third with 10 points.

Intramural Athletics

BASKETBALL

Sigma Nu won the Basket Ball championship by defeating Ausonia easily in a game in which their superior teamwork was the determining factor.

The winners of their respective leagues were:

Alpha League	Sigma Pi
Beta League	Alpha Sigma Phi
Gamma League	Sigma Nu
Delta League	Alpha Gamma Rho
Upsilon League	Adelante
Sigma League	Ausonia
Club League	Elite Club

WRESTLING

Adelante took the Wrestling championship by winning in both the 135 pound and heavyweight class.

The following gives the results of the tourney:

115-pound class—Shader, Tau Gamma Nu.

125-pound class—Holding, Beta Delta Rho.

135-pound class—Hickman, Adelante.

145-pound class—King, Alpha Sigma Phi.

158-pound class—Blair, Sigma Chi.

175-pound class—Curtis, Tau Kappa Epsilon.

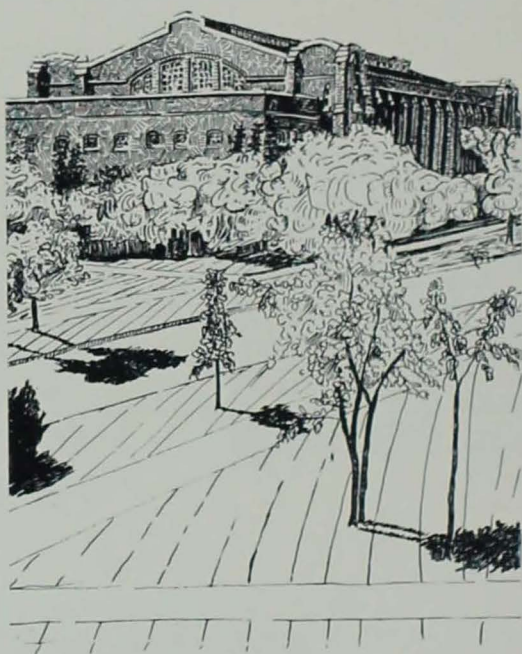

Heavyweight—Zink, Adelante.

FOUL SHOOTING

Kappa Sigma won the Foul Shooting event. They had a high scoring team, with Lau's 39 baskets made out of a possible 50 helping considerably in the final count. Manship, of Adelante, took individual honors by tossing 40 baskets out of 50 trials.

EVERYONE'S LIFE

"Every individual has a place to fill
in this world and is important in
some respect whether he chooses to
be or not."

—FRANKLIN

AMES LIFE

"Every individual has a place to fill
in this world and is important in
some respect whether he chooses to
be or not."

—FRANKLIN

Our beautiful campus under a blanket of soft white snow is a scene an Iowa State student or alumnus would not forfeit. The soft moist snow clinging to our spruce and pine trees and the clear pealing of the chimes with the morning sun coming up over the horizon, is undoubtedly an inspiration to greater and higher things. Mother Nature with fleecy white snow as modeling clay, transforms picturesque campus scenes into specimens of perfect workmanship and beauty. The morning following a heavy snow finds many scenes such as these.

Veishea

Veishea is the only all-college celebration of the year. All the divisions hold open house and take part in festivities. The 1925 Veishea is the third annual celebration, the first all-college festivity taking place in 1923. The name V-E-I-S-H-E-A is derived from the first letter of the five divisions of the college.

A high school track or baseball tournament is usually scheduled during Veishea week-end. Last year the State Glee Club, Orchestra and Band contest was held under the auspices of the musical department at this time. There were approximately 1,500 high school boys and girls as our guests during Veishea last year. We were also hosts to many alumni, parents and friends during the three-day celebration.

Veishea

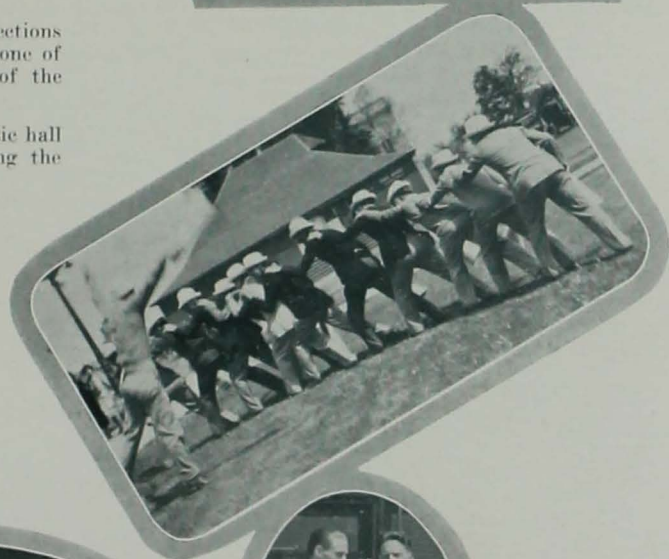

"Preps no more! Sophs are we!" So say the preps after they have disposed of their red caps at the moving-up ceremony, the first event of the Veishea program. The struggle and effort of the past year are accounted for in the moving-up ceremony. Upper-classmen spirit is a proper setting for the activities of the celebration.

Convocation goers sit in class sections in the Men's Gymnasium, where one of the largest convocation crowds of the year has gathered.

Open-air dance pavilion on music hall hill attracted large crowds during the afternoon and evening.

Night-show author and composer discuss final plans for the show which will be staged in the gymnasium in the evening.

Where's your pep? The P. E. P. pledges rehearse on the green north of Central during probation days.

May Fete

Dorothy McCarroll, 1925 May Queen, was escorted to the throne by Helen Herr, 1924 May Queen. The May Queen was elected by a popular vote of the co-eds. The many choruses including the Brownie and Flower chorus rehearsed under the direction of Miss Madge Hill of the Physical Education department.

The theme of the May Fete was written by Frances Westcott. The scene was laid in a quaint English village where everyone young and old took part in the May Day exercises. The townspeople, young and old, the jester and tumbler gathered on the village green for fun and merry-making; but their prime purpose was to select the Queen of the May.

May Fete

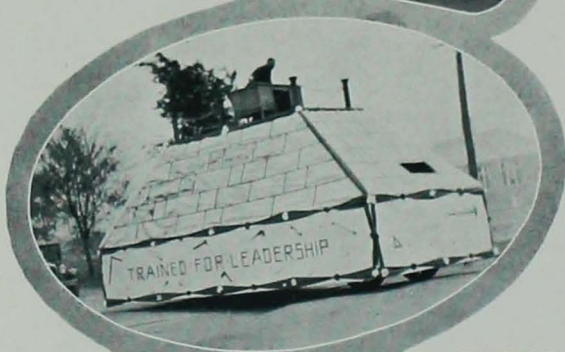

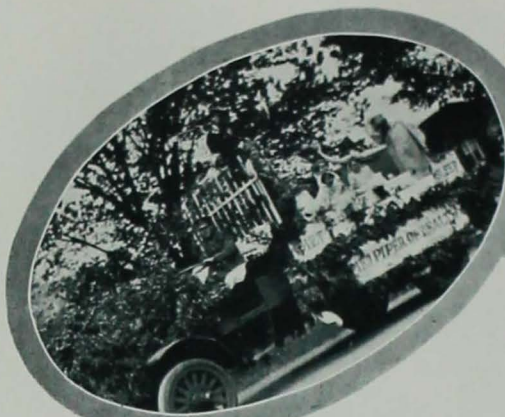

The climax of the gayety and merrymaking of May Day was the winding of the May Pole. The May Pole dance was one of the prettiest dances of the fete.

The milk-maid chorus with their quaint Dutch caps gave a note of scenes in Holland.

Helen Herr, 1924 May Queen, dismounted the throne and placed the golden crown on her successor, Dorothy McCarroll.

The mayor of the village arrived to greet the Queen of the May and announced the fact to the villagers who made merry and danced.

Veishea

Alumni tell us that upon returning to the campus after a year's absence or more, the campus scenes bring back memories of many incidents of their campus career.

Every path and walk tells a different story to the observer who is reminiscing over by-gone days.

College years pass rapidly but the landmarks which make the institution, remain with very little change. Every class makes its contribution and passes on out into the field of service. Thanks to the freshman classes who are coming in annually. What would the upper classmen and the college do without the preps?

Veishea

The high school track tournament which was held on state field was an event of much interest to Veishea visitors.

The Veishea parade was one of the biggest events of the celebration. There was keen competition between the various departments for the silver loving cup award for the best float. The dairy float was awarded first prize in the 1925 parade.

The Agricultural Engineers float, "Magic Power of Winds," received honorable mention. The float portrayed the various industries in which the windmill is the source of power. The Applied Art float with the artist's palette for a cart wheel and a multi-color scheme received much favorable comment. "Builders of Strength and Beauty," the slogan of the Architectural Engineers, was well portrayed in their float.

"Going Down"

"Going Down," the fourth annual student vaudeville, written, directed and produced by students. The performance was given to capacity houses in the Men's Gymnasium on Friday and Saturday nights.

The high-powered plane "Daphne" occupied the center of the stage and about which the plot of the vaudeville was written. Amid icebergs and igloos the Daphne landed in far away Alaska.

The ballet, a traditional part of each night show, was one of the big features of the show. The costuming throughout the show was appropriately and cleverly handled. The bellhop costumes were chic and unique in design.

"Going Down"

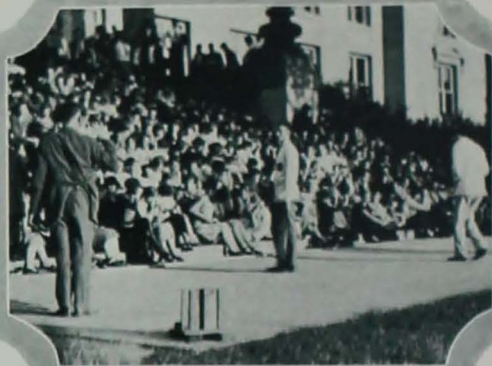

All aboard the Daphne for Alaska. Safety first when traveling for pleasure in the Daphne. The weird news of the spirit of the dead was well portrayed by Chuck Cownie.

The maid and butler struck a decided hit with "It's Better to Grin Than Be Groaning," on each other and on the audience.

Java maids with song and dance from the South Sea Islands, a decided contrast from the Alaska scene.

"Going Down" has been acclaimed the greatest student vaudeville staged at Iowa State College. Several hundred students gave of their time in coaching, student choruses, solo parts, speaking roles, costuming, and in constructing scenery.

Fall

Large numbers of Freshmen gathered on the steps of Agricultural hall at 4 p. m., on an October day to organize for the fall quarter. The meeting was sponsored by the Cardinal Guild. Duncan Brown was unanimously elected president of the prep class.

Throngs of students arrive on interurbans and trains from every direction. Handshakes with old acquaintances and making new ones. Some students are here for the first time and others are here to enter upon their senior year.

Preps plunge to victory over the Sophs in the Push Ball Contest, at the second challenge to the Sophs to battle with the Preps.

Football

Dedication exercises of the east stadium took place during the 1925 football season. A miniature of the completed stadium was displayed.

Pi Epsilon Pi, honorary pep organization for men, plays an important part in the instigation of pep at athletic events.

The A-M-E-S quartette, a treat wherever and whenever they are heard. At all college functions and athletic events the quartette is ready with a few peppy numbers.

Football fans, who are unable to follow the team out of town, get the game play by play over the gridgraph in the Gymnasium.

Engineers' Campfire

The traditional Engineers' Campfire is held annually in Northwoods during the fall quarter. The Engineers' Lady is elected at this time. Ethel Greenway was elected Engineers' Lady for 1926.

Vaudeville and concessions transform Northwoods into a miniature Coney Island. Hot dog and doughnut stands are soon sold out.

After dusk, when picnic suppers are over, the crowd gathers in the natural amphitheatre for the student vaudeville.

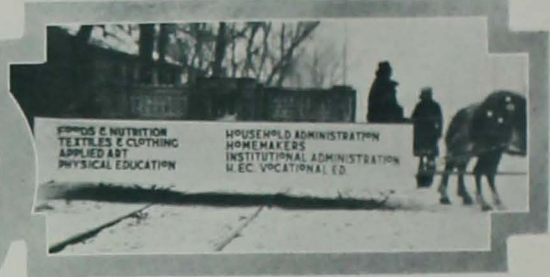

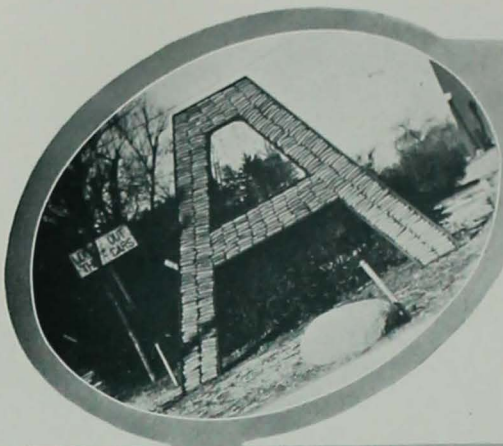

Little International

The Little International, the Student Grain Show and the Hort. show give the students practical training in directing shows, as well as in fitting and showing live stock, grain, and horticultural products for exhibition.

