THE MEMORY BOOK OF
IOWA STATE
FOR THE YEARS
1923 AND 1924

IOWA STATE
AMES IA
COLLEGE LIBRARY

DEDICATION

This BOMB of 1925 is dedicated to the *Spirit of Iowa State,* that noble and powerful force which permeates the very depths of every turn and walk of our college life, which musters in us the will to do greater and better things and to maintain loftier ideals.

This *Spirit* in its elements is:

The Spirit of Democracy on the Campus. A spirit which teaches us to abhor class distinction, a spirit which makes each instructor a co-worker with every student who honestly seeks instruction.

The Spirit of Love for Our Alma Mater. A spirit which may be exemplified best in our fighting teams, and in our well supported student activities.

The Spirit of Our Alumni. A spirit which stimulates undying love for Iowa State, and keeps ever fresh in their vision, memories of their college days.

The Spirit of Our State, which has come forward so nobly each year to build for us a campus, second to none in its scope; a campus that we will always hold dear both for the opportunities it offers and for the memories it recalls.

FOREWORD

Friendship is one of the deepest truths of life. The greatest possible achievement of four years in college is the completion of lasting comradeships. If, in years to come, the perusal of this book calls back the memories of pleasant hours, the '25 BOMB Staff will not regard their efforts in compiling this book, as vain.

The staff is deeply grateful for the privilege of presenting to the student body of Iowa State, the BOMB of 1925. Conscious as we are of its inadequacies, we hope and believe that, when its pages have mellowed with years, it will stand before us as a lasting memorial to friendships founded here.

Fight Ames fight, fight Ames fight
Fight for Ames with all your might,
For the glory of old I. S. C.
Swing along, sing a song,
With a spirit big and strong
And our fighters will win victory.

For its fight, fight, fight,
For the good old I. S. C.
Winning great glory and fame,
And where'er we go
They will always know
That our fighters are fighting for Ames.

IOWA STATE COLLEGE

RAYMOND A. PEARSON
President

THE State Agricultural College was first established March 22, 1858, when a bill providing for this and carrying with it an appropriation of $10,000 was signed by Governor Lowe. A Board of Trustees, composed of eleven members, was appointed to supervise the actions of the college.

One of the underlying ideas was "that the school be so organized as to dignify manual labor and to give it the respectability and credit which is commonly accorded to the labor of the professional classes." The beginnings of the school show that the people of Iowa were convinced that "scientific agricultural education was no longer to be denied the citizens of the commonwealth."

When the Iowa Agricultural College formally opened in 1869 only two courses of instruction were offered: one in agriculture and the other in engineering. However, women were allowed to enter either of these courses.

The Agricultural Experiment Station was first established in 1888. In 1871 the Engineering Department was subdivided into Mechanical and Civil Engineering. In 1891 Electrical Engineering was added, in 1894 Mining Engineering, in 1906 Ceramic Engineering, and in 1914 Architectural Engineering. The Engineering Experiment Station was opened in 1904. The Graduate College was first brought into being in 1876 through an act of the Legislature.

When the college first opened, Mrs. Mary B. Welch, wife of the president, organized and taught the classes which mark the beginning of the Home Economics Division of today. It was not until 1875 that the Department of Cookery and Household Art was definitely established as an important part of the school. By 1870 the Industrial Science Course had been added to the curriculum. The Veterinary Division has been a definite part of the school ever since the establishment of the State Agricultural College and Farm.

The Non-Collegiate Department was added to the curriculum so that it would give a chance to get an education to the people who had not had the opportunities of all the required high school work. Later this department was abolished, but in 1910 two-year courses in the different divisions were again added. They have proven of great benefit to many people, especially since the World War, for the majority of students enrolled in these courses are Federal Board students.

At the present time, the college is divided intodivisions: Agriculture, Engineering, Home Economics, Industrial Science, Veterinary Medicine, and the Graduate College. This has proven a very successful way of dividing the school as it groups together the students who are taking the same courses.

THE JUNIOR COLLEGE

MARIA M. ROBERTS
Dean of the Junior College

THE office of the Dean of Junior College was established on September 11, 1903. Up to the end of the year 1902-03 all classifications and practically all problems of student affairs had been settled directly by the President. The College had been growing very rapidly in the years immediately preceding and had reached an enrollment somewhat over 1200 students. It was felt by all that some plan was necessary to relieve the President of some of his tasks. The principal duties of the office were to supervise the classification of all Freshman and Sophomore students in all divisions of the College, to advise with them freely and particularly to encourage them in upholding high ideals of scholarship. Dean Stanton was first selected to fill this office. In 1908 Professor Maria M. Roberts was made Vice Dean and after the death of Dean Stanton in 1920 she was made Dean of Junior College. Registrar Sage is now Vice Dean. Miss Myra Whited has filled the position of Assistant to the Dean since 1908.

OFFICE OF THE DEAN OF MEN

THE office of the Dean of Men was established in September, 1922. For several years previous to its establishment, the need for such an office was realized, but no one capable of carrying on the duties which a position of this nature calls for could be found. In the summer of 1922 J. E. Foster was recommended to the State Board of Education and he was appointed as Iowa State's first Dean of Men. The primary duty of the Dean of Men is to act as a personal advisor for all men. Besides taking care of these duties he is called to act upon many committees such as scholarship, social, entrance requirements, and fraternity relations committees. The Dean of Men carries the interest of the students very close to his heart and gives them unstintingly of his time.

J. E. FOSTER
Dean of Men

OFFICE OF THE DEAN OF WOMEN

JULIA W. STANTON
Dean of Women

IN connection with this department of the College different generations of students will recall the names of Miss Lovelace, Miss MacDonald, Miss Sinclair, Miss Blood, Mrs. Riley, Miss Eaton, Miss Gunn, Miss Marx, Miss Ford, Mrs. S. S. Smith, Mrs. Kilbourne, Mrs. Cunningham, Miss Shattuck, and Miss Harwood.

It has always been the Dean of Women's special responsibility to establish and maintain creditable social standards in community life. Iowa State College recognized this fact and when the first students arrived they found as one member of the new faculty, a matron to advise with the women, especially on social matters.

Through fifty-five years since 1868 the above succession of women with the titles matron, preceptress, advisor of women, or Dean of Women, have filled this responsible position.

As the number of women students has increased from twenty-five to 1125 the work of the office has become more and more arduous.

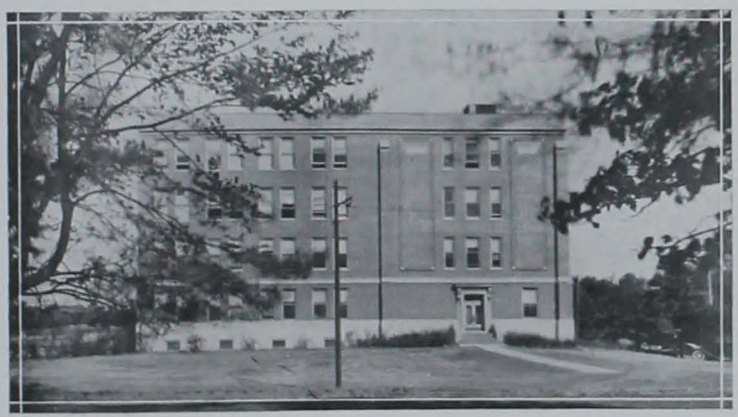
Dean Buchanan

THE GRADUATE COLLLEGE

GRADUATE work has been offered at Iowa State College for more than fifty years. Fortunately men of the early faculties had excellent research ideals, and inspired many students to continue their work beyond the baccalaureate degree. The growth of graduate work was at first slow, but about a decade ago development became more rapid. At present the Graduate College enrolls about three hundred on an average in each quarter. In the school year 1922-1923, five hundred thirty-two different graduate students were registered. It has one of the largest groups of graduate students in technical subjects to be found anywhere in the United States.

The graduate students are registered from schools in nearly every state in the union and from most of the Canadian provinces. On the eastern hemisphere they have come from Sweden and the Union of South Africa, from Ireland, China and the Philippines, and from many countries between.

Inasmuch as Iowa State College is primarily a technical school, the graduate work is exclusively in scientific and technical branches. A large number are enrolled for major work in departments in agriculture, for in this field in particular I. S. C. has achieved a world wide reputation. Many are also taking graduate work in those sciences which lead into technical fields. In Engineering, particularly in Highway Engineering and Agricultural Engineering, a considerable number of graduate students are enrolled. Home Economics has had over thirty graduate students in the past year. Several have also been pursuing advanced work in Veterinary Medicine.



Science Hall

Dean Byers

COLLEGE OF INDUSTRIAL SCIENCE

UNDER the name of General Science the course now known as Industrial Science has been in existence since the beginning of teaching at I. S. C. In the early days there was no differentiation into the five divisions as we know them today, altho all five lines of work have been taught since the first. About twenty-five years ago the work in agriculture (including veterinary medicine) was put in charge of an agricultural faculty and dean, the same was done with engineering. Industrial Science (then including Home Economics) was administered directly by the president as dean. Still later the divisions as we now know them were recognized and a dean appointed for Industrial Science.

The functions of the Division of Industrial Science were early defined as threefold:

First: To serve as an administrative unit which has charge of instruction in those sciences which are basic to technical and industrial education and which find constant application in technology and the industries. The departments which serve this purpose are: Bacteriology and Hygiene, Botany, Chemistry, Applied Economics and Social Science, Geology, Mathematics, Military Science and Tactics, Physics and Zoology and Entomology.

Second: To serve as an administrative unit for those departments which have charge of instruction in those subjects not sciences which are requisite to the proper education of technical students; the socalled service departments such as English, History and Psychology, Library, Modern Language, Music, Physical Training and Public Speaking.

Third: To encourage the development of education in those industries not wholly included under the headings: Agriculture, Engineering, Home Economics, or Veterinary Science, which needs technical application of the sciences taught in this institution.

Chemistry Hall

In the early history of I. S. C. there were many more students in Industrial Science than in other lines of work, the majority of alumni graduating before 1900 having been students in science. For several years following 1900 the proportion of students in Industrial Science decreased, but recently it has again increased rapidly.

DEAN MARSTON

COLLEGE OF ENGINEERING

THE history of Engineering at Iowa State College began March 17, 1869, St. Patrick's Day, when Iowa State College first opened its doors to students of college grade. Eight men were awarded the first engineering degrees (Bachelor of Science) in 1872. These earliest engineering alumni had received four years instruction in Civil and Mechanical Engineering lines by professors of high grade, two of whom, George W. Jones and William A. Anthony, were afterwards very prominent members of the faculty of Cornell College for a long period of years. Beginning in 1878, separate degrees (B. C. E. and B. M. E. for many years) were granted in Civil and Mechanical Engineering.

Electrical Engineering was added in 1891, Mining Engineering in 1894, Ceramic Engineering in 1906, Chemical Engineering and Agricultural Engineering in 1909, Architectural Engineering in 1914, Trades and Industries in 1920.

The attendance of engineering students had grown to 81 in the year 1890, 210 in 1900, 602 in 1910, 1075 in 1920, and at the present time is approximately 1250. The above figures include only those of collegiate grade. The total number of graduates of the Engineering Division was 72 up to 1890, 245 to 1900, 956 to 1910, 1879 to 1920 and 2125 to 1923.

The present engineering faculty numbers 110, of whom two, both graduates of Cornell University, have served continuously for 32 years.

The Engineering Division from an early date has taken a very prominent part in engineering research. The Iowa Engineering Experiment Station was one of the first two in the country (both organized in the winter of 1903-4). Some of the most fundamental discoveries of modern engineering science have been made at Ames.

Engineering Hall

The Iowa State College was also among the first to establish work in Engineering Extension.

Of late years more and more attention is paid at Ames to the development of graduate work in engineering. It is believed that the Iowa State College is sure to be among the foremost leaders in engineering graduate work, which seems likely to bring about revolutionary improvements in engineering education in the immediate future.

Ames engineer alumni from the first have included a remarkable number of great engineers, and the whole engineer alumni body has established a very high reputation. Ames engineers are known everywhere for excellence of training and willingness to work. They have given the Iowa State College a high rank among the best engineering colleges of the world.

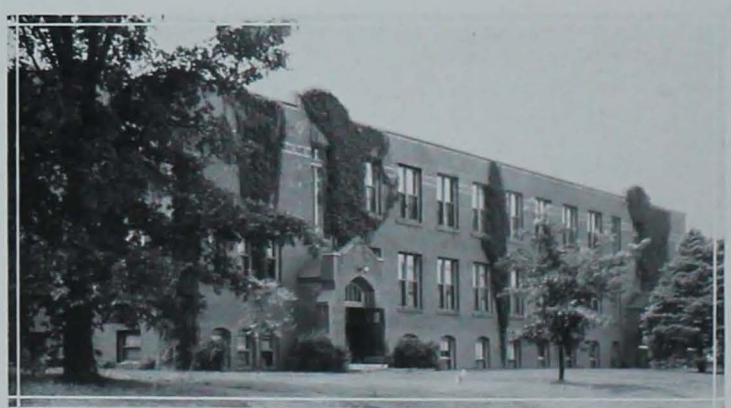
DEAN RICHARDSON

COLLEGE OF HOME ECONOMICS

WHEN cooking classes for the girls of Iowa State College were first opened, there were no text books, no trained teachers, no precedents to follow—only the faintest beginning of a great vision and the dauntless spirit of the pioneer to launch it. Mrs. Mary B. Welch, wife of the first president of Iowa State College established the first "domestic science" department in a Land Grant College. Her first classes were begun in 1872, a few years after the opening of Iowa State College. In 1875 the work was dignified by the establishment of a department of "Cooking and Household Art" with a kitchen in the basement of Old Main. There were about a dozen girls in the first class which met for one laboratory period and one class period per week. There was very little money available those first years, for so uncertain a venture, but in spite of hardships and difficulties the little department steadily expanded.

In 1910 when Dean Catherine J. MacKay came to Iowa State, as an assistant Professor, the Department was still a part of the Division of Agriculture. There were four members of the faculty and 116 students enrolled. The ten years following, under the leadership of Dean MacKay was a period of remarkable change and growth. Six departments were organized within the Division: Household Science, Household Art, Applied Art, Physical Training, Teacher Training, Institutional Management and Non-collegiate. The faculty had increased to about fifty and the number of Home Economics students to more than 800.

There was a "practice house" on the campus. Omicron Nu, national Home Economics honor scholastic fraternity had been organized and there was a flourishing Home Economics Club out of which developed the Iowa Home Maker. "A Magazine for Homemakers from a Homemakers' School," and a publication unique in its field.



Home Economics Hall

Graduate work in Home Economics had come into being. Extension activities directed by Miss Neale S. Knowles, had reached and benefitted every community in the State. The extension service numbered seven state specialists and twenty-five county home demonstration agents.

With the death of Dean MacKay in August 1921, there was felt in addition to a deep sense of personal loss to the College and the State, an even greater loss to home economics. One of a group of leaders, her clear vision and tireless effort had gone far in placing the training of home makers in equal rank with other collegiate courses.

For the next two years the Division moved forward under the leadership of Acting Dean Edna E. Walls.

In January, 1923 the result of a long search for a dean best fitted to direct the largest Home Economics Division in the country, Miss Anna E. Richardson came to the College. She came as one of the outstanding leaders in the field of vocational home making. For the past few years she had been chief of Home Economics Education with the Federal Board of Vocational Education and consequently in touch with every type of home economics activity in every state.

A year is not too short a time to grasp the vision of what the Division of Home Economics may become in the next decade. One of the splendid features already taking shape is that of the development of graduate research. This year there was added a department of Household Administration which includes the study of Child Care. Another home Management house was opened in the fall. The present teaching staff numbers 62 and the fall registration showed 1059 home economics students.

Lastly, and most important just now to a division which has long since outgrown its home and spread to borrowed quarters over the campus—a new building adequate in every detail and structurally beautiful is to be begun this spring!

DEAN CURTISS

COLLEGE OF AGRICULTURE

IN the early days of the Iowa State College, the agricultural division was not a division; it was a department or chair headed by one man who did all the agricultural teaching. The first professor of agriculture was Martin S. Townsend, of Ohio, who was elected May 11, 1868, and served until near the end of the year 1870. Then followed a period of about a year and a half when the agricultural department had no head. The agricultural work that was given during that period consisted of a series of lectures given mainly by Dr. A. S. Welch, the president of the college.

In May, 1872, I. P. Roberts, who was at the time a farmer in Henry county, Iowa, was elected to the position of professor of agriculture. He served in the capacity until 1874 when he was called to head the agricultural work of Cornell University, and he occupied that position for over thirty years. Professor Townsend, after leaving Ames, became the head of the agricultural department of Ohio State University, where he served for a long period of years, and headed the principal agricultural building at that institution. Townsend Hall, is named in his honor.

Following Professor Roberts' resignation, there was another period of about two years when the agricultural department had no regular head. There was, at all times, a farm superintendent, however, and one of his duties was to see that all male students of all courses did practical work in agriculture at ten cents per hour.

In February, 1876, George E. Morrow of Illinois was elected to head the department, and he served until December, 1876. Professor Morrow afterwards became head of the agricultural department of the Illinois University.

In March, 1877, M. Stalker, of Keokuk county, Iowa, who graduated from the institution in the first class in 1872, was chosen head of the agricultural department, and he served until November,

Agricultural Hall

1879, when Seaman A. Knapp of Benton county was elected to head the agricultural work. Dr. Stalker afterwards became head of the Veterinary department of the college and served in that capacity until about 1900. Professor Knapp continued to head the agricultural department until 1886, and he was succeeded by Herman Knapp, our present efficient treasurer and business manager, who served until the end of the year 1887.

It was in the late seventies that J. L. Budd, of Benton county, came to the college as head of the horticultural work and he continued in that service for about twenty years. Dr. Knapp later became connected with the United States Department of Agriculture, in charge of demonstration work, and he served in that capacity for many years.

In March, 1888, Loren P. Smith of New York was chosen to head the agricultural department, and he served until December, 1890.

Up to this time, the various heads of the agricultural department, with one exception, had rather a brief tenure of position. Professor Roberts, in relating his experience in an interesting book, "The Log of a Farm Boy," refers to an eventful day when the governing board arrived at the college in the morning and forthwith called for the resignations of the entire faculty. Before the day was over, most of them were reinstated. Professor Roberts records the fact that he was on in the morning, off at noon, and on again at night.

In the latter part of 1890, the socalled granger movement culminated in the election of James Wilson, of Tama County, as Professor of agriculture and director of the agricultural experiment station. The experiment station had been organized in 1888, with I. P. Speer of Cedar Falls as director.

Professor Wilson served until February, 1897, when he became Secretary of Agriculture in President McKinley's cabinet. At this time C. F. Curtiss succeeded to the same position and title which was changed a few years later to dean of agriculture and director of the agricultural experiment station, and, at that time, the department of agriculture became the division of agriculture as the instruction and work had taken on a wider range of activities that could not well be embraced by a single department.

DEAN STANGE

COLLEGE OF VETERINARY MEDICINE

THE State Law under date of March 22, 1858, provided for a State Agricultural College and Farm. Section 15 of that act listed the courses of instruction to be offered and included, "The Veterinary Art." In a report submitted in 1866 the necessity of Veterinary Medicine was again emphasized by the following statement: "We must realize the importance of the treatment of diseases of animals, a knowledge of which would save thousands of dollars annually to the state." (It will be noted, therefore, that in Iowa as in all other states and countries it was realized that a corps of specialists was necessary to control animal diseases in order that the live stock industry might be profitable.)

Professor M. Stalker who graduated with a Bachelor of Science degree from Iowa State College in 1873, became identified with the Agricultural Department and later studied Veterinary Medicine in New York City and at Toronto, Canada, graduating from the latter school in 1877. He had previously received his inspiration from Doctor H. J. Detmers, Professor of Veterinary Science in 1872. In 1879 the Board of Trustees officially established the School of Veterinary Science with a two-year course. The fundamental purpose of establishing a school of Veterinary Science was, therefore the control of animal diseases. (The training of young men to qualify them to serve the various communities of the state in that capacity was very wisely decided upon as the best course of procedure.) In 1880, Doctor Stalker asked for $2500 for a hospital building and reported doing some experimental work. Twenty years later $100,000 was being requested. (In 1903, the first four-year course in Veterinary Medicine in America was adopted.) In 1910 the entrance requirements for graduation were higher than those of any other Veterinary School on the continent. (Following these

Veterinary Quadrangle

advances a new group of buildings was provided in 1911, and the Division was then ready to serve the state more efficiently along the lines of work for which it was founded.

At the present time the Division is annually caring for about two thousand hospital cases, over twenty three thousand out clinic cases, making over five thousand laboratory examinations for veterinarians and live stock breeders throughout the state, inspecting several hundred carcasses slaughtered locally for human food and is supervising the production of clean milk for the city. (The main purpose, however, remains as in the beginning, *viz.*, the training of young men for the Veterinary Profession.) The success of the Division along this line is indicated by the fact that we have the largest enrollment of any Veterinary College in America.

REVERIES OF '25

FRANK RECK
Class Poet

As dreamily I toy with memory,
Thumbing your pages, Bomb of 'Twenty-five,
My days at Ames come surging back to me,
Tempestuous days, incomparably alive.

Now as I reach Life's shadowed afternoon,
With naught but twilight's reverie ahead,
Each page of yours is like an old sweet tune
Whose strains light up the eyes with tears unshed.

Classmates of mine, I never can forget
Our sober march in cap and gown one June,
When, tempered by a flame of sharp regret,
We bade goodby to Ames, it seemed, too soon.

And here you all are, banded on each page,
In typographic fellowship aligned,
Without the whited temples born of age,
Or lines of care that mirrors now can find.

Classmates of mine, in utter ruthlessness,
Old Father Time has scattered us afar.
What would I give—oh, bitter hopelessness—
To see you joined again as here you are?

Unworthy thought! United are we still
By common aspirations and ideals;
And we have ne'er denied—nor ever will—
The common love for Ames that each one feels.

We wear thy gage, Oh Ames, and honor it,
And proudly drink the stirrup cup you fill.
Thy spear is in our hands—a sharpened wit!
Thy shield is on our arms—a steadfast will!

The "Alma Mater" is our battle song,
And "Fight—Ames—Fight" our war cry as we ride;
Inspired by these, we love to march along,
And joyously to laugh, whate'er betide.

The sun is gone, and in the twilight haze,
The pages blur. I cannot see them—quite.
Classmates of mine! Comrades of other days!
My heart is reaching out to you tonight.

FRANK RECK.

HISTORY OF THE CLASS OF 1925

HUBERT GARRECHT
Class Editor

From the very beginning it was evident that the class of '25 was to be no ordinary class. It is probably the most representative class that Iowa State has ever had. East, West, North, South—Africa, South America, Europe—the whole world sent representatives to make up this class of ours.

The freshman year was hardly under way when we received our first taste of that indefinable, intangible, yet very real thing—AMES SPIRIT. We were the first freshman class in some ten years to defeat the Sophomores in the class scrap. It was our class which proved to the college the feasibility of enriching the traditions of old Iowa State by wearing the winter prep cap. It was the numerals '25 which were boldly displayed beside a "Beat Nebraska" sign on the engineers' tall water tower many times during the year. In fact, our class, from the very first, showed itself to possess a wealth of spirit which was largely responsible for the "great awakening" that has recently taken place on the campus.

The Sophomore year found us back again, fewer in numbers, but not weaker in spirit. We began the year by administering a crushing defeat to the freshmen in the push-ball fray. When the bruises were healed, we introduced the freshmen to the social world at the annual Soph-Prep dance. The glamor of being Sophomores did not hinder us, as we began branching out into all the campus activities. These activities demonstrated the versatility of our class—athletes and actors, rooters and writers, doers and dreamers—all in the class of '25.

When at last Spring rolled by and the last exams were written, and the moonlight and pulchritudinous co-eds had been resisted or succumbed to, we left for the summer with joy at having reached the half-way mark. We were upper classmen at last.

Mahomet and his mountain; Napoleon and his army; Noah and his ark; the class of '25 and Iowa State. All inseparable. During the summer, friends and relatives had urged finishing at other colleges—Wisconsin, Penn State, or Cornell, but we found our way back to Ames. The spirit fostered in us as freshmen has grown as we gradually are taking over the responsibilities of the campus organizations and activities. The publication of the college annual, THE BOMB, is the task given the Junior class, and our class has taken this problem in hand in a most creditable manner, bringing about the greatest changes and improvements to be made in the publication since it was founded. The BOMB is now, as a result of these changes, one of the seven largest annuals in the United States.

With the third year at Iowa State almost finished, the class of '25 seems destined to graduate a group of alumni who will always cherish a great regard for their Alma Mater, and who will leave behind them a record of achievements worthy of the greatness of Iowa State.

VICTORY
for
IOWA STATE

TRICE

"Tribute to him who in the first fair flush
Of glory won upon a fatal field
Fell hurt before the fierce contested rush
And joy of worthy battle; fell to yield—
Not to the charging line that swept along;
In body stricken; but with changeless mind
That gained respect of friend and foe in throng
Who witnessed it; and in the groups aligned.
A heart, that with a loyal aim beat fast
For that to which his fealty was pledged;
The honor of the deed was first; he last
As in the plunging mass that form was wedged.
Tribute to him; for in a worthy foe
The steel of character is just as pure,
Built on such precepts as we failed to know—
The bedrock of true manhood full as sure
Honor to him, as true modern knight
Who, striving, fell before the shock of fight,
Nor knew the shock alone; for either side
Bows saddened head for him who, fighting, died."

C. A. W.

JACK

October 5, 1923.

TO WHOM IT MAY CONCERN:--

My thoughts just before the first real college game of my life. The honor of my race, family, and self are at stake. Everyone is expecting me to do big things. I WILL! My whole body and soul are to be thrown recklessly about on the field tomorrow. Every time the ball is snapped I will be trying to do more than my part.

(supper)

On all defensive plays I must break through the opponent's line and stop the play in their territory. Beware of mass interference, FIGHT low with your eyes open and toward the play. ROLL BLOCK THE INTERFERENCE. Watch out for cross bucks and reverse end runs. Be on your toes every minute if you expect to make good.

(meeting) 7:45

(Signed) Jack.

THE ATHLETIC DEPARTMENT

HUGO OTOPALIK
Acting Athletic Director
1923-24

With a change in the personnel handicapping the athletic administration at the start of the school year, Hugo Otopalik, acting athletic director, and a partially new coaching staff put the teams wearing the Cardinal and Gold thru a very successful year, both competitively and financially and Iowa State has made a long stride towards the peak of the ladder in athletics, valley championships.

The spring of 1923 brought the resignation of Director Mayser Art Smith, track coach and Mylin, intramural and freshman coach, due to friction with the athletic council. During the summer months a new council was appointed and the vacancies, except that of athletic director, were filled.

To carry the work of the athletic department on until a suitable director could be found, Otopalik, then head of physical training, took over the duties of head of athletics and to him much credit is due to his efficient direction and setting of policies.

Track was turned over to Sam Willaman, football coach, who, as in football, turned out a winning team, at least indoors, from a squad of comparatively green material. William Thompson, formerly football coach at Omaha university, came to Ames as head of freshman and intramural athletics, and under him the latter have come to play a very important part in the athletic life of college. Later on in the year he took over boxing and produced a team that licked every opponent and placed one man in the Olympic semi finals. Otopalik, himself a former valley wrestling champion, coached the wrestling squad to a long series of victories and one intercollegiate champion, thus carrying on the work that Mayser started, that of wrestling as a major sport in American colleges.

During March, 1924, T. N. Metcalf, track coach of the University of Minnesota, was hired to act in the capacity of athletic director, and a new system was installed to become effective in the fall of 1924—no future director would attempt to coach any varsity team at any time, and that his duties were to be purely managerial and administrative. Otopalik was retained as assistant director and wrestling coach and will coöperate with the new head in organizing the department and establishing the policies thereof.

With coöperation between the council and the athletic staff, the future success of Iowa State upon the gridiron, cinders, diamond and floor is assured and the prophecy that the Cyclones will soon carry the Cardinal and Gold to the top of the valley and the middle west is already coming true with the efforts of the 1923-24 teams standing so vividly before us.

YOUNG

FOOTBALL

SAM WILLAMAN
Coach

The first annual spring football tournament marked the inception of the 1923 Cyclone football season at Iowa State. Under the tutelage of head coach S. S. Willaman and assistant coach Frank Willaman, more than fifty aspirants for berths on the varsity squad the following fall received a thorough drill in the fundamentals of the game. At the close of the six weeks of strenuour workouts Coach Willaman inaugerated the football tourney to determine which men had acquired the most knowledge of the technique of the game and were the most proficient in executing the fundamentals, such as kicking, passing and blocking.

As a result of the spring training, fall practice found Coach Willaman after a week of conditioning ready to drill the squad in team play preparatory to building his varsity team and also to get in readiness for the early practice game with Simpson. Coach Sam Willaman made no effort to get eleven men

"HARRY" SCHMIDT
Guard
Captain-elect

Wheeler, Rasmess, Crawford, Fischer, Powek, Greenlee, Laughlin, Berger, Bond, Travers, Sindt, Sage, Carter, Neyenesch, Owen, Bondor
Coach F. Willaman, Bennett, Cody, W. Anderson, Cotter, Longstreet, Watts, Mayer, Larson, Smith, Coach S. Willaman
Sanders, Hill, Schmidt, J. Anderson, N. Behm, Snyder, Young, Roberts, J. Behm, Wingert, George, Thornberg, Nave

on edge for the Methodists and for this reason the veteran Simpson aggregation gave the Cyclones a real battle. Minnesota followed the Simpson contest and here the Cyclones carved their niche in the hall of football fame for the season by virtue of the wonderful fight, hard playing and splendid teamwork put forth by them on Northrop Field and it was in this game that Jack Trice gave his best for Iowa State in such a glorious way.

Frank Willaman
Assistant Coach

Missouri was looking forward to a valley championship until the Cyclones outfought and outplayed them in a sea of mud. It was the Kansas Aggies who spoiled the Cyclones early season hopes for a clean slate, when they managed to nose out a tie against Ames on State Field in the last three minutes of play. Against the Pikers at Saint Louis, Iowa State scored at will and handed Washington a bad beating.

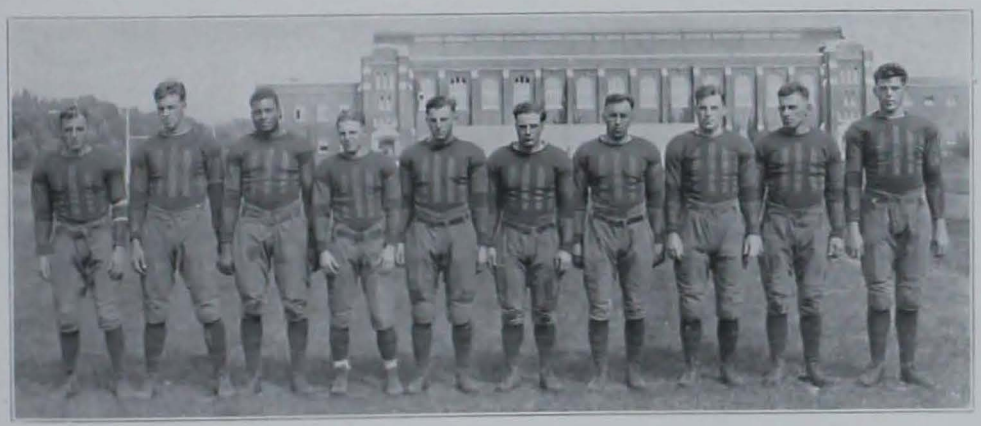
After being on edge for four tough games the Drake contest at Des Moines proved the realization of the Cyclones' fans worst fears, that Ames was stale. Mentally they were determined to win but they did not possess their characteristic drive and punch. The following weekend found the Homecoming alumni thrilled even in defeat by the splendid fighting comeback the Cyclones staged in the last half of the Nebraska game.

The defeat of Grinnell at Ames the following weekend marked the close of the 1923 season. While the team did not win any championships or place exceptionally high, it showed the alumni and followers of Cyclone sports that Ames teams still have the fighting spirit and in so doing renewed the faith of the alumni and student body in Iowa State's athletics.

"Chuch" Wheeler
Student Manager

Coach Willaman's call for candidates for the 1924 season went out during the winter quarter and about 100 aspirants are now in suit and taking the daily workouts and indications are that Iowa State will come thru all of the way in the coming season.

WINNERS OF THE SPRING FOOTBALL CONTEST



N. Behm, Longstreet, Trice, J. Behm, Fisher, Hill, J. Anderson, Cotter, Watts, Mayer

AMES-SIMPSON

"Shorty" Longstreet
Center

A muddy, slippery field furnished the scene of the opening game of the 1923 grid season with Simpson college and by the aerial route the Cyclone eleven finally downed the fighting Methodists 14 to 7.

The first quarter was a game of punting, both teams relying upon their kickers to get them out of the tight places. Both in the beginning and towards the end of the period Mercer and McCoy of Simpson attempted dropkicks to put their squad in the scoring column. The first one was neatly blocked by Trice, star tackle of the Cyclones. The second kick went wide and the quarter ended with the ball in midfield in the Methodists' possession. The Behm brothers were proving their right to the backfield berths with consistent gains around the ends and the returning of punts.

Johnnie Behm Makes First Touchdown of Season

The second period opened with another dropkick by Mercer that again went wide. Then the "Willaman aerial attack" started, and the Cyclones began to show real fighting form. Mercer punted to J. Behm, Roberts' pass of twenty yards to J. Behm started the diminutive half on a race through the whole Simpson squad that resulted in the first touchdown of the season. Roberts kicked goal. Score: Ames 7, Simpson 0.

After an exchange of punts at the beginning of the third quarter, Roberts started the passing game again with Captain Young and George on the receiving end, and the ball rested on Simpson's 3-yard line. Hill took it over in two attempts and Roberts kicked goal for seven more points. After exchanging punts Mercer returned the ball to the center of the field and three plunges put the ball on Ames' 18-yard line at the end of the quarter. Score: Ames 14, Simpson 0.

A 15-yard penalty for holding put the ball on the Cyclone's 15-yard line. A punt by Roberts was returned to the center of the field and a pass brought the ball near Ames' goal. McCoy skirted the right end for seventeen yards and the only Methodist touchdown.

The game ended with the Cyclones driving towards the Methodist goal. Score: Ames 14, Simpson 6.

AMES-MINNESOTA—OCTOBER 6

It was in the second game of the season on Northrop field at the University of Minnesota that Iowa State made a name for herself and showed that Ames had what was lacking for so long in Cyclone teams—and that was fight. Backed by over 400 fighting fans who journeyed to Minneapolis to give their support, the Cyclones, blocking and tackling in a deadly fashion, outplayed and outfought the Gophers, in losing 17 to 20. Minnesota's team of veterans was doped at that time to be and were one of the strongest teams in the Western conference, given the breaks of the game and with a twenty-pound advantage in weight a man, managed to nose out with a win.

