

Kingston May 3^d / 56

Dear Sister

I now seat myself to answer your letter which I received, Tuesday, I was beginning to think you had forgotten your promise to write to me but I am glad you have not forgotten me in the midst of your present enjoyments. We enjoy good health but it is very cold and rainy and seems like to be. Father & Horace are out the most part of the time after the lambs but for all that some of them will die, your Flossy has a lamb she is out here by the cellar door now and her lamb has taken possession of my house (your house) and he don't mind the rain at all. Nancy Green & Anna B. Leckham were here Wednesday afternoon, Nancy is going to commence school next Monday at Allenton. They said they heard Mary Field was homesick, has she got back yet? If she has tell her that when she gets home sick to spend her time in writing me, give my love to her and tell her to be a good girl. There has been a man here just now to get you to teach in Point Judith at No. 8 you had better learn all ~~you had learn~~ all you can, for the examining committee have grown very particular

in this town they will not give ships' engines
(who has taught these two summers) a certificate
for next so you had better come and attend
to your sailing in N. B. I will ask me to go
but I suppose it is no use for me to try now
the committee are so busy.

Dear Henry

As I am in writing and cannot
think of writing to write to you this short
I thought I would write a few imperfect lines
just for you. I mention a letter from Henry
last night at the Ball at
says that he has 61 letters on his list and
only 9 that are due to you and all the rest
me to come down with me he will not say
much for the calls of the American clergy
He will not say a copy of the same about
the next year. I know what I mean the same
and as for the Henry of God is teaching
at New York. The summer I suppose you
have lost the pleasure so I have
to go to teach at Millport. I by the way
I have made one choice so if you want a
piece you had better come soon I am
tired you for I guess it will weigh a pound
as for large share that I mean most soon
stop for this is all that I can write to me
how to write on. So I have to write soon
and come home next Friday June 10th
July 1 & 2 1844

As I have been writing while I was down
warming my hands, I see I shall have to commence
it with again. Some friends for the hour had
a letter from the girls, this week, of the report
is that the Barker and the girls have had a
fight, about making for (I believe). I think the
day on Thursday, at New Brunswick they asked
me if you had got acquainted with the French
girls, they thought you would like them when
you did. I want you to write me all about your
studies and how you get along with them,
and if you are not learning a little for me,
if you are then I go to school I will pay you,
I wish you would come home I want to see
how little you have grown, and want you
to go Thanksgiving with me & I will give you
as much pocket money as you can carry.

Monday Morning
As I did not have a chance to send this to
the office day. I did not finish it as I thought
perhaps I should some more news, all yours
to mention to the school house very few there,
of Adams agrees still to sing, Uncle Sam was
character of. I have thought Hannah home,
last night at very early yesterday morning, came
home. I have thought of the school house
than you come home your head all particular
which are not written, write me again soon come
home soon for "the girls that at home we miss
this" Yours &c
July 1 & 2 1844

Prof. Please give John's great letter to him
soon for it is so large I am afraid it will
overwhelm.

G. M.