The Ag. Council sponsors the Barbecue in the fall when the Ags. get together for a good mixer. It has replaced the reception of former years. The Agricultural Ball, directed by the same body, has become a leading social event of the year.

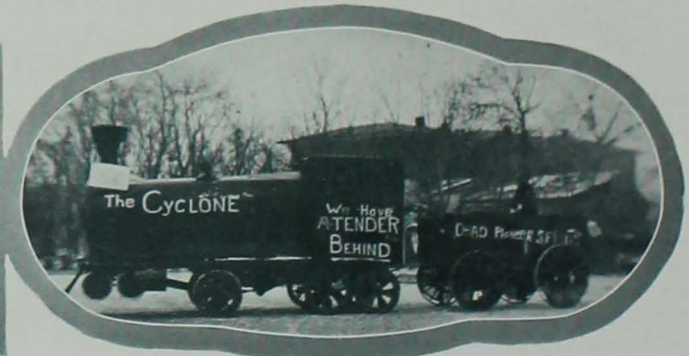

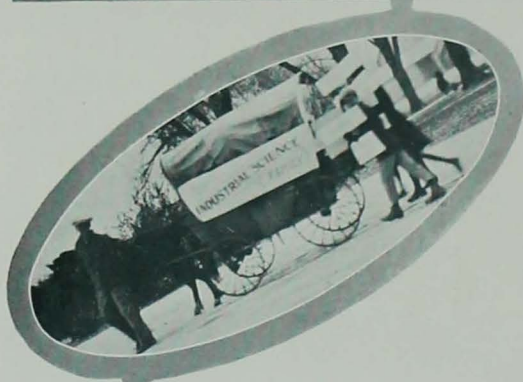

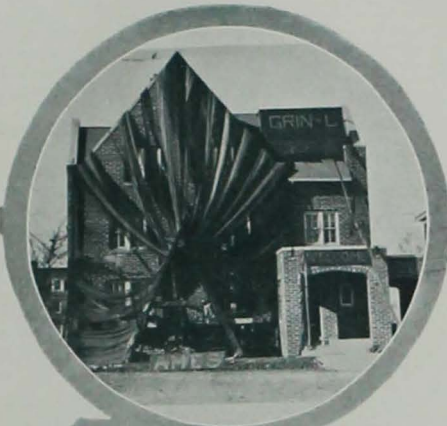

Homecoming

Sigma Phi Epsilon won the silver loving cup for first place in the Homecoming decorations contest. Alumni return for Homecoming festivities to houses decorated with crepe paper in Cardinal and Gold.

Margaret Hall received the cup for the best decorated dormitory. There is a great deal of keen competition in house decorations, for two reasons: first, you may win the cup, and second, you want to show the alumni what you can do. The Homecoming game is often used as the idea for the plan of decoration, using the out-of-town team's colors, etc.

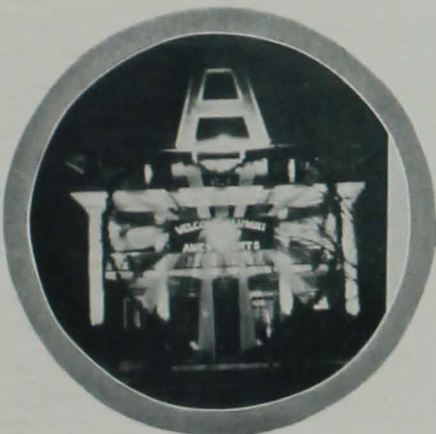

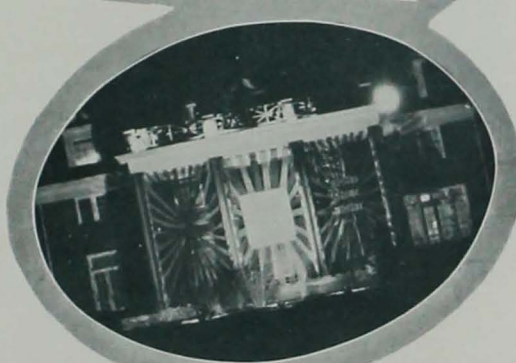

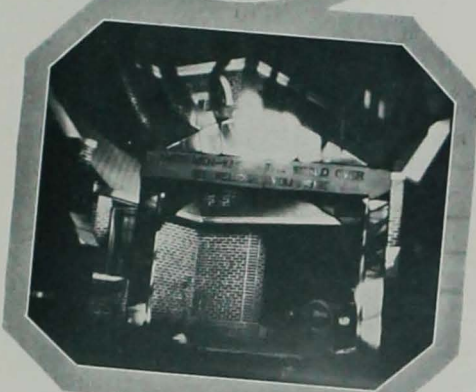

Homecoming

Raging winds and snows greeted Iowa State Alumni as they returned once more to their Alma Mater for the annual Homecoming game. Floats had to be prepared in a freezing shower of sleet, and the roughness of the elements distracted from the beauty of the campus decorations. The game was played to a tie score in a snow-covered field, both teams fighting to the end, though chilled and punished to the very bone.

Through all this seeming disagreeableness the old "Fight Ames Fight" spirit came through, and all had a truer and deeper appreciation of Homecoming.

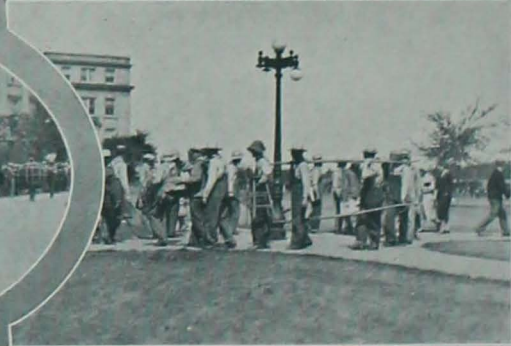

Probation

Probation days (for some individuals at least) are not ended in your prep year. Sunshine club prepping has its value in initiating the prep into Iowa State College. As the senior looks back to his prep year, his prepping experiences are valued most highly.

Tau Beta Pi probation days are spent in ceremonial gowns of brown and white. The honored survey and stake their Greek letters on the campus east of Engineering Hall.

Honorary Agriculture, Alpha Zeta, hold probation in farmer togs, straw hats, red bandannas and carry farm implements. They march on dress parade, a select spot for them seems to be the light post north of Central.

The Iowa State Student is a tri-weekly student newspaper published for students, by students. It is "devoted to the development of a better and greater Iowa State," special emphasis being made to the building of a bigger and better student body. In order to be thoroughly representative, its reportorial and business staffs are open to all students.

The Cardinal Guild is the student-governing body of the college. During the present school year the Guild has been reorganized and now is more representative of the entire student body than ever before. The Guild has a very responsible part in college life inasmuch as it passes rules governing the conduct of student affairs, takes charge of Homecoming, receives nominations and takes charge of all-college elections and many other such duties.

It is an honor to be a member of the Cardinal Guild and each member has great responsibility placed upon him.

The Agricultural Council is composed of a junior and senior member from each department of the division of Agriculture. It is the student governing body of that division and serves to unite the departments in a closer bond of fellowship. It is also the purpose of the council to help promote the activities which are sponsored by the Agricultural Division.

The Agricultural Council also acts as an advisory body for the Agricultural Club. Membership in the club is open to all worthy students in the division of Agriculture.

 JOHN A. BRYANT.....*National Collegiate Players*

The function of this organization is to further interest in, and to take charge of debates and dramatic productions.

The Public Speaking Council was founded at Iowa State in 1914. Its purpose is to promote and manage all dramatics, forensics and other public activities at Iowa State. The personnel of the council is made up of one representative from each literary society, one representative from the senior and junior class respectively, chosen at the spring election. There are representatives from the National Collegiate Players and from the "A" men and the head of the Public Speaking Department.

O. Berggren, J. Kennedy, J. Bryant, C. Helming.

Dramatics

Dramatics

F. McCOMBS

M. T. HERRICK

H. KEANE

During the year 1925-26 the Public Speaking Department has successfully presented several well-known plays under the direction of Professor M. T. Herrick, assisted by Miss Florence McCombs and Miss Helen Keane.

Besides the members of the Public Speaking Department, a large group of over seventy-five students have helped in the production of the plays. Actors, actresses, coaches, business managers, stage managers, costumers, electricians, property men, and make-up artists have made up this group.

The growing interest in dramatics of Iowa State College has made competition keen both for positions in the cast and in the producing staff.

The Senior Class will present "Wappin' Wharf," by Charles Brooks.

R. PORTER, P. GISSAL, H. PULVER, E. WALLENFELDT, K. HARR, H. ENGELKING

THE POT BOILER

"The White Headed Boy"

"The Whiteheaded Boy," three-act comedy given under the auspices of the Iowa State Chapter of National Collegiate Players, national honorary dramatic organization, was written by Lennox Robinson, the famous Irish playwright, is well known in professional and amateur theatricals through its successful productions both in Great Britain and United States.

This comedy of Irish home life concerns the family of a certain Mrs. Geoghagen. Dennis, Mrs. Geoghagen's favorite child, a very modern young student in the University of Dublin, has so persistently frivoleed away his time and money that his family, tired of skimping and sacrificing for "Mother's darlint Dinnis," decide that Dennis must be sent to America. However, Dennis has a fiancée, Delia, and Delia has a father who has not only a good eye for business, but also aspirations for breaking into the Geoghagen family himself. The many complications are finally cleared away when Aunt Ellen lets love, business and surprise entice her into an engagement with her old lover, Delia's father, only to find that Delia has eloped with Dennis.

Music

The Iowa State College Band

PROF. HAWLEY

For the past six years the Iowa State College Band has been under the direction of Prof. Oscar Hatch Hawley, and during that time it has become one of the institutions of the college. The personnel of the Band is carefully selected each fall by competitive examination and sometimes as high as 200 candidates are examined for the twenty or twenty-five vacancies. The Band consists of eighty uniformed men and women, and loses about one-quarter of its personnel each year by graduation. The Band plays at all football games, at the basket ball and wrestling meets during the winter, for the baseball games in the spring, and also plays several concerts during the year. The principal concerts are given on the campus during the nice weather of May and June, but there has always been a winter concert in the gymnasium and for this concert some well-known soloist is engaged. The Band makes some trips with the football team and always plays in Des Moines at the Drake-Ames game or for the Drake relays or track meet. The Band accompanied the team to Columbia for the game with Missouri in the fall of 1925 and made the trip to Minneapolis with the team in the fall of 1924. Other trips have been to Manhattan, Kansas, and Omaha, Nebraska.

IOWA STATE COLLEGE BAND

Iowa State Glee Club

PROF. T. MACRAE

The Iowa State Glee Club in the past six years has become recognized as one of the leading singing organizations of the middle west. In the Missouri Valley Glee Club Association they have ranked among the leading clubs and have demanded the praise of the critics wherever they have appeared.

Each year during the spring vacation a tour has been arranged including one city each day, but this year another plan was tried out, which proved very successful. The management arranged to appear in three of the leading theatres of the state, singing three days at the Capitol Theatre in Davenport, four days at the Majestic Theatre in Cedar Rapids, and closing the trip by singing three days in the Plaza Theatre in Waterloo.

The club was tendered a fine banquet by the alumni of each of these cities and their program was given a real ovation at every appearance. The club is under the direction of Professor Tolbert MacRae, with William Davidson as president and Albert Baker, business manager.

MISS HELEN GARRETT

In offering the girls of the college the opportunity for musical training there was organized a glee club which has become a real factor in the music life of the campus. The club is chosen each year from the try-outs in the spring and fall, and in addition to helping in the annual presentation of "The Messiah," they appear at convocations and other programs of the year. The climax of their work is the annual concert of the club which is given in Agricultural Assembly.

As a part of the club and chosen from the members of the club is the Girls' A-M-E-S Quartette which has become very popular on the campus. This organization appears at the "Hee Vodvill," banquets, mixers, etc. This year the quartette sang at the alumni banquet at Des Moines.

GIRLS' GLEE CLUB

Iowa State Symphony Orchestra

The Iowa State Symphony Orchestra was organized during the winter quarter of 1920-21 and has been a growth from 20 members, with which it started, to 50 members today. The Orchestra is the result of the interest shown by faculty and students and it has well repaid their efforts in building it up, for it is one of the leading musical organizations of the middle west, appearing each year in concert on the Artists' Concert Series, and makes several other appearances during the year, notably during Farm and Home Week and at the annual presentation of "The Messiah." Since its organization the Orchestra has been under the direction of Prof. Oscar Hatch Hawley.