Coach "Sam" Willaman had the Cyclones on edge for the Gopher battle and by their playing the Cyclones won a niche in the Minnesota's hall of fame and it was in this game that Jack Trice gave his all for Ames. The brilliant

"Zeke" Roberts
Half Back

open field running of Johnny Behm, who ran through the entire Gopher team for seventy-five yards for one touchdown was the outstanding feature of the game. Roberts in hurling and completing ten out of seventeen passes for a total gain of 109 yards bewildered the Gophers and the sturdy back electrified the stands by making good a 45-yard drop kick.

The Game

A fumble in Ames territory in the first few minutes gave the Gophers the points that finally gave them the victory, but after that one reversal the Cyclones rushed their heavier opponents off their feet.

After working the ball in Minnesota territory, N. Behm connected with a long pass from Roberts and took the pigskin thirty yards—within five yards of the Gopher posts. Anderson smashed the heavy line twice and Ames had scored. Roberts tied the score with a placekick for goal, and the half ended with the score Ames 7, Minnesota 7.

Lead by Captain Martineau, with a bandaged hand, the Gophers came back in the second half with a world of fight. Terrific line plunging by the Minnesota backs put the ball in scoring territory. After a fierce struggle in the shadows of the Ames goal, the Gophers passed, the ball hitting a Cyclone player's head, bounced to Gross of Minnesota, who in an effort to catch it deflected it into the hands of Eklund, Gopher end, who ran twelve yards for a touchdown, putting the Minnesotans in the lead.

"Elmer" Snyder
End

Battling in a desperate effort to tie the score, the Cyclones got possession of the ball on the 25-yard line after an exchange of punts. Failing to gain on straight football or passes, Roberts thrilled the crowd with a goal from placement on the 35-yard line. The quarter ended with the score Ames 10, Minnesota 14.

"Buffalo Bill" Cody
End

The final quarter was bitterly contested—the Cyclones fighting like mad men to gain the lead and the Gophers fighting equally as hard to increase theirs to a safe margin. Battling their way to the Ames 20-yard line, Lindberg of the Gophers brought the crowd to its feet by plunging the entire distance to the goal line, scoring again for Minnesota. Tearing the heavy line to shreds, the Cyclone forwards blocked the try for goal and the score stood Ames 10, Minnesota 20.

With the ball on the 40-yard line the Northmen tried to pass to Eklund which J. Behm intercepted and with the Cyclone interference forming instantly, the fast Cyclone back carried the ball through the entire Gopher team seventy-five yards for a touchdown. Roberts kicked goal, bringing the score within three points of the Gopher's.

Giving all they had in a final effort to win, the Cyclones battled the fighting Gophers the last few minutes without success and the game ended with the score Ames 17, Minnesota 20. To quote G. A. Barton of the Minneapolis Journal, it was the greatest game witnessed on Northrop field since the memorable day Aubrey Devine ran wild against the Gophers two years ago.

AMES-MISSOURI—OCTOBER 13

Missouri was primed for a conference championship and was given the edge by the dopesters over the Cyclones until Coach Willaman's fighters left Rollins Field with a victory by a score of 2 to 0, having proved themselves better

"Johnnie" Behm
Half Back

than the Bengals by at least three touchdowns in anything but a sea of mud.

During the first half the teams battled back and forth in the sea of mud, the Ames squad showing greater offensive power, and only the kicking of Fowler staved off defeat for the Southerners. The Cyclones lost one chance to score the first periods when Roberts kicked and Snyder, going down like a flash, out-manuvered Bond of Missouri and downed the punt on the Tiger's goal line. Missouri kicked and J. Behm returned to the 35-yard line where fumbles cost a possible tally.

At the start of the second half, Roberts kicked off and the Tigers were downed in their tracks. They showed an inclination to exchange punts, but J. Behm's ability to receive Fowler's offerings together with consistent punts by Roberts awoke the Tigers with a start with the ball on their 4-yard line. They were forced to kick from behind their own goal line, a play that they were forced to execute no less than five times during the game.

Frauer, substituted for Fowler to do the kicking, fumbled the ball. The Cyclone ends crashed through the line and threw him for a safety, scoring the only points of the game for Ames. Score: Ames 2, Missouri 0.

For the rest of the game the Cyclones kept the ball in Tiger territory, continually threatening to score, but always thwarted by a fumble or a loss due to the disadvantage due to the rain that the light backfield could not overcome successfully. Thornberg, Schmidt, Cotter, Captain Young and Watts on the line battled and outfought the heavier Bengals all the way in a surprising way after spotting them considerable advantage in weight. The Behm brothers were the outstanding ground gainers and with Anderson were the tower of the Ames defense. Johnny Behm returned the offerings of Fowler of Missouri twenty-five to thirty yards where Roberts of Ames who was outkicking the Missouri star booted the ball and the Cyclone ends, Snyder and Captain Young, stopped the Tiger safety man in his tracks or downed the ball stopping any gains. It was still raining when the Cyclones embarked, and the same inclement weather conditions greeted each team who journeyed there, and all in all the Tigers enjoyed a wet season.

"Joe" Anderson
Full Back

AMES-KANSAS AGGIES—OCTOBER 20

Outweighed and outplayed, but not outfought, Iowa State battled the Kansas Aggies to a 7-to-7 deadlock in one of the hardest fought grid battles that this outfit of Cyclones, or any other Ames team, ever handed out.

In the center of the field, the Aggies were able to gain but on nine different occasions when Kansas had pushed the ball into Ames territory, the Cyclones held them for downs. Three times the Aggies were within the Cyclone's 5-yard line and on each occasion the Cyclones held them in their tracks. The Kansas touchdown came as a result of a pass, after the Cyclones had held the ball on the 1-yard line for three downs.

The first quarter was even and played almost entirely in the center of the field. Neither team could make appreciable gains by any method and both squads were admirably coached in breaking up aerial plays.

However, the Cyclones opened up in the second quarter and by straight football were able to cross the Aggie goal line. When Axline had booted to Behm on the Ames 10-yard line, the Cyclones began to fight and with excellent interference, J. Behm, was able to return the ball to the middle of the field.

With a series of cross bucks, line plunges and end runs, the Cyclone backs took the ball to the Aggies' 16-yard line. Two off tackle plays and a pass to Snyder put the ball on the 6-yard line. On the next two plays Roberts plunged the ball over for the first counter of the game. Roberts also kicked goal.

Johnnie Behm Stars

It was during the first half that Johnnie Behm showed some of the most remarkable open field running ever seen on State field. On one occasion the fleet little Cyclone returned a punt for thirty yards and an open field with the exception of Swartz who barely tripped Behm who could not regain his feet to score.

The third and fourth quarters were a repetition of one another with Kansas carrying the ball into Ames territory where the Cyclones got together and fought down the Wildcats and took the ball on downs.

It was in the final quarter that Coach Bachman's team opened up a barrage of passes and had the Cyclone defense baffled at times. Swartz, the fleet little quarterback with the ability to pass with either hand accurately did most of the heaving for the Kansans. It was his six rapid shots in the air that carried the ball from their own 40-yard line to the Ames 2-yard line within five minutes in the first quarter.

"Mope" Behm
Half Back

Aggies Score

At this point Ames held wonderfully and blocked two of his passes but a pass by Stark to Swartz put over the lone Kansas Aggie touchdown, three minutes before the final whistle blew. Roberts of Ames did some of the prettiest punting that will be remembered for years, for in five attempts he punted the ball 252 yards for an average of over fifty yards to the punt. It was his punting that put Ames out of danger several times when the Aggies had carried the ball down to within striking distance of the Ames goal.

The penalties were almost all against Ames for on four different occasions the Cyclone team lost a total of eighty yards by interfering with the receiver of a pass when the pass was incompleted. Bachman's Wildcats were fast and heavy and outweighed the Ames team on an average of eight pounds to a man but the Ames fight always kept the Aggies as a dangerous foe. Practically no substitutions were made by either team until the last five minutes of play when Coach Willaman substituted Nave and Mayor in an effort to stop the final Kansas rush.

"Fat" Thornberg
Guard

AMES-WASHINGTON—OCTOBER 27

Following the Missouri game it was evident in Valley circles that the Cyclones were one of the strongest contenders for the championship and were favorites to win over Washington University at St. Louis. Washington tells of her defeat thus:

The Washington University football team gave the impression of a terrier giving battle to a mastiff in its game with Iowa State yesterday afternoon on Francis Field. Ames so badly outclassed the Pikers that by only superhuman effort on the part of the Red and Green, aided by ninety yards in penalties, was the 54 to 7 score kept so low.

"Bill" Cotter
Tackle

The Iowans presented one of the finest gridiron machines seen in action against Washington for a long time. It was heavy, smooth-running and packed terrific power in its attack. The Pikers fought desperately, forlornly, stubbornly, contesting every foot of ground. A few times they opened up with a tiny spurt. Then they looked fairly good in comparison to the Ames eleven. But the flashes were only flashes and did not last. When they more than threatened Ames speedily smothered them under an avalanche of orange jerseyed beef and brawn, and they were forced to punt out of danger.

Ames Has Great Team

The Ames team was fully as heavy as the Oklahoma Sooners who swamped Washington 62 to 7, but were considerably faster. The Pikers had improved greatly since defeated by the Sooners, taking on the field almost a new outfit. Fullback Claypool, a wizard on defense, and Right Guard Al Schnaus, a tower of strength on the line, were missing from the fray, but it was far and above superior to the eleven who opposed Oklahoma.

Even in defeat the Washington players have some consolation. They scored against Ames when Right End Jerry Hutton recovered the ball behind Ames' goal, after Sanders muffed a bad snap-back from his center on the 10-yard line, in the third quarter. Then there was the brilliant work of Capt. "Buddy" Cantwell, center, both on offense and defense, but his neat job of tackling was the most outstanding.

Above all else was the remarkably clean game the Pikers fought. Only three times were penalties called against them and they were merely for being offside. The Ames penalties were under the heading of over-eager and over-aggressive.

Pikers Show Gameness

The beating was administered by a better team, not by a gamer, more courageous nor harder fighting unit. The passing of the Ames backs and the unusually brilliant work of the Behm brothers and Capt. Young were the outstanding features of the game. Out of the twenty-seven passes attempted by the Iowans fifteen were completed, advancing the ball 214 yards, as compared to Washington's two, both of which were completed, for a 15-yard gain. Floun and Lyle both intercepted Ames' passes for small advances. Straight line bucks were the most consistent form of attack for Iowa: the Behm brothers were the steadiest and most reliable ground gainers. Seldom was either thrown for a loss. Washington was able to make but one first down from play while Ames was getting twelve.

Ames got its first two touchdowns in the first quarter. One was scored on a pass and the other was on a 28-yard run by Roberts. In the second period the Iowans thrice more crossed the Washington goal, on a pass and two dives through the line. In the third quarter the Pikers looked the best they did at any time during the tilt. It was then that Hutton scored the only touchdown Washington was able to make during the game, and Iowa was held scoreless. But in the last quarter Ames came back and carried three more six-pointers, on two long passes and a smash through center. Aside from the third period the Pikers never seriously threatened the Ames goal. In the third frame they did succeed

"Cleil" Watts
Guard

in getting the ball to the 10-yard marker, but were unable to further dent the Iowa forward wall for a touchdown, so the ball went over to Ames on downs.

All in all Washington put up the best game it has to date. There was the most fight, the best spirit of conflict, the smoothest running team, the best tackling and the best opening for the backs as well as the best interference. But the Red and Green were too badly outclassed for even the most enthusiastic to hope that Ames could be defeated.

"Tiny" Mayer
Tackle

DRAKE-AMES—NOVEMBER 3

Lacking the drive and punch that characterized all previous struggles, the Cyclones met defeat for the first time of the season by a valley team in the Drake bowl.

Following three hard conference games, Saturday's struggle caught the Cyclones badly off form, and Drake won a decisive victory with the Cyclones fighting hard in an effort to find themselves.

Intercepted passes by Drake stopped three Cyclone rallies which threatened to score. In the first period a fumble gave Ames the ball and a pass to Johnny Behm carried the ball to the Drake 35-yard line. Another to Snyder brought the ball to the 12-yard line, where after two plays through the line Roberts gained a pass, only to lose it when Orebaugh of Drake intercepted the toss and carried the ball back to the 35-yard line. Again in the second period the brilliant work of N. Behm in hitting the line going off tackle play after play gave the Cyclones the ball on the 24-yard line, only to lose another chance to score when a Drake back grabbed a pass. In the final period a long pass to Nave put Ames near the Drake goal, but the necessary punch was lacking.

"Spike" Nave
End

The work of Norton Behm on the offensive was spectacular. His ability to nab passes and carry the ball was an inspiration to all the Cyclone fans. In the second half Norton went to defensive end and checked a number of the Bulldog's attempts to run the ends.

Although not as outstanding on the offense as his brother, Johnny was the tower of strength on the defensive. It was Johnny who made nearly all of the Ames tackles in the open, and who backed up the line time and again and who stopped McLuen of Drake after he had intercepted a pass and had a clear field between himself and the goal.

In the line Thornburg and Mayer were the outstanding performers. The latter, who was showing his stuff for the first time against real competition gave a good account of himself and working side by side with Thornburg presented a stone wall to Bulldog plays through that side of the line. Thornburg played a heady aggressive game at guard, giving evidence of lots of ability at anticipating the play. Longstreet at center, laboring under a severe handicap, gave a great exhibition of courage and drive throughout the entire contest.

AMES-NEBRASKA

Battling Ames Gridders Stage Great Comeback

Final Period Drive Adds Fourteen Points to Cyclones' Credit

After witnessing a great game, a glorious football fight, the Iowa State alumni

"Bill" Anderson
Tackle

went back to their work, satisfied that Ames can produce battling gridiron elevens. After such a game, they are already planning for next year's Homecoming.

After being outplayed for three quarters, the Cyclones came back in the last period of play with an aerial attack that scored two touchdowns and threatened a third.

The rally was too late and Nebraska won the Homecoming battle, 26 to 14.

Passing Attack Success

The spectacular play of the Cyclones in this period brought the crowd to its feet time after time, for passing was seemingly irrestible and the Cornhuskers were at a loss against that type of play as used by the Ames team.

The first three quarters of the game saw the Cornhuskers gain consistently with straight football and two of their touchdowns came as a result of plunges, off tackle plays and end runs. A third counter was the result of an intercepted pass by Lewellen. The play came in the second period when the Cyclones were on their own 10 yard line. A spread formation was called and Captain Young passed, but R. Dewitz caught the ball and romped across the goal line for another score. Nebraska scored her last touchdowns in the third period. A pass of 35 yards by Dewitz was gathered in by Lewellen and he scored after a 20 yard run.

Tide Turns

At the beginning of the third quarter, Nebraska had the ball in the center of the field. On the fourth play, H. Dewitz fumbled and Roberts recovered. Then the tide turned, for Roberts passed 40 yards to J. Behm, who went across the line, although he was tackled just as he scored. The second counter came when Nebraska kicked to J. Behm and the Cyclone flash returned 25 yards. Then a series of passes intermixed with plunges and end runs carried the ball to the four yard line and another pass, Roberts to J. Behm took the ball across for the second touchdown. The longest single gain during this second march down the field was a pass, Roberts to Young, for 38 yards.

At straight football, Nebraska showed her superiority and made weight count, but the Cyclone drive in the fourth quarter proved that Willaman's aggregation has fight and can come with a rush even though behind. It was a beautiful exhibit of a forward passing game and Roberts showed that he may well be rated with the best passers in the Valley. N. Behm was outstanding in this period, for he took both passes that resulted in touchdowns and gained considerable ground on end runs. Young and George also figured in the offensive, for each took passes for substantial gains.

"Truck" Hill
Full Back

AMES-GRINNELL—NOVEMBER 24

In a seesaw game full of queer breaks, Iowa State closed her football season

with a 13-6 win over Grinnell, but it looked like anyone's game for a while and the Pioneers were not downed until the final whistle blew out this year's grid season.

A slippery field was partly responsible for some of the things that happened and several runs were terminated by slides through the mud. The fact remains, however, that the team play of both the Cyclones and the Pioneers was ragged. The Cyclones looked like a different aggregation than that of the Homecoming game, but the reason may be that neither of the Behm brothers was in the game until the last few minutes when Johnny took his place at quarter.

Real Football

Sweet of Grinnell was able to gain consistently around the ends in the middle of the field, but when the Cyclones' secondary defense drew up under their own goal, his dashes were stopped. The Cyclones showed a real flash of football in the fourth quarter after Grinnell had recovered the ball on the kickoff and carried it to the 1-yard line. Here the Cyclones stiffened and stopped a plunge, two end runs, and knocked down a pass.

Ames scored early in the second quarter and after a series of passes and plunges carried the ball to the 1-yard line and Roberts plunged over. Roberts failed, however, with his placekick for the extra point. The second counter came at the beginning of the second half after Young had recovered Roberts' kickoff for Ames. A series of plunges carried the ball to the 5-yard line and a pass, Roberts to Young, scored the touchdown.

"Brick" Sanders
Half Back

Grinnell Scores

Grinnell's touchdown was the result of a blocked kick. Sweet ran fourteen yards through the Ames team, but fumbled as he crossed the goal line and Ames recovered. Roberts attempted to kick out of danger, but a Grinnell lineman broke through like a flash and blocked the kick and it was recovered by Grinnell for a touchdown.

"Claire" Wingert
Full Back

The Grinnell game closed the 1923 gridiron season for Iowa State, the most successful it has enjoyed in many years. Willaman built up a passing combination that was feared throughout the Valley, and with the exception of the Drake game, the Cyclones played brilliant football in every contest. Practically every team outweighed Ames by at least a few pounds per man, yet the holding of our forward wall in the Kansas Aggie and Minnesota games was the marvel of football circles. Norton Behm, one of the lightest line plungers in the conference, hit the heavy lines for long and consistent gains, as did his running mate Anderson. The Behms-Young-Roberts combination was the trickiest and surest passing quartet on any team, though their lack of necessary weight kept them from gaining after the execution of their famous long passes.

The team was green, with as many as eight Sophomores in action at one time, and with these as a nucleus for 1924, Iowa State should attain the position she fought so gamely for this year.

The year 1923 marked a definite change of policy in regard to the Freshman football squad. Every effort was made to work with as large a squad as possible. Beginning with a squad of over 200 men the squad maintained a membership of over 100 men during the whole season. The so-called "first team" composed of sixty men was picked for the sole purpose of scrimmaging the Varsity team. The rest of the squad was allowed to play intramural football and to play among themselves to obtain experience against opposition that would not be so strong that they would become disheartened. The attempt was made to turn over to the Varsity team for 1924 the largest possible number of men who might be expected to develop into Varsity men of calibre. Emphasis was placed on numbers of individuals rather than specialized team play. As is the practice in all Missouri Valley schools, the Freshmen were taught from week to week the formation of the Varsity opponent for the approaching Saturday. These in turn were used against the Varsity team in their practice periods.

The outstanding strength of the Freshmen this season was in the line. Plenty of weight and speed was found. In the tackle and guard positions heavy men with fair speed predominated although slightly smaller men of unusual speed and aggressiveness were not uncommon. The material for end position, although rather exceptional in quality was not plentiful. Centers were not scarce on the squad. The defensive strength of the line was greater than its offensive power as is to be expected of any Freshman line. While by the very nature of the case the line play was extremely individual, nevertheless potentialities of unquestioned promise were demonstrated. With specialized coördination and team play this line should prove at once powerful and effective. In the backfield one kicker of extraordinary class was discovered, other booters proved mediocre. One peculiarity of many of the Freshman backs was that those of offensive ability showed weakness in defensive work, and those who were excellent defenders were correspondingly deficient in attack. Good forward pass receivers were in abundance. The ability of the backs to throw forward passes was not as great as might be hoped for, but it was above average and showed improvement during the whole season. Triple threat men while very few were of outstanding class.

FRESHMAN FOOTBALL SQUAD

ROBERTS

BASKETBALL

"Bill" Chandler
Coach

At the beginning of the 1924 Missouri Valley basketball campaign the prospects for a winning combination were not very bright, even though Coach Chandler had four regulars from the previous year back on his squad. The team was hard hit by the loss of Pinkey Greene, who had almost individually boosted Ames into fourth place in the conference standing of 1923, and the one big problem confronting Chandler was to develop a scoring combination to substitute for Greene, a problem that was not successfully solved all season.

As it was, the year 1924 will go down in history as the most disastrous campaign waged by Iowa State, for out of sixteen Valley games, the Cyclones were able to chalk up only two victories, and ended the season in the cellar position in the conference rating.

"Riff" Raff
Forward
Captain-elect

....The meager percentage of wins can perhaps be attributed to the uncertain material and the lack of scoring ability, for no member of the team, after the early season injury of Raff, was able to consistently score more than one or two baskets per game. Tanner Jacobson led the scoring for Iowa State, yet he ranked only eighteenth among the individual scorers in the conference. Another point of interest lies in the fact that during most of the season the guards outscored the forwards.

One of the bright features of the team play was the stubborn defense, which at all times functioned in a commendable fashion, and would have appeared to even better advantage had the offense been more powerful.

The majority of the games were lost by close scores. Five games in the Valley and two pre-season contests were dropped by a margin of six points or less, and the presence of one brilliant scorer on the team might have turned the tide in favor of the Cardinal and Gold. As it was, the spectators at the home games were treated to some good basketball. In nearly all of the games Iowa State led at half time, but likewise in nearly all of the games lost the advantage gained in the initial period. For some reason, the Cyclones, after playing high calibre basketball during the first session never failed to slump after the intermission.

O. M. Anwyl
Manager

The fans at Iowa State deserve praise for their loyalty to the team and for their good sportsmanship, even in defeat. The crowds were as good as during the most prosperous years, and at all times refrained public criticism of the coach and players.

Captain Roberts, who in the latter part of the season was transferred from his customary defensive position to one of the forward jobs displayed a wonderful floor and defensive game at all times during the year. In common with the remainder of the Cyclones, his basket eye was none too good.

Ira Young, playing his third season of varsity ball, had the heat year of his career. In addition to his fine defensive play, he ranked second among the Cardinal and Gold point getters.

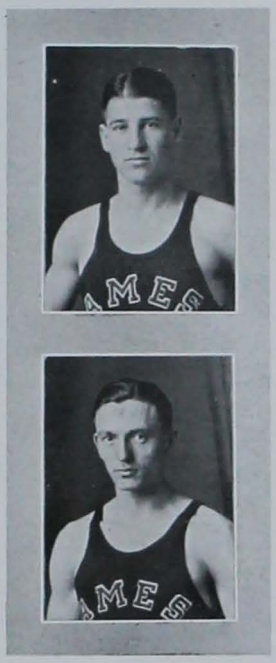
Captain-elect Raff got off to a flying start and gave promise of ranking among the leaders in individual scoring in the Valley, but was injured early in the season, and was out for the rest of the year. Had he been available throughout the entire campaign the Cyclones would have no doubt enjoyed a higher rating in the conference standing, for in addition to his scoring ability he was a big factor in the team play.

Tanner Jacobson performed in steady fashion at the tipoff position, and in several games, including the Illinois and Kansas U. tilts, his play was outstanding.

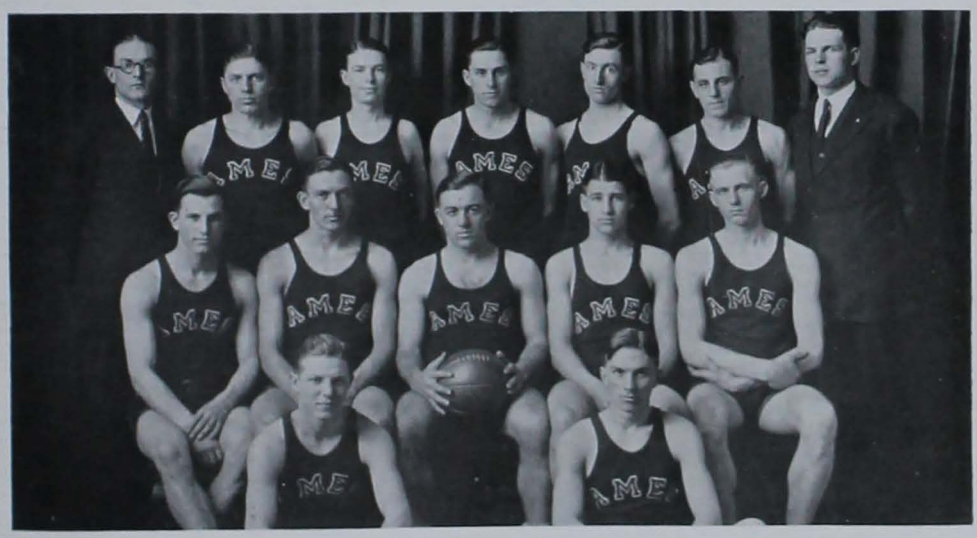
Of the new men E. J. Anderson, Bob Fisher, Arnold and the Behm brothers showed the most promise, and the end of the season found Anderson at forward and Arnold at guard in most of the encounters. Paige, Moser, Wright, Kouba and Fennema also broke into the lineup at various times during the season.

Iowa State opened the campaign at Minneapolis on Dec 16, when they met Minnesota in a preseason tilt, dropped by a 17-12 count. On the 21st they journeyed to Urbana and took on the conference champion Illini in another preparation contest. This game, which was lost by a 16-12 score, was featured by the wonderful play of Jacobson. These two clashes indicated that the Iowa State entry was powerful defensively, but would have to develop more scoring ability if they wished to figure prominently in the Valley race.

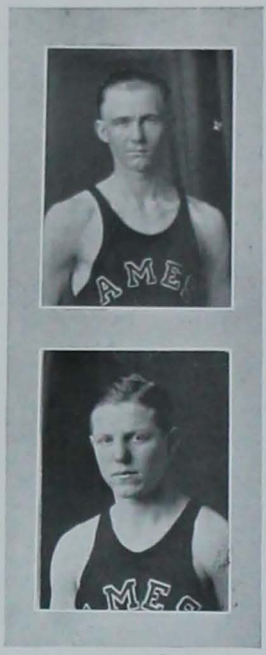
The Cyclones inaugurated the 1924 conference season with a defeat at the hands of the fast traveling Pikers from Washington U. in State Gym on Jan. 7, by a 30-26 count. After holding the advantage at half time, 18-14, the Cyclones were unable to stem the long range attack of the Red and Green, who forged into the lead with only three minutes of playing remaining. Riff Raff, elusive Iowa State forward, was high point man of the affair, with five field goals caged from all sectors of the court. The game was typical of many of the later games of the season, in that it was lost during the second half.



"Pep" Young
Guard
"Andy" Anderson
Forward



Anwyl, Arnold, Paige, Moser, Wright, N. Behm, Coach Chandler
Fisher, Anderson, Capt. Roberts, Young, Jacobsen
J. Behm, Raff (Captain-elect)



"Jake" Jacobson
Center
"Johnnie" Behm
Forward

Iowa State climbed to the .500 mark when they trounced the veteran Grinnell shooters by an 18-14 score, on the home floor, Jan. 12. The game was featured by the impregnable defense of the local quintet, evident from the fact that Grinnell scored only three field goals during the tilt, and that Benz, who was high point man in the Valley this season, failed to count from the field, due to the zealous guarding of Captain Roberts. The Cyclones, by dint of some excellent passing, obtained an early lead, and at half time were on the happy end of a 13-6 score. The second half was rough going for both outfits, but the Cyclones managed to retain their lead. Raff was again the high point man for the evening, with a total of eight tallies, while Roberts and Young performed in effective fashion at the defensive positions.

Coach Chandler and his charges made their first invasion of the season when they met Washington in a return game at St. Louis, on the 19th. The game was a repetition of the previous affair, with the Pikers cutting loose from far down the floor, and the Cyclones were forced to leave on the short end of a 25-12 count. Strong defensive play by both quintets featured the contest, and all of the Washington goals were of the long range variety. At the end of the first period the Pikers were leading 15-4, but after the intermission the Cyclones came back and played the conference leaders on even terms. Inaccurate shooting ruined their opportunity to overhaul their rivals.

On Monday night the Iowa State hoopsters journeyed to Columbia, where they met the Missouri Tiger in his lair. Wonderfully accurate goal shooting by the Bengals gave them the contest by a 34-16 count. Iowa State started the game with a rush, and in ten minutes the score stood 8-3 in their favor. Then the Cyclone defense crumbled, and the Tigers speedly ran up an advantage. Raff, Norton Behm and Roberts played the best for Ames.

Following this unfortunate expedition the Cyclones settled down in preparation for a series of engagements on the home floor. On Jan. 25 Chandler's athletes registered their second win of the season, when they nosed out Drake University in a hard fought game, 18-17. The locals in the first half exhibited a most efficient offense, due largely to pretty passing by Captain Roberts and N. Behm. Bill Boelter, famous Bulldog leader, went on a scoring rampage in the second period and came within a single tally of tying the count.

Oklahoma University invaded Ames for a clash on the 31, and left town with another win. Inability of the Cyclones to check the shooting of McBride and Wallace, Sooner scoring aces, and to take advantage of their own opportunities to score, cost them the tilt. The game was fairly even in the first period, which ended 16-12 in the visitors' favor, but in the last session the southerners had everything their own way.

After maintaining a comfortable lead for the major portion of the tilt, Iowa State dropped a heart breaking game to the Kansas Aggies, Feb. 7, who nosed out the Cyclones by an 18-17 count with some extraordinary long range goal shooting in the closing minutes of play. Ames jumped into an early lead, and with the defense functioning perfectly were on the long end of a 12-5 half time count. Led by Bunker, active Aggie forward, the visitors came back in the second half with a deluge of long field goals, and nosed out the Cyclones in the final minute of play. Captain Roberts played an outstanding game for Ames, both on offense and defense.

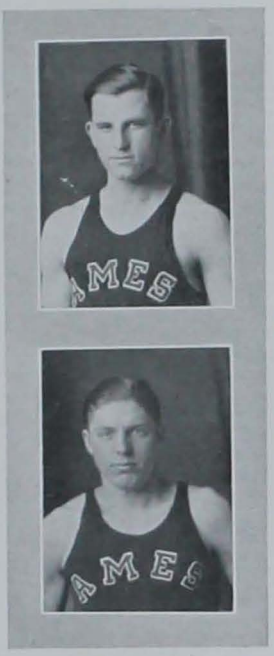
On the 10th, the Cardinal and Gold shooters began a swing around the southern end of the circuit. They met Grinnell in a hard fought game on the 11th, which the down state team, by virtue of free throws, won, 19-17. The game was featured by the fine defensive work of both quintets, and by the offensive and defensive work of Pep Young who garnered four field goals and a free throw during the fray. Fisher and Roberts also played well for Ames. Grinnell scored nine gratis throws during the affair, as compared with three for Iowa State.

Following this encounter the Cyclones entrained for Norman, Oklahoma, where they dropped a free scoring contest to the Sooners by a 45-37 score. Iowa State overcame a 12 point lead in the second half and tied the score at 33 all, but were then unable to check the deadly shooting of McBride and Ruppert, and the Sooners finished with a burst of field goals.

Iowa State clashed with the Jayhawks, conference champions for the past three seasons, on the following night, but after a game struggle all the way were forced to a 30-16 defeat. Ackerman, All Valley center, broke loose in the last minute of play and caged three long goals, which swelled the Kansas total. Jacobson played the outstanding game for the Cyclones.

The Cyclones returned to State Gym for their next three tilts. Missouri invaded Ames on the 19th, and after trailing for the majority of the time , spurted as Iowa State collapsed and finally won, 21-14. The locals made an auspicious start, and at half time were leading, 12-9, but in the second period their shooting was pathetic, counting only once from the floor during the period. Jacobson led the offense with three field goals.

Iowa State shooters gave the wonder team from Kansas U. the fright of their lives, when they held the Sunflower athletes to a 20-15 score on the 22nd. The contest, which was a nip and tuck affair, was the best seen on the local floor in several years, and was featured by the desperate attempt of the Cyclones to stop the conference pace setters and by the impregnable defense of both quintets.



"Bob" Fisher
Forward

"Eli" Arnold
Guard

Although Iowa State outscored Nebraska in the second half of a listless contest on the 27th, the rally fell two points short and the Cornhuskers won the final game of the season on the home floor by an 18-16 score. The teams played on practically even terms throughout the game. Jacobson led the scoring for Iowa State with 8 points, and assisted Captain Roberts in carrying the brunt of the Cyclone attack.

The Kansas Aggies duplicated their performance of the first combat at Manhattan on March 1, when they pulled ahead in the last four minutes of play and won a bitterly fought game, 24-20. The tilt was one of the fastest and most spectacular battles ever witnessed at the southern institution. Bunker, who was a source of trouble to Iowa State in the first game in State gym, was again largely instrumental in the Aggie victory. Roberts, Young and Jacobson performed in good fashion for the Cyclones.

Iowa State dropped a rough game to the Cornhuskers at Lincoln, Nebraska, on the 3rd, through inability to consistently penetrate the Husker defense. Roberts and J. Behm did the best work for Ames.

The Cyclones dropped the final game of the season to Drake University at the Coliseum, March 8, in a contest featured by the great defensive play of the Cardinal and Gold cagers, and the spectacular long range field goal shooting of Chuck Everett, star Bulldog forward. The uncanny ability of the Blue and White athletes, particularly Everett, to cage the sphere from far out of the ordinary zone of defense, coupled with the failure of the Iowa State shooters to make their attempts good, spelled defeat for the locals. The game was exceptionally fast throughout. Jacobson, Anderson, Young and Roberts all played in sterling fashion for Iowa State.

"Red" Lane
Freshman Coach

PREP BASKETBALL

IF predictions drawn up from the showing made by the freshman basketball squad this year hold good, Ames should be represented on the court by one of the fastest fives in the Missouri Valley in the next few years. The preps, under the tutelage of Walter "Red" Lane, former Cyclone star, developed one of the smoothest working quintets that has been produced from the underclassmen in late years.

There were a few on the squad, who, as usual, showed up especially well, but the team was a unit as far as teamwork goes. Those who might be mentioned for their outstanding work are Grimes and Miller at guards and Malcomb at forward. Although not quite so conspicuous, Coe, Iden, and Kastman also put in some good licks which label them as future varsity material.

The work of the season was confined almost entirely to scrimmaging with Coach "Bill" Chandler's varsity squad, the only other games being played with the Boone high school team. In the practicing with the varsity, the preps held their own at all times, throwing many a scare into the wearers of the Cardinal and Gold.

The following men were awarded numerals for their work:

C. R. Malcomb
A. R. Kastman
David Chesneau
L. Z. Dolan
L. W. Grimes
Roland Coe
K. R. Blitsch
Edwin Hill
P. H. Konechy
Raymond Bonsetter
R. C. Hienton
M. D. Fletcher
J. C. Iden
A. L. Miller

PREP BASKETBALL SQUAD

RECORD OF MEETS FOR 1923

HOME MEET—MAY 11

Juniors, first . . . . . 57 points
Freshmen and Seniors, tied for second . . . . 43 points
Sophomores, fourth . . . . . 19 points

DRAKE-AMES DUAL—MAY 12

Ames—84 1-3 points Drake—40 2-3 points

DAKOTA RELAYS—MAY 4

First in the Mile Relay.

