

Thanksgiving dinner &
meal - Barber? Last
Thurs. was Thanksgiving
in this State. No. 1. & it
have a turkey for the
several, and perhaps one
last time. I were that large
enough to kill, so we
made our chicken answer
We have young
turkeys, & are
expecting to eat
them all. Just
some out of order
may have many
turkeys to eat.
I prefer our love
to all. With regard
Ever remember
Your friend
J. S. Jolly

Dear Anne?

We were intending to go
to meeting this evening, and so we were today but
have been disappointed by the weather.

When we got up this morning it was raining
hard & continued to rain untill afternoon.

The clouds then began to scatter & I thought
it was going to clear off, so I thought I surely we
could this evening, but just before sunset it
began to cloud up again & now it is so cloudy
that it is quite dark although the moon is very large.
I think it will rain again soon. The Lutherists
are having a protracted meeting at the Church near
here. Commenced two or three evenings ago.

I am glad to hear you like your school, for it
is a task to teach any way & when any one is in-
sulted, it is a very unpleasant task in my opinion.

I hope you may continue to like. When I visit
your boarding place H. & D. both spoke of me.

Will that the last place I should think of leaving
I am sure that no friend of mine would be here
so very capable of him. He says we
know nothing about anyone.

Dear I have
got the toothache as rather sore in one side of my
face & ear. It has felt rather badly most all day but
has not reached until this evening. Still the tooth
on the right side of my face, and so sore, it hurts
me to shut them together, & there's a dull pain
in them & in my ear, which is very disagreeable.
It made me a few minutes ago that I thought it
would have soon, Will now it is turning quite
hard. — I don't think I ever was so many years

standing as we have had some lately.
Dear say this time. We have had enough
for sleeping this fall. Have you had so much
in H. & D. We have no more now though, but
much in plenty. Don't say you have the toothache
of have not been troubled much with it since

I have been here, with this full and overcast
have had it was bad in my hands & fingers.

They have been so much & now that they would
like when I shut my hands. Some nights I
have washed up & out of my fingers with
"Ralland soap" before going to bed. I could not do
anything for them in the day time as I had no
bath them in water. We do so my works.

I don't think Dr. J. Little's Ointment is good for
the toothache. I thought a box of it & tried it
& it was too drying for my hands. I think if you
would get a bottle of Dr. J. Little's Ointment & shall
-chime Ointment & take it, it would help you
more than a dozen boxes of ointment.

Of this any one that has the toothache. Don't you?
H. & D. says it's your to come out & help him
pick some. Say you can't in the morning
to he will pick the ears, then to you & you
knock them. Say you & he will have nice little
nothing, come if you will come.
I cannot be here with him today. Love you both

It is much more picking over than the other
 to the office there, so to speak the evening night
 to the R. D. girls when I visit them, do have a share
 for your, also a share for share. - The second two
 letters from home last week, are, letters & poems of
 John, L. R. and letters & share of John, J. R. and the letters
 some through in the school times I ever knew
 a letter to come from the R. D. It was written 25 miles
 & came to this office 25 miles. Only 4 days coming
 the letters ought to go, or come, in that time or
 less, for papers can go through in that time, but,
 we don't generally get letters from there under 9 days
 & often not under 12. All that may look out
 for a letter next week. I don't expect to get a
 letter from home this week as I got two last.

May you enjoy the
helping of God and the
society of kind and
loving friends while
you are passing through the
trials of trouble and
when you feel alone to
your friends on earth
may you find those
in heaven