A-M-E-S Quartette

About ten years ago the first A-M-E-S quartette was organized to sing at all the football games as well as other athletic events. Since that time this organization has been called on to sing at many other programs and among other trips the quartette was taken to eight different cities in the campaign for the Memorial Union Building and they were a real factor in putting over this drive in Minneapolis, Sioux City, Omaha, Kansas City, St. Louis, Davenport, Chicago and Milwaukee.

This year the quartette is made up as follows: Laurence Hutson, first tenor; William Davidson, second tenor; Allan Perry, baritone; Alger Schricker, bass. In the Glee Club tour this spring this quartette was a "big hit" in all the concerts.

HUTSON, DAVIDSON, PERRY, SHRICKER

Forensics

The season opened with the second international contest for Iowa State, the debate being with Cambridge University of England. The question was the interesting one of the relative merits of the arts and humanities and science.

Attention was then turned to a series of contests with several colleges in the middle west. The subject used was the timely one of child labor regulation by Congress. In one of these an innovation was used in which only one constructive speech and three rebuttal speeches were given by each team. The plan created considerable clash of opinion.

The yearly trip to Purdue was extended to include a debate over the radio with Chicago-Kent College of Law and a regular debate with Butler College. The affirmative team met Michigan Aggies at Ames in the last debate of the year at home.

The season was a marked success in every respect. The debates received good support. Many of the debaters will be back next year for another try at forensics.

H. HARSHBARGER

PURDUE-IOWA STATE

Judging Teams

International and American Royal

INTERNATIONAL CONTEST

The Live Stock Judging contest at the Chicago International is an annual event, established in 1900, and has been continuously held since that time. Iowa State College has participated in every contest, a record not equaled by any other institution. Along with that, Iowa State has won more contests than any other school.

The members of the 1925 team were Robert Ritchie, Willard Grove, F. A. Hodges, Roland Ferguson, Clarence Clark, and Everett McKee, who acted as alternate.

This year brought out some keen competition from 22 different states.

Oklahoma won the contest with one of the highest scores ever turned in at an International contest. Illinois followed second, Ontario third, Kansas fourth and Iowa State fifth.

Robert Ritchie placed himself second over all in individual rating.

In the different kinds of live stock, Iowa placed third on cattle, sixth on sheep, hogs and horses. This year's team was coached by Prof. P. S. Shearer.

AMERICAN ROYAL CONTEST

Eleven teams competed at the American Royal at Kansas City. Willard Grove, F. A. Hodges, Roland Ferguson, Robert Ritchie and Everett McKee represented Iowa State in the contest, with Glenn Brown, Clarence Clark and George Rosenfeldt acting as alternates.

Iowa State stood second in this contest, being beaten only a few points by Texas.

Ferguson placed fifth in individual rating and first on hogs. McKee was third in this division.

Hodges and Ritchie tied for second place in cattle judging.

INTERNATIONAL AND AMERICAN ROYAL TEAM

Judging Teams

DAIRY CATTLE JUDGING TEAM

The 1925 Dairy Cattle Judging team, which competed at the Waterloo Dairy Cattle Congress and the National Dairy Exposition, was composed of Floyd J. Arnold, Dwight M. Seath, Roland C. Ferguson and Carl T. Peterson (alternate).

At the Dairy Cattle Congress there were eleven colleges competing. The Iowa State team won the contest by a safe margin.

They were awarded the Dairy Cattle Congress trophy and several other beautiful trophies and medals.

Seath was high man in the contest, with Arnold placing third and Ferguson fourth.

The Iowa team which competed at the National Dairy Show was composed of the same men who competed at the Waterloo Dairy Congress.

The team placed first in this contest with more than twice the number of colleges competing.

For winning highest honors over all breeds, the team was awarded one year's possession of two large silver cups with the name of the institution engraved thereon. One cup was awarded by the National Dairy Exposition and the other by the Hoard's Dairyman.

With twenty-four teams competing, seventy-two men were in the contest individually. The members of the Iowa team ranked as follows: Dwight Seath second, R. C. Ferguson sixth and Floyd Arnold ninth.

This year's team was coached by Prof. Fordyce Ely and it was the first team that has ever been successful in placing first in both contests.

ELY, FERGUSON, SEATH, PETERSON, ARNOLD

Judging Teams

GROVE, BOWMAN, BROWN, SHEARER, RITCHIE, McKEE, NELSON

SWINE JUDGING TEAM

In the spring of 1925 about 100 senior A.H. men participated in a swine contest. The high ten men in this contest were eligible for further competition toward the final goal. After these men worked out at the Sioux City Interstate Fair the team was selected.

The Iowa State College swine judging team, composed of Willard Grove, Robert Ritchie, Everett McKee, Russell Nelson, Glenn Brown and Aaron Bowman, alternate, represented Iowa State College at the National Swine Show at Peoria, Illinois, where they placed fifth.

Nebraska won first, with Ames a little more than 100 points behind the winner of the contest. Willard Grove placed fifth in the individual rating.

Ever since the contest has been held at this show, Iowa State has been one of the high winners.

DAIRY PRODUCTS JUDGING TEAM

The 9th annual students' judging contest was held this year at the National Dairy Cattle Show at Indianapolis.

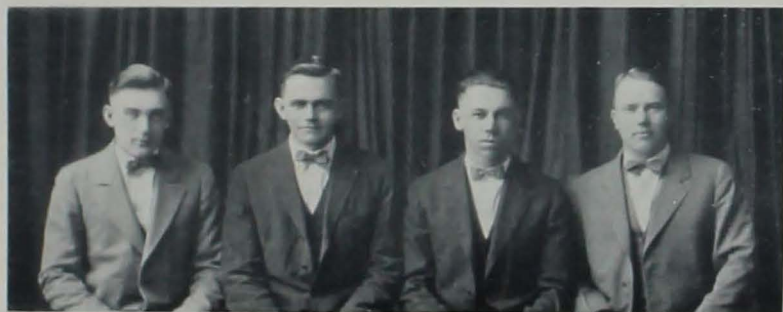

The competition this year was a little stronger, as there were 10 colleges represented.

The Iowa team, composed of Snowden Clary, Walter Olson, Ralph Wilson and Algot Jacobson, alternate, won the contest, with a score of 398.25, with Penn State taking second. The Iowa team won first on cheese, second on butter and second on milk judging.

Clary ranked second, Olson third and Wilson fourth in the entire contest.

The team won a number of valuable trophies, consisting of the National Dairy Exposition cup, J. G. Cherrys cup, J. B. Ford cup and the National Federation of Milk Producers trophy.

Iowa State has been a consistent winner in this contest, having won first the last two years, and since the contest began has never stood below third place.

WILSON, JACOBSON, OLSON, CLARY

Judging Teams

FARM CROPS JUDGING TEAM

The collegiate farm crops judging contest was held this year at the International Live Stock and Grain Show on November 28. It brought out eight teams, representing North Carolina, Iowa, Ohio, Oklahoma, Michigan, Kansas, Nebraska and Indiana.

The contestants were required to do work in three major lines: First, judging corn, small grain, hay and soybeans; second, the commercial grading of corn, wheat, oats and hay; and third, the identification of 170 different crops and varieties.

The Iowa team, composed of K. King, L. E. Arnold, Frank Moser and C. G. Klingaman, alternate, placed second, with King placing fifth individually and Arnold eighth.

The winner of the contest, North Carolina, made a very good record, making a score of 4,281, leading Iowa who registered a score of 4,083.2.

This was the third year the contest was held and the largest agricultural colleges are taking a keen interest in it.

POULTRY JUDGING TEAM

The poultry team which competed this year at the poultry show in Chicago in December was composed of Wileke, Porter, Schultz and Cotton (alternate).

The contest was divided into three divisions, exhibition judging, production judging and written examination. The team totaling the highest score in the three divisions takes the sweepstakes. The Iowa team showed up very well, but failed to get to the last round of the ladder, being a close second.

The Iowa State poultry judging teams are coached by Prof. Bittenbender, and they have a habit of consistently placing, year after year, in one of the three top places, an honor which no other institution can boast.

FARM CROPS TEAM

Military

Reserve Officers' Training Corps

J. MORT

Rated by the War Department as a Distinguished College in the spring of 1925, Iowa State College R. O. T. C. began the school year 1925-1926 with a determination to remain on this "Distinguished List." All signs point to our being able to succeed in this determination.

Our Advanced Course now numbers 80 seniors and 93 juniors, a total of 173, as against 143 for the year 1924-1925.

The new stables have been completed and are in use. There is no school in the country with better facilities.

The Rifle Team, firing in the Corps Area match this year, made the highest score ever made by an Iowa State College team.

Profiting by the example set by the seniors in 1924-1925, our Cadet Officers are the best in the history of the college.

The spirit is good, and enthusiasm is high. We will at least "give them a run for their money."

Major John E. Mort came to Iowa State College as head of the Field Artillery Unit, July 4, 1923, and on June 1, 1925, he relieved Lieutenant Colonel F. S. Young as Professor of Military Science and Tactics.

Major Mort, a graduate of the Virginia Military Institute, class of 1904, entered the army as a second lieutenant of Coast Artillery in January, 1908, and in September of the same year was promoted to first lieutenant. In 1913, he transferred to the field artillery and as an officer of the Fourth Field Artillery went into Mexico with the Vera Cruz Expedition commanded by General Funston.

Promoted to the rank of major in August, 1917, he went to France with the Thirteenth Field Artillery in March of the following year. Promotion to Lieutenant Colonel, National Army, in 1917, was immediately followed by detail to headquarters of the Third Army Corps and service on the Artillery Staff of General Bullard.

Top row: Capt. Campbell, Lt. Hannis, Capt. Dixon, Lt. Shea.
Bottom row: Capt. Burnell, Capt. Hirsch, Maj. Mort, Capt. Harper, Lt. Lyle.

Cadet Officers' Association

The Cadet Officers' Association was organized with the idea of uniting in a common band of fellowship the men who had elected the advanced course in Military Training and the officers of the regular army who had been stationed at Iowa State College as instructors.

Through excellent cooperation, Military Training at this school has been elevated to a very high plane and at the present time Iowa State College is the first ranking school in the Seventh Corps Area, which includes about fifty schools of similar character.

Each year the Cadet Officers' Association sponsors several large functions. Probably the best known of these are the Military Circus and the Cadet Officers' Dance.

This year the Military Circus was combined with a Horse Show, which created not a little interest on the campus and was very well patronized. Money derived from this source will be used to equip a clubroom for the organization as soon as the present plans materialize.

Iowa State-- A Distinguished College

Nineteen Hundred Twenty-five marked the banner year in the history of the R. O. T. C. at Iowa State College. In view of the splendid showing made in the inspection last spring, Iowa State was rated as a Distinguished College by the War Department.

Advance course students this year number 173, an increase of 30 over the enrollment of the previous year. Artillery, engineering, and veterinary instruction are the three branches of military training offered at Iowa State. The local unit of the R. O. T. C. is made up of twelve batteries of artillery, three companies of engineering, and one company of veterinary students. In addition to the prescribed studies the advanced course students assist the instructing staff officers in the drilling of the basic course students.

Unit assemblies are held on special occasions at which all R. O. T. C. students assemble. Among these the observance of Decoration day and the spring inspection occupy important places in the year's program.

Camp Knox

Summer camp combines practical instruction, athletics, sports, and sight-seeing into a six-weeks' outing, highly enjoyed by all who attend. Camp Knox, Kentucky, with all that it afforded those in attendance at camp is long remembered by advanced course students.

Camp training included instruction in gunnery, reconnaissance, pistol practice, and mounted drill. Service of the piece in actual firing was one of the most important subjects dealt with at Camp Knox. In all 12,500 rounds of shrapnel were fired at camp last summer; or an average of forty-five rounds per student.

Reconnaissance included practice in the use of fire control instruments, map reading, preparation of firing data, communications and duties of individuals and groups in the battery commander's detail. All of the above procedures were put into practice in firing problems and simulating warfare.

Elementary training received on the campus is put into actual practice at camp. It is only by such methods that the advanced course students can become adept in the maneuvers of military tactics.