STATE MEET AT IOWA CITY—MAY 17 AND 18

Iowa, first Ames, second

SUMMARY OF PLACINGS

Fourth in the 100-yard Dash
Second in the 440-yard Dash
First and Third in the Half Mile
Third in the 220-yard Dash
Fourth in the Two Mile Run
Second and Third in the Pole Vault
Third in the Half Mile Relay
First and Third in the Mile Run

MISSOURI VALLEY CONFERENCE MEET

Ames, sixth

SUMMARY OF PLACINGS

First and Second in the Mile Run
Third in the 220-yard Low Hurdles
Second in the Half Mile
Fourth in the Two Mile Run
Tie for Third and Fourth in the Pole Vault
Tie for Fourth in the High Jump

FRESHMAN TELEGRAPHIC MEET

PLACINGS OF SCHOOLS ENTERED

NEBRASKA—*First*
WASHINGTON—*Second*
OKLAHOMA—*Third*
AMES—*Fourth*
DRAKE—*Fifth*

On May 23 the preps were given a chance to show their ability, which they proceeded to do relatively well by taking fourth in the Missouri Valley Telegraphic Meet. The events were run off at the individual schools and the results were telegraphed to Washington University at Saint Louis, where they were summarized to determine the winner. Nebraska's Frosh took first honors with 47 2-3 points, Washington was second and Oklahoma third. Drake followed Ames, taking fifth honors.

Two firsts were taken by Ames. In the shot put Trice made a heave of 41 feet 8 inches, which was a very good mark in a Freshman meet. The other first was made by Owen in the pole vault when he cleared the bar 11 feet. Belding took second in the broad jump, with a leap of 20 feet 7 inches. Mayer of Ames placed next to Trice in the shot put with a throw of 39 feet 9 inches.

Other places taken by Ames men were third and fourth in the 220-yard dash by Norton Behm and Bucks, third and fourth in the 220-yard low hurdles by Luck and Crawford, third and fourth in the discus by Owen and Trice, third in the 100-yard dash by N. Behm and fourth in the half mile run by Crawford.

Places were taken in ten out of fifteen events, which was an excellent showing as the track was very soft from recent rains and a strong wind was blowing across State Field on the day of the meet. Most of the events were run against time, and consequently slower time was made in many of the events than would have been made if the runners had been pushed.

Hurdles

"Elmer" Bierbaum
Mile

Starring in the distance and middle distance events as she had for the past few years, and putting besides a fairly well balanced team into the field, Iowa State went thru quite a successful track season, and with most of the veterans returning and with the younger members of the squad improving with every meet, the prospects for a championship team in 1924 seem quite bright.

Ably coached by Art Smith, who was acting for his second year as track mentor, the team worked wonders and some of the fastest and most feared runners and field men in the State and Valley conferences were developed during the year.

DAKOTA RELAYS

The first outdoor competition for the Cyclone cinder men was at the Dakota Relays at Sioux Falls, S. D., on May 4, in which the one mile relay team took first in 3:29 1-5. This was the first year for these relays and the entry list was consequently small. No other team was entered in this race so the Iowa State squad ran against time, setting the Relay record. Miller, Hammerly, Holcomb and Captain Pohlman made up the team.

DRAKE-AMES DUAL

The outdoor season proper opened with the dual meet with Drake at State Field on May 12, when the Cyclones swept away the Bulldogs 84 1-3 to 40 2-3. Iowa State took firsts in every track event and in one of the field events, high jump, and blanked Drake in the two mile run and the 220 yard low hurdles. Drake took all three places in the javelin throw and firsts in the shot put, discus throw and broad jump.

Maine, in his first college competition, showed his heels to the Bulldog speed men, taking the century dash in 10 1-5 and the 220 in 22 flat, excellent time considering the condition of the track.

The mile furnished the thrill of the afternoon even tho the fight for first was between two Cyclone runners, McIntyre and Beirbaum. The former led all the way until the last turn where the latter overtook him and won in the last ten yards.

Captain Pohlman led in the 440 to the home stretch but was breasted at the tape by Hammerly. Bleakly overcame an eight yard lead to win the half mile run, with Shawhan finishing second.

The hurdlers gave promise of future wins when Brown and Sadler took first and third respectively in the highs in 15 4-5, exceptional time on so soft a track, and Brown and Green tied for a win in the low barriers and Sadler finished third for a blank for Drake and the time was :25 flat, also good for a slow track.

In the two mile run, the Cyclone distance men, Hollowell, Seston, and Bollinger crossed the line together for nine points for Iowa State, and Godby, Meyer and Gamble repeated the triple first in the pole vault but were forced to go only 10 feet 6 inches.

Maurce and Meyers took a second and third in the shot put; Reynolds jumped 5 feet 5 inches for five points in the high jump and MacFarland tied with Orebaugh of Drake for third; Meyers and Gambler brought in four points in the broad jump with a second and a third; and Bennet finished the Ames scoring column with a third in the discus.

The 440 at the Missouri Valley Meet—Hammerly Second.

HOME MEET MAY 11

May 11 ushered in the only interclass or all college meet of the season and the juniors walked away with the honors with a total of 57 counters, the preps and seniors coming second with 43 points apiece and the sophomores bringing up the rear with 19 tallies.

All track aspirants and squad men were eligible to compete and consequently some fairly good results were tabulated, altho the track was soft and loose. Great interest has been aroused in the class meets and the large number attending marked the meet as a success, and it also gave the coach as an insight to what improvement the men had made since the beginning of the season and an index to use in choosing the varsity for the more important meets in the near future.

McIntyre and Bierbaum furnished the feature of the day in the mile run with the former taking premier honors after a flashy finish that resulted in the time of 4:48.

Main reigned supreme in the dashes, tho pushed hard by Behm in the 100 and by Walters in the 220. The century went in 10 2-5 and the 220 in 23, with the point winners well bunched at the tape.

The hurdles went off in almost the same order as at the Drake dual with the highs going in the good time of 15 2-5. Brown captured the latter and "Pinky" Greene, showing his speed of a year ago, tooks the lows in 26 even.

Trice and Mayer looked good in the shot, both throwing the brass ball over the 40 foot mark. The first honors were taken by Trice with a heave of 40 feet 1 inch. Meyers and Godby hit their stride and showed good form in the pole vault, tying for first at 11 feet.

Altogether, the team looked like rounding into fair shape for the state and valley meets, and the preps looked the best in many years, giving promise of points in the valley telegraphic meet.

STATE MEET AT IOWA CITY

The annual state track and field meet was held on the Hawkeye field May 17 and 18, and of the six schools who broke into the scoring column, Iowa State finished second only to the great Iowa university team, which ran away with first honors with 91 1-3 points tallied against the 30 2-3 counters of the Cyclones.

The preliminaries left Iowa State with all the men she had expected to place ready to run in the finals, and Ames fans had a sneaking feeling that by some means the runners for the Cardinal and Gold might down the mighty Iowa, but it was impossible.

The first surprise came in the century dash, when Maine breasted the famous Iowa trio of Wilson, Brookins and Coulter all the way, tho forced to be satisfied with a fourth by inches only. In the 220 he again fought to the tape abreast of the leaders, finishing third to Wilson of Iowa and Powell of Coe.

The high hurdles gave Ames but one point, Brown taking fourth. The wind was against the runners and affected the strides of all except the long-legged Crawford of Iowa who took the honors. In the 220 low hurdles the biggest upset of the day occurred. For tho both "Pinky" Greene and Brown seemed bothered in the preliminaries by the wind, it was thought that they would give Brookins a race for first. Even to the fifth hurdle, both Ames runners had to change strides and failed to come in among the first four.

Coulter and Hammerly ran the quarter out in the last few yards the former winning by a narrow margin, and the time of 51 8-10 was considered good against the strong south wind that swept the west straightaway. Shawhan came across with the unexpected and beat Porter of Grinnell to the tape in the half mile run. The fans had conceded the race to the Grinnell runner at the last turn but "Casey" came thru and won in the final yard, with Bleakly placing third.

The next win for the Cyclones came in the pole vault in which the Ames vaulter set a new state record of 11 feet 10 1-8 inches. Meyers, Godby and Meder of Iowa tied for first breaking the old record by ¼ of an inch.

"Mac" and Bierbaum Take the Mile at the Missouri Valley Meet.

"Sleepy" Godby
Pole Vault

"Bleak" Bleakly
Half Mile

As was expected, the Cardinal and Gold milers won their event, McIntyre breaking the tape for first in 4:31 6-10. Bierbaum, setting a fast pace from the start, led out the Iowa runner, but had to be satisfied with a third at the finish. Seaton in the two mile ran a steady race and finished for a fourth. Ames took third in the half mile relay, having to take the heels of both Iowa and Grinnell.

All of the most promising point winners have at least a year left and as all have developed this year, they should prove quite dangerous in the 1924 season.

MISSOURI VALLEY TRACK AND FIELD MEET

AMES, MAY 25 AND 26

Missouri Valley track stars assembled at Ames May 25 and 26 for the annual Missouri Valley Conference track and field meet and proceeded to either break or tie practically every record in the conference. Fair weather and light winds made an ideal setting for this important event and in a large measure made the exceptional times, distances and heights possible.

Ten schools were represented and such keen competition was present that the conference championship was undecided until the close of the meet. When the points were counted up, the versatile Cornhuskers emerged victorious with 40 points, the Kansas Aggies came second with 30 tallies, Kansas University was third with 24½ counters, Missouri pushed close but was forced into fourth place with 21¼ points and Washington and Iowa State finished fifth and sixth with 19 and 15¼ tallies respectively.

The 100 at the State Meet—Maine Fourth.

"Bernie" Meyers
Pole Vault

"Don" Seaton
Two Mile

Erwin of Kansas started the meet by taking the 100 yard dash in 9 9-10, the fastest time recorded on the State track and as fast as has been run in the valley for years. Three Nebraska sprinters were on his heels, bringing in the points that finally won for the 'Huskers.

The high hurdles was perhaps the most interesting race of the day, as from the sidelines it seemed impossible that the winner could be picked, so closely were the men bunched. Taylor of Grinnell took the heat in 15 4-5 with Riley of Kansas State second and Blanchard of Washington third. The lows came close to equalling the record, Riley of Kansas State taking the barriers in 24 2-5, followed closely by Taylor of Grinnell, second, and Brown of Iowa State, third.

Iowa State milers showed their calibre by beating the fastest the valley could offer in 4:26, and were left to fight the finish out between themselves. Both Allen of Nebraska and Willey of Kansas State lead for a good part of the distance, but could not stand the driving finish of the Cyclones.

Bier of Washington proved to be the pick of the valley in the quarter mile, running a beautiful race in 49 8-10 seconds. Layton of Nebraska pushed him hard but could not pass him on the final straightaway. Evans of Missouri took third.

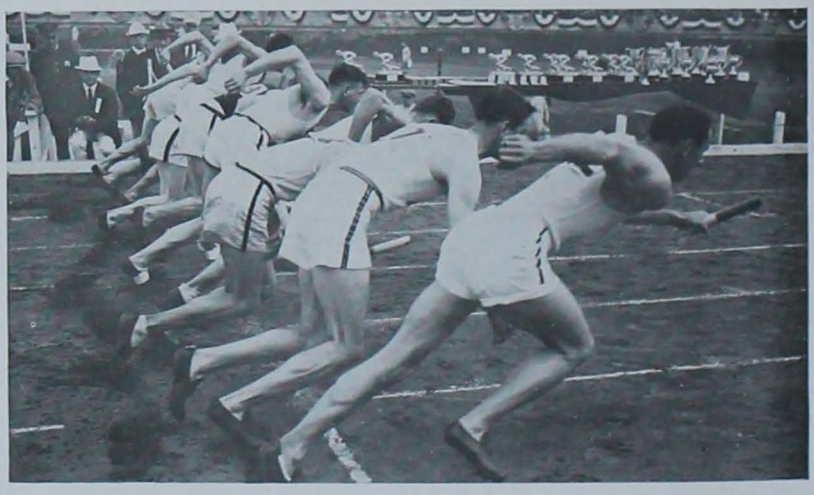
The feature race of the day proved to be the half mile run, which was finally won by Gardner of Nebraska in 1:56 3-5. Captain Hammerly of Ames ran a beautiful race, running abreast of the Cornhusker runner on every straightaway, but the men were so evenly matched that the advantage that the inside track gave Gardner was just enough to give the extra foot necessary to win at the tape.

Erwin of Kansas State won his second event of the day when he picked the 220 yard dash from Noble of Nebraska in 21 5-10 seconds, almost equalling the valley record again. Erwin lived up to his reputation as not only the fastest but also the most consistent sprinter in the middle west.

Kansas State took the honors in the two mile run, Kuykendall winning in 9:52 3-10, Selmons of Nebraska, second, and Balzer of Kansas State, third.

Washington took the laurels in both the mile and half mile relays, Bier coming from behind to win in the last lap of the former in one of the prettiest races of the day. In the shorter relay the Piker team lowered the Valley mark to 1:28 2-10, and were pushed to the limit by the fast Cornhusker sprinters who took the Drake Relays the year before.

Records seemed very unstable in the field events and three were shattered in the course of the afternoon. First to fall was the pole vault mark when Rodgers of Kansas university cleared the bar at 12 feet 6 7-8 inches. Meyers of Ames tied for third. Next to tumble was the high jump record under the nimble legs of Poor of Kansas university who cleared the low bar at 6 feet 2¾ inches. McFarland of Ames tied for fourth place with a jump of 6 feet.



The Two Mile Relay—Drake Relays.

Lingenfelter of Drake set a new javelin mark with a heave of 179 feet 7 1-5 inches, with Hartley of Nebraska second and Vogle of Oklahoma third. Purma of Kansas State took the shot put with a distance of 41 feet 9½ inches with Etter of Missouri second and Norton of Kansas university third. Graham of Kansas university won the broad jump with a jump of 22 feet 10¼ inches, and Waddel of Missouri took second with Hatch of Nebraska third. The discus throw went to Lincoln of Missouri at 132 feet 6 7-8 inches, with Norton of Kansas university and Ellison of Oklahoma second and third respectively.

THE SEASON

Missing Walter Eckersall's prediction of a championship team by one notch, by landing in a tie with Oklahoma for second place, the 1923 Cyclones went through one of the most successful baseball seasons in recent years. When the end of the season rolled around, Ames had registered six victories and three losses in conference competition in addition to four non-conference wins.

AMES AT MT. VERNON

The first game of the season, on April 9 with Cornell College, was a walkaway for the Cyclones, the final count being Ames 18, Cornell 2. The entire team played in mid-season form. The game clearly indicated that the team was going to be strong with the willow, since three home runs were made, two by Runkle and one by George.

The following men who started the game for Ames were substituted for freely, to enable Coach Chandler to get a line on his material: Moser and Ilgenfritz, pitchers; George, Meneough and Raff, outfielders; Captain Whitaker, catcher; Runkle, Jacobson and Towne, infielders.

CORNELL AT AMES

On May 4 and 5 Ames treated Cornell to two more defeats. The Cornell team showed vast improvements over their early season form, however, and the Ames squad was forced to go its limit to win. The scores were 2 to 1, and 5 to 2. The first game was a pitcher's battle between Clausen of Ames and Paulson of Cornell. Both pitchers struck out eighteen men, but Clausen had a slight edge over the Cornell twirler, giving the Mt. Vernon nine only two hits. A two-bagger by Whitaker, with Runkel on base accounted for Ames' two tallies.

"Bill" George
Pitcher
(Captain-elect)

Durland, in the box for Ames in the second game, pitched good ball, striking out nine men and issuing no passes. The Cyclones got to Hummel for five scores in the three innings which he pitched. Young who replaced him, however, held Ames scoreless for the remainder of the game.

AMES AT ST. LOUIS

The Missouri Valley schedule was opened on April 11 when the Cyclones journeyed to St. Louis to meet the Washington University squad in a double header. The laurels were evenly divided since the first game was taken by the Ames squad with the score, 4 to 3, but lost the second game to the Pikers, 2 to 4.

Durland pitched the first game in which the Pikers secured nine hits, while the Ames squad garnered but two blows, one by Jacobson and the other by Runkle. However, the Cyclones by bunching these two hits with two errors and two passes, pushed three runs across in the first inning. The fourth counter came in the seventh inning from two walks and an overthrow at third.

In the second game, which Washington won, 4 to 2, Ames was again held to two hits, both of which were made by Bierbaum. The same lineup was u sed for these games as was used against Cornell.

WASHINGTON AT AMES

Going after the Pikers with a vengeance to make up for the single defeat at St. Louis, the Cyclones administered a double drubbing to the Pikers in their return games at the State Field April 26 and 27. The scores were 4 to 1 in the first clash and 11 to 5 in the second.

In the first game Clauson pitched stellar ball, giving only five scattered hits and striking out eight men. Ames counted three times in the third inning when George produced a two bagger, followed by an error which gave Menough a safety and a single by Jacobson which shoved George home. Runkle walked, filling the bases and Whittaker singled which brought in two more. The fourth counter came in the fifth inning.

In the second game the Cyclones went on a batting rampage, driving out eleven hits for a total of twenty-four bases which netted eleven runs. This barrage produced scores in six of the innings. Runkle was the "Babe Ruth" of the day since he drove out a homer, a triple, and two singles out of five chances at the bat. Bierbaum also collected a triple. In this game Raff appeared in the right field in place of Greer, which position he maintained for the rest of the season. Durland pitched for Ames giving him his second victory of the season over the Pikers.

The Pikers had previously scored one run in the first when Durland hit Magnolo. The Piker shortstop caught the Cyclone gazing and went from first to third on Roberts' grounder. Fries brought him home with a sacrifice fly. They scored two more in the fifth on an error by Runkle and a home run by Bremser. The Cyclones scored runs in every inning except the third, fourth and fifth. George crossed the plate in the first on a walk, a sacrifice and a single by Runkle. In the second the Cyclones opened up. Bierbaum scored on his hit, a sacrifice and an error.

Robbins got a life on a fielder's choice, went to second on an error and scored when George connected for two bases. Meneough scored George with another double. A third double put over two more scores. In the seventh Runkle got a single for his third safe blow. Bierbaum and Whitaker followed with doubles and the result was two more counters over the rubber. George singled in the eighth, but was out at second on Meneough's grounder. Meneough beat out the attempted double play. Runkle still thirsting for hits came up and put one out of reach in deep right center, chasing Meneough home for two more scores.

COE AT AMES

On April 18 Coe was defeated in a close hard fought match, the final score being 4 to 3. Both Clauson and Durland filled the pitchers box for Ames. Clauson helped to win his own game by clouting out a home run. Ames scored one run in both the fifth and sixth innings for the first counters of the game. In the seventh the Kohawks knotted the score, but Ames doubled their tally in the next round. In the ninth the Coe squad had another rally but was able to garner only one score.

KANSAS AT AMES

Out hit and out fielded, Iowa State came out on the short end of a 6 to 1 score in the first of two seven inning games with the University of Kansas. The second game was called on account of rain after an inning and a half. The Kansans stacked up like a real ball club against the Cyclones. They started scoring in the third, putting over three runs. Another crossed the plate in the fifth and the sixth saw them add two more.

Hits, when hits meant runs, accounted for the Kansas victory. In all, they collected nine safe blows, five of which were for extra bases. Bloomer, the Jayhawker moundsman, was practically supreme. Until the sixth when he had a six run lead, he allowed the Cyclones two hits. Four safe blows were collected off him in the sixth, but after one run was scored, he tightened down and retired the side.

George led off for Ames with a single, but he died on first. From then on until the sixth, only one Cyclone reached first. He went to third on Durland's hit, but Bloomer cut loose and struck out the next hitter, ending the inning.

In the sixth, Meneough connected for a single. Jacobson followed suit with a two bagger, but was thrown out at third trying to stretch it into a triple. Meneough scored the lone Ames tally on this hit. Runkle and Greer both connected for singles in this inning, but a force-out at second and man thrown out at first ended this round. In the seventh the Cyclones went out in one, two, three order. The second game had gone but an inning and a half when Umpire Brady called the game. A fine drizzle made the ball so slippery that it was practically impossible to pitch.

AMES SAFE ALL AROUND

AMES AT LINCOLN

On May 11 and 12 Iowa State engaged the University of Nebraska in two games at Lincoln. The first contest was the kind of game one often reads about, but seldom sees. In this game the Cornhuskers took an early lead and managed to hold their advantage until the seventh inning, when Ames shoved across two counters, tying the score. With the count even, the two teams battled until the twelfth inning, when Iowa State put across the winning tally, making the final score 5 to 4.

As far as pitchers were concerned, the battle was about even, for both hurlers allowed twelve hits and walked five men. From the error column it would appear that the Cornhuskers had a little the edge in defense, for they committed only one error to the Cyclones' three. Punch won the ball game for the Cyclones, however, after tying the count in the ninth, playing air-tight ball for the rest of the game, and counting the winning run by connecting safely for two singles in the twelfth.

The Cornhuskers started scoring in the second when they pushed over two runs with the aid of Cyclone errors. In the sixth they counted and finished their part of the scoring when they added another in the ninth.

The Cyclones were slow to start and until the sixth Lewellen was master of the situation. Bierbaum ruined things for the Cornhuskers in this inning, however, for he laid out a circuit blow. From then on the Cyclones began to connect, for in the seventh they scored two runs on three doubles.

"Dave" Robbins
Second Base

"Ole" Jacobson
First Base

The eighth was scoreless for both teams, but in the ninth Bierbaum walked, went to second on an error and rode home on Raff's single with the tying run. For the next two innings neither side could count, but in the twelfth the Cyclones pushed over another run, ending the battle.

The second game was a hectic affair, played in a drizzling rain, which made the ball so slippery that accurate fielding and pitching was practically impossible. Along with this the Cyclones were unlucky and their errors came when they resulted in runs for their opponents. The Cornhuskers led all the way. They scored two in the first, two more in the fifth, and pushed over three more counters in the eighth on the Cyclone errors and two singles. In the ninth the Cyclones rallied and added a run to the two which they had already scored, but the punch was lacking and defeat was the result. Nebraska touched Durland for nine hits, while Corman allowed the Ames squad only three blows. The final score was 3 to 7.

NEBRASKA AT AMES

The Ames nine showed the brand of ball they were capable of playing when they defeated the Cornhuskers in both games of the second series which was played on the State Field during the Veishea celebration May 18 and 19. The first of these games went to Ames by a 4 to 1 score, and the second was won 7 to 6.

Clausen was master of the Nebraska nine practically all the way and although he handed out seven passes, he was able to find the plate in pinches and set the Nebraskans on their heads. Errors combined with walks put him in the hole several times, but in every inning except the fifth he was able to turn the Cornhuskers back without a run. In the sixth after one was down, Petty got a life on Raff's misjudgment of his fly and then went to third when Clausen let Raff's throw get away from him. Arries scored him with a single. That was the sum total of the Cornhusker's scoring and in every other inning Clausen was either able to strike out dangerous hitters or make them pop up to the infield. He struck out ten men and practically every one of the strikeouts came in a pinch.

On the whole, the Cyclones played good ball behind Clausen and although five errors were committed, spectacular stops by Towne, Jacobson and Runkle made the Cyclone defense look fine.

After Nebraska had tied the score in the ninth inning at six all, Coach Bill Chandler's Varsity broke through with four straight singles in the tenth which put over the winning run for the final game of the season. The score was 7 to 6.

It was in this game that the Cyclones downed the Nebraska squad for the third time of the 1923 season. It was this game that put the Cyclones in the second notch of the Valley Conference standing. The game was a regular slug fest with the Cyclones leading the Cornhuskers practically all of the way.

Both Durland and Carmen suffered considerable bombardment, but Durland was able to keep the hits scattered and did not allow as many blows as the Nebraska moundsman. The Cyclones collected seventeen safe blows to the Cornhuskers' ten. Chandler's proteges simply battered their way to victory, for in the tenth after Nebraska had tied things up, Durland, George, Meneough and Jacobson all singled, the last hit scoring the winning run.

"Bill" George led the Cyclones at the plate by connecting for five safe hits in six trips to the plate. Two of his blows were for extra bases, one being a triple and the other a double. Meneough and Jacobson followed him with three apiece and Whitaker was next with two safe bingles.

LINK GIVES IT A RIDE

The Cyclone hitters were all out for a little batting practice at the expense of the Cornhusker pitcher. Not only did George, Meneough and Jacobson swat the pill around the diamond, but the rest of the team came through with a single each, with the exception of Towne, who had to be satisfied with a sacrifice.

CROSS COUNTRY 1923

ELMER BIERBAUM
Captain

The enviable reputation built up by Iowa State's cross country teams in the past few years was nobly upheld by the 1923 team when they won the Missouri Valley championship. It was the tenth consecutive year that Ames had won the title.

On November 17 the team journeyed to Lawrence, Kansas to take part in the Missouri Valley meet, which they won, the final score being Ames 36, Missouri 67, Nebraska 74. McIntyre again placed first, making the remarkable time of 28:3 over a very hard course. The best previous time for this course was 28:23. The other Ames men to place were Bierbaum second; Bollinger, eighth; Griffith, tenth; and Brown, fifteenth.

"BEANIE" BEANBLOSSOM
Coach

Ames entered the Big Ten meet which was held at Columbus, Ohio on November 24. Competing with some of the best teams in the country, the Iowa State team tied for fifth place. McIntyre placed sixth in this meet, and Bierbaum seventh. It was at this contest that Bollinger gave an exhibition of the grit and spirit which has brought fame and glory to the Ames cross country squads of the past decade. Worn out by the fast pace which was set over the level Columbus course, Bollinger fell six times in the last seventy yards, but gamely finished the race.

For the first time in several years the Ames harriers were defeated in a dual meet. The Haskell Indians are to be credited with this victory in which they held down their tally to 24 points while the Cyclones had 31 counters.

The Ames men finished in the following order:G. S. McIntyre first, Paul Bollinger fifth, O. R. Griffith seventh, Mark Brown eighth, and Eugene Mollowell tenth.

George McIntyre led the nearest Redskin to the tape by 50 yards with the time of 27 min. and 42 sec. for the five mile course over hill and dale.

BOXING

"BILL" THOMPSON
Coach

In spite of the fact that the "manly art of self defense" is an ancient historic one it is only recently that it has made its advent into intercollegiate sport. It is in an experimental stage and its fate as an agency for inter-collegiate competition is as yet unsettled. The difficulties attending boxing in colleges are apparent. Any display of brutality is a deathknell to the game as far as college sport is concerned. Competition must be fast and clean at all times and there is no crowd as brutally frank in their opinion and in the expression of the same as a crowd attending a boxing contest.

The abuse of the boxing game by professionals has earned many sincere and intense enemies for the ancient sport. It is only natural that the college game should suffer for the intolerable wrongs perpetrated in professional rings. Much of this blame, however, is unmerited, unreasonable and unfair. There is no such thing as "stalling" in an intercollegiate contest. Exhibitions of college boxing cannot be savage displays of brutality because of the strict curtailment of the rules.

Boxing is a new field of Valley competition and Iowa State is recognized as a leader and peer. Last year but one meet was held in the conference—between Washington University and Iowa State at Ames. The Cyclone boxers won easily, although the score was close, 4 to 3, one point being scored for each decision. Knockouts counted only as a decision.

It might be well to mention a peculiar rule applying to intercollegiate boxing here—that one which allows no cheering or even loud talking during the progress of the fight, cheering being permitted only between rounds.

The season this year began with the Kansas State match at Ames February 16. Although the Cyclone fighters were doped to win, there was not any overconfidence in the Ames camp, for the men had not been seen in action enough times to really show their stuff.

In their first meet of the season the Cyclone boxers won a sensational battle over the Kansas team, in the State gymnasium, with a 5 to 2 score.

Cilley, Peacock and Clampit won technical "K. O's" while Sherwood won a decisive advantage over Carnon of the Kansas Aggies, and Rouser won a decision over Shepard in the extra period of his match.

The match between Clampit of Ames and Carnon of Kansas Aggies, and the match between Clampit of Ames and Pearson of the Kansas Aggies were the most sensational bouts of the meet. Sherwood seemed to be playing with his man and hit him whenever he wanted to. Credit must be given to Carnon as he gamely took a thorough punishing.

When Clampit and Pearson walked into the ring the audience would have bet ten to one on Pearson. After the first round started and Clampit warmed up, things took a decided change. Clampit opened up with blows that took his opponent by surprise and in a very short time Clampit landed a pile-driver that sent Pearson sprawling to the mat. He rose somewhat dazed only to be socked again and then the referee stopped the bout before the end of the first round.

EDDIE ROUSER
125 Pound
Captain

DUNBAR
135 Pound
CILLEY
115 Pound

115 pound class.—R. Cilley (Ames) won over Bachlor (Kansas Aggies) by a technical knockout.

125 pound class.—E. Rouser (Ames) won a decision over Shepard (Kansas Aggies), the bout went to extra period.

135 pound class.—Rose (Kansas Aggies) won a decision over Dunbar (Ames) in a fast and snappy bout.

145 pound class.—Hoelzel (Kansas Aggies) won a decided advantage over Anzulovic (Ames).

158 pound class.—Sherwood (Ames) worked off the tie by winning a decided advantage over Carnon (Kansas Aggies) who took an awful punishment to stick with Sherwood for the scheduled three rounds.

175 pound class.—Peacock of Ames won over Schpflin (Kansas Aggies) with a technical knockout, which came in the first extra period.

Heavyweight class.—Clampit (Ames) won over Pearson (Kansas Aggies) with a technical knockout which came in the later part of the first round.

The meet was officiated by Hunter of the University of Iowa.

In their second and last dual meet of the season the Cyclones won the distinction of being the best in the Western Conference, by decisively defeating the Notre Dame squad which was doped to have a slight edge on Ames.

When the gong ended the heavyweight battle between Miller of Notre Dame and Clampitt of Ames, which the latter won, there was no doubt in the minds of the fans as to the superiority of the Cyclones.

The Catholics were out-boxed and out-punched, but put up a game fight in losing. The past record of the Cyclones in the Valley together with Notre Dame's success in the East, proved a big drawing card, packing the State gym.

Honors were even at the close of the first bout in the 115-pound class with Cilley of Ames and Captain McGowan of Notre Dame annexing a point each. The Ames battler outweighed the Notre Dame man, but was unable to get to him except in the second round.

McGowan won the first round and the third round was even. The bout went to an extra period but the judges were unable to make a decision in favor of either man.

Captain Rouser had little difficulty in scoring for Ames with a decision in the 125-pound event and had it his own way during the three rounds. O'Keefe of Notre Dame had the advantage in weight and reach, but failed to reach the Ames man for any serious damage.

Dunbar of Ames staged a reversal of form displayed in the dual meet with Kansas Aggies recently and took Spillane into camp with little trouble in the 135-pound class. The Iowa State boxer took the offensive at the gong and forced the fighting all the way.

Schell of Notre Dame scored the only decision for his team in the 145-pound bout with Anzulovich of Ames. Both fighters exchanged blows with honors about even in the first round. Anzulovich drew blood when his opponent received a cut over his eye. The Irish 145-pound man came back in the second and third rounds and gave the Ames man a terrific beating with punches to the face. The judges awarded the decision to Schell.

Sherwood of Ames and Canny of Notre Dame put on the feature bout of the evening. The long armed Ames boxer was continually on the offensive, but the Notre Dame man kept driving through his defense with a powerful right. The Ames man shaded his opponent in the first round and honors were even in the latter two.

Peacock experienced no difficulty in getting the decision in the light heavyweight class from Springer of Notre Dame. The smiling Notre Dame battler absorbed heavy punishment in the first and second

rounds and came back in the third with an attack that left the honors for the round even.

In an extra period bout, Clampitt of Ames defeated Miller of Notre Dame in the heavyweight event. Contrary to reports circulated previous to the match, Miller was not the All-American football player from the South Bend institution. The Ames heavyweight was rarely touched by his opponent, but on the other hand was unable to get much advantage on the offensive. The match was close throughout.

In the Kansas City Athletic Club meet three Ames boxers won their respective bouts.

Capt. Eddie Rouser had little difficulty in winning a decision from Shepard of the K. C. A. C. in three rounds of fast fighting, in the featherweight class.

In the lightweight class Dunbar won a decision from Rose of Kansas Aggies. Clampitt floored Schoplin of Kansas Aggies in the second round in the 175-pound class. The Cyclone boxers won their rounds with comparative ease and came through with few scars.

SHERWOOD
158 Pound
ANELOVIC
145 Pound

Eddie Rouser has smashed his way through the season as captain of the Ames pug team. In the meet with Kansas Aggies, he met the captain of the invading squad and although the match went to an extra round, Rouser won hands down. Eddie's speed and hitting ability loomed up when he pounded his way to a decisive win against the much touted Notre Dame 125 pounder.

After losing a judge's decision in the Kansas meet, Dunbar staged a whirlwind comeback, upset all dope and whipped his man from Notre Dame. Hard hitting had the Catholic 135 pounder groggy before the second round was over.

Clampitt met Schopling before when the Aggies came to the Cyclone camp. His speed and lashing style of fighting put the big man from Kansas on the floor three times before the end of the first round. He repeated his initial performance Saturday when he won his match with a knockout.

CLAMPITT
Heavyweight
PEACOCK
175 Pound

W. J. Clampitt, wearing the colors of Iowa State, won the 175 pound championship at the Mid-western Amateur Athletic Union which was held at Omaha, Neb. on April 8. By virtue of this victory, Clampitt not only won the championship of the Midwest A. A. U. but also the right to enter the semi finals for the Olympic tryouts.

Both of his bouts in this meet were won by the K. O. route. His opponent in the opening fight had his first introduction to the mat for the full count of ten. Describing the second battle the *Omaha Herald* said, "Wes Clampitt comes from Iowa State College where it is said that they make good boxers. They do. Clampitt took just forty seconds to show what the tall corn diet can do."

OTOPALIK
Coach

WRESTLING

Coach Otopalik used thirteen men in collegiate matches during the season. Boyvey held undisputed claim to the 115 pound class, Marsh and Kurtz held down the 125 pound class, Schmidt and Epperly in the 135 pound class, Johnson, Meyer and Woodhull in the 145 pound class, Prunty and Sloan in the 158 pound class, Pillard and Reighard in the 175 pound class and Anderson in the heavyweight class.

The coaching staff consisted of Hugo Otopalik, head coach; B. J. Firkins, first assistant; Ward Chase, second assistant. George R. Bockle was student manager.

Beginning the season with what was probably the most inexperienced team that Iowa State has had since wrestling was first inaugurated here, the grapplers turned in another long string of victories, ten in all, with no defeats, and ended the season tied with Indiana and Illinois for the Western Intercollegiate championship. In the Missouri Valley wrestling tournament which was held in the State gym, the first of its kind to be held in the conference, Nebraska beat Ames by one point for first place, but this was vindicated by the defeat of Nebraska in a dual meet earlier in the season. There were no intersectional meets this year as there were last, all the contests being with middle-western teams.

PRUNTY
Captain-Elect

Ames was deprived of its only veteran from last year's squad, Captain Conrad, who by sickness and an operation was prevented from going in the ring the greater part of the season. Consequently, the Cyclone team was composed entirely of green men. Under the tutelage of Coach Otopalik and Assistant Coaches Firkins and Chase, this squad developed into a crack team.

Coach Hugo Otopalik faced a problem that meant much to Ames in the realm of mat artists. A resume of the past six years showed a record that is unequalled in collegiate wrestling, fifty-eight victories and two defeats. Surrounded by a squad of inexperienced men, it was his task to maintain the standards set by his predecessors. And to Coach Otopalik should go a great deal of credit for the splendid showing made by the Cyclones this year. He developed a team that carried thru the season undefeated.

Having no captain because of Conrad's disability, a new practice of selecting a leader was followed. Preceding each meet the men who were selected to compete elected a captain for that particular meet. The captaincy thus devolved on nearly everyone at sometime during the season.

Aside from the fact that it was a green team that accomplished so much, the most remarkable thing about the squad was probably the fact that there was practically no second string, each man being just about as good as his next competitor. It was necessary to hold tryouts before every meet to determine who would represent the Cardinal and Gold, and in some cases the men were so equally good that the toss of a coin was resorted to for the final decisions. With a team of this calibre on two occasions meets were scheduled with two teams the same week-end, and in both cases the Cyclones turnd in victories.

BOCKEL
Student Manager

WESTERN INTERCOLLEGIATE TOURNAMENT

Ames sent four men to the Western Intercollegiate wrestling tournament this year. Prunty, the fastest man Iowa State has had in the 158 pound class for some time, returned with the championship of his class. He has two more years of competition ahead of him. Kurtz captured second honors among the 135 pounders and Pillard was third in the 175 pound class at the tournament.

AMES-CORNELL

In their initial meet of the season on Jan. 12, Iowa State's team of unknowns easily conquered the mat men from Cornell college. Since the Cornell squad was coached by "Polly" Wallace, Ames' former star in the heavyweight class, a great deal of interest was shown at the early season match. The Mt. Vernon men showed evidence of coaching by an Iowa State man. Capt. Conrad opened the meet by wrestling to a draw with Van Etten who later won the championship of the 115 pound class in the M. V. tournament.

AMES-WASHINGTON

The fact that the green material of the 1924 mat squad was developing into a powerful machine, which could live up to the standards of former years, was clearly demonstrated in the second dual meet of the season with Washington in which the Cyclones piled up a 21 to 0 score on the Pikers.

Boyvey, stepping into Conrad's shoes, showed stuff which puts him in the class of Dickerson and Sogard of other years, when he threw his man in 1:53. Kurtz, wrestling Captain Brewer of the Pikers, secured a decision with a time advantage of 10:49. DeHart in the 135 pound class secured a fall in 5:55. Woodhull vindicated himself for his loss to Cornell by pinning his man in 6:51. Prunty and Pillard secured decisions with generous time advantages. Score, Ames 21; Washington 0.

AMES-SIMPSON AND STATE TEACHERS COLLEGE

On the following week end the wealth of the Cyclone's material was clearly demonstrated when two teams were sent out into the field at the same time, one journeying to Simpson and the other to Iowa State Teachers' College. The first meet was won with a 13 to 6 score and the second ended in a shutout for Ames, 21 to 0.

Prunty with his usual speed and tact subdued Boren of Simpson in 1:51. Boyvey, Marsh, Kurtz, and Sloan also turned in five points each by pinning their men to the mat. Epperly, Woodhull, and Reighard secured decisions and Owens' match went to a draw.

WRESTLING SQUAD

Meyers, Nelson, Johnson, Zink, Jacobson, Galbraith, Anderson, Sloan, Reighard, Berger, Schmidt
Sadler, Prunty, Lenzmeier, Linn, Pillard, Woodhull, Kurtz, Tipton, Boyvey, Chamberlain
Epperly, DeHart, Marsh, Wimmer, Andrews, Conrad

AMES-DES MOINES UNIVERSITY

The next to fall victims before the Cyclones were the Des Moines University's wrestlers who received the small end of a 29 to 0 score. Five falls, ranging from 41 seconds to 3:27 in length, and two decisions, both with big time advantages, were on the board when the meet was finished. "Ole" Anderson who made his first appearance in the heavyweight class tossed his man in 1:40. Others who produced falls were Boyvey, Marsh, Prunty, Woodhull. Epperly and Pillard earned decisions in their matches. Score: Ames 29, Des Moines 0.

AMES-MINNESOTA

The Minnesota grapplers came to Iowa State the week after they had been defeated by the Hawkeyes by a 23 to 0 score and were overwhelmed by the Cyclones by exactly the same count.

Boyvey in the 115-pound class maintained the same standard he had established in the other matches by tossing Dally in 6:02. Meyer and McCurdy fought to a draw but in the first extra period Meyer came from beneath and pinned the Gopher in 2:28. McCurdy suffered a broken rib from the fall and was unable to continue for the second extra session. Anderson also threw his man, Cantanzaro, after a draw for the first twelve minutes. The Minnesota man was laid out by Anderson's onslaught and was also unable to come back for the second extra period. Prunty who was captain in this meet was in danger for a while, but came out of it and won with a 4:33 advantage. The most aggressive match of the afternoon was that between Kurtz and Leahy in which the former totaled up a 9:13 advantage after being on the bottom of the heap on several occasions. Epperly and Reighard won with time advantages of 2:35 and 6:05. Score: Ames 23, Minnesota 0.

AMES-NEBRASKA

In the big match of the season, the battle with Iowa State's old friendly enemy, the Cornhuskers, Ames came through with a 14 to 9 victory. With five veterans on their squad and victories over Kansas and Northwestern, it looked as if Dr. Clapp was going to have his words of the year before made good, in which he said Nebraska would wait one more year to beat the Cyclones. Taking three out of the first four matches, Nebraska piled up a lead of 9 to 2, but in the heavier weights Ames came back with three straight falls and won the meet. Boyvey, though unable to produce his usual fall, opened the meet with a decision for Ames with a time advantage of 11:45 over Blore. Captain Kellogg, Uhlir, and Skinner of Nebraska followed

with three successive victories in the 125, 135 and 145-pound classes, Uhlir getting a fall from Epperly. With the stage all set for Nebraska to realize her dreams of so many years by beating an Ames mat team, Prunty came out and pinned Thomas in 10:55 cutting down the lead to two points. Pillard followed in the 175-pound class with another fall from Robertson in 8:59. With the score standing 12 to 9 the meet hinged on the final bout of the evening between heavyweights. Anderson took Highly to the mat early in the match and squared his shoulders down after 10:16 minutes of tussling, giving Iowa State its seventh consecutive victory over the Nebraskans. Score: Ames 14, Nebraska 9.

KANSAS-AMES

On their first trip into foreign territory on February 21, Iowa State let Kansas University down in the same way as had been done to its predecessors. The Jayhawks who had chalked up a 30 to 0 victory over Washington, or nine points better than Ames had done, loomed up formidably but, nevertheless, history repeated itself giving Ames the honors. Boyvey as usual came through with a fall in 4:50 over Craven. The Kansan star Stirton, after ten minutes of top speed wrestling in which the honors were evenly divided, finally tossed Kurtz giving Kansas their only points. Prunty worked hard for a fall over Sparrowhawk, but although close to his goal on several occasions, was unable to turn the trick, earning a decision with an advantage of 11:36. Anderson who captained the squad in the meet also won a decision, having an advantage of 3:58 over Hill. Pillard who was matched with the Jayhawk captain, Welring, stayed behind him 9:22 for a decision. Epperly and Johnson, the latter wrestling for his first time under the Cardinal and Gold, both turned in two points via the decision route. Score: Ames 15, Kansas 5.

MEYERS

ROLLA SCHOOL OF MINES

While the first team was at Kansas U. another squad journeyed to Rolla on February 21 to take the Miners scalps by a 21 to 2 score. Every Ames man won a fall or decision except Epperly in the 135-pound class who lost by a close decision. This was the first attempt to put two first teams into action and the result was all that could be expected and clearly indicates the calibre of the teams that Coach Otopalik has developed, for Rolla had a much touted team in that part of the west.

MICHIGAN AGGIES-AMES

In the wind-up dual meet of the season on March 1, the Cyclones trimmed the Michigan Aggie grapplers 21 to 11. Boyvey secured the

SLOAN

REIGHARD
175 Pound

first match in the 115-pound class and Woodhull and Prunty duplicated his feat in the 145 and 158-pound classes. Pillard, regularly Ames' 175-pound man, wrestled in the heavyweight class in place of Anderson who was injured in the Kansas meet. Although a step up from his ordinary class, Pillard also tossed his man. Sloane who substituted in the 175-pound weight for Pillard was thrown, as was Marsh in the 125-pound class. Score: Ames 21, Michigan Aggies 11.

FIRST MISSOURI VALLEY WRESTLING TOURNAMENT

SPONSORED BY IOWA STATE COLLEGE HELD IN THE STATE GYMNASIUM

Nebraska, who had previously bowed before the Cyclones 14 to 9, garnered 19 points and carried off premier honors in the first Missouri Valley wrestling tournament ever held. The Ames grapplers who were hosts of the tournament had to be content with a tie for second with Oklahoma A. & M. with 18 counters. Cornell landed in fourth place with 10 points. Kansas was fifth with 3 markers, and Simpson was sixth with one. Missouri failed to place. All seven of Ames' wrestlers went into the semi-finals. Four survived, going to the finals and two won their class. Pillard, acting as captain for the tournament came out on top of the 175-pounders by defeating Robertson of Nebraska in the finals, securing a time advantage of 10:44. Anderson had a time advantage over Roberts of Oklahoma in the final match and feature of the tournament. Prunty gave Keen of Oklahoma a battle royal in the finals, but failed to make the grade. The watches ticked off a two minute advantage for the southerner, giving Prunty second in the weight. Schmidt, the fourth Iowa State grappler to enter the final round, suffered a dislocated elbow when thrown to the mat early in the match, and was forced to forfeit the match. Schmidt, although a newcomer, having made his initial bow in the Michigan Aggie meet, had shown to good advantage in the try-outs for the tournament and in the preliminaries easily defeated Moobrey of Nebraska. This loss ruined Iowa State's chances for first place. Boyvey was thrown by Van Etten of Cornell, who subsequently won the championship of the 115 pounders. Boyvey landed in third place by winning in the consolation round. Kurtz and Woodhull who also lost in the semi-final round were forced into fourth by being defeated in the consolation matches.

THE WESTERN INTER-COLLEGIATE TOURNAMENT

In the Western Inter-Collegiate Tournament held in Chicago March 14 and 15, Ralph Prunty won the championship in the 158-pound class, Clell Kurtz took second in the 125-pound class and "Sarpy" Pillard third in the 175-pound class.

THE SWIMMING TEAM

Although this was the first season that Ames has had a swimming team entered in competition, there has been an admirable showing made by Coach C. E. Daubert's squad of tanksters. The first meet which they had slated for the 1924 season was with Washington, the oldest and most experienced team in the conference. As was expected, Ames came out at the small end of the 21 to 47 score. In this final contest the men learned much and went back to practice the next week with renewed pep.

As a result, they were in much better shape by February 29, when they journeyed down to Manhattan to meet the Wildcats. Again they were beaten, but this time by a smaller margin, 26 to 42. By the time the Missouri Valley Conference meet rolled around, the squad was approaching top form. The financial condition existing at that time in the Athletic Department, however, prevented more than four men being sent to St. Louis. Consequently, Miller, Vandevelde, Reck and Summers were selected to go. As two other members of the squad, Nol Kemper and Larson, lived in St. Louis, it was possible for Ames to enter six men, with the result that nine medals were carried home and Ames placed third in the meet. Had it been possible to send Blaisdell and Benner, the Cyclones could have entered the 50, the 100 and the 220, and have taken second in the relay. This would have meant second place in the meet.

"Mike" Daubert
Coach

On March 28 the Wildcats came to Ames for a return meet and were very properly trounced 36 to 28. Miller, the captain-elect, was the high point winner in this meet, getting a first in the breast stroke after Wright was disqualified for making an improper turn, and beating Vandevelde of Ames and Miller of K. A in the back stroke in which event he clipped two-fifths of a second from the time made in the St. Louis meet and established a new record for the local tank. These two victories of Miller's together with his consistent showing thru the season, made him high point man of the Ames squad for the season.

High Point Winner
W. D. Miller

Coach "Jake" Daubert has discovered much promising material in the Freshman class and expects to put out an excellent team next year. Peddie is an excellent back stroke man, while De la Torre and Forrer are both strong breast stroke men. Butler and Knapp, the latter champion from the Canal Zone, are good sprint and middle distance men. Williams is a good plunger and so is Sergeant who did not come out until the end of the season. Much is also expected of Benner as a sprint man and Reck as a diver. Myron Schultz, who has been ineligible for the past two quarters, will make good as a diver, a dash man and anchor man in the relay.

With proper backing by the student body and with the exceptionally good material to work with, Coach Daubert is looking forward toward the 1925 season. Taken all in all, the prospects look good for a team of the calibre that brings home the bacon. As this was the first time that Ames has had a swimming team entered in competition, the experience gained by the men this year will be of double value during the next season and the coach will have a neucleus around which to build a team, rather than all green material.

INTERFRATERNITY AND CLUB TRACK MEETS

Thirty five organizations entered in the interfraternity and club track meets which were held in the State Gym during the past winter. The large number which were entered in every event of each of the preliminary meets indicates that interest in this winter sport is increasing apace with basketball.

The competing groups were divided into four leagues. The winners of each league was awarded a trophy and these teams together with the teams winning second places were entered in the final meet. The league winners were: first league, Sigma Pi; second league, Alpha Tau Omega; third league, Alpha Sigma Phi; fourth league, Phi Sigma Kappa.

In the final meet the Alpha Sigma Phi team nosed out the Phi Sigma Kappa team with a 25 to 24½ score, was awarded the large championship trophy for the season.

Travis, McKinley, Nave, Behm

INTERFRATERNITY AND CLUB BASKETBALL

Fifty two organizations and over 700 players participated in the interfraternity and club basketball tournaments which were fought out in the State Gym this last winter. After 371 games were played, the Adelante and Sigma Alpha Epsilon squads were sifted out to fight for the big honors. The Sig Alph squad won the silver loving cup for the 1924 season. Cups were awarded to each of the league winners.

CLASS FOOTBALL

On the gridiron last fall, the competition between classes was the best that has been witnessed in years. Large numbers were out practicing for all of the teams. For the first time in years the freshman squad which has the best field to pick from and the most efficient organization, was defeated by the Junior Class team. Each member of the Junior team was awarded a numeral by the class of 1925.

THE FIRST PENTATHLON MEET

The Pentathalon meet sponsored last fall by the Intramural Athletic Association was the first meet of this kind to be held at Iowa State. Coach Thompson who is in charge of the intramural athletics, introduced this new plan for all college competition in track and field events. Hundreds of men turned out night after night to enter the many contests.

TENNIS—1923

"Wee" Paige
Captain

MISSOURI VALLEY CHAMPIONS

Iowa State took a new interest in tennis with a team of experts to represent her on the court and ended the season with her first Valley championship hanging to the belts of the doubles team and runner-up laurels in the singles. Three veterans, Captain Paige, Thompson and Young were on the championship team with Riggs the fourth member.

Coe was the first opponent of the season and the Cyclones won all but Riggs' singles match on the Kohawks' own courts. Some of the doubles sets were closely contested, but with rallies in the pinches the Cardinal and Gold teammates cinched the first meet.

The second series of matches of the year found Iowa State's first opponents, Coe, invading the State courts with revenge foremost in her mind. But it was a disappointed squad of racquet wielders that left the clay battle ground to return to Cedar Rapids, for the Cyclones, true to their name, swept away every opponent in both singles and doubles, Riggs avenging in fast sets his defeat earlier in the season and giving Iowa State a clean victory in all six matches.

May 25 and 26 brought all the Valley stars in track, tennis and golf to Ames, and here it was that Iowa State won her first Valley tennis title, going to the finals in both singles and doubles. Thompson and Paige beat Kammon and Bierman of Washington in the doubles finals 12-14, 7-5, 9-7, and Kammon, who is national municipal clay courts champion, beat Paige two out of three sets in the singles finals. Paige took the first set 6-3 and it looked like a new title in his grasp. But the Piker would not give up and in one of the most beautiful exhibitions of tennis seen on State court for years the Cyclone captain met defeat 4-6 and 2-6 and the Valley championship.

Seven teams from Valley schools came for the tournament; namely, Kansas U., Kansas Aggies, Grinnell, Nebraska, Washington, Drake and Iowa State. The Cyclones defeated Nebraska, Kansas, Grinnell and Washington to win the doubles crown and Nebraska and Grinnell were trimmed in the singles and then Kammon upset the winning streak for the title.

"Wee" Paige, captain of this team, won the state singles championship at Des Moines this past summer for the second consecutive time, and with both he and Young eligible for competition this spring, all indications point to one of the strongest teams in the Valley again.

GOLF

In the Missouri Valley championship golf tournament held here on the same date, Drake won the title and McKee of the Bulldogs took the individual Valley championship also. Nebraska scored second low for next honors, with Grinnell and Ames coming close behind for third and fourth respectively. This was the first attempt to hold a meet of this kind and its success merited consideration as an annual championship event.

INDOOR TRACK

MILLER AT THE START

ILLINOIS ATHLETIC CLUB MEET

Chicago, January 25

Iowa State's indoor track season began at the annual Illinois Athletic Club indoor meet at Chicago, January 25, 1924, in which the Illinois Athletic Club, Notre Dame, Michigan, and Ames entered teams in addition to the many unattached runners, including some of the fastest distance men in the country.

The two mile relay team of Miller, Bierbaum, McIntyre and Hammerly took second to the fast Michigan squad by a few feet only and the time of the winners, 8:01 2-5, broke the meet record by a good margin.

Greenlee, with a five yard handicap and hitting some of the stiffest competition in the meet, finished third in the 600 yard handicap run: J. Cusack, unattached, taking first in 1:13 1-5.

The 70 yard high and low hurdles went to Riley and Anderson respectively, both of the I. A. C. with Brown of Ames pushing the former to the limit in the highs and finally placing second. Brown also finished fourth in the low barriers. The time of the highs was :08 4-5 and of the lows, :08 3-5 seconds.

SUMMARY

Iowa State placed third in the 600 yard handicap, second in the two mile relay, second in the 70 yard high hurdles and fourth in the 70 yard low hurdles.

KANSAS CITY ATHLETIC CLUB RELAYS

Kansas City, February 2

The Cyclone relay team and distance runners journeyed to Kansas City for the second event of the indoor season for the K. C. A. C. meet on February 2, in which stars from the central states competed and Iowa State runners returned with two meet records to their credit.

Captain Hammerly in a special 600 yard race, beat the dangerous Captain Pippenger of Missouri and to do it, broke the former record of 1:15 2-5 which was held by "Deac" Wolters, by a fifth of a second, in 1:15 1-5.

The two mile relay came back after its defeat at the hands of Michigan and beat the Notre Dame team for a relay record in 8:09 2-5. Greenlee, Bierbaum, Hammerly and McIntyre ran in the order named.

In the open 440, Al Miller finished second to the best in the valley, losing by only a few feet. McIntyre took second in the open mile run, and would have no doubt taken premier honors had he not just finished a half mile on the relay squad. Meeker, with a two yard handicap in the 1000 yard handicap run, came in for third honors, being beaten by two men who had unusually large handicaps over Meeker for their speed; the winner having a 14 yard start and winning in a very close finish.

SUMMARY

Iowa State broke the record in the special 600 yard race, broke the record in the two mile relay, took second in the 440 and mile and third in the 1000 yard handicap.

AMES-GRINNELL DUAL

Ames, February 16

Iowa State opened the home indoor season with a dual meet with Grinnell, February 16. Blanking the Congregationalists in four events and taking two out of the three places in three others, the Cyclones walked away with the meet with a 35 point lead, the final count being 65 to 30.

Iowa State runners took firsts in seven out of the 11 events, and failed to place only in the 50 yard dash, in which the three Grinnell sprinters tied for first in 5 4-5 seconds. Grinnell won the mile relay and took firsts in the dash and both hurdles.

The Cyclones won all nine points in the shot put, high and broad jumps and the half mile, and also firsts in the mile, quarter and two mile events.

AMES-MINNESOTA DUAL

Ames, February 23

On February 23 the Gophers came south and Iowa State evened up athletic differences by subduing their well balanced team 60 to 44. This was the one meet that Coach Willaman wanted to win, and instilling his fighting spirit into his team, the seemingly impossible was accomplished, and the result never seemed in doubt after the first event.

Mayer and Meyer won the shot the former with a heave of 41 ft. 1 7-8 in. and a indoor record. Rohrer of Minnesota and Owen tied for first in the pole vault at 11 ft. 3 in. Allen took the broad jump with a leap of 21 ft. 6 7-8 in. and another indoor record.

Morling, Whirrett, Luck, K. Dempster, Molison, Coach Williman, Meeker, Mounce, Owens, G. Dempster, Wogens, Turner, Christy, N. Behm
Griffith, Greenlee, Maine, Brown, McIntyre, Hammerly, Miller, Holcomb, Myers, Bollinger, Brown
Larson, Bergstrom, Boyd, Paine, Lichty, Allen, **Drew, Sadler, Kerr, Fleming**

Reynolds was forced to take second in the high jump at the last jump, when Campbell of Minnesota skimmed over the bar for an extra inch, winning with 5 ft. 11 in. Catherwood (M) and Maine tied in the 50 yard dash in 5 7-10. Bierbaum beat the much touted Brown (M) in the mile and set a new record of 4:32. This was the feature race of the day, for McIntyre who finished third forced Brown to the limit in the first ten laps, allowing his teammate to win in a furious finish.

Ames fared rather badly in the hurdles, Brown being able to only gain a third in the lows and Sadler a like place in the highs. Towler (M) won both races and Martineau (M) took the seconds.

The quarter again saw the Cyclones take the lead, Miller and Greenlee taking second and first, respectively. The half brought the second defeat of Brown (M), this time at the heels of Captain Hammerly, who clipped off the 880 in 2:04 1-5. Meeker finished third.

Nine more points fell to Iowa State in the two mile, with Drew, Griffith and Bierbaum crossing the tape in order. Holcomb, Wogens, Miller and Greenlee, making up the mile relay team, finished the meet with five tallies, winning in 3:43 7-10.

ILLINOIS RELAYS

Urbana, Ill. March 1

March 1 brought the annual Illinois Relay Carnival at Urbana, and seven Cyclone tracksters chalked up points for the Cardinal and Gold. This is the largest indoor meet in the world, and consequently there were assembled stars of the fastest calibre that the United States could offer.

IOWA STATE'S MIDDLE DISTANCE MEN

Miller, Bierbaum, McIntyre, Hammerly, Greenlee, Meyers

The feature of the day was the two mile medley relay, and dopsters for weeks ahead had predicted a fierce contest between the Illinois, Iowa, and Iowa State teams. True to the dope, these schools furnished thrills in plenty but an unmentioned team came out and took the laurels from the choice of the experts, Iowa State. For Notre Dame nosed out Ames in 8:18 2-5. Iowa finished third and Illinois fourth. The runners, in order of starting, for Iowa State were Hammerly, 880 yards, Greenlee, 440, Miller, 440, and McIntyre, mile.

Two former rivals met in the 1500 meter event, Bierbaum of Ames and Brown of Minnesota. The former had beaten the Gopher star in the mile run at the Ames-Minnesota dual only the week before but this time the northerner turned the tables and won in a whirlwind finish. Kimper of Kansas Aggies came third.

Meeker, running a steady race finished fourth in the 1000 yard run, and Mayer, in his first big conference meet took fourth in the shot put, with a heave of over 40 feet, much shorter than he had put the brass ball in home meets.

SUMMARY

Iowa State placed second in the two mile medley relay, second in the 1500 meter run, fourth in the 1000 yard run and fourth in the shot put.

MISSOURI VALLEY INDOOR MEET

Kansas City, March 8

All valley conference schools gathered at Kansas City March 8 to determine the indoor championship which Missouri captured with 39½ points to her credit. Nebraska took second with 21½ counters, Kansas third with 17 tallies and Iowa State fourth with 13 points. Every event was hotly contested, and because of the wealth of material entered, many good men were eliminated in the semi-finals that were run in all the shorter events.

Coach Williman took a squad of 16 men to attempt to annex the title to the Cyclone belt, and tho they failed to do this they gave stiff competitionin every race entered.

Capt. Hammerly took Trowbridge of Missouri to a cleaning in the half mile run in 2:03 3-5, fast time for the Kansas track. Bierbaum finished a close second in the mile which went in 4:28; Griffith took fourth in the two mile run and Mounse put the shot for a fourth.

The mile relay team finished second to the fast Kansas aggregation which ran the distance in 3:29 2-5.

SUMMARY

Missouri first	39½ points	Kansas third	17 points
Nebraska second	21½ points	Iowa State fourth	12 points

Iowa State placed first in the half mile, second in the mile, second in the mile relay, fourth in the shot put, and fourth in the two mile.

WOMEN'S ATHLETICS

ORGANIZATION OF WOMEN'S ATHLETICS

WOMEN'S ATHLETICS are based on the point system. In all sports, archery, baseball, basketball, hiking, hockey, rifle, soccer, swimming, tennis, track, dancing and gymnastics, 100 points for W. A. A. are awarded for making class teams, 25 points to squad members and 15 points to second teams. In order to make a team a girl must have perfect attendance, pass a theory and practical examination, and display athletic ability. The varsity, an honorary team composed of the best players for a position, is selected from the class teams by the coach, captains, and managers. In addition to the above, the W. A. A. sponsors intramural sports such as, baseball, swimming and horseshoe.

The Women's Athletic Association, which promotes athletics for women and encourages close coöperation between women's athletics and the physical education department, is open to all girls in school. Each girl is urged to attend activities and meetings of the organization. Active membership which carries with it the voting power is limited to those who have earned 200 points in the various sports. Until a girl has fulfilled this requirement she is an associate member. New members are taken in each quarter. Women who desire membership must present their names and points in writing to the secretary of W. A. A. and their names are voted upon by a committee from the athletic council.

The athletic council consists of the following members: physical director for women, who acts as president, two other women from the faculty, the officers of the association, heads of sports, and a representative from the women's "A" fraternity. The faculty members of the council are chosen by the student members at the first meeting in the fall quarter. The council has general management of the affairs of the association and makes suggestions and recommendations to the organization for their vote.

A girl who has won 500 points for W. A. A. is permitted to wear the official "A" and if she has 600 points she is eligible to membership in the women's "A" fraternity. The highest honor awarded to a girl is the official double "AA" placed on a bleacher blanket when she has earned 800 points.

HOCKEY

Miss Shelby
Coach

Miss Matilda Shelby of Indianapolis, Ind., instructor in physical education, came to Iowa State College in the fall of 1923 from Northwestern University, Evanston, Illinois, where she was graduated from the Liberal Arts division in June, 1923.

This year Miss Shelby has had charge of the hockey coaching and track coaching. During the basketball season she coached the freshman girls, who won first in the tournament with the other classes. She also assists with freshman gymnastic classes.

While attending Northwestern University Miss Shelby won the individual cup which is given to the winner of the highest point in track. She acted as vice president of the W. A. A. board, president of the "Gold Lantern," an all senior women's organization, and is a member of the National Mortor Board.

Margaret Brookhart
Captain

HOCKEY COACH COMES FROM ENGLAND

For the first time in the history of the college, Iowa State's girls hockey teams were coached by a real English hockey coach in the fall of 1923 when Miss Agnes H. Imrie of Glasgow, Scotland came to direct the hockey playing from October 2 to October 8.

Miss Imrie came to our campus under the auspices of the United States Hockey association, of which Iowa State is a member. She arrived in the United States with four other expert hockey coaches on the Pittsburg. Ames was the first stop that Miss Imrie made on her tour of the colleges.

Brookhart, Wasser, Watts
Hendershott, Rutherford, Westcott, Iles, Adams

THE SEASON

In the fall of 1923 hockey seemed to be the favorite sport of every athletically inclined coed. The teams were coached by Miss Matilda Shelby, new member of the women's physical education department, and Miss Agnes H. Imrie of Glasgow, Scotland, who devoted all her time for one week to the 130 girls out for the sport at the beginning of the season.

Miss Imrie
English Coach

Class managers elected as follows: freshman, Beulah Rodgers; sophomores, Luella Wright; juniors, Helen Budd Watts; and seniors, Clarice Iles, had charge of roll call and watched the playing of the girls on their teams, also any other teams who were playing in order that they might be able to help in picking the various squads at the end of a month's practice.

Two weeks later the team members were chosen to compete in the tournament to decide the class championship. Marguerite Herr, freshman, Ann Hendershott, sophomore, Mary Wasser, junior and Irene Dewey, senior, were chosen as captains. Because of ties between the sophomores and seniors for first place and the freshmen and juniors for third place, two additional games were played to determine the placement of teams according to number of games won. It resulted in the sophomores being the undisputed champions of the annual hockey tourney by winning over the seniors with a score of 3 to 1. Juniors placed third with a score of 4 to 3 over the freshman.

PICK VARSITY TEAM

The first honorary varsity team ever picked from girls taking part in major sports was chosen from the hockey teams by the four managers and four captains of all classes, the hockey manager and the hockey coach, Miss Shelby. Those members are: Ann Hendershott, Katherine Rutherford, Frances Westcott, Clarice Iles, Annette Adams, Frances Tow, Mary Wasser, Helen Budd Watts, Hazel Hilton, Margaret Brookhart, and Ruth Walker.

SOPHOMORE HOCKEY CHAMPIONS

Wright, Kuling, Tarr, Osborne
Hendershott, Rutherford, Westcott, McBride, Adams

BASKETBALL

MISS SHANNON

MISS SHANNON
Coach

Miss Jessie Shannon of Indianola, Iowa, has just completed two years of successful instructing in the physical education department of Iowa State College. She has been interested in all sports and has helped bring the love of sports up to a higher level in the minds of the girls.

She was graduated from Simpson College at Indianola in the Liberal Arts department, where she minored in physical education. While at Simpson she was a member of the "S" club, president of the athletic association, captain of the Varsity basketball team for two years and won a gold medal in track.

After finishing at Simpson Miss Shannon took special work in physical education at the Kellogg school at Battle Creek, Michigan. She played on the soccer and basketball teams there and won first in the broad jump in track. She also served as editor of the professional quarterly, "The Bulletin," which is published by the school.

VELMA CRAIG
Captain

She has coached basketball, baseball, tennis, dancing, and heavy apparatus at Iowa State College for the last two years.

THE SEASON

When the call was sent out for all prospective basketball players to meet in the women's gymnasium, approximately 175 girls answered the summons. Over 100 of these girls were Freshmen, but the other classes had a larger number out than ever before.

The Freshman girls were divided into three groups and were coached by Miss Matilda Shelby. They were classified and from all three groups a squad of twenty-four was chosen, which was turned over to Miss Jessie Shannon for final coaching.

Meanwhile the other three classes were coached by Miss Shannon. The Sophomores, with about thirty girls had regular practice hours by themselves. The two upper classes were unable to get enough girls to qualify them for separate practice hours so they took their workouts in one group.

Three weeks before the tournament was scheduled the squads were picked, and the real work began with the same coach on all four squads. Class teams were chosen and announced March 1,

VARSITY SQUAD

FRESHMAN SQUAD

Benson, Conway, Johnson, Foster
Herr, Slatmaker, Kelley, Ostberg, Rosenfeld, Port

the day of the double header games which started off the tournament in full swing. The Sophomore and preps demonstrated their superior prowess by defeating the Seniors and Juniors by large scores.

The Freshmen easily defeated the Seniors the next evening and the Sophomore-Junior game, which was scheduled next, promised to be another one-sided affair.

The last two games of the season promised to be real contests. When the Juniors met the Seniors they had lost the fight they had shown against the Sophomores and let the Seniors pile up a large score against them.

The Freshman-Sophomore game was a fitting culmination to the season. The Sophomores, though greatly handicapped, had worked out two new combinations with which they tried to meet the onset of the fast Freshman team. The score was tied at the end of the first half. During the last half two of the Sophomore guards were disqualified on fouls and the substitutes were unable to cover the speedy Freshman forwards, who piled up the score 25 to 14.

At the close of the season an honorary Varsity team was picked. They are: Forwards, Louise Rosenfeld (Fr.), Martha Port (Fr.), and Frances Westcott (Soph.); guards, Esther Conway (Fr.), Ann Hendershott (Soph.), and Katherine Rutherford (Soph.).

By hard playing and excellent team work the Freshman girls' basketball team won the championship for the season when they defeated the Sophomore team in the last game of the tournament, March 7, 1924, with a score of 25 to 14.

The Freshmen were not defeated in any of the games of the tournament with the upper class teams. Louise Rosenfeld, forward, played with her teammates in a very striking manner. Her ability to find the basket and keep the ball excelled that of any player on the floor this season. She made six counters for her team by making six out of eleven free throws. Her co-basketeer, Martha Port, played a fast game and added to the score with her nine counters. Johnson, the third forward, was able to

SOPHOMORE SQUAD

Wright, Martin, Sutherland, Belknap, Osborne
Roberts, Westcott, Coach Shannon, Rutherford, Hendershott

SENIOR SQUAD

Larsen, Olsen, Dewey, Newton
Craig, Iles, Coach Shannon, Johnson

make only one basket, but excelled in passing. Esther Conway, jumping guard, Helen Osterberg, and Ethel Benson, guards, displayed ability to keep up the defensive plays to such an extent that the Sophomores were unable to score more than three times in the last half of the game. No substitutions were made in the team.

Frances Westcott, star Sophomore forward, made five field goals and was able to find the basket more readily for field goals than for free throws. Luella Wright and Barbara Marston were quick on the floor and played a good game. Blanche Belknap substituted for Barbara Marston in the second half. Ruth Roberts substituted for Freda Sutherland, jumping guard, in the first half, but the latter was put back in the game in the second half. Ruth Roberts was eliminated from the team by three personal fouls. Barbara Marston was substituted for Ann Hendershott in the second half because of three personals. The Sophomore team was handicapped by the loss of their jumping guard, Helen Smith, who was incapacitated by a torn ligament in her shoulder just before the tournament.

The Senior girls' basketball team placed third in the tournament when they defeated the Junior team February 6 by a score of 23 to 16. The teams were very evenly matched and at the end of the first half the score stood 13 to 10 in favor of the Seniors, who held the lead most of the time.

Clarice Iles, forward for the Seniors, made six field goals and Dorothy Olsen made three free throws and one field goal. Lucille Hattlestad, forward, played a good offensive game.

Irene Dewey, Velma Craig, and Martha Peppers played guard positions for the Seniors and kept the Juniors away from the basket in a creditable manner.

Margaret Brookhart, forward, and Helen Budd Watts, guard, were the outstanding players for the Juniors. Mary Wasser and Myrtle Westenberg each made one basket. Annette Adams and Eleanor Tregoning, guards, played a fast game on the floor. Lydia Armstong and Ann Sorenson substituted for Myrtle Westenberg and Georgia Rae Easter substituted for Helen Budd Watts in the last part of the first half.