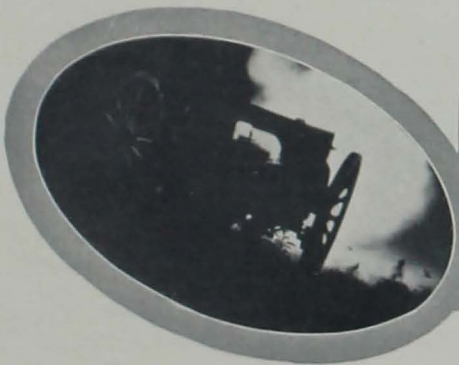

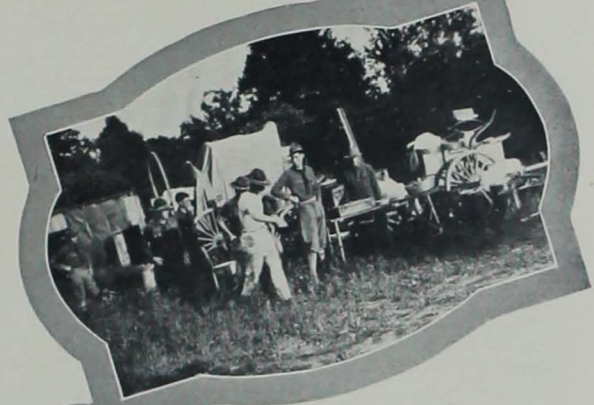

Practice March

Paramount among the experiences of camp life was the practical march, occupying three days. This is one of the camp events that advanced course students having attended camp look back on with much pleasure.

A march of half a day through Kentucky hills followed by the pitching of camp marked the work of the first day. Locating of a camp site, stretching of the picket lines, unharnessing and caring for the horses, pitching of the "pup" tents, and response to the "mess" call were chief among the evening's duties.

"March order" broke the quiet of the camp the following day. Quickly but systematically preparations were made for the march and soon the column was winding over the hills through trees and tangled undergrowth to meet the "enemy." At dusk the battalion went into position.

Blinding flashes accompanied by the crash of eight 75's told of the attack on the "enemy." Actual warfare was stimulated long into the night. The third day the return march was made.

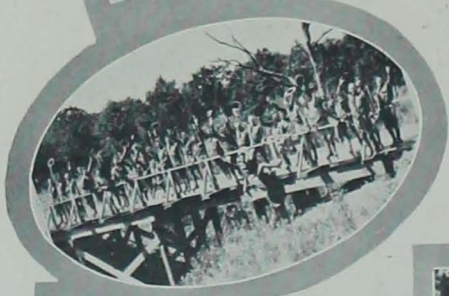

Engineers' Camp

Sham battles, firing practice, trench construction, inspection trips, dancing, movies, and lots of good things to eat, went to make up the six weeks of solid joy which was thoroughly enjoyed by the Engineers and Vets attending camp at Fort Snelling last summer. The program of events was planned and arranged in such a manner that each day was brimmed full of interesting and helpful experiences.

Camp, coming after a year of school books, classroom, college professors, and night studying, was a welcome change to all. Eight hours of restful sleep each night and four square meals per day constituted a much-needed program. Some of the fellows took on so much superfluous avordupois that they developed a couple of extra chins.

Aside from improved health and fond memories Iowa State men brought home three large silver loving cups. These were awarded for: first prize in barrack inspection, first prize in deportment, and second prize for athletics. In addition to the cups, many of the boys brought home gold medals awarded to winners of individual contests in marksmanship and sharpshooting.

Military Ball

"A blaze of bugles, a ruffle of drums—" and the Military Ball of 1925 opened with a galaxy of student warriors and their gayly dressed partners. The khaki uniforms and tuxedos, whirled and danced with the soft sheen of many colored silks. And with the laughter and syncopation mingled a seriousness and reverence for the military spirit. 'Tis well and good that soldiers drill and train, but good too, that they laugh and sing on occasions like this.

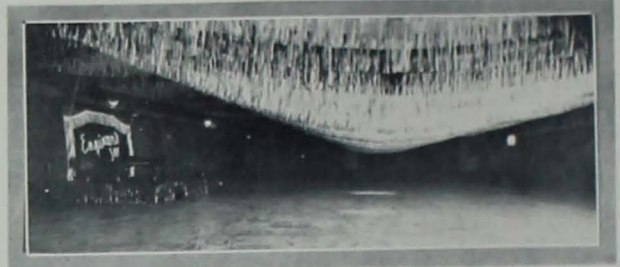

Senior Ball

Among the outstanding parties of the year was the Senior Prom, the last and most brilliant party of the year. In a fantasy of color and harmony the Seniors danced till the lights faded and college gaities become a pleasant memory in the scrap book of time.

'Tis whispered now that plans are under way for the Senior Prom of 1926. It is to be even more brilliant in music and decoration the committee reports. This final function will be the triumph of the graduating class.

Engineers' Ball

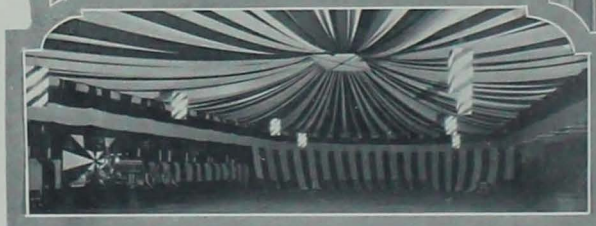

St. Patrick was host to all engineers during the winter quarter. At the annual Engineers' Ball, J. Donald Pearson as St. Patrick, and Ethel Greenway, his partner, as Engineers' Lady, led the opening march. Among gay parties it was of the gayest. Not only the music and decorations, but the spirit of cooperation of the attendants helped make the event one of the most successful in a number of years.

Panhellenic

Beneath endless waves of scarlet and white and countless warm little lights, the members of women's panhellenic danced with their partners on April 10. Two orchestras supplied a continual round of harmony while Greeks mingled with Greeks in one of the most democratic affairs of the season.

Rounds of dances and other social activities marking each turn of the weekly calendar have been most successful. Divisional, inter-fraternity, fraternity, and honorary organizations have done their bit to make each week end more pleasant than the last.

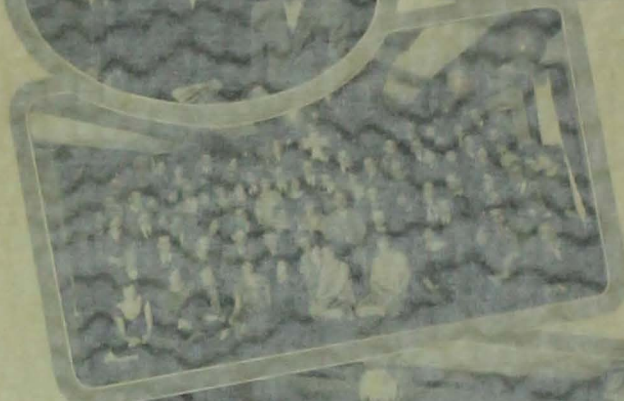

WISDOM WOMEN

To live constantly above snobbery of word or deed; to place scholarship before social obligations, and character before appearances; to be in the best sense democratic rather than exclusive and loyal rather than popular.

Engineers' Ball

St. Patrick was host to all engineers during the winter quarter. At the annual Engineers' Ball, J. Donald Fear, son of St. Patrick, and Ethel Greenway, his partner, as Engineers' Lady, led the opening march. Among gay parties it was of the gayest, not only the music and decorations, but the spirit of cooperation of the attendants helped make the event one of the most successful in a number of years.

Department of Physical Education

MISS W. TILDEN

The Department of Physical Education for Women aims to develop positive health and to show the students the value of exercise and relaxation in order that they may keep themselves in condition to meet life's demands.

The department also aims to provide an opportunity for college students to participate in wholesome recreative activities. These activities have been selected with a view of developing strength and vitality, initiative and leadership, and the characteristic traits and ideals that will make the individual capable and efficient and of service to society.

THE STAFF

Women's Athletics

"The Shelby Award" plaque, which was presented by Miss Matilda Shelby to the Women's Athletic Association at their annual banquet last spring, was won for the year of 1923-1924 by the class of "1927."

The class having the largest number of points for one year is the winner and has its numeral engraved upon the plaque. Five points are given for winning first place in any sport by either the class or the reserve team; three for second place and two for third place. This year the sophomores have led for two quarters with 15 points.

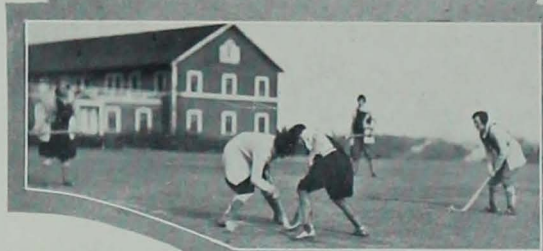

It is to be established as a tradition that the announcement of the class winner will be made at the annual W. A. A. banquet.

M. SHELBY

WOMEN'S ATHLETIC COUNCIL

Hockey

Fall quarter found over twenty girls practicing hockey every afternoon from 4 to 6. Each class had a team and the freshmen, because such a large number reported, also had a reserve team.

The juniors won first place in the tournament; the freshmen, second; and the sophomores and seniors tied for third place.

The following girls were on the varsity hockey team and their positions were:

BEULAH ROGERS.....	Right wing
VIRGIL KELLY.....	Right inside
VIRGINIA ALEXANDER.....	Center forward
GLADYS DAWSON.....	Left inside
DOROTHY LAROS.....	Left wing
ALLEGRA BUSH.....	Right halfback
DOROTHY OSBORNE.....	Center halfback
ELEANOR WINTON.....	Left halfback
FLORENCE KEELING.....	Right fullback
MARGARET CLEGHORN.....	Left fullback
JESSIE MANSHIP.....	Goal keeper

Archery

Archery, during the spring quarter, was conducted as an interclass sport. The sophomores won first place, the freshmen, second place, and the juniors and seniors tied for third place at the final meet, which was held on "Field Day."

Edith Hutchinson, a sophomore, was the highest individual scorer.

Tennis

Only the freshmen and sophomore classes entered the tennis tournament which was held during the fall quarter. Because of the severe weather the finals were played in the armory. Virginia Alexander and Ann Whitfield, who played for the sophomores, were the victors.

Winter Sports

The thrill of a daring ski run or an exhilarating toboggan ride has called many an Iowa State woman out into the great white hills and valleys of our campus. Year by year the winter sports have attracted increasing numbers of girls to the ranks; the cool, crisp winter air serving as a natural stimulant to those who must expend so much of their energy in clear thinking.

Basket Ball

So many girls reported for basket ball in the winter quarter that all except the senior class had two teams, a class team and a reserve team.

In the class team tournament the freshmen won first place; the sophomores, second; the seniors, third; the juniors, fourth place. The freshmen walked off with another first in the reserve team tournament; the juniors were second and the sophomores, third.

Swimming

Swimming, fall quarter, was conducted as an individual sport. Twenty-two girls received W. A. A. points. Of that number eighteen received 100 points.

The girls receiving 100 W. A. A. points fall quarter were:

- | | |
|-------------------|---------------------|
| ANITA ANDREWS | JUANITA KENEFICK |
| HELEN BASCOM | MARJORIE KENNEDY |
| DOROTHY COOLEY | HARRIET KING |
| MARY COUNTRYMAN | PHOEBE MAXON |
| MARGARET DAVIDSON | RUTH MORRISON |
| ARLENE FELLINGHAM | ORDALE OLSON |
| ANN FOULKE | SARA MARIE PETERSON |
| VIRGINIA GARNETTE | REBA RALLS |
| LUCILLE KELLY | RUTH SALA |

Swimming

In the winter quarter swimming was a class sport. At the meet which was held in the men's pool, the sophomore won first place; the juniors, second; the freshmen, third; the seniors, fourth.

DORIS GRAY

Track

Every class had a track team. In the tournament the sophomores won first place; the seniors, second place; the freshmen, third place; the juniors, fourth place.

Arlene Fellingham and Alice Steil tied for first place as individual high scorers and Esther Brewer took a close second place.

Baseball

Baseball, as a W. A. A. sport, was offered in the spring quarter. There were only three teams: the freshman, the sophomore and the upperclass team, because neither the junior nor the senior class had enough girls out to make a full team. The freshmen won the final game which was played on "Field Day."

Intramural baseball games were also played. The final game was between Margaret Hall and Elm Lodge. The silver loving cup was awarded to Margaret Hall.

Horseshoe Pitching

Horseshoe pitching, in the spring quarter, was an intramural sport. Blanch Funk and Frances Klopping, representing South Hall, were the winners.