JUNIOR SQUAD

Westenberg, Tregony, Adams, Hass, Coach Shannon
Easter, Armstrong, Wasser, Brookhart, Watts, Sorenson

SWIMMING

MARIE GREER
Captain

MISS AGNES MURPHY

The success of this year's swimming season was greatly due to the coaching of Miss Agnes Murphy, assistant professor of Physical Education. Miss Murphy received her B. A. degree from the University of Illinois, later attending Chicago University. Before coming to Ames she was an instructor in swimming at Northwestern University. At present Miss Murphy has charge of all advanced swimming classes and playground classes. Besides being an official examiner for the Red Cross Corps in this district, she is chairman of the Naiad Club and an honorary member of the Women's "A" Fraternity.

MISS MURPHY
Coach

RED CROSS SWIMMING

The popularity of swimming as a sport has increased so much during the past year that a large percentage of women swimmers at Iowa State College have become members of the American Red Cross Life Saving Corps. A number of tests including the breaking of holds, long distance carries, deep water diving for articles, swimming with street clothes on and resuscitation, have to be passed with a total grade of not less than 75 per cent before the candidate is recognized as an official life saver.

THE SWIMMING SEASON

One of the popular winter sports for women at Iowa State is swimming. A meeting was held at the first of the winter quarter and class managers were chosen. Practice was started immediately in the women's pool with practice two nights a week in the men's pool. At the end of six weeks the squad was picked and three weeks later class teams were chosen by the class managers with the help of Miss Murphy.

On Tuesday, March 11, from 6:30 to 7:30, a swimming meet between the class teams was held in the men's pool to decide the championship. The Sophomore class proved themselves superior with the Seniors second, Juniors third, and Freshmen fourth.

NAIAD CLUB

To interest and to promote excellency in swimming is the purpose of the Naiad Club, an honorary swimming club at Iowa State, which was organized last year by women swimmers.

To qualify for membership a candidate must be unanimously elected; hold a Red Cross certificate; be able to do four standard strokes, and four standard dives; pass a theory examination; be working for an "A" sweater, and have passed fifteen hours of work at Iowa State College.

The uniform is a black suit with a white belt, and the Red Cross emblem.

TRACK

Miss Springer
Coach

MISS SPRINGER

Miss Ruth P. Springer, physical education instructor came to Iowa State College in September, 1921. She is a graduate of the Columbia Normal School of Physical Education at Chicago, and also studied at the Colorado Teachers' College at Greeley, Colorado.

Miss Springer has charge of all Freshman gymnastics and last year she had charge of the horseshoe tournament and coached the track aspirants. She has taken an active interest in all W. A. A. activities and is an honorary member of the Women's "A" Fraternity.

The second annual track meet was held on Field Day, May 25, on the women's athletic field south of the Lodges. Miss Ruth Springer, track coach, had charge of instructing the girls for this event.

Barbara Wench
Captain

Because of eliminations in the winter quarter only thirty girls trained during the spring quarter for the preliminary meet which was held several weeks before Field Day. Besse Chmelik was W. A. A. captain of this out-of-door sport.

Seventeen girls competed in the finals and the results were as follows:

50-yard dash—Time, 7.1 seconds—Bertha Wolfe.
75-yard dash—(New) Time, 10.1 seconds—Margaret Aikens.
100-yard dash—Time, 13.4 seconds—Margaret Aikens.
High jump (running)—4 feet—Blanche Belknap.
Broad jump (running)—12 feet 10 inches—Hazel Kuntz.
Broad jump (standing)—7 feet 7 inches—Barbara Wentch.
Hop step and jump (standing)—18 feet 7 inches—Dorothy Carl.
Hop step and jump (running)—26 feet 11 inches—Katherine Rutherford.
Baseball throw—31 feet 2 inches—Lucille Hattlestad.
Basketball throw (overhead and sidearm)—61 feet 4 inches—Lucille Hattlestad.

Class relays were won by the Sophomores, whose team members were: Ona Ulrich, Frances Schuster, Agnes Noble, and Ona May Wilkins. Oak Lodge won the intramural shuttle relays. All records for this tournament raised those of the first tournament held the year before.

Since the Field Day last year Iowa State College Women's Athletic Department has been made a member of the National Women's Track Athletic Association due to the efforts of Miss Winifred Tilden, head of the department when she attended the national convention the summer of '23 at Washington, D. C.

A track team was chosen from those winning in the preliminaries and they were: Lucille Hattlestad, Hazel Kuntz, Dorothy Carl, Katherine Rutherford, Blanche Belknap, Barbara Wentch, Bertha Wolfe, Margaret Aikens, Lois Calhoun and Ann Hendershott.

Other members who placed in the preliminaries and who did not place in the finals are: Rose Roberson, Irma Garner, Lenore Higley, Irene Dewey, Barbara Stanton, Florence Wright and Clarice Iles.

Barbara Wentch was elected W. A. A. captain for the year 1923-1924.

BASEBALL

LOIS CALHOUN
Captain

Baseball probably arouses more enthusiasm than any other co-ed sport in the spring quarter. Every hall and a number of the sororities organize teams to compete for the baseball trophy, a large silver loving cup, on which is engraved the name of the champion team and the date of the game and becomes the permanent possesion of the team winning it two successive years.

Every noon and evening the girls practiced until they had worked into good teams. The teams were divided into four groups, the group winners playing in the semi-final round.

The first game in the preliminaries was played on the diamond located on the women's athletic field south of the Lodges between Margaret Hall and West Hall. Margaret Hall won by a score of 11 to 8. Both teams were well matched and it was in the last of the five innings that Margaret Hall came out ahead. In the other preliminaries Alpha Chi Beta defeated Elm Lodge, South Hall downed East Hall and Oak Lodge was victorious over the Gamma Phi Betas.

The game between Margaret Hall, champion for the past two years, and Alpha Chi Beta was the outstanding game of the season. Ability to hit when hits meant runs gave the sorority girls the large end of the 12-to-9 score. Laura Bublitz, pitcher for the Alpha Chi Betas, swung the old willow for a home run, while her catcher, Myrtle Kerr, made contact for a good two bagger. Both pitchers were hard hit, but Bublitz was backed by a good outfield. Verena Meyer and Lucille Hattlestad were the battery for Margaret Hall, while Ona Ulrich, Ethel Margaret Easter and Lela Bisplinghoff starred in the outfield, never making a fumble.

With their most dangerous rival eliminated, the Alpha Chi Betas easily won the championship, defeating Oak Lodge team by a score of 17 to 5. Again the star hitter was Laura Bublitz. Clarice Iles, second baseman for Oak Lodge, starred in the field.

ALPHA CHI BETA BASEBALL CHAMPIONS

Stoutenburg, Conner, Hill, Hartman, Chmelik, Nisewanger, Dewey, Mackey
Kerr, Tollefson, Bublitz

TENNIS

FRANCES WESTCOTT
Captain

In the fall of 1923 the Athletic Council made a new ruling whereby the class teams in tennis are chosen by a point average system, each game won to equal one point. They also decided to provide for a consolation tournament for the losers, which permits all girls to play as many games as the winners and have a chance to run as high a point average count as a winner. At the end of the tournament, each player's count, averaged with the number of games played, will give each one's point average count, which together with the recommendation of the witnesses of the game will determine the placings. Therefore no player is out of the game until the tournament is over.

The preliminary tournament for the year 1923-1924 was held in the fall quarter. Dorothy Cooke and Lucille Hattlestad, Seniors, make up the team to represent their class, while Edna Armstrong and Margaret Whistler, Juniors, Annette Adams and Frances Westcott, Sophomores, will compete for their respective classes in the spring tournament. Florence Johnson and Mildred Rice who make up the Freshman team are not in school this quarter and no new candidates will be chosen as the court space is so limited at the present time.

Velma Craig, Senior; Dorothy Osborne, Sophomore, and Mrs. Virgil Kelley and Dorothy McDaniel, Freshmen make up the squad members.

Frances Westcott won the tournament in the spring tournament of 1923, while Jaunita Beard was runner-up.

TENNIS TEAM

Westcott, Cooke
Armstrong, Adams, Whistler, Hattlestad

DOROTHY MCCARROLL
Captain

DANCING

Co-ed athletes who are more gifted with ability for aesthetic sports rather than the rougher games, are finding much interest in the sport of dancing. At the time of the preliminary try-outs for cup competition in the spring, a dancing team is chosen from the girls in the Sophomore dancing classes. These girls are awarded 100 points for W. A. A. and the winner in the final try-out is presented a loving cup. Last spring, Geverna Erickson was the winner in the final try-outs. Junior and Senior girls who have had dancing or who have been members of the team before may attend practice hours during the winter and spring quarters and try out for the team to win points for W. A. A. It is possible to win 300 points in this sport.

GEVERNA ERICKSON
Winner Dancing Trophy

The members of the team chosen last spring were:

DOROTHY MCCARROLL (Captain)
GEVERNA ERICKSON
MARY WASSER
MARY ALLEN
CHARLINE WOODS
BEULAH ROBERTS
HELEN HERR
GERTRUDE MURRAY

GIRLS DANCING SQUAD

Erickson, Allen
McCarroll, Wasser, Murray

OTHER SPORTS

APPARATUS

The following twelve girls participated in the preliminary apparatus competition on March 13 to try out for places on the W. A. A. apparatus team.

Kathryn Clausen
Irma Garner
Ann Hendershott
Dorothy Laros
Jean Lischer
Catherine Rutherford
Blanche Belknap
Florence Eckel
Hazel Kuntz
Mary Wasser
Bertha Wolf
Barbara Wentch

These girls had been doing regular class work in apparatus, for two quarters and were eligible for the competition by virtue of their grades in class work.

Four pieces of apparatus were used in the contest and six exercises performed by each girl. The five girls placing on the team and therefore winning 100 points were:

Barbara Wentch
Blanche Belknap
Mary Wasser
Ann Hendershott
Jean Lischer

On March 15 these girls, with the exception of Barbara Wentch who won the cup two years ago, entered the final competition for the cup offered by the Physical Education Department. Blanche Belknap placed highest in the finals and was awarded the cup.

HIKING

Early in the spring quarter of 1923 a pep fest was held in the woman's gymnasium for the girls interested in hiking. Clarice Iles was elected W. A. A. captain of the sport. Great enthusiasm was shown and the sport was organized by halls, each hall selecting a representative who was responsible for the girls in her hall. Four hikes were taken, a three, a five, an eight, and a ten mile hike. Twenty-five points were awarded to ninety girls who completed the four hikes as scheduled.

ARCHERY

Archery was first introduced on our campus in the fall of 1923 when it was offered by the Physical Education Department as a third hour sport. The forty girls who took it as class work displayed such interest and enthusiasm that it is offered again this spring. Class teams will be organized and 100 points will be awarded as in other sports. Points will be awarded on ability to score, theory and practical examinations, and good sportsmanship.

QUOITING

Margaret Hall won the silver loving cup from the Sigma Kappas in the horseshoe pitching tournament which was held in the spring quarter, 1923.

Miss Ruth Springer, physical education instructor, was in charge of this sport and was assisted by Helen Boyd, who was W. A. A. captain.

The girls on the Margaret Hall team were Ruth Hitzhusen and Wilma Hach. Twenty-five points were awarded to all girls who showed ability to play the game, passed the tests, put in the required number of practice hours, and passed the practical test.

Practically every house on the campus participated in the tournament. They were: Oak Lodge, Elm Lodge, Margaret Hall, Alpha Chi Beta, Sigma Kappa, Alpha Gamma Delta, East Hall, West Hall, Gamma Phi Beta, and Omega Pi. First round winners were: Margaret Hall, Alpha Gamma Delta, East Hall, and Gamma Phi Beta.

In the final round of the tournament Margaret Hall defeated the Alpha Gamma Delta sorority by a score of 2 to 1.

Ada Malveg was the winner of the individual silver loving cup when she won first in the all-college tournament held in the summer.

THE NATIONAL COLLEGIATE PLAYERS

Presented

"DULCY"

May 25, 1923

THE first production of the Iowa State Chapter of National Collegiate Players after their installation in the spring of 1923 was "Dulcy", a three act comedy by G. S. Kaufman and Marc Connelly. Ruth Elaine Wilson played the role of Dulcy, a bride. In her eager determination to be helpful to her husband (Kenneth Maltas) and her friends she plans a week-end party at her home. They are an ill-assorted group of people. The three acts reveal them just before and after dinner on the evening of their arrival and on the following morning. Their brief association becomes an unbroken series of hilarious tragedies due to Dulcy's blundering. Her final blunder unexpectedly crowns all her mistaken efforts with success.

Meanwhile she has but ruined her husband's plan to put thru an important business merger with a rich capitalist (Erven J. Kowalke). Among her guests is a rapturous scenario writer (Floyd Nutt) who conspires to elope with the daughter of the capitalist (Nita Knowles). The plausible rich young man from Newport (Herbert Sindt) whom Dulcy invites because he may be useful in assisting the aspirations of the capitalist's wife (Helen Beels) to become a writer for the films, turns out to a harmless lunatic. The ex-convict (Ralph Urmy) whom she has employed as a butler in her work of social uplift is suspected of stealing a diamond necklace belonging to one of the guests. Everything goes wrong. The most exquisite torture she inflicts upon her hapless guests is when she invites the scenario writer to recite one of his hectic plots to interpretive music played at the piano by the lunatic. It is with this experience of Duly's bored guests that the play reaches its highest level of satirical fun.

THE SECOND KAMPUS VOD-VIL

OCTOBER 19, 1923

THE dramatic season of 1923-24 opened with the Second Kampus Vod-Vil. Nothing serious was attempted; the sole object of the production was an evening of enjoyment. A fantasy, a comedy, and a burlesque with three musical numbers made up the program of the evening.

Two of the most popular features from "Melody Magic" were repeated by request. The Masqued Players presented the melo-drama with which they had taken first place at the Engineer's Campfire the week of October 12.

William Shakespeare

JUNE 7 AND 9, 1923

CALIBAN
"What have we here?
a man or a fish?
dead or alive?
A howling monster; a
drunken monster!

ARIEL'S SONG

"Come unto these yellow sands.
And then take hands:
Courtsied when you have and kiss'd
The wild waves whist:
Foot it featly here and there;
And, sweet sprites, the burthen bear."

The Senior Class of 1923 closed the year with one of Shakespeare's comedies. Simply, yet effectively, staged against dark draperies, in their multicolored costumes, aided by music and lights, the cast presented a creditable interpretation of "The Tempest".

From the moment Miranda opened the play—
"If by your art, my dearest father, you have
Put the wild waters in this roar, allay them.
The sky, it seems, would pour down stinking pitch,
But that the sea, mounting to the welkin's cheek,
Dashes the fire out."

Until Prospero bade the audience farewell at the end of the play, the audience moved with the players about the enchanted island of Prospero. The antics of the faery sprite Ariel, the hideous groanings of the monster Caliban, the romance of Ferdinand and Miranda, the treachery of the King's retinue, and the capers of the drunken Stephano and Trinculo, all played their part in making the play a success.

"Prospero, duke of Milan, who has been deposed by his brother and the King of Naples, 'an enemy inveterate', and exposed at sea in an open boat, raises by his power of enchantment, a violent tempest, and causes his enemies, who are on their return from Africa, to be cast ashore on the island where for many years he has found refuge with his daughter. By wise and prompt direction of the agency of spirits over whom his knowledge has given him command, he improves the opportunity to strike the King of Naples with remorse, to convert him from an enemy into an ally, to bring about the marriage of his own daughter with his son, regain his right in an independent dukedom and take noble revenge for the treachery of his brother. The supernatural aids at the command of Prospero give occasion for highly picturesque incident, but his success, and the interest of the play, are not less due to the discretion, self command, and vigour, which he displays in availing himself of them."

FIGUREHEADS

a fantasy

By Louise Saunders

A charming story of a temperamental, egotistical and love sick princess who is wooed and won by the Prince of Domdometer in the guise of a philosophical and indifferent fisherman. Cooing and imperative in turn, the dainty little princess easily falls in love with the prince who is indifferent to her advances and lectures her soundly. Gertruda, the serving maid, furnishes comic relief for the temperamental princess.

Scene: A room overlooking the sea.

Strickland, an elderly investment company executive, who is on the verge of absconding with the money placed in his hands, is stopped by apparently supernatural means.

THE GHOST STORY

A comedy by Booth Tarkington

Scene: The living room of Anna's home

The hero of "The Ghost Story" is a convincing boy of college age trying to tell of his undying devotion to a wise little flapper, Anna. George, thru the entire playlet, tries to tell Anna of his everlasting love, but gets no farther than the day that he met her, the color of the dress that she wore, and the fact that the crowd of young folks will arrive. The crowd arrives, insists on settling for the evening, and George starts to tell a ghost story in hopes that it will drive them home. Anna goes into hysterics, and begs to be left alone. George comes back, and after some more ineffectual talking on George's part, Anna creeps into his arms.

THE HOMECOMING PLAY

CAPTAIN APPLEJACK

An Arabian Night's Adventure

By WALTER HACKETT

November 17, 1923

"Captain Applejack", high tension amusement for the Homecoming crowd, weathered the performance that Saturday evening in Agricultural assembly and finally hove in port—a huge success. The first and third acts were full of crooks and police but the second act introduced a novel contrast—a dream of young Ambrose Applejohn on board the pirate ship.

Ralph B. Urmy, Jr. who took the title role was admirable. His ease, sureness, excellent acting, and superb sense for situation were unequaled in the cast. He achieved the difficult combination of a timid hero in the first act, the swashbucking pirate in the second act and a mixture of the two personalities in the last act in an excellent manner.

Herbert Sindt as Ivan Borolsky surprised the audience by his superb villainy. As a Russian count and the pirate mate leading the crew to mutiny he left nothing to be desired.

His partner in crime, Anna Valeska, as played by Phyllis Fay Caul, was well interpreted. As the "vamp" she led the hero into several situations from which he was finally saved by his pirate blood asserting itself.

CAPTAIN APPLEJACK
"Scum!"

Nita Knowles, as Poppy Faire, the heroine, was delightfully natural and unaffected in the first and last acts and made an attractive cabin boy in the second act.

Carroll L. Shartle as Horace Pengard, made effective use of his opportunity for good acting as the mystic in the first act and meekly submitted to the abuse showered upon the Chinese Bosun in the pirate hold.

Ida H. Cornforth, as Ambrose's aunt Agatha, played her part with a reserve and sweetness of manner which gained the admiration of the audience.

The pirate crew were the most villainous looking crew that ever graced a pirate ship. Their bloodthirsty yells added to the effectiveness of the second act.

ARMS AND THE MAN

A Pleasant Play by GEORGE BERNARD SHAW

JUNE 7, 1924

"ARMS and the Man" is one of Shaw's cleverest bits of satire. It holds romantic love, hero worship and the glamour of war up to ridicule. The scene is laid in the warring Balkan states. Raina, a young Bulgarian woman, discovers that her hero Sergius is really not the man that she has pictured. Later she finds that Bluntschli, an enterprising young Swiss hotel keeper, holds the key to her affections. In a rather melodramatic and in some places startling fashion, Shaw cleverly depicts the arrogant mother, the irritable father, the ambitious maid and the humble serving man whose foibles serve to balance the plot of the play.

PRUNELLA

A Harlequinade by Laurence Houseman and Granville Barker

March 29, 1924. Agricultural Assembly.

"Oh, look, he's bringing her down!"

WHAT THEY SAID ABOUT IT

IERROT, was a happy-go-lucky, selfish, egotistical and thoroughly thoughtless chap during the first of the play, changed to a penitent and lovesick young man, tired of the everlasting folly of his harlequin followers, who after losing his true love through his own selfishness, returns to her home only to find the pretty little garden overgrown with weeds and as depressing to look upon as was his own mood to live with.

As an innocent young girl, reared in the close confines of a pretty little Dutch garden, under the watchful eyes of three old maid aunts, who guard the maid Prunella carefully, Prunella lived the part in which she was cast.

The statue, Love, was unrecognized as a human being until he spoke to the lovers at the end of the second act.

Much of the success of the fantasy was due to the soft, delicate blending of the lights which played a major role in creating the fantastic atmosphere which surrounded the entire production.

The care-free band of "rollicking-rackety" mummers, a freckled faced lad who wished to see the world, the three old gardeners who kept the hedges in trim all contributed to make the Junior class play a creditable production.

In spite of seemingly impossible stage facilities, a setting was constructed that would bid fair to rival any to be found on stages equipped for the purpose.

MILITARY

CADET CORPS OF IOWA STATE

COLONEL PEARL M. SHAFFER

Col. Shaffer, Professor of Military Science and Tactics at Iowa State, is completing his twenty-sixth year of service in the United States Army. Col. Shaffer was in the Philippines three times. First, as a Second Lieutenant, he helped quell the Philippine insurrection, 1899 to 1902. While there he was promoted to a First Lieutenant. Later, as a Captain, he helped subdue the Moros, 1908 to 1909. He was there again in 1913 and 1914. Col. Shaffer served under General Pershing against Villa in Mexico, 1916. He was made a Colonel in 1918 and commanded the 347th Infantry Regiment which went overseas in September, 1918.

WHAT'S THIS HYAR R. O. T. C.

"Battery, Atten-shun!"

"Right by squads. March!"

A click of heels, a quick movement of feet which soon changed to a methodic tread, and the battery marched away.

"To what regiment do them fellows belong?" a bystander asks.

"Why, to no regiment," replies a young man who is carrying several books under his arm. "They belong to the R. O. T. C. unit here at the college."

"What is this hyar R. O. T. C., anyhow? I've heard my son speak of some sort o' army doin's up hyar at college."

"Listen, stranger, have you a few minutes to spare? Fine. Come on over under those shade trees and I'll tell you something about the R. O. T. C."

Once seated on the green beneath the tree the college man began:

"First, let's see what the letters R. O. T. C. stand for. Reserve Officers' Training Corps is the name Uncle Sam puts on it. Second, where do we find the R. O. T. C.? Each state in the union has certain land grant colleges. It is a requirement that all male students attending a land grant school must take a certain amount of military training at the expense of the government before his graduation. This accounts for the R. O. T. C. units in all state-supported schools.

"Now, having disposed of the simple questions concerning the R. O. T. C. we come to other questions which are not so easy to answer or are not as clear in the minds of most people as they should be. Why does Uncle Sam go to all the expense of giving these young college men a military training when none of them expect to take up soldiering as a profession?

"Let us consider the type of men who are required to take this military training. Men of higher ambitions and ideals than the average? Yes, or they would never have come to college. Men on a higher intellectual plane than the average man? Yes, or they couldn't stay in college. Good prospective material for officers in case of national emergency? There is the point!

"As was shown in the recent war, our government can conscript easily four million men, who with sufficient training would make a great fighting machine. But can our government conscript enough trained officers to take these four million untrained men from all walks of life and make a

fighting machine of them? No, is the answer a thousand times. Of what avail are millions of men without leaders? Nothing but 'cannonfutter,' as the Germans say.

"It is the prime purpose of the government to make in its R. O. T. C. a means whereby men of intelligence, natural leaders, can be trained in the fundamentals of modern warfare, so that when the call does come, these men can take their places as leaders, officers to command and train the vast number of men needed in national defense.

"It is true that the short time spent in studying military science as required by most colleges does not make a thoroughly trained officer of a man, but it does give him the fundamentals and with his degree of intelligence he can soon, under stress of war, learn the rest. This can easily be shown true by the fact that in the last war Uncle Sam took men of college training and with ninety days of highly intensive training made temporary officers of them. However, this procedure proved exceedingly expensive in both time and money and could have been obviated had there been a large supply of reserve officers ready to be put in charge of training the conscripted army.

"It is therefore evident that the government is trying, through its R. O. T. C. and other officers' training corps, to establish an organized and trained supply of officer material ready at any time to be put into service. Now that we have gone into detail as to what the government wants to do, let us discuss some of the benefits to be derived by the individual in making officer material.

"As has been stated, an officer must be a leader. He must be able to handle men. Any man of average intelligence can be a number three man in the rear rank and follow like a sheep the man in front of him. But how many men can stand before a large body of men and give orders and be responsible for the carrying out of those orders? How many men, when the critical time arrives, can by their words and training take a large number of men and accomplish some assigned task in the most orderly and machine-like way possible?

"We all know from experience that there is a great difference between standing and listening to someone talk or give orders and in doing it ourselves. It is strange, but true, that men when they first enter the R. O. T. C. are helpless so far as being able to command or handle other men is concerned. They seem to lack the ability to take charge of a group of men and carry out orders. It is this ability to handle men that the R. O. T. C. developes in the college man, and who can say that this will benefit a man only in a military way? Who are the leaders of industry? The man who is able to handle and command other men is the leader in all walks of life. Then, does not the R. O. T. C. training help a man whether he ever dons a uniform and shoulders a gun or not?

"Besides the advantages of acquiring leadership, the student who so desires may continue his military training while at college and receive remuneration in addition to full college credit. A student taking the advanced R. O. T. C. receives forty cents per diem during the school year and has all expenses paid, plus one dollar a day, while attending a six weeks' summer camp. What more could Uncle Sam offer?

"Now, my friend, I hope I have explained to you, in my crude way, just what the R. O. T. C. is and is doing."

"Ye bet ye have; an' I'm sure them young bucks at home will be glad to hyar what I'll tell 'em about this R. O. T. C."

"Well, so long. Hope to see you again."

MAJOR BOETTCHER

INFANTRY UNIT

MAJOR ARTHUR BOETTCHER

Major Boettcher, head of the Infantry cadet corps, was commissioned a Second Lieutenant in the U. S. Army in 1911. He is a graduate of Michigan State and of the Field Officers' Course, Fort Benning, Georgia. Major Boettcher served three years in the Phillipines as a Second Lieutenant, one year on the border as a First Lieutenant, and in the World War as a Captain until commissioned Major in 1918. He was in charge of a Balloon Observation unit in active service in France. Major Boettcher came to Iowa State in September, 1922, from Camp Dix, New Jersey. The Infantry unit has developed remarkably under his guidance until it is now ready to undergo inspection for the honor roll.

AT FT. SNELLING, MINNESOTA

Thirty cadets of the Infantry unit attended camp at Ft. Snelling, Minnesota last summer. These men received instruction in practical war game problems, in dealing with modern methods and equipment, in organizing and handling men, in firing the caliber 30 army rifle, and the caliber 45 automatic pistol.

Although outnumbered by most of the other schools of the Seventh Corps Area represented at camp, the Iowa State cadets made a remarakble showing in the numerous competitive events, with a group of inexperienced men, by winning eighth place in the intercollegiate rifle match held on the Ft. Snelling range, winning over such schools as Kansas, Minnesota, and Washington University.

MACHINE GUN PRACTICE

M. H. Schultz, E. E., '26 won high honors of the camp in pistol firing, winning a gold medal and an expert pistol medal for his record.

THE INFANTRY UNIT

Success in battle is the ultimate object of all military training. It may be looked for only when the training is intelligent and thorough. Although the principle cited is the basis upon which cadet infantry work is conducted, the view is entirely different. The cadets are trained that they may know war and its terrors and endeavor to prevent it. College men are the future leaders of government and industry.

Infantry instruction is divided into basic and advanced courses. The basic work, which is required by all land grant colleges, is usually taken during the freshman and sophomore years, while the advanced training, which covers a period of two school years, is elected with the ultimate aim of securing a commission in the Officer's Reserve Corps.

The basic courses consist of drilling and the study of fundamental tactics. Some sophomores who show special aptitude for the work receive commissioned and non-commissioned apointments.

The juniors or first year advanced cadets are in most instances commissioned cadet officers. Their class and laboratory work includes instruction in machine gun, one pounder, light motar, military law, rules of land warfare, field engineering and defensive combat problems, and minor tactics.

The seniors are all commissioned cadet officers. They have outdoor problems in offensive and defensive major tactics.

BAYONET CHARGE

ON THE FIRING LINE

MAJOR MORT

ARTILLERY UNIT

MAJOR JOHN E. MORT

Major Mort, head of cadet field artillery unit, came to Iowa State in September, 1923, from Camp Bragg, North Carolina.

Major Mort was commissioned an officer of the U. S. Army in 1908. He was promoted to a First Lieutenant later the same year. He was with General Funston in the Vera Cruz campaign of 1914. While in the Phillipines from 1915 to 1917 he was promoted to captain. Major Mort served in the world war first as a major and later as a lieutenant colonel.

FIELD ARTILLERY OFFICERS

Regimental Commander	Col. J. W. Hussey
Regimental Commander	Col. L. F. Kahle
Batallion Commander, 1st Bn.	Maj. R. B. Urmy
Batallion Commander, 2nd Bn.	Maj. L. J. Peterson
Regimental Adjutant	Capt. H. W. Schoenlein
First Batallion Adjutant	Capt. E. Werentin
Second Batallion Adjutant	Capt. W. H. Proescholdt

AT CAMP KNOX, KENTUCKY

Thirty-three cadets of the Artillery unit attended the Field Artillery camp held at Camp Knox, Kentucky last summer. Twenty-four mornings of service practice, firing regular three inch service ammunition, served to make all the cadets well versed in the use of light artillery. They were a part of an artillery unit of men from eight schools.

Camp Knox is located near Kentucky's largest city, Louisville, which is of particular interest to cadets attending the camp since week end leaves are granted to those wishing to visit the city. Also there are enjoyable excursions organized for week end trips, the most interesting of thes being the excursion to Mammoth cave.

BEHIND A "155"

FIELD ARTILLERY UNIT

The course of instruction in the R. O. T. C. Field Artillery is extremely interesting from beginning to end. Foot drill fills the first quarter. Maybe not so interesting but very essential. Along with this the result receives instruction in tent pitching, pack rolling and the automatic pistol. Standing gun drill and the duties of the cannoneers in the service of the field piece are next in order. In the spring the first instruction in equitation is given. The fall quarter of the sophomore year is spent in teaching the men the art of "driving in draft" and many maneuvers of the battery mounted. In the winter the sophomores study the making and reading of maps and make a short road sketch. In the spring the men taught the duties in the battery detail and perform them while on reconnoissance problems. iDfferent systems of communication are studied, also.

READY FOR ACTION

The junior and senior years maek up for the advanced course and for training purposes the men are used for instruction. The whole junior year is spent in acquainting the cadet officers with the methods of figuring firing data, conducting the firing battery, and fire control. In the spring smoke bomb firing is given which is synonymous with actual firing. The fall quarter of the senior year is spent drilling the freshmen. In the winter and spring quarters, command staff and tactics, tactical employment of field artillery, military history and military law are studied as well as practice work with the freshmen and sophomores.

BATTERY IN ACTION AT CAMP KNOX

ENGINEER UNIT

MAJOR EARL E. GESLER

MAJOR GESLER

Major Gesler has been in charge of the cadet Engineer corps at Iowa State since September, 1920.

Major Gesler graduated from West Point in 1915 and after receiving his commission was sent with the Mexican Expedition of that year. He served in the world war as commander of the 2nd Batallion, 7th Engineers, 45th iDivision in Italy. Major Gessler has built up the Iowa State Engineer cadet corps to be one of the best in the country.

ENGINEER OFFICERS

Matallion Commander		Major T. J. Thompson
Batallion Adjutant		Capt. J. C. Donnal, Jr.
Company Commanders:	"A"	Capt. Merriam Peterson
	"B"	Capt. Glenn I. Page
	"C"	Capt. Harold Steinbrecher

Captains: J. M. Clifton, C. F. Farris, P. M. Fowler, R. R. Hull, G. E. Johnson, P. C. Jones, Lester Kellogg, L. H. Koenitzer, Harry Larson.

Lieutenants: K. L. Andrews, G. F. Bailey, R. L. Blessing, T. F. Cunningham, A. G. Curnin, C. L. Folly, R. R. Forster, A. C. Frisk, E. G. Gripp, W. B. Guernsey, Floyd Haake, J. E. Hoffman, W. N. Huebsch, J. W. Huffstutter, A. P. Johnson, H. P. Kuehl, M. C. Lowenberg, R. C. Meeker, M. R. Protheroe, I. S. Rasmusson, H. S. Rayn, M. K. Sawyer, F. H. Warren, Glenn Wimmer, V. L. Womeldorff, E. R. Woodworth, Kenneth Wright.

THE ENGINEER UNIT

Engineer troops, in war, are used to construct, to destroy, and, in case of necessity, to fight. The R. O. T. C. engineering course has been designed to train officers who can command engineering troops in time of war.

The courst is divided into two parts: the basic and the advanced. The two years of the basic work give the students training in military courtesy, infantry drill, building of elementary military bridges, rifle marksmanship, minor military tactics, fortifications, demolitions with military explosives, map reading and map making.

The advanced students go into more detailed work in mapping, map reproduction, fortification, tactics and combat engineering. The training of the future officers is rounded out of studies of former military campaigns, military law, administration of army affairs, and construction in war (such as the building of cantonments, etc.). Advanced men receive executive training through commission to instruct and command the basic course students.

The Engineers' summer camp is held at Ft. Snelling, Minnesota, and has been well attended every summer.

BRIDGE CONSTRUCTION

Lowenberg, Womendorff, Cunningham, Folly, Sawyer, Blessing, Huffstutter, Warren, Rasmussen
Meeker, Frisk, Jones, Peterson, Thompson, Larson, Koenitzer, Hull, Kuehl
Gripp, Forster, Page, Johnson, Woodworth, Huebsch

VETERINARY UNIT

LIEUTENANT SOLON B. RENSHAW

Lieutenant Renshaw established the cadet Veterinary unit at Iowa State in January, 1922, it being the fourth one located in this country.

Lieutenant Renshaw is a graduate of Iowa State and was commissioned in the Veterinary Corps, U. S. Army, July, 1917. He was a captain in the Second Division and saw action in five major engagements in France in 1918. He was chief veterinarian of the American forces in Germany.

LT. RENSHAW

VETERINARY ROSTER

Unit Commander . . . CAPT. A. N. RICHEY

Unit Commander . . . CAPT. H. VANROEKAL

First Lieutenants:

F. A. BONNSTETTER
A. F. BURGER
H. G. DOW
H. S. LAMES
D. R. ROBERTSON

Second Lieutenants:

NORMAN BRINKMAN
O. K. SIMONSEN
R. J. SPEARING
L. E. STANTON
R. P. REID

VETERINARY UNIT

The Veterinary corp is small in size compared with other military units on the campus, but its personnel is very efficiently trained and well organized, and this efficiency has created a marked interest in the men toward advanced work in the field. In the present year there are thirty-five men enrolled in the basic work and fifteen in the advanced work. Practically all of th men taking the advanced work attended the summer camp at Ft. Snelling last year and these men ranked very high in every phase of military practices held there. Cadet Captain Alfred Richey, one of the men who attended camp last summer, was awarded second place in the divisional general efficiency test and received a silver medal as a reward. The corps appreciates its indebtedness to Lieutenant S. B. Renshaw who has given his utmost to the betterment of the division and is largely responsible for the present high standard attained by the corp.

Thru the efforts of Byron G. Allen, editor of the 1924 Bomb, this publication was given a publication board in the spring of 1923. It was his hope that this body would give the organization continuity, thus placing it on the same plane of stability as other campus publications. His original plan was that the publication board be given full power to elect the leading officers. However, this power was not granted until the winter quarter of 1924, when the Cardinal guild entrusted full power of the election of officers to the board, in order that the staff members with the most merited service and the most able and interested in their work, could be chosen, not only for the offices of editor and business manager but for other important staff positions. The first board members were William F. Trull, Lawrence Curtiss, Asst. Prof. Blair Converse, Assoc. Prof. A. W. Turner, Gail Churchill, Richard D. Mayser and Warren D. Reck.

"Devoted to a better and greater Iowa State", is the slogan which guides the editorial policy of the *Iowa State Student,* the paper published for and by the student body of Iowa State College. The entire paper is the result of the efforts of some forty budding campus journalists, both men and women, and the good of the student body is the first consideration in determining editorial policy.

Believing firmly in the potential power of the American home and in the future of home economics, the home economics students of Iowa State publish the *Iowa Homemaker*, a monthly magazine for homemakers. Only three years old, the *Iowa Homemaker* has grown rapidly in size and circulation. During 1923-24 it increased the number of pages from sixteen to twenty and twenty-four. And in this same year the circulation doubled, going into many other states and a few foreign countries.

The *Iowa Agriculturist* has enjoyed a successful year. With the improvement of business conditions over the country and the consequent increase in advertising revenue it has been possible to publish more issues of larger size than had been printed previously and to carry many more half tones.

The policy of the Agriculturist changed very little. It continued its function of reporting the results of agricultural experimentation and the development of all phases of agricultural science as exemplified at Iowa State College.

One new department was put under way at the end of the 1923-24 administration. The *Agriculturist* was chosen as the official organ of the new Iowa Ag clubs that are being organized among the high school agricultural students thruout the state. A department was planned for this club and will be developed along with the development of the clubs.

THE FIRST IOWA STATE STUDENT

F. E. DAVIDSON
Founder of the Iowa State Student

Prior to 1890 the only college publication was *"The Aurora"*, which was published semi-occasionally by representatives of the literary societies of the college. *"The Aurora"* never attempted to record college happenings and was in no sense a college paper.

During the early part of 1890, the writer in cooperation with a number of the other students prepared the copy for and had issued *"The College Clipper"*, and this paper was placed on sale on the day that the Spring term closed.

The writer recalls many amusing incidents with regard to the preparation and the issuing of *"The College Clipper"*. No permission had been secured from the college faculty for its publication, but the college grounds had for several days prior to its issuance been plastered with announcements calling attention to some event which was about to happen and the writer recalls that on the last day of the school term that the Junior Exhibition was held in the college chapel at which time ten juniors who had received the highest marks in their class work were to present an oration.

In those days it was esteemed a great honor to be selected as a junior exhibition orator and the orators were all coached by the instructor in public speaking, whom, I recall, at that time was Miss Doolittle. It was not a difficult matter for one of the editorial staff of the *Clipper* to eavesdrop in the hall outside of Miss Doolittle's classroom while the juniors were rehearsing their orations and in this way the *Clipper* staff was able to have prepared and set up in type a complete report of the Junior Exhibition in advance of its presentation.

I recall that a telephone wire had just been installed between the old main building and Ames and in order to create impression that something momentous was under way, during the Junior Exhibition members of the *Clipper* staff who occupied a front seat in the old chapel made copious notes of the orations as presented, and at the close of each oration as presented one of the staff would go out and would be very busy at the telephone for a few minutes. The students in attendance I recall were all wondering what was on.

Well, to make a long story short, the only thing that the editorial staff had to be careful of was that the orations were reported in the order shown on the printed program and as I recall it now, one shift in position of the speakers was made, but the only thing we had to do was to 'phone R. A. Hodson, a member of our staff, who was at the printing office at Ames to rearrange the type for this oration. At any rate, within thirty minutes after the close of the Junior Exhibition some 500 copies of the *Clipper* were on sale on the college campus, which feat in those days was recognized as a "scoop". Unless some member of the old editorial staff of the *College Clipper* has ever told the story before, this is the first time it has ever been disclosed just how this "scoop" was arranged.

The stir created by the issuing of the *Clipper* justified the contention of its sponsors that there was a demand for a real live college paper and after the Summer vacation, the college faculty granted permission to the writer to organize an editorial staff to edit and publish the *I. A. C. Student.* I quote from the editorial page of its first issue:

THE I. A. C. STUDENT

"The succession of events that break the routine of college life is now specially marked by the appearance of a paper that will make a complete record of their occurrence.

"The *I. A. C. Student* now comes to the Students, Faculty, Alumni and Friends of the institution for the first time. The policy of its managers is simple and easily understood. We shall try and publish a College Newspaper. The I. A. C. is our field and we shall endeavor to advance the institution in every manner possible. We shall not attempt to run a scientific or literary magazine, and we doubt if there is a demand for our ideas on politics or religion. It is our object to create a genuine college newspaper, one free from all alliances, and in this work we invite all the friends of the institution to help us."

It has been several years since I have seen an issue of the *Student* but from what I remember of the *Student* of then, I am willing to challenge a comparison of the readability of the issues of the first volume of the *Student* with the issues of thirty years after. The *Student* in those days was controlled by a voluntary association of students. We were not responsible to any one but ourselves and what funds were needed to make up any deficit in the cost of the publication was contributed by ourselves, and at the close of the year at a general meeting we elected the successor to those graduating or retiring from college.

In glancing over the last number issued during the college year of 1890, I came across the following tribute to the Editor, which, as I now recall, was written by either W. H. Cochran or R. H. Fairfield.

"It is to Mr. F. E. Davidson that the *Student* owes its existence. He is its founder, its organizer. Upon him has fallen the greater part of the work of the paper. He has shown himself fully equal to the task.

Mr. Davidson's record as a student is a bright one. He has completed the four years' course in one year less than the prescribed time, yet he graduates high in his class. In addition to his work in the class room, he has been intensely interested in everything pertaining to the welfare of the students. One of the organizers of the I. A. C. Athletic Association, he was elected its second president, and represented the association as the chairman of its delegation in the two first meetings of the State Athletic Association.

He is perhaps the best all around athlete in College.

In the Literary Society he is at home. He is a good parlimentarian, a shrewd organizer, a ready speaker. His presence has been felt in the Oratorial Association. It is to his efforts that this year the association has been reorganized and put on a more enduring basis.

As a Captain in the Cadet corps he has distinguished himself as a successful officer. Seldom indeed does the college graduate a better man or one capable of doing more work than Mr. F. E. Davidson. We, his colleagues, can confidently predict that success will ever crown his efforts."

After reading this, I am wondering if the last thirty-four years has justified my efforts in organizing and founding the *Student*. I do not recall any incidents connected with my college life that I cherish in memory with any greater loving regard than the remembrance of my work and my associations with the able staff of *The I. A. C. Student* of 1890, not one of whom have I ever met or spoken to since the 14th day of November in 1890.

THE FIRST BOMB

"Do you remember 'way back when' in 1893 the first BOMB was exploded on the campus? Well, I do, and what I can't remember of the details I can make up and that, I always thought, was the way ancient history was written anyway.

"Iowa State College had never an annual, probably because of too much internal stress before that time.

"The publication of another college, Cornell University, to the best of my recollection, germinated the idea. A conference with C. G. Lee and a few others kindled enough enthusiasm to have the publication seriously considered. Of course, it had to be a class affair and the matter was brought up in a class meeting with the result that a committee was appointed to make up a slate for the editorial staff.

"While the committee was at work on this slate, it was rumored that there was going to be opposition no matter what the personnel might be. This of course would never do as we who had originated the affair were going to run it to suit ourselves, but we were also going to see that we had the backing of the class or, perhaps more truthfully, that it would appear that way.

"It was decided that in submitting names for approval to the class each one should be passed upon separately as there would probably be no objection raised to the individual, whereas if the entire proposed staff was to be submitted for consideration, opposition might break our slate to small pieces. It went through beautifully and we not only had the staff all picked but the movers and seconders for each candidate were carefully picked and primed.

H. S. Bowen '94
Editor of the first Bomb"

THE IOWA HOMEMAKER

It is impossible to state the exact date and manner of origin of the *Iowa Homemaker.* It was an idea born in the minds of two Junior girls in the fall of 1919. These girls, Gwendolyn Watts and Elizabeth Storm, were at that time, editing the household department of the *Iowa Agriculturist.* Space was limited. The ywere not reaching the folks they thought would apreciate the best Iowa State had to offer of Home Economics. In their hearts they felt that the Home Economics Division deserved a publication of its own like the other divisions of Iowa State College.

So the plan for the *Iowa Homemaker* grew, and always with that name, altho later there was one very formal meeting of the publication board to decide on a name. The two girls talked much about it between themselves and with their journalistic friends and in the spring of 1920 presented the idea to Dean Catherine J. MacKay of the Home Economics Division and Prof. F. W. Beckman of the journalism department and with their approval explained the plan to President R. A. Pearson. He approved but there was much to be decided concerning costs of publication, means of financing the venture, selection of the editorial staff and the like.

Not until November of 1920 did the first publication board of the *Iowa Homemaker* announce Elizabeth Storm, editor; Jessie McCorkindale, business manager and Eloise Parsons, Circulation manager. The Home Economics Club had launched the magazine with a gift of $500 and an active subscription campaign was started at once. Five hundred paid up subscribers had to be listed before the first issue went to press, which was in April, 1921.

It was a cold, drizzly, April day that the editor tucked the first copies of Volume One, Number One of the *Iowa Homemaker* under her arm and fled from the print shop to the campus to place the long dreamed of little magazine in the hands of those who had given their loyal support from the very first, Dean MacKay, President Pearson and Professor Beckman.

THE I. S. C. SYMPHONY ORCHESTRA

This organization is now three years old, having been started during the winter quarter of 1921. For the first few months of its existence it was a question whether it would survive, but patience and persistence on the part of those most largely interested brought it through in good shape and in the fall of 1921 it started off with a full membership of fifty which has been maintained since. The backbone of the orchestra is made up of faculty members, of which there are fifteen on the roster. The balance of the orchestra consists of talented students in the college with a few townspeople who are deeply interested and have the necessary time to devote to rehearsals. The roster is as follows:

Prof. Hawley
Conductor

ORCHESTRA PERSONNEL

OSCAR HATCH HAWLEY, Conductor

First Violins
Mrs. Frederick Schneider
Concertmaster
L. C. Heckert
Second Concertmaster
Howard C. Tingleff
Dorothy Love
Leonard C. Lorens
Gladys Knight
George H. White
Dorothy Davis
Lee D. Ough
Jeanette Beyer

Second Violins
Bernice Brown
Kenneth Wright
Ruth Miller
Doris D. Gray
Kathern C. Ayres
Frances Fry
Alfred Baumgartner
Ruth E. Austin

Piano
Mrs. Herbert J. Plagge

MEN'S GLEE CLUB

A-M-E-S QUARTET

PROFESSOR TOLBERT MACRAE . . . Director
RALPH B. URMY, '24 . . . . President
CHESTER MARTIN, '24 . . . . Manager

The Iowa State Glee Club during the season has been very active on the campus and throughout the state, having given eight concerts on their spring tour, visiting the following cities: Webster City, Davenport, Galesburg, Ill., Peoria, Ill., Burlington, Muscatine, Ames, Des Moines. On this tour the club received very flattering press notices, the following one having appeared in the Davenport Times:

". . . .Not in months and months has such thunderous applause been given by Davenport Kiwanians to a musical organization as was accorded the Iowa State College singers, who, twenty strong, made their Tri-City debut at today's Kiwanis meeting. An exceptionally well set up group, immaculately attired and possessed of excellent stage presence, the collegians sang as pleasantly as professionals."

The Glee Club was assisted in all their concerts this season by the Iowa State Serenaders, an orchestra of nine pieces under the direction of B. C. Heckert. Serious and popular numbers were played by this organization with the following instrumentation: Mr. Heckert, 1st violin; Leonard Lorenz, 2nd violin; Leslie Rink, 1st 'cello; Edward Lorenz, 2nd 'cello; Harold Byrum, trumpet; Edward DeBruin, trombone; Harry Bates, sousaphone; Herbert Arthur, clarinet; Homer Huntoon, pianist.

A-M-E-S QUARTET

One of the very popular organizations on the campus is the A-M-E-S quartet which is made up each year from the different men who come out for Glee Club. This year they are all Senior men and they come from four different states of our land. Chester Hazard, the first tenor, is the old member of the quartet, having been on the list for four years. He is from Iowa. Ralph Urmy, the second tenor, is from New Jersey. Chester Martin, the baritone, is from Massachusetts, and Benton Stahl, the bass, is from Texas. These men will be greatly missed in the club the coming year.

MEN'S GLEE CLUB

Smith, Crabb, Stahl, Huntoon, MacRae, Harmon, Baker, Kuehl, Wells
Reusser, Martin, Harriman, Likens, Hazard, Cation, Carlson, Murphy, Urmy, Wolters

GIRLS' GLEE CLUB

GIRLS' A-M-E-S QUARTET

The Girls' Glee Club of Iowa State is a representative group, chosen each year from the many girls who appear for try-outs. This season the club has in its membership twenty-eight attractive young ladies with as many beautiful voices. The reward for outstanding talent and faithful attendance is a gold "A" designed especially for musical activities for girls. There have been given this season a number of concerts in nearby towns and it is the plan to extend the tour of the club next season.

The girls coöperate each year with the boys in giving an opera. This year the Mikado (Gilbert and Sullivan) was the vehicle chosen for the appearance on the second of May and the first night of Veishea, May 15.

The members of the Girls' Glee Club are eligible for Lambda Mu, the local music sorority, which chooses outstanding girls from the different musical organizations. Uniform dress was chosen this season. It consists of white sweaters and skirts with black ties. These are worn at all appearances of the club at college functions. Formal dress is worn at all concerts. The girls' A-M-E-S quartet is prominent in the Glee Club, on the campus and this season was called to Des Moines to appear on the program of the Women's League of Voters.

The club is unusually well balanced and although the voices as a whole are untrained the ensemble is very fine. The club has made noticeable progress under the leadership of Miss Rosalind Cook who is directing the organization for the first time this year.

GIRLS' GLEE CLUB

Sarset, Hastings, Mollenhoff, Kalsem, Greenway, VonKrog, Caul, Smith, Rasmussen, H. Wolfe
Carpenter, Ames, Horne, Kinney, R. Wolfe, Rocho, Rayness, Sunderlin, Snider
Noble, Reed, Cooke, Brookhart, Sill, MacFarlane, Cook, Birum

IOWA STATE FESTIVAL CHOIR

PROF. MACRAE
Director

The Iowa State Festival Choir is an organization made up of a number of singing societies of the college and city of Ames. The work done each year by this group is the study and singing of the Messiah at Christmas time. Next season it is hoped that a secular cantata will be sung during the spring months.

The different organizations which appeared in the choir this year when they sang the Messiah (Handel) were the following: Iowa State Men's Glee Club, Girl's Glee Club of Iowa State, Chapel Choir, Faculty Men's Glee Club, Collegiate Presbyterian Choir and Ames Women's Club Chorus.

Soloists: Mrs. H. H. Sunderlin, soprano; Mrs. Genevieve Wheat-Baal, contralto (Des Moines); Clifford Bloom, tenor (Des Moines); Tolbert MacRae, bass. Miss Rosalind Cook and Miss Mary Reed, accompanists.

Tolbert MacRae, bass-baritone, is a graduate under the late Frederick Howard of the Institute of Fine Arts, Drake University, Des Moines, Iowa, where he was also assistant professor of singing from 1907 until 1911, and professor of singing from 1911 until 1919. After his graduation, Mr. Mac Rae studied with Albert Boroff in Chicago; Holmes Cowper, Des Moines; R. Watkins Mills, London, the greatest Handelian singer abroad; William Shakespeare, London, and coached with the late David Bispham in Chicago during the season of 1921.

Mr. MacRae was appointed Army Song Leader at Fort Oglethorpe, Georgia in 1918, which position he filled with signal success, his personal magnetism fitting him particularly well for that type of leadership. In 1920 he was appointed to the position of Head of the Department of Music, Iowa State College, Ames, Iowa, where he is now serving as professor of singing and as director of the musical activities of that institution.

IOWA STATE COLLEGE BAND

"Bernie" Meyers
Drum Major

Under the leadership of Professor O. H. Hawley, the band has come to the front as a college organization. The band has furnished an indispensable part of the big athletic events at the college. Parades have helped to add spirit and zest to the football games, even on foreign gridirons for the band has gone with the team to several of the Valley schools. Pep meetings center around the big bass drum.

The crowd comes into convocation and departs while the band plays, and military formations, such as reviews and parades, are not complete without snappy marches.

A regular part of the band year is spent in the preparation and playing of several formal concerts and an ever increasing selection of radio numbers. There are also many calls for the band during the year for such events as the Engineers' Campfire, the Military Circus, the Little International, faculty parties and Veishea.

Mr. Hawley has had a fine musical education and is considered one of the very best band directors and music masters in the Middle West. He has written quite a number of marches and one overture which are now being used by the band. He has created a spirit of loyalty and fidelity which rivals any on the campus, and this, coupled with a very strict discipline, has made the band larger and stronger.

This year the band attained a long sought for goal—new uniforms, and they make a flashy appearance in their cardinal and gold outfits on the athletic field and in concert.

Gold "A's" are awarded each year to eight men who have shown by long service and good faith their musicianship and loyalty. This year similar awards will be given to a few of the band women.

DEBATING

THE SEASON

R. H. WAGNER
Director

MARION COLCORD
Assistant Director

Debating at Iowa State College received a new impetus with the scheduling of the first intersectional debate ever staged here and the inauguration of the socalled Oxford style of forensic contests. Cornell University, ranked as one of the leading schools in the East as to public speaking activities, was brought to Ames thru the efforts of these in charge of Ames debating. This new debate made a total of seven intercollegiate debating contests for the 1923-24 schedule, necessitating an increase in the number of men reporting for this activity. In an effort to get away from the more formal style of debating, the open forum audience decision style which is rapidly being approved in United States was tried in three contests with Grinnell and Cornell. The popular approval of this attempt to bring the audience more closely into the workings of the forensic contest, met with increasing approval in its trials here. The subjects for debates this year were chosen with the idea of discussing an up-to-the minute topic such as the adoption of the World Court and the Bok Peace plan.

In the first dual debate of the year, January 18, with Kansas State College, Ames speakers lost both decisions. The Ames affirmative, upholding the repeal of Section 15a of the Transportation act of 1920, was defeated 2 to 1. The Ames negative lost at Manhattan 3 to 0.

The Ames affirmative traveled to Grinnell March 20 and argued for America's entrance into the World Court. The audience decision was 31 to 3 in favor of Grinnell. The shift of opinion in the Grinnell-Ames clash of March 24 on the home floor gave the Ames negative an advantage of 15 points, while the audience voted 45 to 28 in favor of America's entrance into the World Court.

DEBATE SQUAD

Small, Mark, Lucas, Edwards, Milnes
Hill, Peterson, Ayres, Whitfield
Daasch, Snyder, Harmison, Featherly, McKee

In the Bok Peace Plan debate April 5, a record crowd heard the arguments, in addition to a large audience of radio listeners. The audience decision was 169 to 56 in favor of the affirmative, upheld by two Ames speakers and one Cornell man.

Much credit for the increasing work in debating this year should be given to Russell H. Wagner and Miss Marian Colcord, members of the public speaking department, who devoted their efforts to the furtherance of debating.

Larger crowds and more interest on the part of the students was displayed in the work this year than in any recent period. Tentative plans for the next college year call for a debate with Oxford university from England. The Britons will tour the United States next fall and winter and those in charge of Ames debating hope to arrange a clash with the visitors. Should such a debate be arranged, the audience decision, open forum clash with heckling of the speakers allowed would probably be tried.

THE DEBATERS

W. A. WHITFIELD

W. A. Whitfield, senior Industrial Science student, was one of the four men with debating experience, who returned at the opening of the 1924 season. During 1923, he participated in the Grinnell and Purdue debates. He represented Ames against Kansas State, Cornell and Michigan Aggies as the third affirmative speaker in each debate. He is a member of Delta Sigma Rho.

HERBERT HARMISON

Another debate veteran who will be lost to next year's team by graduation is Herbert Harmison, senior dairy student. He debated with the negative side in the Cornell debate, April 5, with two of the men from Ithaca, N. Y. Forceful presentation made him one of the best men on the Ames squad. He represented Ames at Kansas State early in January. During 1923 he spoke in two intercollegiate contests. He was taken into Delta Sigma Rho in the fall of 1923.

C. S. HILL

Illustrating his arguments with clever analogies and stories, the work of C. S. Hill was outstanding during the present season. He represented Ames against Grinnell there and spoke for Ames in the first affirmative speech in the Cornell and Purdue debates. During the 1923 season, he traveled to Michigan Agricultural college on the negative team, which lost a close decision to the Aggies. He was initiated into Delta Sigma Rho in the spring of 1923.

HARRY DAASCH

Participation in three intercollegiate contests this year places Harry Daasch, junior mechanical engineering student, among the most experienced men who will return to debate work at the start of the next season. He competed in the Kansas State clash at Manhattan and was chosen for the Purdue debate during the spring of '24. He was the third speaker on the affirmative team which met Grinnell on the home floor.

FORD K. EDWARDS

Ability to catch the attention of the audience while presenting his arguments gave Ford K. Edwards a place on three Ames teams during the 1924 program. He carried the burden of proof as an affirmative speaker in each case, speaking against Kansas State and Purdue on the home floor and Grinnell at Grinnell. He should be a very valuable candidate on the squad next winter.

EVERETT McKEE

Following in the footsteps of his brother, an old Ames debater, Everett McKee was among the first men to report at the start of the season. He represented Ames in two clashes at Manhattan, Kans., and Lafayette, Ind., respectively. Sickness made it impossible for him to try out for the teams during the middle of the season. McKee, with two more years in school, should be among the best men on Ames teams.

GILBERT SMALL

Gilbert Small, senior animal husbandry student, represented Ames in the debate with Grinnell there. His faithful and consistent work on the squad and as a member of the team proved of great help in the season's work.

MITCHELL W. SPROLE

Mitchell W. Sprole, formerly a debater at Monmouth College in Illinois, reported for work before the annual dual clash with Grinnell and was chosen as a member of the negative team. His work in opening the Ames case in this debate was among the most creditable presentations of the year.

JAMES MILNES

Illinois placed a representative on the debating team this year in the person of James Milnes. He was a member of the negative team which argued with Grinnell on the World Court question. Milnes will graduate at the close of the present collegiate year.

DONALD LEWIS CAMPBELL

In addition to ranking as one of the leading chemical engineering students scholastically, Donald Lewis Campbell was chosen to represent Ames in the first debate of the year with Kansas State. He opened the argument for the Ames affirmative. He will be eligible for forensic work next year.

ROBERT V. PETERSON

Robert V. Peterson, veteran of four intercollegiate contests, will be the most experienced debater at the start of the next debating season. He participated in three contests during 1923 and was the first negative speaker on the Ames team which spoke at Lafayette, Ind., April 12, 1924. He is president of Delta Sigma Rho.

KENNEDY CUP DEBATES

KENNEDY CUP

The Kennedy Cup was given by W. J. Kennedy '99, an Ames alumnus and former head of the A. H. Department, now with the Globe Serum Company of Sioux City, Iowa. It was given for the purpose of furthering interest in forensic work among the members of the various literary societies. Mr. Kennedy realized the value to the man out in the world of the thorough training in Public Speaking and logical thinking which is developed in debating. The cup was presented in June, 1907, and was offered for permanent possession to the society which would win the cup three consecutive years. At the time the cup was presented there were eleven active Literary Societies, but owing to the growth of other organizations on the campus, the number has diminished to six.

The cup has been won annually for the past seventeen years and the name of the society and corresponding year is engraved on the cup. The competition has been close each year, every society putting forth their best efforts endeavoring to win the laurels. There have been many close decisions and no society has as yet been able to take their opponents into camp for the third consecutive time.

The Delphian team winning this year came back with a vengeance on their old rivals the Bachelors, in the finals and won by a decision of 2 to 1 by upholding the negative of the question: "Resolved, That Congress should pass the Soldiers Bonus Bill."

KENNEDY CUP WINNERS

Durrell, Curless, Featherly

JUDGING TEAMS

THE INTERNATIONAL AND AMERICAN ROYAL LIVE STOCK JUDGING TEAMS

The Live Stock Judging Contest at the Chicago International is an annual event, established in 1900 and held continuously since that time. Iowa State College has participated in every contest, a record not equaled by any other institution. Her teams have also been victorious in more contests than those of any other school.

The members of the 1923 team were: H. L. Gibson, C. C. Malone, K. J. Maltas, J. H. Turner and P. G. Williams, with C. P. Streeter and W. A. Marshman as alternates.

In competition with teams from eighteen other colleges and universities, this team won fourth place, Kansas, Ontario and Ohio finishing ahead of them in the order named. J. H. Turner was sixth in individual ranking.

Ten teams competed this year in the contest at the American Royal at Kansas City. H. L. Gibson, C. C. Malone, K. J. Maltas, W. A. Marshman and J. H. Turner represented Iowa State in this contest, with P. G. Williams and C. P. Streeter as alternates. The team ranked third, North Dakota and Kansas winning first and second respectively. The seven men named above have been awarded the official Live Stock Judging "C" by the Agricultural Club as a reward for service on these teams.

THE SWINE JUDGING TEAM

The Intercollegiate Swine Judging Contest is now an important feature of the National Swine Show, held at present at Peoria, Illinois.

Iowa State College has competed regularly in this contest since its revival in 1919. In five contests they have placed first in two, third in two and fourth in one. Iowa State is the only college which has won this contest twice. The 1923 contest was participated in by teams from Ohio, Indiana, Illinois, Nebraska, Minnesota and Iowa.

First place was won by the Iowa team with a score of 3782.5 points, their nearest competitor being Ohio, with a score of 3739.5. In individual ratings J. H. Turner was second and K. J. Maltas third, while P. G. Williams tied for seventh place.

Places on this team and other Animal Husbandry Judging Teams are won by competitive work in the regular judging courses. Approximately one hundred men tried out for the Swine Judging Team. Twelve were selected from this group to do special practice judging at the Sioux City Interstate Fair, the men finally chosen being H. L. Gibson, C. E. Hudson, K. J. Maltas, J. H. Turner, P. G. Williams, and R. L. Watkins alternate. The Agricultural Club has awarded the regulation Stock Judging "A" to these men.

POULTRY JUDGING CONTESTS

The first Intercollegiate Poultry Judging Contest was held at the Chicago Coliseum Poultry Show in December, 1920. The first year only three institutions were represented with judging teams. In 1922 and 1923 eight institutions entered teams in the Third and Fourth Mid-Western Intercollegiate Poultry Judging Contests at Chicago.

The contest is divided into two divisions—first, that of judging standard varieties from the standpoint of exhibition, and second, judging of standard varieties for egg production. A team composed of five men is selected to represent Iowa State in these contests. Three men are entered in the competition while the other two members of the team act as alternates.

Record of the Poultry Team for 1923

Second in Exhibition judging, fourth in Production judging, third in the sweepstakes. Members of the 1923 team were: Robert H. Braunlich, Dean J. Carter, Waldo Pence, William D. Termohlen, Roy L. Watkins.

THE DAIRY CATTLE JUDGING TEAM

Fourteen dairy cattle judging teams have represented Ames at the National Dairy Show. The first team was entered in 1908 and Ames has appeared each year since except the war year of 1918. During these years 193 teams have been met. Ames has the highest average ranking of all. She is followed by Kansas, then Kentucky, Minnesota, Missouri, and the others. Iowa State has not been first a great many times, but has never finished below the first division and she is always looked upon as a logical contender for any contest. At the Waterloo Dairy Cattle Congress only six contests have been held. Ames has won first in three of them—a creditable showing.

Ames has yet another just cause for pride in her dairy cattle achievements. Her alumni have proved successful coaches. The three leading schools in the contest results—Ames, Kansas and Kentucky—are now coached by Ames men. Besides these men the team members are successful in dairy cattle work throughout the country. They are in commercial work, some are breed secretaries, county

agents, journalists, farmers and college men. Their judging contest experience stands them well in any line of work. Even those Ames men profit who try and fail to make the teams. They provide the competition—the impetus—for greater effort from those who attain their goal.

The 1923 dairy cattle judging team earned a place among Ames men. They won first at Waterloo in competition with ten teams and fifth at Syracuse, New York, with twenty-eight teams. This team traveled 3000 miles; they visited fifteen of the best dairy farms in the world, in their work last year.

CROPS JUDGING TEAM

In the fall of 1923 a national crops judging contest was held in connection with the International Grain and Hay Show at Chicago. This was the first national crops contest which had been staged for a number of years.

To qualify for the team the students must be juniors or seniors in good standing in their respective state agricultural colleges. Here at Iowa any junior or senior in the division of agriculture in good standing is eligible to try out for the team. The final training for the team is given in Farm Crops 155A which is given in the fall quarter.

Students making this team are awarded the gold A. In the fall of 1923 the men qualifying were H. K. Wilson, J. K. Kent, M. D. Textrum, and Carl Klingaman. The Iowa team stood in second place in the contest at Chicago and Wilson was second high man being beaten out of first place by only a few points. Kent took sixth individual place in the contest and in some classes even excelled Wilson.

LEAGUE OF WOMEN VOTERS

OFFICERS

Margaret Brookhart	President
Alice Bowie	1st Vice President
Helen Hamilton	2nd Vice President
Dryden Quist	Secretary
Edith Sunderlin	Treasurer

The college unit of the National League of Women Voters was organized at Iowa State College in the spring of 1923. It came as a result of a feeling that there should be a more closely united citizenship spirit among the women on the campus, and also a greater knowledge along citizenship lines.

About three years ago at a Women's convocation Miss Lauther and Mrs. Devitt, members of the State Board of Education, talked to the girls on some kind of an organization for the promotion of citizenship on our campus. A little later after a delegation of Ames girls had returned from the Y. W. C. A. conference at Lake Geneva they presented a petition to the Women's Guild asking that something be done regarding the matter. A committee was appointed and a Citizenship Council was organized of girls interested in the matter and willing to put some time on it.

The National League of Women Voters was the logical organization to turn to for it seemed to foster the characteristics of the organization we were desirous of having. Soon after the National Convention in Des Moines the women in the college were called together and some of the National officers talked. There were about four hundred at this meeting.

When the Citizenship decided to organize under the state rulings the officers were electd and the work started, but it was so near the end of the school year that little was accomplished. During the summer the officers found out what they could of the organization and came back in the fall ready for work. In the first membership drive they received about 250 members, and about 200 more a little later. All women connected with the college are eligible for membership.

The Board of Directors is made up of the officers and one representative from each of the organized houses and halls for women, together with representatives of the various honorary organizations and faculty clubs.

The aim has been the promotion of citizenship among the students on the campus. There are committees working on various problems such as Child Welfare, Social Hygiene, Efficiency in Government, and Women in Industry. Each of these committees is responsible for at least one open meeting during the year.

THE MEMORIAL UNION
THE FUTURE HOME OF STUDENT ACTIVITIES

While the Memorial Union project is the immediate outgrowth of the war as the word "memorial" indicates, the "union" idea had its inception before the war in the belief of campus leaders that Iowa State had attained a size and spirit which justified a "commons" or a "student center" or "union". Floyd Wambeam '15, for whom one of the gold stars now shines in the Iowa State service flag, as editor of the *Student*, did much to arouse interest in and sentiment for a "student union".

With the outbreak of the war all thot on the campus was directed toward national welfare but no sooner had the armistice been signed than the question was asked: "What shall be done by us, the living, to show our appreciation of what those gold star heroes have done, and those thousands of others offered to do for us; and to preserve the memory of their unselfish service to all oncoming generations of Iowa State men and women?"

The alumni, at the annual meeting of the alumni association in June, 1919, discussed the subject of a suitable memorial but no action was taken. During the following winter the discussion on the campus crystalized into action thru voting by students and faculty members upon the possible forms such a memorial might assume. An overwhelming majority of both groups expressed a preference for a union building as opposed to all other ideas. To indicate their earnestness in the matter the students, in a hurried campaign directed chiefly at the upperclass members, pledged about $59,000 toward a union building as a memorial provided the alumni approved the idea of the memorial and agreed to help erect it. This the alumni agreed to do when they accepted the union idea for the memorial, at the annual alumni meeting in June, tho not without long discussion and careful consideration of the ideas of those who felt that no utilitarian object, no matter how useful or serviceable, could properly memorialize the fine service and great sacrifice made by Iowa State men and women for their country. That meeting of the alumni association which was held in Morrill Hall chapel, was well attended by the alumni who had returned to take part in the semi-centennial celebration exercises and some wonderful speeches are recorded in the minutes of that meeting. The final vote, however, clearly indicated that a majority of the alumni favored the Union as the form of memorial to be erected.

That fall, during the second week of November a very well organized and carefully planned campaign was launched to reach every man and woman on the campus. So well perfected was the organization that in less than thirty hours from the opening of the drive, the total pledged to the erection of the memorial union passed the three hundred thousand dollar mark. Seldom has a high tide of enthusiasm swept the campus as swept it during that brief drive. Students, largely veterans in spite of their youth, some on crutches, stood in line to make out their pledges. Faculty members withdrew their pledges to file new ones for larger amounts! A minimum of effort was required to secure contributors.

The alumni, under the leadership of M. J. Riggs '83, president of the alumni association, prepared to follow the student wave of enthusiasm with a nationwide drive for large pledges, but before the machinery was set in motion the business depression was upon the country and efforts were postponed.

In the fall of 1921 it was deemed possible to proceed and the project was revived. A definite organization was worked out to embody all the ideas which had been developed along the lines of making the Memorial Union an all Iowa State affair; equally attractive to students on both sides of commencement day and faculty members. As incorporated under the laws of Iowa the Memorial Union is a representative organization of alumni, students and faculty governed by a board of directors in which each group is represented in proportion to its members. This corporation is charged with the erection

and management of a Memorial Union building to cost not less than one million dollars. The organization that is growing up around the building is scarcely second in importance to the building itself, in possibilities for service to all Iowa State men and women on and off the campus. It is being financed on a basis which will make it possible for the organization to undertake and carry out many activities and lines of service to Iowa State men and women not now attempted by the alumni association with its cramped resources or the college with only tax money at its disposal.

Life memberships form the basis of the organization. It is the plan to enroll a majority of all Iowa State people as life members of the Memorial Union, probably before the doors are opened. Already about forty percent of the alumni have signed up for these life memberships as well as more than three-fourths of all the regular collegiate students now on the campus.

Each member has a vote in the annual meeting of the corporation and the election of members of the board of directors. This board, consisting of thirty alumni, twenty students, nine faculty and one member of the State Board of Education, directs and controls the business of the corporation. It has the usual complement of officers who are also the officers of the corporation.

Immediately after this organization scheme was completed the campaign for life memberships was launched among the alumni everywhere, by groups with local leaders in cities and counties and by personal work by special workers sent out from headquarters. Trips have been made by M. J. Riggs '83, president of the Memorial Union, and President Pearson from coast to coast, in the interests of the project. Practically every center where there is any considerable group of alumni has been visited by some worker.

The stream of life membership subscriptions has been flowing into headquarters steadily since 1921 until now more than two thousand alumni have joined. A small campaign directed chiefly at the upperclassmen in the spring of 1922 added about $56,000 to the total and a large well organized drive covering the whole student body in January, 1924, netted approximately $190,000 more, so that now the total pledged is about $750,000.