Soccer

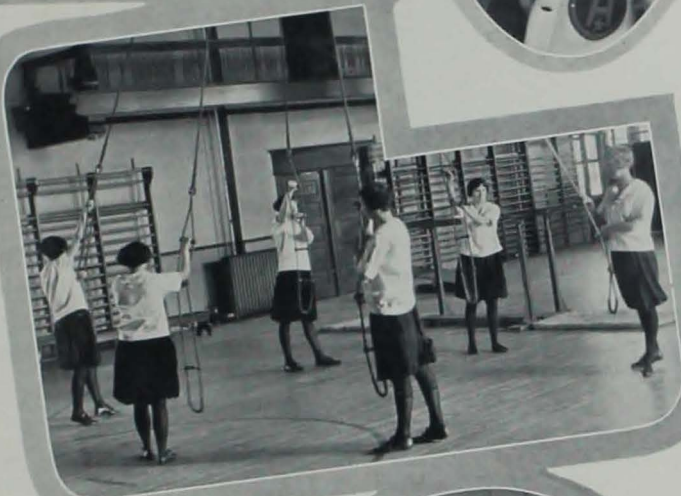

During the spring quarter those out for soccer practiced twice a week. There were two teams, the upperclass team and the freshman team.

The tournament which was held during the week preceding "Field Day" resulted in a tie score.

Play the Game for the Game's Sake!

Such is the spirit of the Women's Athletic Association. Why envy the winner? Why condole with the loser? Who can know for whom the game has done the most, she who wins it graciously or loses it in the manner of a sportsman? So let's all play together and find health, fun and happiness through all our games.
Eleanor Winton '27.

Hec Vodvil

The Home Economics Vodvil, which is sponsored by the Home Economics Club, has been one of the big activities of the students of the Home Economics division since the origin of Home Economics Day in 1920. The Vodvil is given for the purpose of earning money to aid in carrying on the work of the club. The show is planned by the girls who are elected by the club as managers. The costuming gives a splendid opportunity for applying what has been taught in "Art" and "Textiles and Clothing" classes.

The interests of the club have been centered on educational work, Home Economics and general activities on our Iowa State College campus. In the past five years the club has contributed nearly \$3,000 to local, national and foreign scholarship and loan funds; \$500 to the Memorial Union Building; and there is \$800 in a fund for a gift to the new Home Economics Building.

The Women's Guild is the women's student governing body of Iowa State. The primary purpose of the Guild is to cooperate with the faculty in solving problems of government for women students. Another purpose of the Guild is to support college activities, especially those in which the women are interested. The Guild Board is an open forum for the woman student body when problems are discussed. Every woman in college has the opportunity of becoming a member upon paying the small annual dues. The Women's Guild is a member of the National College Women's Student Governing Association, to whose conventions, held annually, are sent the incoming and outgoing presidents.

The Women's "A" fraternity, a local honorary athletic fraternity was organized in the fall of 1915 by seven girls who were wearing the official "A," awarded by the Women's Athletic Council. One thousand points in athletic work are required for membership. In the winning of these points, athletic ability, good sportsmanship and scholarship are taken into consideration. The purpose of this organization is to centralize and promote interest in women's athletics. We help the W. A. A. in all the ways we can and we support the men's athletics by assisting in the sale of season athletic tickets.

The Home Economics Club was organized about fifteen years ago to stimulate a broader interest in Home Economics, and to unify the efforts of the girls of the Division. The membership is open to all students enrolled in Home Economics Division. There are now four hundred and fifty members. The Club is affiliated with both State and National Home Economics Association, to which the first delegate was sent last year.

All general activities of Home Economics students are carried on through the Club. The Club sponsors the yearly presentation of the Home Economics Vodvil and is responsible for the famous cherry pies at Veishea time. In the past five years, we have contributed \$2,200.00 to the Catherine MacKay Memorial Loan Fund, \$300.00 to the Ellen H. Richards Fund, \$300.00 to the Iowa Homemaker, \$200.00 to the Constantinople Woman's College, \$50.00 to the American Home Economics Association, \$500.00 to the Memorial Union, and \$750.00 toward a gift for the new Home Economics Building.

Interfraternity Council

OFFICERS FOR YEAR OF 1926

HOWARD McCracken.....*President*
A. V. WIGGINS.....*Vice President*
SETH A. WINSLOW.....*Secretary-Treasurer*

MEMBERS IN FACULTY

DEAN R. E. BUCHANAN DEAN J. E. FOSTER

The Interfraternity Council of Iowa State College is an organization of representatives from each national fraternity. Regular meetings are held monthly to handle all matters relative to the fraternity system, and to study the various campus fraternity problems, initiating and fostering whatever tends toward the best growth and development of the fraternity system.

The Interfraternity Council, further, subscribes to the so-called "Greek Letter Creed," particularly to the statement: "It is our earnest wish and desire to inculcate in our various chapters true principles of manhood, to promote the moral welfare of all our members, to stimulate and encourage loyalty to the active interest in the institution where they may be located, to foster a democratic and friendly spirit between our members and to all others with whom they may be associated, and to inspire among our members a true, loyal and lasting friendship."

The membership of the council was reduced at the beginning of the fall quarter from fifty-two members, a senior and junior member from each of the twenty-six national fraternities, to twenty-six members, each fraternity having one representative. Dean J. E. Foster, Dean of Men, and Dean R. E. Buchanan, Dean of the Graduate College, are faculty representative members on the council.

Top row: Winslow, Copeland, Faust, Wiggins, Davidson, Strayer.

The AA Fraternity, a local honorary athletic fraternity, was founded in an early period of the existence of Iowa State for the purpose of raising the standards of athletics at this school. During its existence on the campus it has been an active and very effective organization in promoting and developing athletic interests. All men who have won the Honor "A" and are in the senior college are eligible for membership in this organization. The aim of the fraternity is to support athletics in all possible ways and to urge the students to take part in inter-collegiate contests and to encourage athletic men to choose Iowa State as their college.

Gamma Sigma Delta is the Honorary Society of Agriculture. The organization was founded in 1905 at the Ohio State University. The Iowa State College Chapter was installed in 1907 and has taken a leading part in the affairs of the National organization since that time.

The purpose of Gamma Sigma Delta is to encourage high standards of scholarship in all branches of Agricultural Science and Education. Students are elected to membership from the graduating and post-graduate classes who have shown exceptional ability during their undergraduate or graduate work. Faculty members are also elected to membership, who have rendered signal service to the cause of Agricultural development.

Each year the society awards a trophy to the Freshman student in Agriculture ranking highest in scholarship during his first three quarters' work.

The Order of the Goslings was founded on the Iowa State campus April 14, 1922, in order to promote a better Green Gander, the college humorous magazine. Its membership is limited to the staff of the Green Gander, and anyone to be eligible for membership in the order shall have contributed editorial copy to two issues of the Gander, or shall have worked on three issues of the art or business staff.

There is but one officer in the Order of the Goslings and that is the Grand Gander, who is the editor of the Green Gander.

Since the organization of the Order of the Goslings, the chapter has grown steadily each year until Goslings now number over 100 active and alumni members who have contributed faithfully to the columns of Green Gander.

National Collegiate Players was formed by the union of the Associated University Players and Pi Epsilon Delta, two national dramatic organizations. The local dramatic club, the Masqued Players, was installed as Iowa State Chapter of National Collegiate Players, 1924.

The purposes of the National Collegiate Players are to affiliate closely the college groups which are working for the betterment of the drama in their own institutions and so in America; to stand as a collegiate unit in all nation-wide dramatic movements; to raise dramatic standards and to further dramatic activity in the community. Members are chosen from both the cast and producing staff of the campus theatricals. Experience and excellence of the work done are considered in selecting members.

Phi Kappa Phi was established to provide for an honor society dedicated to the unity and democracy of education open to honor students of all departments of American Universities and colleges. Its prime object is to emphasize scholarship, the character in the thought of college students, to hold fast to the original purpose for which institutions of learning were founded, and to stimulate mental achievement by the prize of membership. Members are chosen from the upper one-fifth of the graduating class and from the graduate school upon departmental recommendations.

This fraternity, which is commonly called Sinfonia, was organized October 6, 1898, at the New England Conservatory of Music by Oscar E. Mills and thirteen associates. Its organization at first was that of a club, but in 1900 it was determined to expand and form a regular college fraternity in musical schools of approved excellency.

In 1920 eight outstanding members of the Iowa State College Band formed the Beta Mu organization and in 1922 Beta Mu was granted a chapter in Phi Mu Alpha, Sinfonia fraternity. The purpose of this organization is to promote and stimulate interest in musical activities which will prove beneficial to college activities in general. Its members are chosen from the various musical organizations on the campus.

Top row: L. W. Patterson, H. W. Barlow, W. A. Dury, R. McMullen, S. A. Eyers.
Second row: H. Davidson, A. M. Baker, W. H. Davidson, A. Schrieker, R. LeBuhn.

Scabbard and Blade, a national honorary military fraternity, was founded in 1905 at the University of Wisconsin. In these past twenty years it has grown until now it includes over sixty chapters in almost every state in the Union. The local chapter became national in 1915, and has seen active service since that time. The membership is restricted to those men taking advanced Military in the institution, and who have shown exceptional qualities of leadership and command so necessary to a successful soldier. The purpose, as stated in the preamble of the Constitution, is to develop those qualities which go to make good and efficient officers, and, above all, citizens who can take their rightful place in the affairs of the community in which they may reside.

Top row: E. Whitney, L. Thompson, C. Bloom, H. Sinnard, C. Norton, F. Adams, M. Haines, J. Pearson, J. Benson.

In 1902 a group of twenty six-footers, all members of national fraternities, organized a social fraternity and called it T. L. B. It was founded for the purpose of creating better fellowship among members of certain national fraternities on the campus and is the only organization of its kind that has been permanently fixed on the Iowa State campus. The requirements for membership are that the candidate be six feet tall and that he be active and well liked on the campus.

Pi Gamma Mu was founded at Winfield, Kansas, in 1924. The local chapter was installed in the spring of 1925 as Iowa Alpha, with Dr. John E. Brindley acting as president. Membership is composed of students of the social sciences elected on a basis of scholarship and general qualifications. Thirty quarter hours with an average grade of at least eighty-five per cent in economics, history and sociology are the scholarship qualifications. The local society holds meetings monthly and discusses subjects of interest in the field of social sciences.

Top row: Benedict, Lindsey, Brindley, Bjorka, Hopkins.
Second row: Sanders, Robotka, Cooley, Shepherd, Mighell.

Sigma Upsilon was founded in 1906 by the federation of four southern literary clubs: Calumet of Vanderbilt University, Sopherim of University of the South, Osiris of Randolph-Macon College, and Senior Round Table of University of Georgia. These have been added to until there are now thirty-three active chapters. Sigma Upsilon conducts a national short-story contest every year. The national organization publishes monthly the Sigma Upsilon News-Letter.

A group of students and faculty members who were publishing the first series of the "Ames Narratives" formed Kappa Lambda Alpha, the local chapter, in March, 1924. Kappa Lambda Alpha became the twenty-ninth chapter of Sigma Upsilon in June, 1924. Its members are chosen from those who have done excellent work in English and who have shown marked ability in story writing. Its active membership is limited to twelve students, with faculty associate members. Its purpose is to encourage creative literary work and especially the writing of narratives of rural life, and to assist in publishing from time to time in book form, short stories of the Middle West.

The organization was founded during a convention of the National Brick Manufacturers' Association in 1898. It was founded for the purpose of studying ceramics from a scientific standpoint, and to increase a student's technical ability along ceramic lines. A banquet is given at the beginning of each school year, the purpose of which is to introduce the new students, and to create a better fellowship between the faculty and the students.

American Institute of Electrical Engineers

OFFICERS

P. E. BANNER.....	<i>President</i>
CLETUS REILLY.....	<i>Vice President</i>
H. J. BIDDULPH.....	<i>Secretary-Treasurer</i>

A. I. E. E. is a nationwide professional society for Electrical Engineers. It is composed of engineers who have had varied experience and training and who hold ranks accordingly. These are Fellow, Member, Associate and Student Member. The last one only is open to students and then only to those taking the regular four-year course. Enrollment in the national organization is the only entrance requirement. The student or college branch hold technical meetings that will be of general interest.

MEMBERS

American Society of Civil Engineers

OFFICERS

JOHN W. HAXBY.....	<i>President</i>
JAMES G. CAMPBELL.....	<i>Vice President</i>
E. R. ADLAND.....	<i>Secretary</i>
PERCY H. FAGEN.....	<i>Treasurer</i>

All above officers hold for one year.

The Civil Engineering society was organized in the fall of 1910, having for its object, the rejuvenation of the old junior and senior seminars which were gradually losing their popularity and value. It was felt that more good could be obtained from addresses by prominent engineers than was being derived from student papers presented before the old seminars. Since the society has been organized, it has instigated and sponsored many divisional activities besides carrying out the purpose for which it was founded.

The Civils were the first to adopt a distinctive shirt and insignia, worn only by juniors and seniors as a recognition mark of the department. This custom has been followed for sixteen years and in the past few years it has spread to other departments of the college.