Since last June, when the board of directors authorized President Riggs to appoint a committee to select a site and engage architects for the building, work has been going forward on the preliminary steps to actual realization of the ideal. Pond and Pond of Chicago, architects of the Michigan, Purdue, Kansas and Michigan Agricultural College Unions, were engaged to work on preliminary sketches for buildings on various proposed sites on the campus. Some very admirable sketches have been submitted and Iowa State College, because of the unusual building sites afforded by the campus, is assured of having some day one of the most striking memorial buildings to be found on any college campus in America.

Pasadena, Calif.

R. D. No. 3, Box 280.

Dear Editor Reck:--

Ames didn't, like Topsy, ''just happen''. Its plan was worked out laboriously and uniquely. It was the first institution in the world that undertook to give a full, well-rounded college education, not based on courses in the dead languages as necessary ''cultural studies''. Its first president, himself a fluent Latin and Greek scholar, expended more time and effort in combating that established heresy, than any one problem of industrial education. He pioneered the contention that there could be established as much cultural value in the study of the sciences as in the dead languages.

And so, in many ways, during the fifty years of her life, Ames has builded for herself a character.

There is a heart or spirit in all institutions, and perhaps we Ames people may be pardoned for feeling that there is none more wholesome, stimulating or inspiring than that of Ames.

While it was young and small, it was natural that its graduates rallied to its support. Naturally, again, when it grew great there came some feeling that it did not need help.

But the future of Ames will be largely determined by what its graduates put into it, in devoted service. It cannot get its best inspirations elsewhere. Our continued service to it is dictated not only by the powerful stimulus of our interest in it, but by the law of compensation, which requires that the individual, to retain self-respect must give as much as he receives. The recent action of the student body in the matter of the Memorial Union building clinches the security that Ames' future is safe in the hands of its graduates.

Sincerely,

(Sgd) A. B. SHAW '76.

In the scheme of self-government practiced by the students of Iowa State College, the Cardinal Guild occupies the key position. As a body of thirty or more student legislators representing every possible phase of campus life, it is depended upon to reflect accurately the opinion of the student body in any disputed matter. The Guild passes rules governing the conduct of student affairs, takes charge of activities such as the Homecoming program and decorations, sponsors pep meetings, receives nominations for campus offices and supervises elections, passes upon tag days, public dances, and other matters. At one time the Guild was purely an honorary organization, the members being elected on their record in activities. Now a place on the Guild means work and lots of it. In addition to the duties enumerated above, the safeguarding of campus traditions and the fostering of school spirit are entrusted to the Cardinal Guild. Among the new activities undertaken by the Guild this year are the initiation of Dad's Day, Song Week, and Hello Day. In the first, all students on the campus were urged to write to their Dads and invite them to the campus for the Kansas Aggie Football game. During Song week, fifteen minute services were held in lecture rooms and in the halls of various buildings on the campus, song sheets were distributed, and college songs were taught to the newcomers. On Hello Day, every student was requested not to pass another student on the campus without saying "hello". Within the last year, a new constitution providing for women membership on the Guild and a more general representation of campus activities was adopted. At present there are five women members on the body, and it may be truthfully said that at the present time the Cardinal Guild is more nearly an all-college organization than it has ever been in the past.

The Interfraternity Council was founded for the purpose of tying together the friendships and brotherly spirit of all of the national fraternities on the campus of Iowa State College. The second purpose of the Interfraternity Council was to act as the governing body of all of the national fraternities on this campus. The organization which was first founded was known as the Pan-Hellenic Council, but during the year of 1920 this organization was disbanded and the present organization founded. The Interfraternity Council is really one chapter of the national organization known as the Interfraternity Conference. The Interfraternity Conference has one meeting per year. Representatives from all national fraternities are present at this meeting. Matters which pertain to the betterment of national fraternities are discussed at this meeting. All business concerning national fraternities on this campus is transacted in the regular monthly meetings of the Interfraternity Council. The common meeting place is in Alumni Hall. Meetings are held the first Thursday in every month. The advisers to the Interfraternity Council are Dean R. E. Buchanan, Dean of the Graduate college, and Dean John Foster, Dean of men. These men are present at all of the meetings and much helpful advice comes from them. The Interfraternity Council is the organization which does a great deal to put every national fraternity on this campus on the same level, to create a good feeling among the members of the various fraternities and, finally, to act as the governing body of the national organizations.

LOCAL GIRLS' ORGANIZATION

There are about two hundred girls who are not living in organized houses or halls who are included in the Local Girls' Organization. It has a Council which is made up of two representatives from each class and one of the senior members is elected to the Women's Guild.

The purpose of this organization is to keep these girls in touch with the various college questions that are brought up and discussed at the halls and houses.

"Athletics are important in developing a robust and sportsmanlike college life. College associations are not only delightful in themselves but from the basis of unselfish and lifelong and satisfying friendships. Yet the value of both athletics and college associations will largely fail unless scholarship shall remain the chief goal of the students' ambition."

FRANK O. LOWDEN,
Ex. Governor of Illinois.

"The money put into a college education is not spent. It is actually invested, and under live and untiring management should yield big returns. It is not pleasant to have debts, but it is better to owe money for a college education seriously and determinedly obtained than to go through life lacking the training and free from debts."

"*Athletics,* really necessary.

"*Debating,* fine; not oratory so much as logic—ability to think quick, and to put your thoughts in words to carry conviction.

"*Study,* still better. Breadth and depth of one's own life, and appreciation of the worthiness of class and team mates, are constant correlates of the real student.

"*Class Spirit,* best of all. That something which makes your Institution, your Class, the paramount thing in College work.

"*Last, Not Least, the Future*: No man finds himself until school is through; no woman is complete until the world outside is measured. Keep the mind trained to study and research, the body trained to carry the load, and the Soul alive to grasp its opportunity in God's great Universe, and life will surely measure to your highest ideals.

"My best wishes to each one of the Student Body."

"Athletics—Fine for flabby muscles and flabby wills.

"Scholarship—The real purpose of our colleges is learning. The teamster, the ditch-digger, and the struggling farm tenant—all the brains and hands of Iowa make I. S. C. possible. You double-cross all of these unless you grasp every opportunity for self-improvement.

"College Associations and Activities—Beautiful, inspiring and lasting. You will think more of them ten years from now.

"Industry and Thrift and the ability to make men love and follow you must be in your make-up if you hope to succeed."

The word Pan-Adelphian comes from an old Greek word meaning, "all brothers". Pan-Adelphian is not merely the name of the non-fraternity men's organization but is also their creed and motto. The organization was formed in the spring of 1918 by a group of non-fraternity men feeling the need of closer coöperation and friendship of all unorganized men on the campus. The committee who drew up the constitution was H. A. Bendixen, Glenn L. Bute, J. R. Hansen, S. W. Henn, W. F. Nussbaum, L. W. Mahone and F. P. Bryan. These men not only drew up the constitution but put it on active basis and it functioned with great success until these men had left school when the organization lay dormant for two years. It was reorganized and is again making good headway and will, in time, no doubt be greater than it was in the past. The purpose of the order is to bring the great mass of men on the campus into a closer friendship with each other and also to interest more nonfraternity men in getting into student activities. If the organization succeeds in doing this it feels sure that a better Ames spirit will be developed. That is our purpose—"Ames first". The organization hopes in the near future to have every nonfraternity man in school on its membership roll.

The A. A. Fraternity was founded in an early period of the existence of Iowa State College for the purpose of raising the standards of athletics at this school. In the interim this organization has been exceedingly active in the interest of the development and improvement of the college, especially athletically. It now has the largest and strongest personnel in the history of its career. Every man who has won the Honor "A" in a major sport is eligible for membership in this organization. The purpose of the fraternity is to support athletics in all possible ways and to urge men to take part in intercollegiate contests and to get athletic men to choose Ames as their school.

The Women's "A" fraternity, a local honorary athletic fraternity was organized in the fall of 1915 by seven girls who were wearing the official "A" awarded by the Women's Athletic Council. Six hundred points in athletic work are required for membership. In winning these points, ability, good sportsmanship, character, and scholarship are taken into consideration. The purpose of the organization is to centralize and promote interest in women's athletics. The fraternity also supports the men's athletics in that they assist in the sale of the season athletic tickets. This year the organization sent Miss Matilda Shelby of the Physical Education department, as an unofficial delegate to the National Convention of the athletic conference of American college women. It also assisted the Women's Athletic Association in sending the official delegate, Annette Adams, by paying one half of her expenses. The number of honorary and active members totals twenty-four, the highest it has ever reached. The interest in athletics has greatly increased as evidenced by the increased number of girls out for sports.

Wilson Chapter of the Alpha Zeta fraternity was installed at Iowa State, November 19, 1905 by W. J. Kennedy and W. H. Stevenson who were members of Alpha Zeta at Ohio State, and who saw the need for a chapter at Ames. The first students were initiated on November 27, 1905. Wilson chapter was named in honor of the Hon. James C. Wilson (Tama Jim Wilson), who was for sixteen years, Secretary of Agriculture, and who is now an honorary member. Undergraduates are elected from those members of the Senior college whose grades rank in the upper two-fifths. Personality, activities, and interest shown in agricultural affairs are taken into consideration in the selection of members.

Uehling, Retief, Garrecht, Longstreet, Trenk, Turner, Mighell
Palm, Maltas, Sindt, Williams, Hill, Sherlock, Sjulin
Meneough, Brown, Parkin, Johnston, Byrum, Isaacson, Martin, Jarvis

Tau Beta Pi was founded to mark in in a fitting manner those who have conferred honor upon their Alma Mater by a high grade of scholarship as undergraduates, or by their attainments as alumni. The members of this Fraternity are chosen from the male students in the engineering courses who have maintained an average in scholarship in the first quarter of the class, up to the beginning of the last year of their course.

Phi Kappa Phi was established to provide an honor society dedicated to the unity and democracy of Education open to honor students of all departments of American Universities and Colleges. Its prime object is to emphasize scholarship the character in the thought of college students, to hold fast to the original purpose for which institutions of learning were founded, and to stimulate mental achievement by the prize of membership. Members are chosen from the upper one-fifth of the graduating class, from the graduate school upon department recommendations.

Phi Lambda Upsilon, honorary chemical society, was founded at the University of Illinois by a group of senior students in chemistry. The purpose of the society is the promotion of high scholarship and original investigation in all branches of pure and applied chemistry. At present there are nineteen active chapters with a total membership of approximately three thousand. The local chapter was installed in 1912 with a membership of eight. The number of members now on the campus is seventy-four. The election of undergraduate members is restricted to members of the junior and senior classes majoring in chemistry or chemical engineering. Members are also elected from the faculty and graduate college. The basis of election is scholarship.

Omicron Nu was established at Michigan Agricultural College in 1912 for the purpose of promoting Home Economics education and scholarship among the students in Home Economics. In 1913 Gamma Chapter was installed at Iowa State College. Members are chosen from the Junior and Senior classes. The chapter can elect five per cent from the upper one-fifth of Junior girls and fifteen per cent from the upper one-fourth of the Senior girls who have shown scholarship, personality, initiative, executive ability and capability in their chosen line of work.

Nine men at De Pauw University founded Sigma Delta Chi as a journalistic fraternity emphasizing the professional intentions of its initiates. The organization has spread rapidly to colleges which have strong journalism departments. Since its installation on the Iowa State campus, the local chapter has developed into one of the strongest groups in the fraternity. In 1922 and 1923, the Iowa State chapter won the efficiency trophy for national relations and the best chapter record awarded at the annual convention. Members are chosen from the senior and junior classes, and from sophomores during the latter half of their second college year, and must have given evidence of intellectual ability in the field of journalism and have a definite intention of following journalism.

The purpose of Scabbard and Blade is primarily to raise the standard of military training in American colleges and universities, to encourage and foster the essential qualities of good and efficient officers to promote intimacy and good fellowship among the cadet officers.

The qualifications for membership are not based on display of military efficiency alone, but qualities of character and manhood are given equal importance, it being considered that the man who aspires to a commission must possess, together with a knowledge of military science and tactics, all the attributes of a gentleman before he can become a successful officer.

This fraternity which is commonly called Sinfonia was organized October 6, 1898 at the New England Conservatory of Music by Oscar E. Mills and thirteen associates. Its organization at first was that of a Club, but in 1900 it was determined to expand and form a regular college fraternity in musical schools of approved excellence.

In 1920 eight outstanding members of the Iowa State College band formed the Beta Mu organization, and in 1922 Beta Mu was granted a chapter in Sinfonia. The organization is making a rapid growth on the campus; its purpose is to promote and stimulate interest in musical activities which will prove beneficial to college activities in general. Its members are chosen from the various musical organizations on the campus.

Stahl, Heckenlaible, Westenberger, Bates, Shellabarger, Henderson, Lorens, Harriman
P. D. Cation, French, H. D. Cation, Byram, Gilbert, Arthur, Morse

National Collegiate Players was formed by the union of the Associated University Players and Pi Epsilon Delta, two national dramatic organizations. The local dramatic club, Masqued Players was the first chapter to be installed in the resulting union. The purposes of the National Collegiate Players are to affiliate closely the college groups which are working for the betterment of the drama in their own institutions and so in America; to stand as a national collegiate unit in all nationwide dramatic movements; to raise dramatic taste and standards; and to further the dramatic activity in the community. Members are chosen from both the cast and producing staff of the campus theatricals. Experience and excellence of the work done are considered in selecting members.

Throne, Nutt, Hopkins, Garrecht, Elliott, Johnson, Shaw
Lennox, Sindt, Wilson, Maltas, Sloss, Frisk, Cass, Raines, Dewell
Kirkham, Urmy, Shattuck, Kahle, Knowles, Beese

The Women's Guild is the women's student governing body of Iowa State. The primary purpose of the Guild is to cöoperate with the faculty in solving problems of government for women students. Another purpose of the Guild is to support college activities, especially those in which the women are interested. The Guild Board is an open forum for the women student body when problems are discussed. Every woman in college has the opportunity of becoming a member upon paying the small annual dues. The Women's Guild is a member of the National College Women's Student Governing Association.

The purpose of the Public Speaking Council is to promote and manage all dramatics, forensics and other public speaking events at Iowa State College. The Council was founded in 1914 to supplant the old Forensic League. Each literary society is represented by one active member. Representatives from the Sophomore, Junior, and Senior classes are chosen at the all college elections. The head of the Public Speaking Department, representatives from the National Collegiate Players and from the Forensic "A" men complete the membership list.

Gilbert Northey
Earl Shultz
Gilbert Small

On October 21, 1868, the first class of our college was called to order. A few weeks later the Philomathean Literary Society was brought into existence. It was thus the first formed at Iowa State, and its history is closely entwined with that of our college. For two years the society met in the chapel in Old Main, then in the Freshman room for many years, and then in Professor Stanton's recitation room. For three years the society met in the old dining room in Margaret Hall, then in Engineering Hall until the completion of the new Central Building. At present it meets in Alumni Hall. Originally the society was a mixed society but now is for men only. It is still adhering by its original purposes, namely: by the use of essays, orations, debates, and extemporaneous speeches give its members experience in speaking effectively in public.

Small, Milnes, Camp, Williamson, Holroyd

The Bachelor Debating Society was founded in 1870, two years after the founding of Iowa State. It has functioned continuously during every school year since its organization. The purpose of the Bachelors has been, is, and continues to be, the development of that faculty in a man which will enable him to stand before one man or fifty and make it plain to his hearers that he knows what he wants to say and can say it. Membership in the society is open to the college men who earnestly desire betterment along this line.

The Crescent Literary Society was originally organized in 1870 as an all men's society. Some of the charter members of interest to the present student body are LaVerne Noyes, deceased, who is responsible for much of the beauty of the campus today and it was in his honor that Lake La Verne received its name; Dean Stanton, deceased, and husband of Mrs. Stanton, present dean of women; and Dr. Cessna our college chaplain. A few years after the organization of the society it was realized that the girls would add much to the life and interest of the society and since that time the Crescent Literary Society has continued to function as a mixed society. It was founded and has continued to operate for the purpose of developing literary, forensic, argumentative, and parliamentary abilities in the students of Iowa State so as to aid them in their technical work and to instill in them a higher type of citizenship.

The Welch Literary Society was founded in 1900 by a group of students who wished to cultivate their moral, social, and mental faculties, and who wished to be able to express their thoughts in public in a correct manner. This society was originally known as the Welch Forum. In 1917, the by-laws were amended and the name of the organization was changed to Welch Literary Society. Any male student of Iowa State is eligible to membership and may become a member if voted upon favorably by the members of the society. The members prepare debates and papers on various subjects and present them at the regular weekly meetings for the purpose of gaining experience in public speaking.

In the fall of 1906, with the aid of Miss McKinley, the Quill Literary Society was planned and organized, as a sister society of the Philomatheans. It was composed of eight members and has gradually grown until at present there are thirty-five enrolled as active workers. The purpose of the society is to improve its members in literary work, give good training in oral expression and encourage good reading. Only those girls who show particular interest and ability along literary lines are taken into the society.

The Delphian Literary Society was founded in 1908 with a charter membership of eighteen. The purpose of the society is for mutual advancement in debate, composition, oratory, parliamentary usages, and for the promoting of good fellowship. The motto is: "Not how much but how well." The active membership of the society is limited to thirty-five and no candidate of one sex will be considered when there are already twenty active members of that same sex in the society. Any student who is registered in any of the undergraduate departments of the college who is not a member of any other literary society of the college and who is maintaining an average scholastic standing of 82.5% is eligible for membership in the society. A debate appears on the program every other literary session. The meetings of the society are held at the city library.

The Veterinary Medical Society of Iowa State College was founded by the veterinary students of the class of 1886, in the spring of that year. Originally the students of the veterinary division were required to write a thesis before they were granted a degree of Doctor of Veterinary Medicine. A provision was made whereby active membership in this society could be substituted for a thesis. All matriculate students of the Division of Veterinary Medicine are eligible to become active members. In the past the faculty compelled the students to become active members. At present the affairs of the society are entirely within the hands of the students for the purpose of developing initiative and experience in organization work. There are now eighty-three active members. The purpose of the society is to promote fellowship and intellect and provide an organization for promoting student activities.

Through the medium of the Engineering Council the desires and suggestions of the 1200 Ames engineers on the campus are placed in definite form and acted upon. This council is responsible for the successful staging of the Engineer's Campfire—the fifteenth was held in 1923—and the Engineer's ball. Before the inauguration of Veishea displaced the divisional celebrations the council was the prime mover in the St. Patrick's day celebration, each March 17, and since the establishment of Veishea the council is responsible for the part the engineers play in making this affair a success. Another important activity that the council has taken up this past year has been the securing of engineering speakers of national importance to address Ames engineers.

In 1920 ten engineering colleges sent representatives to Ames to consider the matter of a national organization of student engineering governing bodies. Out of this meeting grew the Association of Collegiate Engineers. Although the national organization takes no direct part in shaping the policy of the council on the Iowa State campus, two representatives are sent from Ames to the national meeting each year to discuss problems common to student engineering councils. The local organization is known, in this national group, as the Iowa State chapter.

The Crocket Society was formed to promote good fellowship among the men taking the Architectural Engineering course. At the first Freshman and Sophomores were not allowed to become members, but these restrictions were recently removed and anyone taking Architectural Engineering at Iowa State College is now eligible for membership. Speakers are secured by the organization to come and give talks on Architectural subjects from time to time. The Society sponsors two social functions each year. In the fall a smoker is held to get the new men acquainted with the upperclassmen and in the winter quarter the Architect's dance is given.

AMERICAN SOCIETY OF CIVIL ENGINEERS

OFFICERS

Walter N. Handy	President
Howard R. Olson	Vice President
Kenneth B. Young	Secretary
Ted H. Nowlin	Treasurer

The Civil Engineering society was organized in the fall of 1910, having for its object, the rejuvenation of the old junior and senior seminars which were gradually losing their popularity and value. It was felt that more good could be obtained from addresses by prominent engineers than was being derived from student papers presented before the old seminars. Since of the society has been organized it has, instigated and sponsored many divisional activities besides carrying out the purpose for which it was founded. The Civils were the first to adopt a distinctive shirt and insignia, worn only by juniors and seniors as a recognition mark of the department. This custom has been followed for fourteen years and in the past few years it has spread to other departments of the college.

The Ames Student Branch of the American Society of Mechanical Engineers was formerly known as the Mechanical Engineering Society, composed of students in the mechanical engineering department of the college. Its purpose is the fostering of good fellowship among the students of the department and coöperation in the student activities of the department. Students of the four collegiate classes are eligible for membership. Meetings are held every two weeks, at which time papers are presented both by local men and engineers from over the country.

The Society was founded several years ago as a departmental organization. Its principal purpose is to bring the students and the members of the faculty of the department closer together in order to secure better coöperation between each other. It serves as a common meeting ground where the upperclassmen and new men can get acquainted with each other for the benefit of all. Meetings are held at regular intervals during the year at which speakers from the different departments are secured and help to correlate the work of the department with that of the other departments on the campus. Membership is open to all collegiate students in the Chemical Engineering course upon payment of the annual dues of the society.

The American Society of Agricultural Engineers is a national association of engineers who are interested primarily in the problems of engineering as they are applied to agriculture. Its purpose is to encourage research and development in the fields of farm machinery and power, drainage and irrigation, and farm buildings and equipment. The Society was organized at the University of Wisconsin 1907. The founders were a group of college instructors who were teaching farm mechanics and allied subjects in agricultural colleges. There were seventeen charter members, Professor Davidson of Iowa State being the first president of the Society and prominently identified with all its early activities and development. Conventions are held annually at which times subjects of interest to the profession are discussed. The Society maintains student branches in schools where professional instruction in agricultural engineering is offered. A monthly magazine, "Agricultural Engineering", has been published by the Society since 1920.

The Iowa State Cosmopolitan Club is the executive chapter for the year 1924 of the Association of Cosmopolitan Clubs of the American Universities and Colleges, and is at present the strongest club in the national organization. The National President for the year is Dr. L. H. Pammel, and the National Treasurer is Miss Viola Bell.

The objects of this club, as well as those of the other universities and colleges are to develop in the world the spirit of human justice, tolerance, coöperation and brotherhood, and the desire to serve humanity, unlimited by color, race, nationality, cast, or creed, by arousing and fostering this spirit in university and college students of all nationalities. The whole spirit of the association is summed up in its motto, "Above all nations is humanity."

The purpose of the Society is to promote a higher scholastic standard and a closer relationship between the faculty and students. Social entertainments and mixers are given to encourage a better feeling towards each other and Iowa State College. This Society is guided by the belief that the social side of life is one of the most important factors of a higher education. A spirit of loyalty and coöperation is developed by the Society in its meetings and the new members are made to feel at home. New students are encouraged to bring their troubles to the Society and are helped to get in the proper stride of college life.

The Agricultural Council is the governing body of the Agricultural Club. It is composed of twenty-four members, a junior and senior representative from each departmental club in the agricultural division. The object of the club is to promote a closer bond of fellowship between the students and faculty of the different departments. The club holds meetings from time to time at which different topics pertaining to agriculture are discussed. Another object of the club is to promote and support functions of an agricultural nature such as judging teams, grain and live stock shows, fair celebrations, and receptions. Any worthy student in the division of agriculture is eligible to membership upon payment of club dues. In the winter quarter of 1924, local Ag. clubs were established in various high schools throughout the state. The various high school clubs were united under the name Iowa Ag. Club. The College Ag. Club is the parent organization of this club. The purposes and functions of this club are quite similar to those of the college Ag. Club.

The Block and Bridle Club is a national organization founded in 1919 at Chicago, Ill. by the Stock Judging Teams of Ames, Missouri, Kansas, and Nebraska. At present there are eight active chapters located at Nebraska, West Virginia, Kansas, Missouri, Oklahoma, Minnesota, Kentucky, and Iowa. The Ames chapter was installed at Iowa State College in 1919. Block and Bridle was established to bring about a closer relationship among men pursuing different phases of Animal Husbandry work and to encourage better scholarship and higher ideals in students. Interest is promoted in intercollegiate judging contests and a part of the expenses of the men on the judging teams are paid by the club. Animal Husbandry students are encouraged to obtain some practical experience in fitting and showing livestock by taking part in the "Little International," an annual livestock show sponsored by the Block and Bridle Club. Speakers of note along Animal Husbandry lines are brought before the students, and the Club endeavors to promote close relationship between faculty members and influential livestock men, and students of Animal Husbandry. Members are chosen from Animal Husbandry students who show an active interest in their work, have good scholastic standing, and have completed one and one-half years work in Animal Husbandry.

The Dairy Club was founded at Ames in 1909 and was the first organization of its kind in the United States. With the student body growing rapidly, a need was felt for a common meeting ground for all dairy students. It was impossible for members of the different classes to get well enough acquainted in the regular class room work to form an "Esprit d' Corps" which is necessary to the greatest success of any organization. The Club was a success from the start and has been a big factor in building up a spirit of loyalty and enthusiasm among its members that is unsurpassed by any other department on the campus.

The Agronomy Club was organized to promote a general interest on farm crops and soils among the students and faculty of the Farm Crops and Soils department. Meetings are held two times a month when problems of importance from a crops and soils standpoint are discussed. All students, graduate students, and faculty members of the Farm Crops and Soils department are eligible for membership. The officers are elected two times a year from among the active members. The Annual Students Corn and Small Grain Show is sponsored by the organization.

The Forestry Club was founded in the spring of 1912. It is for the purpose of bringing the students and professors into closer relationship with one another, being both technical and social in its programs. Every student enrolled in the Forestry Department is eligible for membership. It was in the fall of 1914 that the official "stag shirt" bearing the Forester's emblem, the pine tree, was adopted. The Foresters were the first on the campus to take up this custom. The Ames Forestry Club is a member and also the President club for this year of the Intercollegiate Association of Forestry Clubs. This is a national organization composed of the leading Forestry schools of the country, being founded in 1914, and having 16 active chapters. The annual convention was held here in March. *"The Ames Forester"* is the annual publication. It is a magazine of semi-technical nature, dealing with the activities of the club and its alumni.

The Vistonian Club was organized at Iowa State College in 1918 by students and faculty of the department of Landscape Architecture. The purpose of this society is to promote the general welfare of those pursuing the study of Landscape Architecture, to bring students and faculty into closer relationship, and to stimulate interest among its members and others in the profession of Landscape Architecture. In addition to representing the department in campus activities, the club brings to Ames, practitioners in Landscape Architecture of national eminence. The *Vistonian News*, bi-monthly publication of the club, endeavers to keep in touch with alumni and similar groups in other schools throughout the country.

The Horticultural Club was the first group of students to separate from the Agricultural Club. This separation took place in 1900 under the leadership of John Craig, then at the head of the department of Horticulture and Forestry at Iowa State College. From 1900 to the present time, with the exception of the period from 1909 to 1912 when all departmental clubs of the agricultural division were dissolved by common consent, the Horticultural club has maintained a continuous organization. At it now exists, it does not represent all of the students of the department of Horticulture, and Forestry, but only those who are majoring in Horticulture, Vegetable Crops, and Pomology. The object of the club is to promote interest in the Horticultural affairs among the students of Iowa State College. Any students or member of the faculty may become a member of this club upon the payment of the club dues.

The Vocational Education club was organized in 1914. Its purpose is to stimulate interest in the teaching profession and to emphasize what is expected of those that enter this vocation. Membership in this organization is limited to students taking vocational education. Honorary members are chosen from the graduates in Agricultural Education and such others as the club sees fit to elect.

The Curtiss Club is a local organization founded by the Two-year Agricultural faculty and students in 1912. The name was taken from the Dean of Agriculture. The membership in the club is limited to the students classified in the two-year Agricultural course. Its purpose is to promote and foster the literary, athletic, and social affairs, the judging contests, and all other common interests of the club both here and thruout the state.

The Agronomics Club was founded at Iowa State in 1917, by a group of women who were taking the combined Home Economics and Agriculture course, and deemed it necessary to have some organization by which they could broadcast their findings. The purpose of the club is to foster the interests of Home Economics and Agricultural work and to further its development.

THE HERDSMEN'S COURSE

The Herdsmen's Course was organized in 1918 by Prof. Pew, Dean Curtiss, Prof. Thornburg, and Prof. Kildee. It is a six months' course, divided into two periods of three months each, and is given in the winter quarter of the regular college year. The average enrollment has been about seventy-five.

Its purpose is to prepare men with livestock inclinations and experience to care for, feed and manage herds and flocks for breeding establishments or for themselves. It is planned especially for those men who are primarily interested in purebred livestock and who have only a limited time to better prepare themselves for the livestock business.

The instruction given is both technical and practical, the major part being animal husbandry work. Care, feeding and management of the show herd is especially emphasized. Many of the prominent herds in this country are in charge of men who have taken this course.

The Ames Herdsmen's Club was organized in 1919 and consists of the faculty, graduates, and students classified as regular herdsmen.

Th purpose of the club is to further the interests of the members in an educational and social way. Meetings are held weekly and prominent speakers are secured. At the close of the quarter a banquet is given for the members and faculty.

W. P. Gronewold . . . Assistant Secretary

To unite all Christian students and faculty in a program of leading others to faith in God through Jesus Christ, and to influence all Christians to devote themselves in united effort to making the will of Christ effective in human society and to extend the Kingdom of God throughout the world, is the primary purpose of the Y. M. C. A. Through the discussion groups, open forum, all college religious addresses, and personal work the Association is challenging the thought life of the Campus, to the highest and permanent values of life. The Y. M. C. A. gospel teams carry a challenge to Christian living to High School pupils throughout the state and at the same time advertise I. S. C. as a Christian institution. The Association is also on the Campus to serve the student body. This is being done through the room and employment bureau, the loan fund, and hospital visitation.

		Claire Yungclas	Woman's Guild

The purpose of the Student Young Women's Christian Association is to deepen the religious life of the college girls, to broaden friendship, to develop Christian ideals through all college life, and associate girls through fellowship for Christian service. Some of the definite ways of carrying out this purpose have been through discussion groups on vital, local, national, and international questions, which are held in the organized houses and halls; weekly vesper services in the association rooms with faculty and student leaders; discussion groups among freshman girls, sponsored by the Sophomore Council, leading to the choice of the Freshman Commission; social service in cooperation with the Ames Social Workers; and cooperation in carrying out the International Aims for Ames week.

The Ames Filipino Club was founded in 1920 by a group of Pinoy students at Iowa State. Its objects are to foster a spirit of good will and fellowship among our fellowmen, to create a mutual understanding and friendship between Americans and Filipinos, and to disseminate the truth about the Philippine Islands. Therefore it is always a pleasure to the members of the club to give addresses and talks about the Philippines to different organizations of the campus and societies of the different churches. The members of the club have as their advisor, Louis DeVries, the advisor of foreign students at Iowa State.

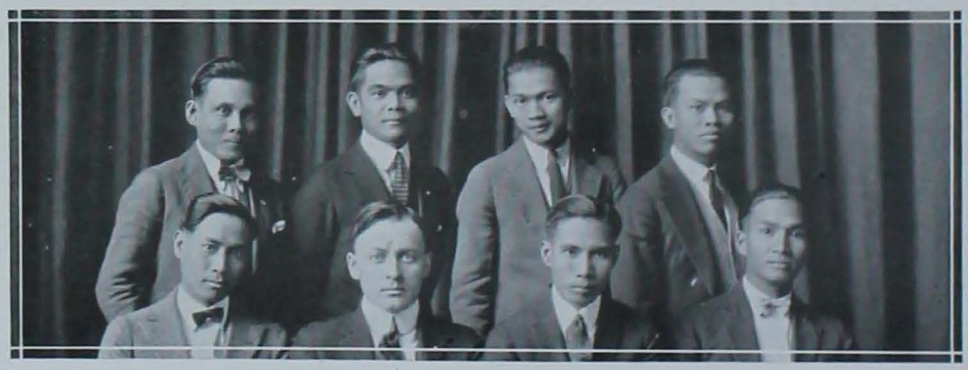
The Ames Chinese Students Club was organized in 1919, and is a local unit of the Chinese Students Alliance, an organization of more than 2,000 Chinese students in the United States. The Ames unit has grown steadily from six members in 1919 to about 25, in 1924. It is the largest foreign student organization on the campus this year. Its purposes are: to promote the common interest of the Chinese students at Iowa State, to cultivate an international friendship, and to coöperate with the Chinese Students Alliance of the United States.



Alcayaga, Alagar, Aquino, Mina
Aganad, DeVries, Guerrero, Navarro

CATHOLIC STUDENTS ASSOCIATION

OFFICERS

Leo E. Martin	President
Charles J. Saunders	Vice President
Charlotte Judge	Secretary
Mary Sweeney	Treasurer

The Catholic Students Association comprises the entire Catholic student enrollment of the college. The Association was organized in 1914 with the purpose in view to promote the good fellowship among the Catholic students and to further the good will already existing between Catholics and non Catholics.

In 1902, a group of 20 six-footers, all members of national fraternities, organized a social fraternity and called it the T. L. B. fraternity. It was founded for the purpose of creating better fellowship between members of national fraternities on the campus and is the only organization of its kind which has been permanently fixed on the Iowa State Campus. The only requirements for membership are that the candidate be six feet tall and that he be active nd well liked on the campus.

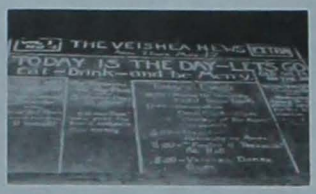
THE 1923 VIESHEA



KENNETH MARVIN
General Manager

C. C. SCHIDE
Business Manager

"Realizing that the highest type of college spirit and love for the Alma Mater come thru a united student body, all members of which are working to gether in close harmony for the greatest good of Iowa State College, the duly elected and appointed representatives of the students do adopt this as the constitution to govern the annual Veishea exposition."

In the above words did the Veishea committee, in January, 1923, express the purpose of the new all-college exposition. It had been tried out in the previous year and had met with the approval and support of the majority of the student body. Thru the establishment of the constitution it became a permanent annual function—a new custom on the campus of Iowa State—a celebration with a purpose—a task requiring the labor of all the students. As the basis of its effort it was intended to unite all factions of the school in the sweat of a common labor and the glory of a common achievement.

In this BOMB is recorded pictorially the story of the second annual Veishea. In the open house, the carnival, the parade, and the night show is pictured the material and spiritual advancement of Iowa State College. Veishea is a custom typical of Iowa State and unique among the universities of the country.

MELODY MAGIC

HOMER HUNTOON

A MUSICAL COMEDY BY

RUTH ELAINE WILSON

And

HOMER HUNTOON

At the witching hour of midnight a veil of mystery hung over a little Fifth Avenue music shop. A wizard entered and there in the gloom of the little shop wrought magic. On a phonograph record he cast a charm and decreed that the first bachelor to hear it should be struck music-mad by the magic melody. And so it happened that a brave youth, Jack, was lured from his home, his friends, his fianceè Jerry, by the power of this sweet melody. He saw in dreams the singer of the melody. He heard her clear voice constantly entreating him to follow—and then he found her.