The Chemical Engineering Society was founded at Iowa State College in the fall of 1918 by a group of seniors. The purpose of the organization is to promote loyalty, co-operation and fellowship among the Chemical Engineering students. The meetings of the society are held twice a month, at which times programs are presented by the students, or a lecture given by some outside specialist. These meetings serve to further acquaintance between the different classes and enable the planning of departmental activities. All students of Chemical Engineering are eligible to membership.

The Cosmopolitan Club of Iowa State College is one Chapter of the National Associations of Cosmopolitan Clubs of America. The purpose of the Club is to foster and promote friendship among all nations of the world. The members of the Club are composed of the students of all nationalities regardless of race, creed, or political affiliation, and also the faculty members sympathizing with the ideals and principles embodied in the constitution of the Club. There is no definite limit to the American members of the Club. The past history shows that about 47 per cent of regular members are composed of Americans.

The Club has its meetings weekly each Wednesday, 6:45 P. M., at Alumni Hall. The program contains a variety of subjects most part of which are devoted to international problems. Both students and faculty members take part in the presentations and discussions of the topics.

One of the important features in the year's activity is the "Cosmopolitan Night" given sometime during the Winter Quarter.

The group is an aggregation of the three clubs, which met together once each week during the winter quarter of 1926. At these meetings rural home and community problems and pleasures were discussed by able speakers either from the Iowa State faculty or from outside sources of talent. The group had its own symphony orchestra, which during three months' practice displayed fine possibilities by furnishing real music on several occasions.

Interclub athletics was part of the winter's program.

The Dairy Club is an organization of students and faculty united for the good of all. It was founded at Iowa State College in 1909, at that time the only one in the country. The club has done much to tie the faculty and students together and give them a common ground where they meet and discuss their problems.

Departmental

OFFICERS

ROBERT C. BARKER.....	<i>President</i>
WALTER H. SOGARD.....	<i>Vice President</i>
MARJORIE A. NAFFZIGER.....	<i>Secretary</i>
EDGAR J. MURPHY.....	<i>Treasurer</i>

The Industrial Science Club was organized in the Spring of 1919 under the supervision of Dean Beyer. Its purpose is to secure cooperation between the students and faculty in the promotion of divisional spirit and activity. To sponsor a proper degree of good fellowship, the Club holds an annual Barbecue in the Fall, and a Winter Frolic. Loyalty to both the College and the Division is the ultimate aim of the organization.

Manual Arts Club

OFFICERS

CLARK CLOSE.....	<i>President</i>
ADER KLAAREN.....	<i>Vice President</i>
GRANT COOPER.....	<i>Secretary</i>
FRANCIS VESEY.....	<i>Treasurer</i>

The Manual Arts Club was organized on the campus during the winter quarter of 1926. The purpose of the organization is to promote a closer professional consciousness among students, alumni, and teachers of Iowa State College who are interested in the teaching of manual arts.

The society is non-departmental and welcomes as members all students, alumni and faculty of Iowa State College who have taken work in preparation for the teaching of industrial arts subjects.

The need for such a club is shown by the fact that it already has over forty members and has been organized only one month.

Top row: McIntire, Clausen, Hauxwith, Aden, Lund, Close, Mefford, Refle, Hewlet, Elston, Hill, Olsen, Ellerman.

This club is a consolidation of the Rural Sociology and Agricultural Economics clubs of former years. It is open to all students, graduate students and faculty of the agricultural economics division and all are encouraged to attend meetings.

The purpose of the club is to create a better acquaintance of students with each other and with their faculty, to foster a bond of fellowship between students and faculty who have ideas in common, and to make a point of contact with a different complexion from that gained in the classroom.

Top row: Bare, Schmidt, Holmes, McMullen, Wagenbreth, Cahill.

The purpose of the Trades and Industries society is to promote a higher scholastic standard and a closer relationship between the faculty and students. Social entertainments and mixers are given to encourage a better feeling toward each other and Iowa State College. The departmental exhibits for Veishea and similar events are promoted and supervised by the society. A spirit of loyalty and cooperation is developed by the society in its meetings and the new members are made to feel at home. New students are encouraged to bring their troubles to the society and are helped to get the proper stride to keep up with college work and life.

The Philomathean Literary Society, organized in 1868, was the first society of its kind to be organized at I. S. C., and has been in the foreground ever since. The value of literary training as an asset in life's work cannot be overemphasized in fitting one for the various duties of life.

The Young Men's Christian Association was organized in 1844 by George Williams and a small number of clerks in a clothing store in London. The first national convention of the association in this country was held in 1854.

Records show that there were voluntary religious organizations in colleges as far back as 1706. In 1858 the University of Virginia organized the first student Y. M. C. A. During the next twenty years close to seventy colleges organized Y. M. C. A.'s without connection with each other or with the national organization. These student associations were united and made a part of the International Young Men's Christian Association in 1877. The local association was organized in 1890.

The primary purpose of the Iowa State College Y. M. C. A. is to develop Christian ideals and practices in the lives of men and the college as a whole. Its membership is limited to students and faculty.

The Ames Luther League was first organized at Iowa State in the fall of 1914. At that time about fifteen members felt the need of such an organization on the campus; and since then, the growth has continued, until at present, about a hundred members are included in the membership. The primary object is to promote a spirit of Christian Fellowship among the Lutheran young people of Iowa State. This is accomplished by having regular Sunday evening meetings in the parlors of the Ames Lutheran Church.

The local league forms an integral part of the national organization, the Lutheran Student Association of America, which publishes a monthly as evidence of its progress, "The Big Inkwell."

The Baptist Student Group includes all of the Baptist students in college. Students are given an opportunity to attend church and to take an active part in its work. The pastor and Church are here to serve and every student is urged to make his church home with this group while here in Ames. The program includes both religious and social events. Every opportunity is given for the student to train himself along the lines of church work. He may take part in discussions, lead group meetings, teach in the church school or work on one or more of many committees. The objective of the entire work is to so instruct and train the members that they may grow as fast spiritually as they grow mentally while in college.

National Bethany Circle is an organization composed of Christian Church girls of state colleges and universities, first organized in 1911 at Champaign, Illinois. The purpose of the organization is to establish and maintain a friendly relationship among Christian Church girls and interest them in church and college activities. Eta Chapter, an outgrowth of the local Tilicum Club, received its charter in May, 1925.

Frisbie Fellowship is an organization which includes all Congregational Students in attendance at Iowa State College. Frisbie House is maintained by the Iowa State Conference of Congregational Churches as an activity center for the work. The Reverend Henry K. Hawley is in charge of the work, and W. Norris Wentworth is his associate. A group of students, the cabinet, consisting of the officers and chairmen of standing committees controls the religious and social activities of the organization. The program includes Sunday morning classes, Sunday evening discussions, and various social affairs during the year.

The Wesley Players, Beta Chapter, was organized in the fall of 1923. This organization is made up of college young people interested in dramatics and play production. The aim and purpose of Wesley Players is to promote the proper and legitimate interest in the drama as it relates to the educational and religious life of the Methodist Episcopal Church. Some of the major plays produced have been "The Servant in the House," "The Rock," "Passing of the Third Floor Back," and "The Goose Hangs High." Besides the above mentioned three-act plays, "The Gift" and several other one-act plays have been given for various entertainments and services.

Apology

Ye who occupied the upper
firmament with bloated brains
and nurtured intellect, fall back
with us to the depths and iniqui-
ties of your inner soul, and suf-
fer with other immortals warm.
If we witticism concerning you,
cringe not nor strike back, but
forgive and accept our apology.
We lowly bow before the faculty
and student body to humbly beg
our lives be spared.

K. F. M.

Dedication

Agengec declares that women are the salt of the earth; they drive so many men to drink.

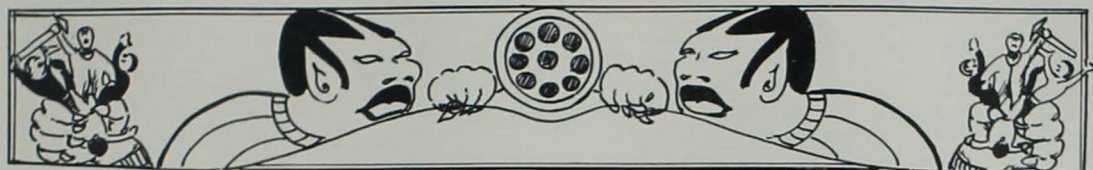

ALTHOUGH those whose cerebellum is so compressed and compact that they cannot apprehend the true significance of the following caricatures and "by-products," and whose esteem and amicable companionship we might forfeit by this chapter of atrocity, this section is reverentially dedicated. If any man object, let him now come forward, or forever hold his peace.

After seven years of Bible History study, we herewith offer our feeble attempt at the ludicrous. "Cast your bread upon the waters, for in several days it shall return." But in "casting" these fruits of our mighty labors, we sincerely pray that it shall ne'er seek its return.

If people for whom you show no marked affection, and some of your personal foes, are ridiculed herein, do not hesitate to burst forth with merriment. But—if some obnoxious missile is thrown at you or your friends—well, that's different. *1/4@(%4?!!\$e& (static).

(Half hour later). We wish at this opportune moment, to introduce our amplified mouthed radio announcer, "Agengec." He is the most notorious, cussed and discussed, wavy-lengthed radio announcer of the modern age. During his past forty years as wireless crier, he has discovered that Morley earphones can be connected to the set, thus enabling all deaf people to enjoy the many wonders of the radio.

Station B-U-N-K signing off at 193° Absolute.

"Double A" Fraternity

(Ames Always)

Agenciee says: "You may be a flat tire, a heavy date, a good mixer, and an intellectual imbecile; but to remain long at the cowlege you must be affiliated with the powers that be, or just plain dumb."

Regular Meeting of Interfraternity Council

Agencee says: "These council meetings are similar to those they used to hold on the banks of the Mississippi; three and twenty redskins and five kegs of beer, with 'Chief Rain-in-the-Face' trying to cheer up the party against the protest of old 'Sitting Bull.'"

Place—Y. M. C. A.

Time—7:30 P. M.

April Fool's Day.

Meeting called to order by President McCracken.

Roll call—all present except:
Bud Rietveld,
Dave Ainsworth,
Russ Meyers.

Minutes of last meeting read and hashed over, and after much argument McCracken and Winslow decide the minutes have been read.

Report of Finance Committee:

March 20—Chewing tobacco.....	\$.10 by McCracken
March 21—Chewing tobacco.....	.10 by McCracken
March 22—Chewing tobacco.....	.10 by McCracken
March 25—Chewing tobacco.....	.10 by McCracken

Dean Buchanan moves that above bills be paid by Herman Knapp.

McCracken submits budget for appropriation for "spittin' wax" for remainder of quarter.

New Business:

McCracken gives detailed report of National Interfraternity Council meeting held in New York. Everyone awakened by Dean Buchanan's snoring. Moved by McCracken that \$5 be appropriated for chewing tobacco for summer months.

Door opens and Dean Foster staggers in. General shifting of posture by all members. Moved by Winslow, seconded by some other dummy, that words "At roll call be added to the absence clause." During the lengthy discussion, Metcalf butts in and presents a new scheme to give students \$20 worth of athletic tickets for \$2. (Amount saved by student—\$18). Everyone senses big profit for student and moves adoption.

Lanthus requests Council approve its petition of Farmhouse (National Farmhouse Fraternity). Rietveld lets out a big squawk and says he believes there are too many farmers at large here under present conditions. (Noise at door).

McCracken goes to the door and helps Dave Ainsworth and Russ Meyers find a seat. (Hic!)

Winslow dramatically rises to his feet and discloses novel scheme to collect blanket tax. Sheller moves for adjournment. No second.

Council finally decides that Winslow's scheme would work if the tax collector were allowed to carry a gun. Sheller moves for adjournment. (No response).

Woodland, Reynolds and Pierce ask to be excused to take a drink (water). Sheller moves for adjournment. (Pin drops).

Meyers rises to feet; talks for 10 minutes and says nothing. Winslow enlarges upon it. (McCracken moves spittoon closer).

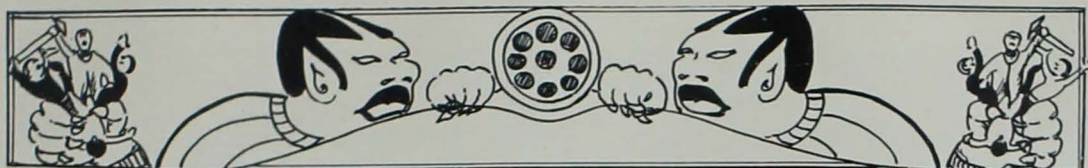

Conger moves that Council subscribe for Iowa Homemaker, and that track team be sent to Texas relays at U. of Texas. Before first vote taken, Winslow asks where relays will be held.

Moved by Russ Meyers that a recess be taken at each meeting in order that those wishing to take a drink (water) might do so. Reynolds and Sinnard have heated argument as to who would second the motion. Motion lost for want of second.

Motion made by Grundman that "Ping-Pong" be added to intramural sports. Seconded by Greer. After 3 hrs. discussion, the Council finally decides that the game would cause too much antagonism among the organizations on the campus.

McCracken wakes up and immediately appoints a committee, composed of Dean Buchanan, Dean Foster and Metcalf, to draw up a set of eligibility rules.

Meeting adjourned at sunrise.

"Yes Sir! That's My Baby"

Agencee quotes, "The late music numbers are like the results from our baseball team, which, with the new lines, there are few sage hits any more."

A one-act play, entitled "Why Chuck Norton and Marg Macy Were Married." This play is to be broadcast over B-U-N-K at some future date.

"She Was Just a Sailor's Sweetheart," but he took "Just a Little Drink" too many, which made him "Smile a Little Bit" too often at the wrong girl.

She got "Angry" and said, "I Had Someone Else Before I Had You, And—."

"Ah-ha," he cried, "So That's the Kind of a Girl You Are." Since you are so "Funny," "Remember" that in the future I'll be "Paddlin' Madeline Home." They separated and "Swallowed the Follows Back Home."

Now it happened that shortly before this, "The Pal That I Loved, Stole the Gal That I Loved." "She Was Very Dear to Me," therefore I was "Lonesome as the Lonesome Moon," when "All Alone."

One evening I was on the "Back Porch" "Feedin' the Kity," when I heard someone "Sobbin'" "Down in Our Alley." I stepped "Just Around the Corner" and beheld a girl "Pretty as a Picture," who reminded me of the "Radio Lady O'Mine." Immediately I was "Knee Deep in Daisies and Head Over Heels in Love."

"Save Your Sorrows" and "Let Me Call You Sweetheart," I said as I took her in my arms.

She became all "Smiles" at once, and "For One Fleeting Hour" she was my "Sweet Child," and I was her "Sweet Man."

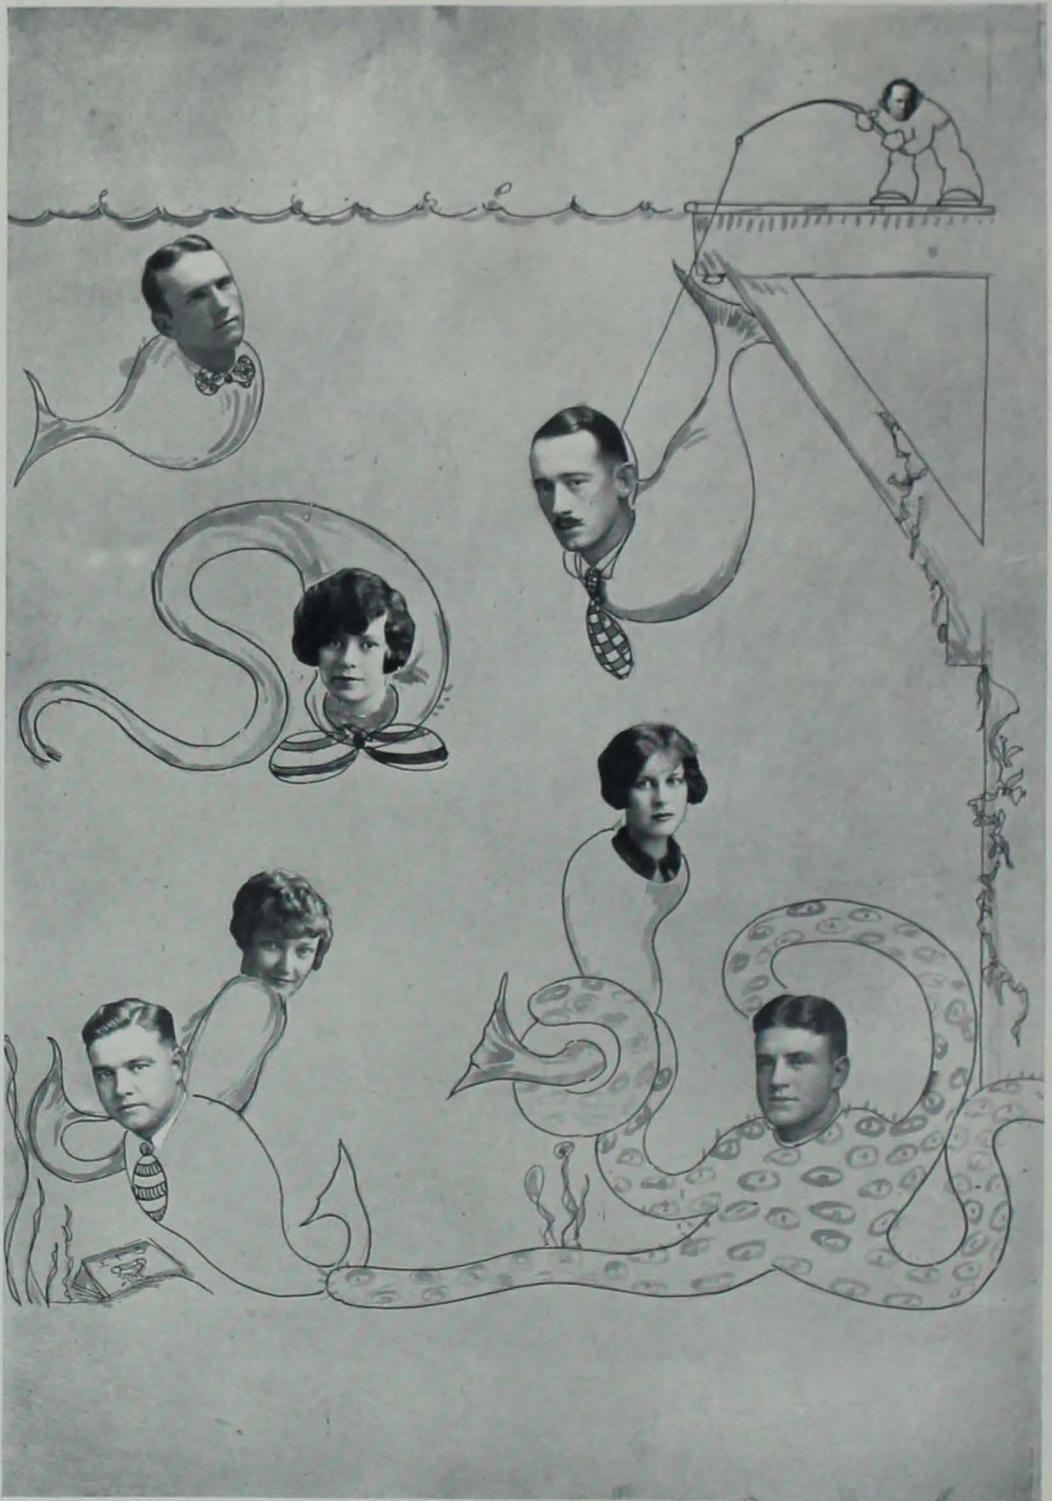

"Well," I thought, "I'm Sittin' on Top of the World," but I soon perceived that she was a "Sleepy Time Gal," so I took her home.

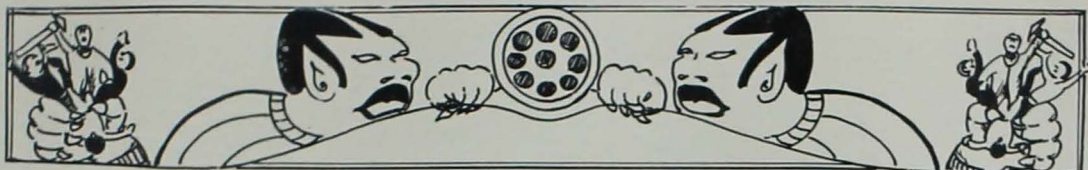

All too soon came "That Certain Parting."

"When Shall We Meet Again?" I asked.

"Tomorrow" evening," she replied. "When the "Minnesota Moon" shows "At the End of the Road," I'll meet you "Down by the Vinegar Woiks." Now, "Kiss Me Good Night," and "I'll See You in My Dreams."

"Such Is Life," but "It's Great to Be Married."

The New Suit

Agengce prattles: "Some people are notably born, some attain fame and fortune by divers means, while others merely have publicity thrust upon them."

In 1492 there lived in the abode of the Fi Dealt brethren, a rascal who answered to the call of "Sweet" Gord. And it came to pass that this aforementioned biped received a job, by which he was to inveigle the innocent Agri-colae to sell him their condensed and fresh milk.

And one balmy day, this wise man saith unto himself, "For such a lowly occupation, I think I shall take unto myself a cheap garment to don when I interview these countrymen."

And no sooner did he think, than he began to act. He hopped the 20th Century Limited, which left the campus every month, and rode into the city of Aims. Whereat, he stopped at the Faire store, and saith unto Stevie, "I desire an inferior sort of robe and jacket. It must be darned cheap!"

Stevie answered, "I must first have the dimensions of your carcass." Thus saying, he pulled out an engineer's chain and did surround Gord's frame with it, muttering all the while to himself, "38 cubits wide, 28 cubits long, and 47 cubits thick."

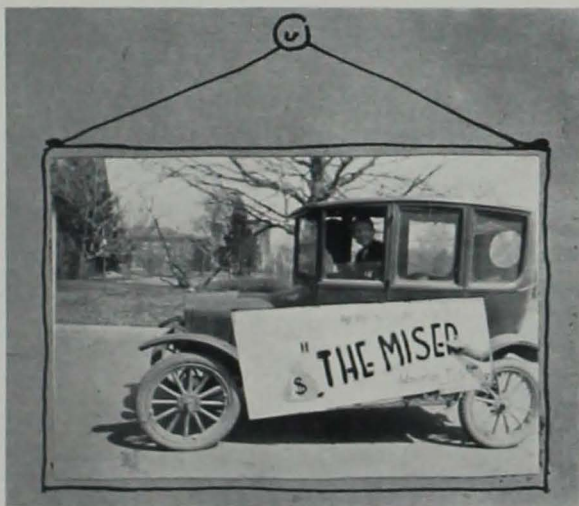

Then Stevie drew forth a booke, with many pieces of clothe adhering to the pages. And upon turning the pages, "Sweet" beheld a charming bit of burlap, guaranteed all cotton excepting the stripes.

He then inquired the price, and Stevie answered, "To obtain this suite, ye shall be required to forfeit seventeen and three-fourths shekels. However, two pairs of pantaloons will be furnished with the outfit." Whereat, "Sweet" rubbed his hands with great satisfaction, and assented unto the bargain.

A month later "Sweet" returned to the trading post, wildly exclaiming, "This suite has not given satisfaction! Already it looks rusty!"

Whereupon Stevie smilingly answered, "Did I not tell you that it would wear like iron?"

This ends the little play which actually happened in the first part of the spring quarter. AND YOU SHOULD SEE THE WAY THE "SUITE" FITS!!

RED HOT HENRY BROWN

REVUE

"Pogie"—What beautiful scallops you have on your pies, Mandy! How do you do it?

Pi Phi cook—"Deed, honey, dat ain't no trouble. Ah just uses mah false teeth.

Prof. Ross—Mr. Churchill, who were the Four Horsemen?

"Bill"—They were Paul Revere, Theodore Roosevelt, Jesse James, and Barney Google.

A man is but a worm of the dust—he comes along, wiggles around a while and finally some chicken gets him.

Bob Luck was applying for a job as assistant line-man for the B-U-N-K radio station.

"Are you a clock-watcher?" asked the employer.

"No, I don't like inside work," replied Bob. "I'm a whistle-listener."

The new musical comedy came to Ames. The bill-boards read:

"50 Beautiful Girls; 45 Gorgeous Costumes."

Three students were killed and several dozen horribly mangled in the rush at the opening performance.

NONSENSE RHYMES

RECOMPENSE

I sent my love a flaming book,
She sent it back again.
She had reformed (but read it first).
What could a guy do then?

I sent my love a singing bird,
She said she didn't need it,
The poor thing died because, you see,
My love forgot to feed it.

I sent my love a silver ring
In hopes she'd be my mate,
And I shall see my love again
Tomorrow eve at eight.

This is "Chick" Helming, and what do I hear?
That he lived on nothing but pretzels and beer;
Pretzels and beer were the chief of his diet,
Yet this "Chick" Helming could never keep quiet.

Little Pop Sheller
Sat in the cellar,
Eating an Eskimo pie;
He put in his thumb
And pulled out a plum
And said, "What a good boy am I!"

233 EAST HALL PSALM

My roomie is the bane of my existence,
She maketh me to lie for her absences,
She leadeth me to take care of her "cousins,"
She never restoreth my face powder;
My rouge cup is empty;
She prepareth a lesson for me to get
In the presence of my own exams;
Surely next fall shall find me with a new roomie,
Or I shall dwell in another hall altogether.