RUTH ELAINE WILSON

In the Cabaret de Frivolite a gay party was gathered. All were merry-hearted save Jack. In his heart was only desperate desire and grey despair—desire for his dream-girl and despair at ever finding her. He did not heed his laughing friends nor see the pain in the eyes of his sweetheart Jerry. Then happened the unexpected. The dream-girl was to sing at the Cabaret de Frivolite that night—that very hour. But, alas, for Jack, and day dreams! When she stood before him in flesh and blood he found her everything he had not expected—and the wizard laughed and gloried in Jack's disillusionment!

Thus it came about that the charm was fulfilled and Jack returned to his normal state of mind and his forgiving fianceè. And so the curtain fell at the beginning of new magic, the magic of a plighted troth and a promise of future happiness for the hero, Jack, and his dream girl, Jerry.

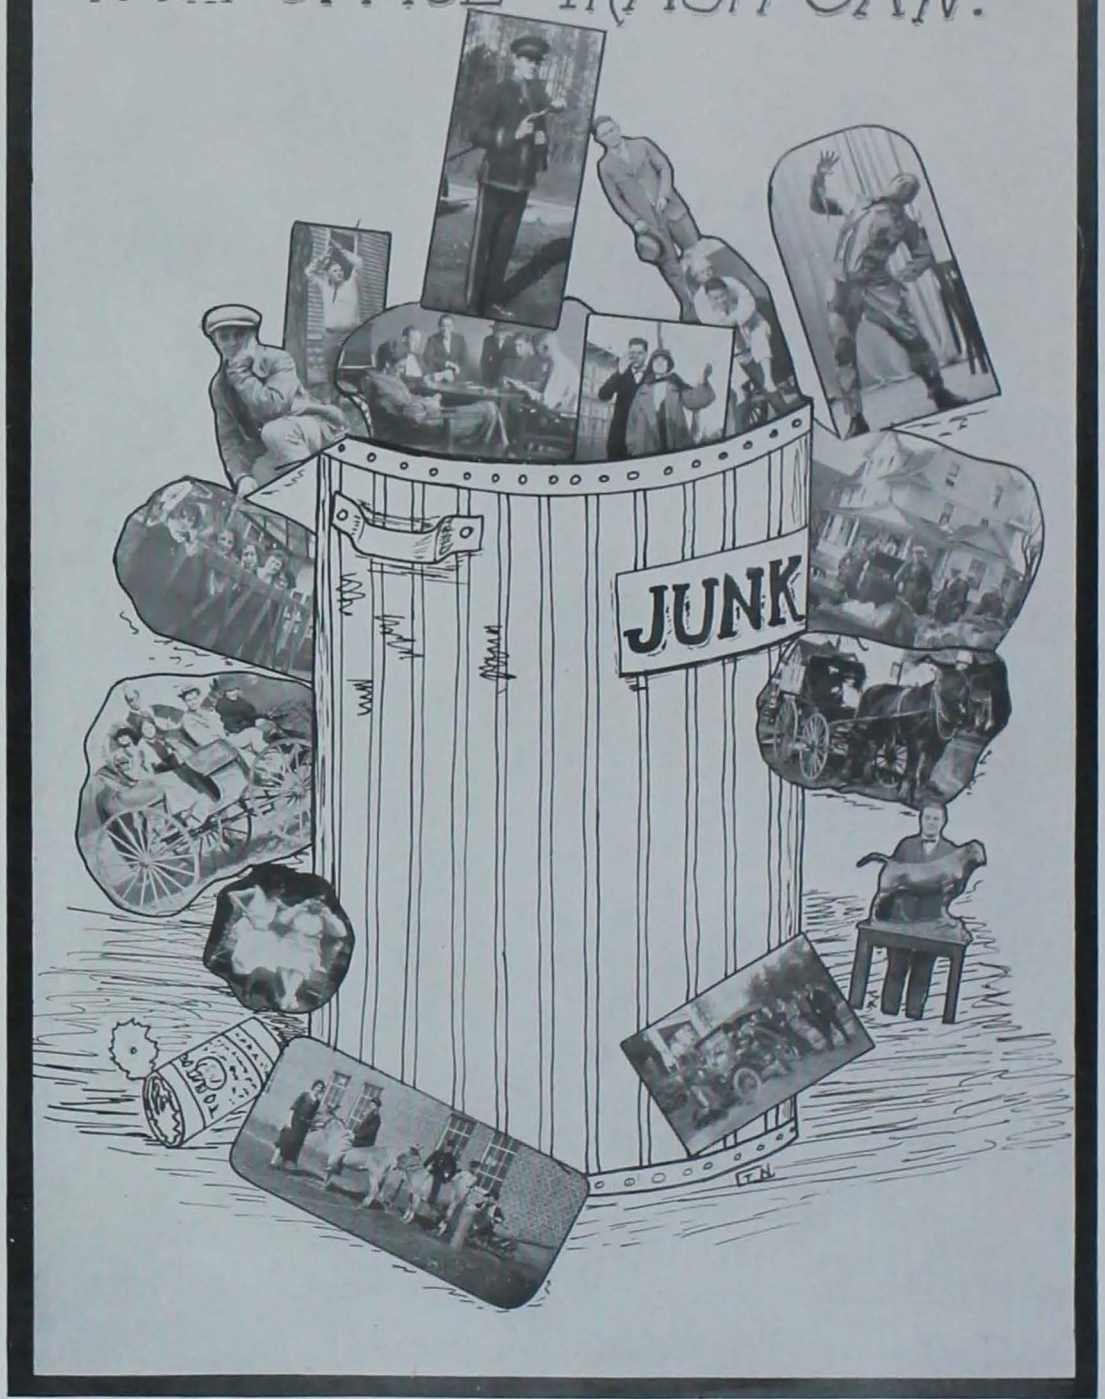
Tuesday—Buy a season ticket for Convocation.
Wednesday—Subscribe to the fund to install lights in North Woods.
Thursday—Rent parking space in Ag Hall.
Friday—Landlady wins.
Saturday—Fourth installment.
Sunday—Picnic.
Monday—'Nother day, 'Nother dollar.

THE OFFICE TRASH CAN.



WHY SOME PICTURES DID NOT APPEAR

A notice was placed in the *Student* stating the fact that any fair coed who did not wish to have her picture brazenly displayed to the critical eye of the public under the BEAUTY SECTION could have the same removed by notifying the editor of aforementioned paper or the editor of the BOMB.

Following are some correspondences which were received.

Dear Editor of the BOMB:

Please don't put that picture you have of me in the BOMB because it does not do me justice. It seems as if Mr. Quade just tried to show that freckle under my left eye—and Pep thinks so too. It isn't as good looking as I am because it doesn't display my natural coloring—and Pep thinks so too. In the picture it looks just as if I had a crooked nose, a double chin, a gum ear, and was cock-eyed—and Pep thinks so too.

Horribly yours,

JOYCE ARCHER

To the Editor of the BOMB:

I hereby submit a bit of logic—follow it closely and direct your actions accordingly.

Firstly:

There are schools for the feeble minded, schools for education, schools for the blind—and schols like Iowa State.

Secondly:

Every school puts out an annual. There are annuals that are clever, there are annuals that depict the college spirit, there are annuals that are six inches thick—and there are annuals like the BOMB.

Thirdly:

Every annual has sections. There are sections for the Ags, there are sections for the Wrestlers, there are sections for humor—and there is the beauty section.

Fourthly:

In the sections one is bound to find some girls. Now there are girls who are crocks, there are girls who are witty, there are girls who are beautiful—and there are girls like me.

Fifthly:

All girls have tendencies.

Some have a tendency to giggle, some have a tendency to vamp, some have a tendency to study—and some have a tendency to enter beauty contests. Now I will admit I am from I. S. C., am a strong advocate for the BOMB, am all for the beauty sections—still I have no tendency for the beauty section and if you'll figure it out logically you will see the reasoning used to kindly withhold my picture from the portals of the great.

Logically yours,

LAURA BUBLITZ

To the Editor of the BOMB:

Rather than to have a Follies' director choose the pictures for the beauty contest, Miss McKinley and I decided that it would be more fair to have the candidates for the contest voted upon. We promptly appointed me as a candidate and I started out electioneering. I took a large piece of paper around for signatures, but everyone was either out of ink or his pencil was broken and so I was unable to get a majority vote. Therefore, I wish to withdraw my picture that I sent in.

Unfortunately yours,

MARY HEALD

P. S. If you would start a publicity campaign we might be successful in getting it in yet though. This isn't a suggestion—only a hint.

To the Editor of the BOMB:

I went down to Quade's and had on a spicy costume consisting of my riding habit; however, Mr. Quade insisted upon taking a picture of my head only. I sent it in to Flo Ziegfield and it was promptly returned with a letter saying, "No males are entitled to enter this contest!!!" Which only goes to show that he hasn't a molecule of artistic sense—and I hope he chokes. So now you might as well check me as being an aspirant for the contest. If you get hard up for pictures though, I have a handsome one of my dog that I would donate to the cause. It might make some of the girls in the contest appear rather shaggy though.

Disgustedly yours,

WINNIFRED BROWN

RULES OF THE Y. M. C. A.

The staff of the "Y" has laid down the following rules which must be adhered to strictly if students are to be allowed to use the game rooms.

1. Not more than one person shall swear at a time, and then they must confine themselves to damn, hell, fiddle-sticks, shucks, Oh mercy, Beelzebub, ding, shoot, and consternation.

2. There is to be no smoking except with tobacco or cubebs.

3. No one is allowed to spit in the face of another without permission. The floor is the place for such dastardly fluidly deeds.

4. Bets shall be limited to $10.00 and not more than forty bets shall be made during a game.

5. Do not stand on the pool tables with hob nails. A charge of ten cents shall be made for each such offense—payable before it is done.

SUBLIME

All evening I had watched her from a distance. At last, summoning all of my courage, I advanced toward the creature sublime. Screwing my courage to its height I bowed, asking for a dance. At last I was about to hold her fair form in my arms when with a shake of her silken tresses and a crack of her gum, she said, "Naw, I ain't dancin' this one on account of me corns!"

1945 INTERCOLLEGIATE COMPETITION

He passed his hand over his face, and brushing away the damp locks, glared viciously at his opponents. His fighting spirit was back again. He would show his teammates that he was no quitter. He must win now, for his Alma Mater. He could hear the crowd cheering. They were cheering him, pleading for victory. And he alone could win now! His mind was clear again. The moment had come. He could see his teammates waiting for the word, the word that would mean victory or defeat. He spoke sharply, and almost mechanically, and at the precise instant he reached forward and grasped it. He swayed an instant, and glanced downward. The sight of it seemed to put new life into him. He straightened up and shouted two mysterious words. Immediately the stands were in an uproar. Frenzied spectators lifted him to their shoulders and bore him victorious off the floor, the National Intercollegiate Mah Jong Champion.

AMES VS. NOTRE DAME

And it came to pass in the reign of the good dean Foster that it pleased his majesty to fare him forth to see the prowess of the mighty men of Ames contrasted with that of those from Notre Dame. Consequently on a fair and beauteous evening in the Ides of March he hied him down to the arena to behold the conflict.

And then it was that the man from Notre Dame and the man from Ames did crawl thru the ropes and great was the cheering caused thereby. And they annointed their faces with water and girt up their loins and encased their hands in padded mitts and went forth to do battle for the honor and glory of their respective Alma Maters. Then the referee spake unto them saying, "Beware ye of the kidney blow and rabbit punch for they are foul and ye shall be judged accordingly." And so they returned to their respective corners and list to the advice from their seconds until the bell was sounded, when they rushed madly at each other and the air was full of mitts and choice profanity.

After much of this shooting, the bell again rang and the "powers that be" declared the match a draw; whereupon the people arose and shouted, "Robber!" until two more contestants entered the square circle. One of these was tall and slender and had the look of a dunce, but the other, who was from Ames, looked like business. Once again the great gong clanged and once again the air was filled with flying mitts, and the man from Ames didst butt the other full upon the chin with his trusty right, whereupon the lights went out and the bells tinkled softly and the fire wagons went by and a pink elephant in pale blue pajamas came and sat him down upon the chest of the fallen man and told him a bed time story; and after the referee had counted for a time, the fallen man arose unsteadily to his feet and continued the conflict, but when the match was over, the man from Ames was declared victor. Whereupon, the crowd arose and acclaimed his name to the skies and he was considered a hero, and the score was 1-2 in favor of Ames.

Then it was announced by the herald that the next bout was of the weight of one hundred, and one score, and fifteen pounds and the combatants entered the ring right blithely, withal. Whereupon the man from Ames didst promote a veritable rain of blows, causing the other to think that he was being hit with everything in sight, save the corner posts which whirled by him so rapidly that they appeared to be a tight board fence. And the judge again spake and the score was, Ames 3, Notre Dame 1.

And two more men entered the ring, but of these two the Ames man was bested, for in the time of the second season of the bout, he attempted to parry his opponent's blows with his face and was successful, for his enemy smote him a mighty buffet upon the beak, causing it to bleed most lustily. And the man from Notre Dame was awarded the match and rightly so. And the score stood, Ames 3, Notre Dame 2, and the throng did exhort the warriors to struggle.

Whereupon the remainder of the battlers strove to their utmost with the result that the final reckoning was 6-2 in favor of Ames, and loud and long was the applause and great the praise heaped upon the men by the multitude, for mighty and far-famed was the team of Notre Dame and great was its renown. And the multitude was exceedingly joyous that its representatives were were victorious.

And the moral is this: Beware the Cyclone and molest him not, lest he rise in all his might and smite thee, yea, even take thee apart and scatter thee to the four winds of heaven.

D—— YOU

This pin was originally three gold balls, one at each corner with a pretzel, rampant, as a background, and an upturned stein on the front. However, this has recently been changed, at the suggestion of Brother Carrol Woegens, to its present form which seems to be more emblematic.

It now bears the image of the founder of the outfit wearing the original D. U. smile. This smile can only be worn by those possessing a higher degree of intelligence, as a special type of face is necessary. The snake whose face appears below the delta is symbolic of the D. U. attraction for women.

Moto: A snake crowls on his own belly, but a bed bug isn't so particular.

Flower: Spitoonia.

Song: We're tenting tonight.

I DEALT

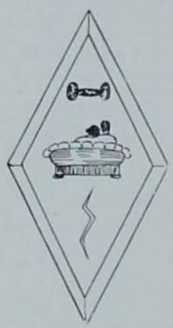
As this pin would indicate, the ambition of this gang is to make fish out of any and all men. The collection of rocks above is self explanatory. The implement attached to the chain was one used about the middle of the nineteenth century by a group of men who immigrated to the western section of the country.

Individual asbestos davenports of 1½ persons capacity are furnished upon initiation.

Motto: Strike while the iron is hot.

Flower: Like song.

Song: Same as flower.



KAPPA DELTA

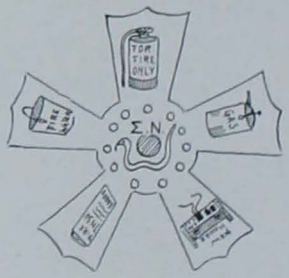
In 1908 someone thought he had a good idea and brought Kappa Delta to I. S. C., but afterward it turned out to be not so good. Their badge upon careful study is found to be truly symbolic of their noble order. At the top corner a dumbbell, recumbent, indicates the character of the sistern (B. V. D.) which is the abbreviation for beautiful, very dumb. Someone even suggested leaving off the B. The davenport shows their favorite indoor sport (we don't recognize him from the rear) while the lightning below speaks for itself.

Motto: Tis better to have loved a short man than never to have loved at all.

Flower: Milkweed.

Song: The one I love belongs to somebody else.

SIGMA NUTS



This bunch of firemen have the record for furniture removal, being approached only by the Lambda Delta Chize.

The chapter had a strong alumni support until Johnny Hansen was initiated, but it is hoped that the trouble will blow over eventually.

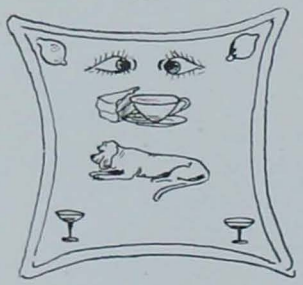
The chapter has letters of appreciation signed by the President of the Pyrene Company, Standard Oil Company, and National Biscuit Company, thanking them for their support.

Motto: A kick in the drink is worth two in the pants.

Flower: Bullrush.

Song: Somebody's Wrong.

Color: Dark Brown.



D. T.'s

The greek letters, Delta Tau Delta, stand for the words, "Drink till drunk", which is the motto of the organization. The pin started out to be a square, but someone stepped on it while it was still hot. There is a beautiful Sunkist lemon in each corner. In the center is a sleeping hound (a doggy idea of George Beese). Above the hound there is a steaming cup of tea, however, the two should not be associated in any way, for the tea goes with the rest of the light lunch effect pictured. A good Tau Delt will mooch a handout whenever possible.

Motto: Just one more drink.

Song: Tau Delts will Shine Tonight.

Flower: Cowslip.

BETA

At the top of the Beta pin there is an animal which promises never to be extinct. This is used in honor of the public speakers in the gang.

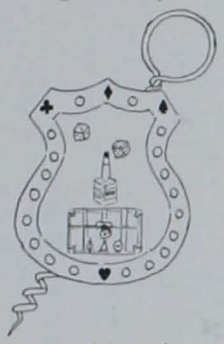
In the middle is a little one act drama depicting the fact that the Betas are always behind the forces which uphold law and order in our fair city.

At the bottom, the grasped handshake betokens the good will which they have fostered among the members of the faculty and also among their colleagues on the pan-hellenic council. Their principal characteristic seems to be a love of meat, especially pork.

Motto: Beta is the oldest fraternity in existence. Santa Claus was a Beta.

Flower: Pillsbury's Best.

Song: After you die, you'll be a dead "beater"—why wait?



FI DELTA THETA

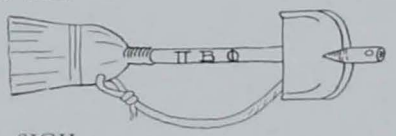
Here we have the Fi Delta Theta pin, sacred emblem of the rawdy clan, which populates the level country at the intersection of the street car track and Welch Avenue. The emblem, which is supplied in lots of 10 to each member, has an interesting design. The lower part of the shield is of the same shape as the Royal Gobboon of King Rameses .00397.

The heart, club, diamond and spade, arranged around the edge of the shield are a key to points in the fraternity game of poker. In the center are the carved ivory cubes symbolizing the lifelong and untiring efforts of the gang along mathematical lines.

PIE FLYS

Pi Beta Phi was founded a way back by Lena Boushesky and Rose Murphy and has rizen to its present status largely through their efforts. The pin is in the shape of a broom with a dust pan on one end. A rope dangles between the two ends (Don't forget the rope.) and is used to a great advantage in roping (in).

This assorted collection of man eaters comes in 57 varieties, a model for every pocketbook. Announcement parties are held every week, and twice a week during the spring quarter.



Motto: Clean 'em up, girls, the lord is on our side.

Flower: Century Plant.

Song: You Gotta See Your Mamma Every Nite.

FRY SIGH

Uppermost on this pin we have two very excellent examples of the model Phisi. Next on the program is the bill-fold, which would seem to denote wealth. Its thickness, however, has caused great doubt in the minds of some as to whether or not it is a true indication.

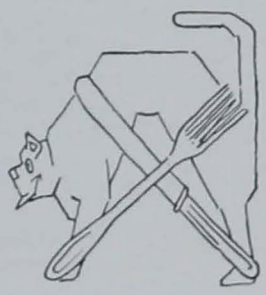
Below all of these, we find the lamp of learning which would remind us that the way to a man's heart and particularly a Fisize heart, is thru his stummick.

The gang is noted for their athletic tendencies as they are holders of the intercollegiate chess, checker and tiddledywinks championships. As throwers of the eternal bovine they are no slouches either.

Motto: Near beer, neck and nonsense.

Song: I ain't nobody's darling. Flower: Cauliflower.

CRY, "OH!"



If this nice little kitty were black and white, you would at once guess that this was the Awful Gam pin. However, it is not, so the next logical place for the said feline is the Chio (not Chiropractic) house.

The smile is that, "take me to Olsan's" grin and the extraordinary development of the tongue denotes much use. In fact it was a Chi O who said that she had to put her jaw in splints to keep from interrupting herself when she was studying.

The knife and fork serve to remind one of the name, "chow omega." The spoon is either lost or worn out.

Motto: Let there be light (and there was a helluva lot.)

Song: You'd be surprised (if you heard them sing.)

Flower: Horseradish.

THE DYING STUDE'S LAMENT

Beside the Campanile
One damp and dreary day
Upon the concrete davenport
A dying student lay.
The watchman knelt beside him
And held his drooping head
A listening to the last words
The dying student said.

"I'm going to a better land
Where all the days are bright
Where "E's" grow thick as campus lights
And you dance till late at night
Paul Whiteman plays at Olsan's Hall
Borrowed Tuxes fit you great
And coeds never spread a line
Or worry how you rate.

"There are no keys to lock Ag Hall
Nor profs to give you fright
And all the campus candlesticks
Are covered up at night.
Where busses never fall apart
Nor even have a wreck
And all the Public Speaking Profs
Are serious as Heck.

"Where Engineers, don't study math
P. T. is not required.
There are ten Sunday movie shows
And football teams are hired.
Where buildings have no stairways
To tire our aching feet
But elevators take us to
Our fourth floor lab toot sweet.

"The *Student's* printed twice a day
Dry lecture profs are witty
And Alpha Gamma Delta girls
Have lost their perfume kitty
I'll tell my dear old chem prof.
No more my grades he'll wreck
For I am going to a land
That's better'n this, by heck."

He stopped his wild lamenting
His head fell like a cake
Newt put him on the rubbish truck
And dumped him in the lake.

HOT AIR

He: "Can we leave this auto cushion here all night?"
Farmer: "Sure, where's your car?"
He: "Someone stole it."

RADIO PROGRAM FOR TONIGHT

Broadcast from Station I. S. C. on a Marcel wave of 360 meters at 7:30 P. M. The following Aritists and others will render the program. No refund will be made for bent ear drums.

"Down on the Farm," by John Hanson.
"Last Night on the Back Porch," by the Chi Omega Chorus.
"Sittin' In a Corner," by Laura Bublitz.
"When Lights Are Low," by The Gamma Fise.
"It Ain't Gonna Rain No Mo," by Veishea Committee.
"The Gold Digger," by Charline Wood.
"Somebody Stole My Gal," by an A. T. O. Prep.
"Sleep," by The Editor.
"I've Got a Song for Sale," by Homer Huntoon & Ruth Elaine Wilson.
"She Wouldn't Do What I Asked Her To (So I Soaked Her One In the Eye)," by Ann Hendershott.
"Lovey Came Back," by Joe Ringland & Yolanda Prosperi.
"Forgetful Blues," by Barney Allen.
"Nine O'Clock Sal," by Lydia Larson.
"Who's Sorry Now," duet by Nancy Elliott & Chuck Cownie.
"So This Is Venice," by Jake Daubert (Traffic Cop).

The concluding number on the program will be a rock drill duet entitled, "Boiler Factory Blues," by the Mining Engineering Department.

WHAT THEY SAY ABOUT THE BOMB

K. D. DOMICILE

Dear Editor of the Satire Section:

We enjoyed your BOMB very much but we were sure sorry that you forgot our laundry wagon. Would suggest that you look over your department for inefficiency.

Better luck for next year's BOMB.

Kappa Delta.

ALPHA CHI BETA DUGOUT

Dear Sir:

We just think it's horrid that you didn't say we led the world in averages last quarter. We won't ever buy another BOMB, so there.

Alpha Chi Beta.

GAMMA PHI HOUSEBOAT

Dear Satire Editor:

Enclosed find bill for $750.00 for that picture you got by mistake. Even if you didn't print it, we think you owe us at least that much to reëstablish our reputation.

Hoping to receive a *cash* remittance soon,

Gamma Phi Beta.

CHI OMEGA CASTLE

Dear Satire Editor:

We, as a chapter, wish to express our appreciation for not mentioning where Mary Heald lost part of her gym suit. We wish you had mentioned about our fine outlay of pledges that we at last secured, though.

Best wishes for future success,

Chi Omega.

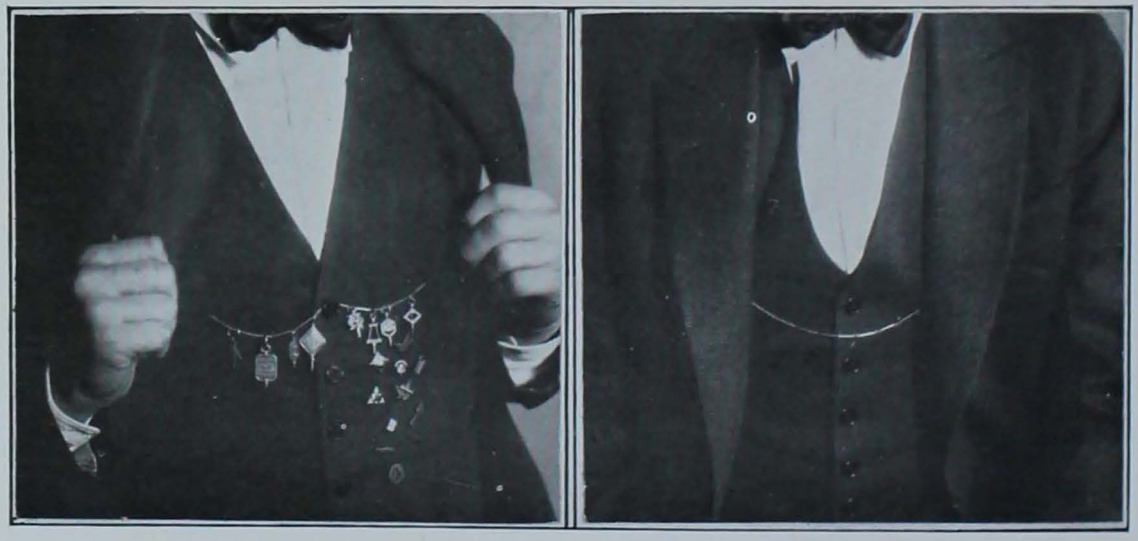
Dear Dad:

In view of the existing high prices and the overhead on my college education, I find it necessary at this time to come to you for aid, assistance, and succor. My rating in Bradstreet is fast approaching the zero point, consequently anything which you might do to relieve the impending crisis would be appreciated very much.

The weather here lately has been terrible.

Hoping you are the same, I remain,

Your affectionate offspring,



A FRESHMAN'S DREAM — SENIOR'S REALIZATION

THEY STAY PUT

By Barney Allen

The Best dressed man on Iowa State Campus, Says of our patented Bow legged garters, "Before I began using Bow legged Politician garters my socks would come down and trip me up so often that I wore out all my trousers getting up. But after I joined T. L. B. I bought a pair of your wonderful hosiery hangers, and I can truly say without fear of contradiction that they have made me what I am today. I have been wearing the same pair for the last four years."

LATEST FASHION DISPATCHES FROM ACROSS

Paris, May 10.—To be up to the hourglass on your summer's wardrobe, you should have a set or at least a half a set of false teeth. They come in fashionable colors to match your cigarette holders, and may be had with monogramed plates, (or crests are very attractively worked out on them.) This will eliminate them from being lost. These dental attractions are as essential with the dancing costume as is a string of beads. As a match scratcher or pie trimmer or foot scraper, they are unexcelled. Without a good set of molars, you just aren't anything! Prices Vary!

Paris has had its stretch—The more carefree and crumpled the sock gets, the more stylish it is considered. The appropriate usage for paris garters for girls—as hoop skirts went out of date so have the rolled hoses. What will be next cannot be ascertained—perhaps tights.

Derbies have entered—as well as swagger sticks.

Military caps and uniforms are not much in favor.

Umbrellas and rubbers will be used during inclement weather.

"OPEN SEASON ON STUDENT VOTERS"

TO WHOM THIS MAY CONCERN!

GREETINGS

It is here announced that the entire staff of the Satire section is leaving town on the night before the BOMB is to be distributed. The reason for this tentative action has not as yet been made public, but it is thought that several of the members will be leaving on account of their health. It is, no doubt, undermined by their arduous and unceasing labors.

INSANITY

The music throbbed a waltz that stirred deep, poignant memories in my heart;
The dancers, rainbow-winged butterflies of some exotic clime,
Moved in the ecstacy of youth.
And she was there;
The embodiment of those ideals that played truant,
Amid the shattered recesses of my heart,
And rushed forth at sight of her.
Surely she would understand
This vague and nebulous pain her beauty wrought.
I approached and in her glorious eyes
I fancied a response—a communion of soul to soul—
And then she said, "Gee, Kid, Ain't this a swell dance?"

OAK LODGE FLIRTS WITH
HIGHER EDUCATION

A MECHANICAL NIGHTMARE

The orther night as I was Studying the Radiation Constants of the Election Theory, a sudden Pain struck me and I fell to the Floor in Collodal Fit. The old lady sent a Rush Call for the Doctor, and in the meantime took the Proper Steps to Innoculate me against the Effects of the Dope with which she knew the Doctor would Permeate my System. When the Doctor arrived I was in a State Of Complete Resonance. He saw that I was Seriously Short-Circuited, and placing a Calorimeter on my Cheek he inserted a Vetturimeter in my Ear and by a Rapid Calculation from Eruler's Formula for thin columns he Deduced that my impedance was Rapidly approaching an Abnormal Ambient State. To neutralize this he dissolved a Couple Of Sissoids in a pint of Carbohydrate according to Carter's Coefficient for the Expansion of a Uniformly Loaded Beam. By means of a Tirrill Regulator, he gave me a strong Hyperbolic injection of this Colloid and I immediately felt my inductance rising above the Maximum Stress. I pulled Young's Modulus from under my Pillow and Struck him with it. He described a Dedendum Circle through the Atmosphere and Accelerated to the Floor, which he Struck with the Impact of an Inelastic Body. This excited my Ballistics and I Expanded from the bed according to Boyle's Law, and in Falling sprained my Ankle on a Hook Gage which I had tied to the Center Of Gravity and my Radius of Gyration was thrown out of Syncopation and I passed into a State Of Complete Saturation.

Ames, Iowa
March 3, 1924

Dear Mother:

I received your letter and am glad that you look at it that way. Thanks for the stamps. They will come in very handy indeed. I didn't write sooner as I was cramming for a math exam.

I had a little tough luck in Chem. No. 1171. My experiment blew up and with it all my apparatus. I was conducting an experiment, or rather just finishing it, on $KAlSi_{3}O_{8}$ and I got too much H_2SO_4 and Hg in a bottle that generated too much H_2 and the thing blew all to pieces, and with it $7.30 worth of apparatus. I was using 4 quartz test tubes that would stand extreme heating and cooling, and they cost $1.25 apiece, so that's where my money goes. I had to borrow $7.30 to get a new apparatus, no one was hurt as I kept a wet towel around the acid bottle.

And when you send the money to pay that I still owe the Dr. $3 for taking that piece of emery out of my eye last quarter, and when I get that done, I won't owe anyone else. I suppose the assessments will be pretty high, it was cold and we used lots of coal.

Well, I'll close and get to studyeing.

Lots of love from your

Devoted son.

SOMETHING NEW IN BOMBS

We, the members of the staff of the 1925 BOMB, have seen fit to make a radical change in the arrangement of the section to follow. We have done so because we felt that greater returns should be realized by those, business men, merchants and firms, who by advertising in our publication have so materially contributed to the success of the BOMB.

Therefore, it is with this idea in mind that we have continued the humor section, the most popular of all sections throughout the following pages.

GOOD WILL

The Merchants and Manufacturers who have advertised in the following section of the BOMB of 1925 are really interested in the affairs of the student body at Iowa State. We are all for them.

THE STAFF.

IOWA STATE COLLEGE

The Iowa State College of Agriculture and Mechanic Arts conducts work along five major lines:

AGRICULTURE — HOME ECONOMICS
ENGINEERING — INDUSTRIAL SCIENCE
VETERINARY MEDICINE

The Graduate Division conducts advanced research and instruction in all these five lines.

Four, five, and six year collegiate courses are offered in different divisions of the College. Non-collegiate courses are offered in agriculture, home economics, and trades and industries. Summer sessions include graduate, collegiate, and non-collegiate work. Short courses are offered in the winter.

Extension courses are conducted at various points thruout the state.

Research work is conducted in the Agricultural and Engineering Experiment stations and in the Veterinary research laboratory.

Special announcements of the different branches of the work are supplied, free of charge, on application.

Address: The Registrar,
Ames, Iowa.

What Does This Mean to You?

The fact that we sell high grade, nationally known, standard lines of Student Supplies

SUCH AS

K. & E. or Dietzgen Drawing Instruments
I-P Loose Leaf Note Books
Conklin—Sheaffer—Wahl Fountain Pens
Carters Inks and Adhesives
"Cranes" and Old Hampshire Stationery

This means that even though our prices are low
we do not sacrifice quality
We give you what you want—the best

"DANCE YOUR WAY TO FAME"

I can teach YOU to fox trot, one-step, waltz, two-step, and all of the "up-to-the-minute" society dances or excentric dances, by mail right in your own Post Office.

RESULTS GUARANTEED. No music, no partner,—not even a roommate needed. Thousands taught successfully; among them Mr. and Mrs. Vernon Castle, Gilda Gray, and Thomas Campbell.

SEND NO MONEY. Simply fill in the coupon and mail it. Then when the postman brings our free book, hand him $6.73 and a few cents additional to cover the cost of paper, ink, labor, etc.

IF, AT THE END OF 17 DAYS, you haven't learned to dance, it is your own fault. We won't tell anybody if you don't.

Creating Opportunities *Is Our Business*

THERE are a good many real bargains in the business world, offered because someone has to have money immediately.

These sudden opportunities are always open to the person who can say, "I'll give you a check."

That why we urge our customers to open and build up a Checking Account. It creates opportunities.

PRIDE IS A GREAT THING ...

That is—the right kind of pride—the kind that delights in honest achievement secured by hard work. That's the kind that has been responsible for the elevation of the Iowa State College to the front rank among the schools of the Country.

That too has been responsible for the development of this business to the point where we now have what we believe to be the finest store of its kind in the middle west.

Our Hardware Department specializes in "Yale" hardware, and tools of all kinds. Our Sporting Goods Department handles Athletic Goods and equipment for hunting, fishing, golf, tennis, and other outdoor sports. Our Housefurnishings Department is filled with all kinds of cooking utensils and house conveniences.

We extend to you a most cordial invitation to make our store your headquarters when in Des Moines.

"Jahn & Ollier Again"
ACHIEVEMENT
The goal of every ambitious man and firm is typified in the rapid growth of the Jahn & Ollier Engraving Company—the universal esteem in which their art and plates are held by the large national advertisers—and the enviable reputation for prompt deliveries which they enjoy.
Delivering this same high quality and careful personal supervision to schools has built up for us the largest college and high school annual engraving business in America—400 books yearly.
Thirty thousand square feet of floor space (4 floors) and over two hundred and fifty skilled employees are required to meet the constant demand for "J&O" commercial photographs, art, color process plates and photo engraving (one complete floor is devoted to color process work).
Intelligent supervision of all work by many skillful office service men eliminates your troubles. Sales service men sent everywhere