Old Mother Hubbard went to the receptacle for nourishment

To get her poor dog an osseous tidbit.

When she got there the cupboard was entirely denuded
of its contents,

And so the poor doggie got the opposite of any.

HERE COMES CHARLIE
By ~ CHUCK COWNIE

THE COLLEGE

The Iowa State College of Agriculture and Mechanic Arts conducts work along five major lines:

AGRICULTURE	INDUSTRIAL SCIENCE
ENGINEERING	HOME ECONOMICS
VETERINARY MEDICINE	

The graduate division conducts advanced research and instruction along all these five lines.

Four, five and six-year collegiate courses are offered in different divisions of the College. Non-collegiate courses are offered in agriculture, home economics and trade and industries. Summer sessions include graduate, collegiate and non-collegiate work. Short courses are offered in the winter.

Extension courses are conducted at various points throughout the state.

Research is conducted in the Agricultural and Engineering Experiment stations and in the Veterinary research laboratory.

Special announcements of the different branches of the work are supplied, free of charge, on application.

Address the Registrar,
Ames, Iowa.

Campus Notables

The kind you don't read about and never meet in classes

"RED" HARDING

"Red" Harding shall always appear in the smartest attire, a model man, well modeled. A "Harding" label on every garment is the Pi Kap cry as they go out to promenade.

"BILL" DUNKLE

"Bill," the bovine bouncing entertainer, when not trailing the winsome Pi Phi's within the varsity ballroom, may be found chauffeuring for the Gamma Phi's in "Sigma Nuts" fine town cars.

"SQUEAK" GORD

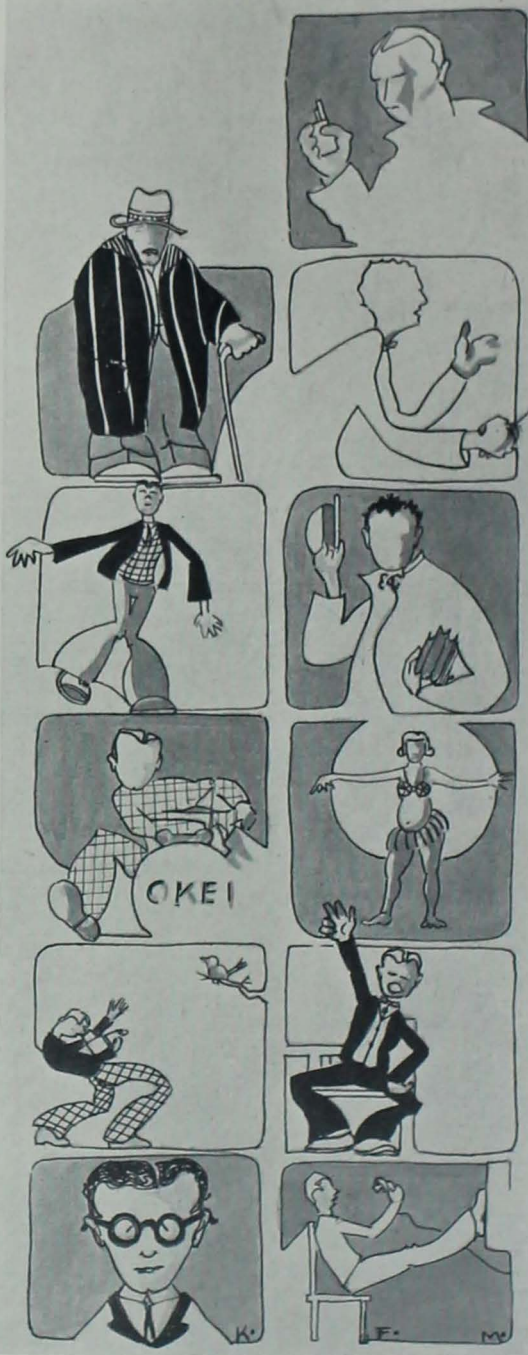

"Squeak" is a dairyman, but he just loves music. Perhaps it's because he believes playing the drums is so simple.

"CHUCK" NORTON

"Snapshot Pete," always on the jump, a really clever photographer. Since Norton drives a Ford, the elusive coded must try all the harder to prevent an over-exposure. "See the Birdie!"

GEORGE WESCOTT

"Georgie," our college intellectual, is not seen so much because he is about to do so much, but anon Prof. Spinney shall have to help along to keep the name of Wescott from the new Physics text.

"HIPPO" VAUGHN

"Hippo" is the great commercial artist. With the opening of the baseball season, a great rise in "Beechnut" sales has been reported. A natural business instinct caused Mr. Vaughn to join the A. T. O. boys, and thus be close to Senior McCracken, the great spitsman. A good boy in his own environment.

"CHUCK" COWNIE

"Chuck," the college "hand shaker," has pulled more strings than the last six consecutive campanile ringers. A gatherer of the great potential sorority vote, but perhaps that is only due to close family connections to the rawhide business and kid glove dealings.

"MONTE" REYNOLDS

"Monte," our famous ladies' man, trips the light fantastic for the S. A. E. (Sleep and Eat) house. He is also the Ag representative to the Cow Guills.

"JIMMY" GRAHAM

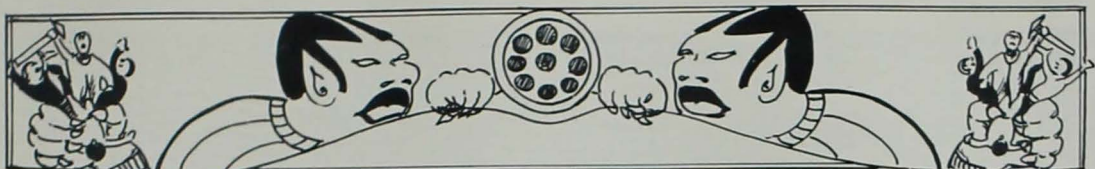

"Jimmy" admits, shyly, that he does vampire roles best. A very reticent, retiring fellow, retiring all opposition in his very varied activities. May the name of Graham be on every pledge's lips as they acclaim, "We are from Beta Theta Pi."

CLYDE MCBROOM

Clyde is a worthy asset to the student governing body. As a "second-the-motion" boy, his tonsorial invigorations are a good example of the school spirit what used to was. A good reason for political reforms.

"LOUIE" THOMPSON

"Louie," our champion line feeder, is at present engaged in weighty (wait-he) discourse with the Delta Delta Delta tribe. Thompson should vie with the Northwestern Bell or our negress laundry woman, due to the line he pulls.

Electricity

Agengec cries: "E. E. is a good course, but wise people know just enough about electricity to leave it alone."

HOW TO HANDLE A WOMAN ELECTRICALLY

When a woman is bored.....	Exciter
If she gets too excited.....	Controller
If she won't come when you want her to.....	Coaxer
If she is willing to come half way.....	Meter
If she is willing to come all the way.....	Receiver
When she gets there.....	Oscillator
If she was too fast to stop.....	Dispatcher
If she is an angel.....	Transformer
If she is a devil.....	Converter
If she tries to double-cross you.....	Detector
If she proves your fears are wrong.....	Compensater
If your fears are right.....	Arrester
If she goes to pieces.....	Coherer
If she goes up in the air.....	Condenser
If she is hungry.....	Feeder
If she sings poorly.....	Tuner
If she gets cold.....	Heater
If she gets too hot.....	Cooler
If she is a "nice" girl.....	Shocker
If you have one just like her.....	Alternater
If she is too fat.....	Reducer
If she fumes and sputters.....	Insulator
If she becomes upset.....	Reverser
And when you get tired of her.....	ELECTROCUTER

This Book Is Bound in a BECKTOLD COVER

The Modern Cover for All Types of Books

Although of comparatively recent origin, the Becktold Cover has achieved widespread use. The exceptional manner in which it combines beauty and adaptability with permanence and economy have marked it as the ideal binding not only for college annuals, but for all printed works on which a durable and attractive cover is needed.

Becktold Cover presents an almost unlimited range of colors and color-combinations. It is unfailingly and lastingly rich in texture, and it can always be embossed in a design appropriate to the particular book.

We shall be glad to supply sample covers and to make suggestions regarding the use of Becktold Cover on any sort of volume.

Fur Storage

WE WILL collect and store your furs during the summer months and deliver them in Ames, any time, at your request.

The cost will be 3 per cent of the declared valuation on dyed furs and 4 per cent on natural.

Roch Bros. Ice and Cold Storage Co. has constructed a room for this purpose, which meets all the requirements of modern fur storage practice. Guaranteeing against theft, fire and moth.

The United States Bureau of Standards recommends that furs be cleaned and sealed in an air-tight bag before placing in storage. Our dry cleaning department is equipped to render this service according to the formula given out by the Bureau of Standards, at a small additional cost.

WOMAN

The dearest, sweetest gift to man
That nature ever gave,
His comforter and worshiper,
His angel and his slave;
She's sunlight, starlight, moonlight,
She's music, flower and song,
And every faith, and hope and love
And joy to her belong,
And every beauty rare and grace
Around her, joyous, throng.
She's nature's masterpiece and pride
And art's divinity beside,
And naught in all creation wide
So constant, sure and true;
But who on earth or who in h—
Or even in Heaven itself can tell
Just when she's going to take a spell
Or what she's going to do?

Built Upon Confidence

CONFIDENCE is the foundation upon which every successful banking institution has been built, and without which it would cease to exist. Confidence in the officers and directors—faith in their business ability and integrity—belief in the careful and accurate methods used in handling of detail—all these are priceless assets to any banking institution.

And it is upon this firm foundation of the long established confidence of its customers that the AMES NATIONAL BANK has progressed. Now as always this bank stands ready to serve you.

CHICAGO

WHEN IN CHICAGO MAKE OUR OFFICE YOUR HEADQUARTERS

We are ex-farmers and can talk of **your** problems in **your** terms. Perhaps it is this that has enabled us to build up one of the best live stock commission firms in Chicago.

Just a few years ago if anyone had gone through the country talking agricultural colleges and the great benefit that they might be to the farmer, he would have been in danger. If he had not been taken by a mob, he would have been told in strong terms a few ideas that existed in the farmers' minds at that time. The times have changed, however, and you will find few farmers who will not say that agricultural schools have been of great benefit to the farmers everywhere. You can take any man well-informed relative to agricultural colleges and whether he lives in Iowa or not, he always speaks highly of Iowa State College. Boys and girls go out from Ames as good representatives and are always loud in their praise of what they have learned while attending this wonderful institution. It has taken time and money to develop the Iowa State College, but it has just begun in our opinion.

Russ Paul informed Mervyl that he was sending her a rose for every year of her age.

To the florist he gave the order to send her a dozen and a half of the finest red roses he could procure.

"He is a good customer," remarked Olsan to his clerk, "so put in an extra half-dozen."

The engagement was broken off.

* * *

"Hank" Grundman, in barber shop: "Are you the man who cut my hair last time?"

Barber: "I don't think so, sir. I've only been here six months."

* * *

Two doctors were once discussing their various patients and their afflictions. One doctor said, "I had a very queer case the other day. A man came for treatment of cross-eyes. He was so cross-eyed that when he cried the tears ran down his back."

The second doctor asked, "What did you treat him for?"

The first doctor replied, "Bacteria."

EARL V. FISHER

A Complete Protection Policy The New York Life Insurance Company

These terms are synonymous. The last word in Life Insurance is now being written by the **New York Life**, the biggest, strongest company of the kind in the world.

It guarantees an income for old age if you live, an income for life if you become totally disabled, and a life income to your loved ones if you die before your time, or double that amount if killed by accident, all this combined in one policy, for both men and women.

Every college student needs at least some protection. But the man graduating and starting in life, needs to plan his financial structure and then provide protection for that amount in case death or ill health overtakes him. In that case the structure is completed.

Mr. Earl V. Fisher is a specialist in Life Insurance, and will be glad to advise with you as to what is best.

If you investigate the **New York Life** before you buy, you will buy **New York Life**.

In Parting

WE HAVE tried to make this, the thirty-third volume of the BOMB, truly representative of Iowa State College. We have tried to make it as typographically correct as possible, as well as complete.

We hope that even though some of the sections may displease you, some mistakes cause you momentary chagrin, or there are some omissions which you consider inexcusable; yet if you are pleased with it as a whole, if the changes have improved it in some ways, and if the good results surmount the blunders, then we have fulfilled our mission.

The members of the Staff have been loyal in their work, and have spent many a sleepless night and many a long day in the office, compiling the copy. Sometimes neglecting studies, that you might have a more representative book. It has indeed been a privilege and a pleasant task to edit and build this BOMB with such a staff.

HERBERT SINNARD, *Editor.*
